----------------------	--------

35.44 Section 35.43 shall be interpreted in harmony with the following provisions:

(1) When applied to the presswork of books, pamphlets, or other documents having sixteen or more pages, or to job work, a thousand impressions shall mean one thousand impressions of a form of sixteen pages or a form containing all the matter, on one side of one thousand sheets, or one thousand impressions of such form on both sides of five hundred sheets of paper. When applied to the presswork of half tones, run separately from the text, a thousand impressions shall mean one thousand impressions of a form of sixteen pages or less on one side of one thousand sheets or one thousand impressions of each form on both sides of five hundred sheets. No single job of presswork shall be charged at less than two hundred fifty impressions. When a job exceeds one thousand impressions, additional fractional parts of a thousand impressions shall be charged for at a pro rate of 100 figured on the basis of the next lowest rate per thousand taken by such job. Presswork shall include all lock-up ready for the press and all make-ready required for first-class work.

(2) The quantity of composition shall be ascertained by strict measurement and count. In the class of printing usually known as job work, type shall be measured by the surface actually covered and not by the size of the sheet used, and no blank space shall be charged for. Work containing two or more kinds of type shall be measured separately when each measures 1,000 ems or more. Provided, however, that when the type predominating makes 1,000 ems or more and the other size or sizes makes less than 500 ems each, they shall be measured as the type predominating. Composition shall include the taking of all necessary proofs, reading and correcting errors in same, and the imposing of type, slugs, cuts, etc., into pages ready for the press.

(3) No charge for composition shall be allowed for second editions nor for any other reprint from linotype or stereotype plates owned by the state. Type used in printing any opinion, decision, bulletin, pamphlet or other document or job, shall be preserved undistributed for further use whenever the same matter is required to be incorporated in any other book, document or job if the same size and shape of pages and the same style of type are suitable for both; and no charge for composition for such further use of the type shall be allowed. One charge and no more shall be made for the composition of any printing ordered by both houses of the legislature. No charge for composition shall be allowed for extra copies of any printing ordered before the type shall have been distributed. No distinct job of composition shall be counted at less than 1,000 ems. Jobs properly requiring changes on the press shall not be charged for as separate jobs, but charge shall be made for actual time required for making such changes, and the presswork shall be as though one continuous run; provided, however, that such time charge shall in no case exceed the cost of any such job if measured separately.

(4) Binding shall include collating, drying, pressing, reinforcing, head bands, etc., and stamping or marking with non-tarnishing gold leaf, or with two labels stamped or marked with genuine gold leaf of all sewed books, as shall be requested by the printing board.

(5) No more than two rulings across and two rulings up and down the sheet will be paid for. Ruling is based on double beam standard ruling machine giving two strikes at one run. When a ruled job will rule and cut two or more to the sheet, such ruling shall be charged for on the basis of full sheets only, and cut up without extra charge.

(6) The cost of linotype does not include the cost of composition, that being charged for separately. The linotype for Wisconsin statutes and Wisconsin blue books becomes the property of the state when ready for use. The printing board may, in its discretion, direct that the linotype for any volume of Wisconsin session laws also become the property of the state and be retained for printing further editions. Wisconsin statutes shall be printed from stereotype plates and the linotype therefor shall be used for the making of such plates only. Said board, in its discretion, may also require state printers to prepare stereotype plates from any linotype owned by the state, or from any other type used for public printing, and direct the printing to be done from such plates. The state printer furnishing any such linotype or plates must store and safely keep the same, and in case

of injury thereto or destruction thereof by fire or otherwise, to pay the state the contract price thereof. All such linotype and plates when determined by the board to be obsolete or worn out shall thereupon be turned over to the state printer having the custody thereof, and he shall be charged in his accounts with the price paid for the linotype and market value of the metal contained in the stereotype plates.

(7) State printers are required to eliminate all typographical errors from their work, notwithstanding the correction of proofs by the printing board.

(8) Work must be done promptly and all type used, all ink and other material furnished and all workmanship must be good and fit, and be satisfactory to the printing board; and in case of any substantial failure to comply with these provisions, the printing board may refuse to receive such defective or delayed printing, and procure what was ordered elsewhere, charging the state printer with the difference between the actual cost and the contract price thereof. But if immediate necessity and lack of time to procure printing elsewhere compel the use of defective printing furnished by a state printer, it shall be accepted without approval, and one-half of the contract price thereof shall be charged to him as liquidated damages for such breaches of contract.

35.45 The printing board shall during June and July of each even numbered year advertise for the term of six successive weeks in six newspapers, each of which is published in a different city of the state, that sealed proposals for furnishing during the next ensuing contract period, the printing included in the several classes of printing required by law to be furnished by state printers, with all other material which the printing board shall require, will be received by said board at its office any time prior to a specified day, when all of said proposals will be there publicly opened and read; that each bidder may, at his option, file a proposal to furnish one, or more than one, or all of said several classes of printing; that upon application said board will in the meantime furnish to bidders a list of the maximum prices established by law and all necessary blanks and information, and that no bids will be considered that are not presented in the form so prescribed. All such forms and a proper form for the advertisement shall be prepared by the attorney-general.

35.46 Every such bid shall be in writing, inclosed in a sealed envelope, having endorsed thereon "Proposals for State Printing;" shall be filed in the office of the printing board on or before the time specified in the advertisement therefor as the day when

the bids will be opened; shall specify the class or classes of printing for which it is made and the percentum of discount off from maximum prices (which shall be uniform, the same discount for every item), at which the bidder proposes to do the work; shall be accompanied by a certificate of the state treasurer showing that the bidder has deposited with such treasurer one thousand dollars in money or United States bonds, subject to the provisions of this chapter; shall be accompanied by a provisional agreement under seal, executed by the bidder to the effect that if such bid be accepted, and if he shall fail to enter into a printing contract and execute a bond within the time and conditioned as required by law, and to the effect that if, after executing such printing contract and bond, he shall fail to comply therewith, then and in either such case, the said one thousand dollars shall become absolutely the property of the state, and shall not constitute an offset or counterclaim against the penalty or damages which may be recovered by the state upon said contract and bond; and shall be further accompanied by a written guaranty signed by two or more freeholders, in the sum of five thousand dollars, who shall justify under oath as to their responsibility, to the effect that they guarantee that the bidder will, if his bid be accepted, execute the contract and bond required by law within such time as may be prescribed by said board. Such guaranty shall be accompanied by a certificate of a judge or clerk of a court of record, certifying that he is acquainted with the guarantors and knows them to be men of property and able to make good their guaranty.

SECTION 3. Sections 35.52 and subsection (14) of section 35.84 of the statutes are amended to read: 35.52 The printing specified in each separate order for printing shall be separately performed and, when completed, shall be delivered by the state printer as follows: Printing for the university of Wisconsin and for the normal schools, to the secretaries of their boards of regents, respectively; printing for state historical society, for Wisconsin academy of sciences, arts and letters, for Wisconsin archaeological society, board of commissioners of the geological and natural history survey, and for the Wisconsin branch of the American institute of criminal law and criminology, to their respective secretaries; printing of the first class, to the chief clerks, respectively, who order it, printing of the fourth class, to the \* \* \* superintendent of public property.
