

Chapter H 101

GASOLINE, NOTICE OF LEAD (TETRAETHYL)
CONTENT

- H 101.01 Sign on pump
H 101.02 Leaflets
H 101.03 Label on containers

H 101.01 Sign on pump. Each filling station shall keep prominently displayed, on each pump which delivers motor fuel containing tetraethyl lead, a sign or signs reading as follows, in prominent heavy Gothic capital letters, black on white background:

Contains
LEAD
(Tetraethyl) and
is to be used as
motor fuel only.
Not for cleaning
or any other use.
Avoid spilling.

The printed matter on the sign, not counting the enclosing border, shall measure approximately $6\frac{1}{2}$ inches wide by $7\frac{1}{2}$ inches high. The first line "Contains" shall be in letters three-fourths of an inch high, the second, "LEAD", in letters one inch high, and the remainder in letters $\frac{7}{16}$ inch high. All the words of the sign shall be kept clear and prominent, the entire sign to be within the limits of four and five feet above the ground level. Such a sign shall be maintained on the face of each side of the pump at which delivery could be made.

H 101.02 Leaflets. Suitable leaflets shall be available for distribution on request of all filling stations where ethyl gasoline is sold. These leaflets shall describe the possible dangers and precautions to be taken in the use of ethyl gasoline.

H 101.03 Label on containers. Containers of ethyl gasoline sold to consumers shall bear the following label in such position as to be plainly legible when the container is opened:

Contains
LEAD
(Tetraethyl) and
is to be used as
motor fuel only.
Not for cleaning
or any other use.
Avoid spilling.
