

Chapter PSC 167

TELEPHONE SERVICE PRIORITIES

PSC 167.01 Rules of preference

PSC 167.01 Rules of preference. Effective as of the date that order U-2 of the office of civilian production administration is withdrawn, all telephone utilities operating in Wisconsin shall apply the rules of preference as set forth in said order U-2, pending further order herein.

Note: During the war period the War Production Board prescribed certain regulations under its order U-2 which governed the categories of customers to be accorded preference in obtaining telephone service. Administration of said order was transferred to the office of civilian production administration September 27, 1945. It appears that the priority system in effect under that order worked satisfactorily and, therefore, pending restoration of normal service conditions, should be continued in effect on a state-wide basis.
