The committee may invite nonmembers to serve in a consultant or advisory capacity and may create such other advisory committees it determines are needed. The department of administration shall provide adequate professional and clerical assistance to the committee. The member agencies shall co-operate by providing temporary additional staffing on a per project basis at the request of the committee.

(b) For the purpose of providing a forum for concerned citizens to express their views, there is created a citizens advisory committee composed of 9 members appointed by the governor. Each member shall be a resident of the state who has demonstrated a continuing interest in the problems of health and welfare and their solutions, and who holds no position or employment with the state. All members shall be appointed for 3-year terms, except that of the initial appointments, 3 shall expire in January 1968 and 3 in January 1969. The governor shall designate the chairman of this committee and the committee shall meet at least twice yearly on the call of the chairman. The committee shall be advisory to the interagency committee on health and welfare on any matters relating to the interagency committee's

functions. The members of this committee shall be entitled to reimbursement of their expenses under sub. (6).

SECTION 11g. 16.105 (2) (b), (c) 2 and (e) 1 of the statutes are amended to read:

16.105 (2) (b) Each such range shall provide for a minimum and a maximum rate of pay, and for intermediate salary steps to govern salary increases for meritorious service. The director shall not certify the salary of any person holding any such position or employment, unless such salary is at the minimum or maximum of such range, or is at an intermediate step within such range, or is increased within the authorized salary range in multiples of \$5 \$1; but this provision shall not prevent the payment of any added pay for added hours of work under rules of the board, which shall be considered separately from the basic salary rate of the employe, nor shall it prevent payment of salary rates above the maximum as provided in sub. (1m).

(c) 2. It is declared to be legislative intent that merit increases be granted only on the basis of meritorious service and not be granted for reasons of longevity, employe need, level of salary range or for other such reasons. The personnel board shall establish rules for assuring that state departments follow procedures which promote this end, including therein the use of performance standards, evaluation reports and such other measurements as they may require. *For the 1967-68 and 1968-69 fiscal years only, the provisions of this paragraph requiring merit increases to be granted only on the basis of meritorious service are waived to the extent necessary to permit implementation of the joint committee on finance's recommendations that such increases be granted on a basis other than merit.*

(e) 1. Eighty per cent of the amount which would be required if every employe eligible for a merit increase on July 1 were to receive an increase equal to one intermediate step or the portion thereof required to reach the maximum in the range; but if such 80% is not an exact multiple of \$5 \$1, it shall be increased to the next higher \$5 \$1 multiple.

SECTION 11m. 16.105 (3) (am) of the statutes is repealed.

SECTION 11t. 16.105 (5) of the statutes is created to read:

16.105 (5) The director shall establish a plan for extra compensation of 5 cents per hour effective July 1, 1967, and 10 cents per hour effective July 1, 1968, to be paid for hours worked between 6 p.m. and 6 a.m. by persons in full-time positions, and part-time positions where employment regularly equals or exceeds one-half time on a daily, weekly or monthly

basis, and shall promulgate rules for determining eligibility for such extra compensation. Such rules shall provide that the extra compensation will be paid to all employes for the portion of regularly scheduled hours that fall between 6 p.m. and 6 a.m., but may exclude hours so worked on an unscheduled basis. No person is eligible for such extra compensation in a full or part-time position unless he has worked not less than 2 hours between 6 p.m. and 6 a.m. There shall be added to the amount otherwise paid in a pay period to an employe any amount earned under this subsection, which shall be considered separately from the basic salary rate of the employe. The director shall report any recommendation for changes thereof to the joint committee on finance pursuant to sub. (3).

SECTION 12. 20.001 of the statutes is repealed and recreated to read:

20.001 DEFINITIONS AND ABBREVIATIONS. In this chapter terms and abbreviations have the following meanings:

(1) REVENUE TYPES. (a) *General purpose revenues*. "General purpose revenues" consist of general taxes, miscellaneous receipts and revenues collected by state agencies which are paid into a specific fund, lose their identity, and are then available for appropriation by the legislature. In this chapter unless another fund is specifically indicated, "general purpose revenues" refers to general purpose revenues in the general fund. General fund general purposes revenues are identified by the abbreviation GPR in s. 20.005. Whenever the terms "executive budget revenues", "unappropriated revenues" or "unassigned receipts" or other similar designations appear in the statutes and when such terms have reference to the general fund, such terms mean "general purpose revenues." They shall be deposited pursuant to s. 20.951.

(b) *Program revenues*. "Program revenues" consist of revenues which are paid into a specific fund and are credited by law to an appropriation to finance a specified program or agency. In this chapter, unless another fund is specifically indicated, "program revenues" refers to program revenues in the general fund. Whenever the terms "revolving budget revenues," "appropriated revenues" or "assigned receipts" or other similar descriptions appear in the statutes and when such terms have reference to the general fund, such terms mean "program revenues." They shall be deposited pursuant to s. 20.951.

