## CHAPTER 142.

AN ACT to amend section 44—6 of the statutes, relating to the number of voting machines in the booths, duties of inspectors, and time allowed for voting.

*The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Section 44—6 of the statutes is amended to read: Section 44—6. More than one voting machine may be used in any one polling place. The room in which the election is held shall have a railing separating that part of the room to be occupied by the election officers from that part of the room occupied by the voting machine or machines. The exterior of the voting machine and every part of the polling place shall be in plain view of the inspectors. The machine shall be so placed that no person on the opposite side of the railing can see or determine how the voter casts his vote, and that no person can so see or determine from the outside of the room. After the opening of the polls the inspectors shall not allow any person to pass within the railing to that part of the room where the machine is situated, except for the purpose of voting and except as provided in the next succeeding section of this act; \* \* \* *and they shall permit only one voter at a time for each machine to be in such part of the room.* They shall not themselves remain or permit any person to remain in any position that would permit him or them to see or ascertain how the voter votes or how he has voted. \* \* \* *Each voter shall be allowed a reasonable time in which to vote, such time to be determined by a majority of the inspectors in the booth, having regard to the size of the ballot and the number of voters in line ready to vote, but in no case shall such time be less than one minute. If a voter refuses to leave the voting machine after being notified by one of the inspectors that such time has expired, he shall at once be removed by the inspectors.*

SECTION 2. This act shall take effect upon passage and publication.