1. "Program revenues-other", indicated by the abbreviation PRO in s. 20.005, consist of all program revenues not received from the federal government.

2. "Program revenues-federal", indicated by the abbreviation PRF in s. 20.005, consist of all program revenue received from the federal government.

(c) *Local tax revenues*. "Local tax revenues", indicated by the abbreviation LTR in s. 20.005, consist of such portions of state-collected taxes which are paid into the general fund and distributed to localities under s. 20.552.

(d) *Segregated fund revenues*. "Segregated fund revenues", indicated by the abbreviation SEG in s. 20.005 consist of revenues which, by law, are deposited into funds other than the general fund and are available for the purposes for which such funds are created. They shall be deposited pursuant to s. 20.951.

(2) APPROPRIATION TYPES. The following types of appropriations may be made from any of the revenue types listed above. When an appropriation varies from these basic types, it is identified as the type which most nearly fits that appropriation and the variation is indicated by an asterisk in the schedules under s. 20.005 and specifically state in ss. 20.100 to 20.899.

(a) *Annual appropriations*. Annual appropriations, indicated by the abbreviation A in s. 20.005, are appropriations which are expendable only up to the amount shown in the schedule and only for the fiscal year for

which made. At the end of the fiscal year the unencumbered balances shall revert to the fund and account from which appropriated. In ss. 20.100 to 20.899 all appropriations are annual unless otherwise indicated and the introductory phrase "annually", is used only when necessary to avoid confusion with other appropriation types.

(b) *Biennial appropriations.* Biennial appropriations, indicated by the abbreviation B in s. 20.005, are appropriations which are expendable only for the biennium for which made. Dollar amounts shown in the schedule under s. 20.005 represent the most reliable estimates of the amounts which will be expended in each fiscal year, the total for both years being the biennial appropriation. For accounting purposes, for computation of the surplus at the close of the fiscal year and for the administration of s. 20.002 (1), the appropriation for the first year of a biennium shall be the sum of the expenditures for such year plus the outstanding encumbrances at the close of such year; the unencumbered balance at the close of the first year shall constitute the appropriation for the 2nd year of the biennium. At the end of the biennium the unencumbered balances shall revert to the fund and account from which appropriated. Biennial appropriations are indicated in ss. 20.100 to 20.899 by the introductory phrase "biennially".

(c) *Continuing appropriations.* Continuing appropriations, indicated by the abbreviation C in s. 20.005, are appropriations which are expendable until fully depleted or repealed by subsequent action of the legislature. The appropriations for any given year shall consist of the previous fiscal year ending balance together with the revenues received during the current fiscal year. Unless otherwise indicated in ss. 20.100 to 20.899, dollar amounts shown in the schedule under s. 20.005 represent the most reliable estimates of the amounts which will be expended during any fiscal year, but shall not be limiting. Continuing appropriations are indicated in ss. 20.100 to 20.899 either by the introductory phrase, "as a continuing appropriation" or by the introductory phrase "all moneys received from".

(d) *Sum sufficient appropriations.* Sum sufficient appropriations, indicated by the abbreviation S in s. 20.005, are appropriations which are expendable from the indicated source in the amount necessary to accomplish the purpose specified. Dollar amounts shown under s. 20.005 represent the most reliable estimate of the amounts which will be needed. Sum sufficient appropriations are indicated in ss. 20.100 to 20.899 by the introductory phrase "a sum sufficient".

SECTION 12m. 20.003 (1) of the statutes is repealed.

SECTION 13. 20.003 (5) of the statutes is repealed and recreated to read:

20.003 (5) NUMBERING SYSTEM FOR APPROPRIATIONS. In the schedule of s. 20.005 and in the text in ss. 20.100 to 20.899, all state agencies shall be arranged alphabetically and each agency shall be assigned a section. Each subsection constitutes a program of such agency, and each paragraph constitutes an appropriation. In the miscellaneous tax apportionments under s. 20.552, local tax revenue distributions are identified by subsection only.

(a) Appropriations are identified according to their source of funds as defined in s. 20.001 by the paragraph letters assigned, as indicated by the following table:

Except as otherwise provided by joint rules of the legislature, such estimates shall be made by the agency receiving the appropriation or collecting the revenue except that fiscal notes on bills which will be referred to the joint survey committee on tax exemptions or the joint survey committee on retirement systems shall be prepared by the appropriate committee. When a fiscal note is prepared after the bill has been introduced, it shall be printed and distributed as are amendments.
