WCD 10.01 Open and closed seasons. A closed season is established for each species of wild animal and bird named herein extending during all the time of each year except the open season period embraced within the specified dates both inclusive. Such open season shall apply to all of the area described in each locality except as otherwise provided in Wis. Adm. Code chapters WCD 11 and WCD 15. Except as otherwise expressly provided, no person shall take, catch, kill, hunt, pursue, shoot, or trap any wild animal or bird at any time other than the open season and the established hunting hours therefore, nor in the open season in excess of the daily bag limit designated for each species, nor have any such protected wild animal or bird in his possession or under his control in excess of the possession limit. Whenever open and closed seasons are defined by highways, the boundary shall be the center line of the highway except as otherwise provided.

(f) By order of the secretary of the interior, the state of Wisconsin is permitted to harvest a total of 14,000 Canada geese. To exceed the allowable quota established by the department of the interior in any of the states in the Mississippi flyway in which such quota has been established will reduce the numbers of Canada geese in the Great Lakes flock of the Mississippi flyway below the number determined by the flyway states as the minimum level of the flock. The Wisconsin conservation commission also recognizes that certain conditions with respect to the flock and its available food supply, both on and off refuge areas, may exist at the time the state harvest quota is reached which may create a depredation problem to agricultural crops in the area surrounding Canada geese concentrations if gunning pressure is removed by closing the season on such lands thereby encouraging the flock to feed over a much wider area than the refuge proper. It is, therefore, the intent of the conservation commission to maintain an open season for Canada geese for as long a period as possible to provide the maximum hunting opportunity and to reduce agricultural depredations to a minimum. The conservation director is, therefore, authorized to take either of the following actions by emergency order, as provided in section 227.027, Wis. Stats., to resolve these problems in the best interest of the state of Wisconsin.

1. If conditions are such that the food conditions and flock size may reasonably be expected to result in goose damage to ordinary feeding areas and in crop depredations over a larger area as a result of closing the season at the time the total harvest has reached the figure specified in Wis. Adm. Code section WCD 10.01 (1) (f) to close the open season for hunting geese in the state or in any part thereof when the conservation director determines such conditions cease to exist, or to close the open season for hunting geese when such season is closed by order of the secretary of the interior, whichever comes first.

WCD 10.02 Wild animals protected at all times. (1) There shall be no open season on Canada lynx, timber wolf, badger, woodchuck, moose, elk, marten, fisher, wolverine, flying squirrel, or white deer.

(2) There shall be no open season on prairie chicken, Canada spruce grouse (spruce hen), mourning doves, swans, cranes, bitterns, eagles, plovers, sandpipers, all species of hawks and owls except great-horned owls and except as provided in subsection (3) or on any other song birds or wild birds not specified in this chapter.

(3) (a) The conservation director may issue a special permit to any holder of a valid hunting license to take, possess and transport hawks and owls for personal use in the sport of falconry. Eagles may be possessed and used for falconry only if the federal permit for their possession was issued prior to October 1962. The permittee may use hawks, eagles and owls for falconry hunting during the open seasons for hunting with firearms or bow and arrow subject to the daily kill and possession limits, hunting hours, and other rules specified for such hunting. Such permit authorizes the permittee to capture alive and use the birds specified in the permit for falconry purposes only. Birds held under this permit shall not be sold or bartered. Birds held under this permit shall wear a metal or plastic band or tag clearly stating the owner's name and address.

(b) Applications for falconry permits shall be made on forms prepared and furnished by the conservation director and shall show such information as the conservation director shall deem reasonable to determine that the applicant is qualified to use birds for falconry.

(c) Falconry permits are not transferable and may be revoked at any time by the conservation director.

(d) The permit must be carried upon the person of the permittee when exercising any privileges thereunder.

(e) Annual reports shall be filed with the conservation director on or before January 31 of each year, on forms furnished by the director, and shall show such information deemed reasonable by the director to determine the use and current status of such permits.

(f) Trapping is subject to Wis. Adm. Code section WCD 10.14 (1) which prohibits the use of pole traps. All traps used in capturing operations shall bear a label showing the name and address of the permittee and the number of the permit, or the trapping area must be adequately posted with signs bearing the name and address of the permittee and his permit number.

Stats., as established by Wis. Adm. Code section WCD 10.01 (3) (e) 1 and designated as quota areas.

Such permits shall be issued on a first-come, first-served basis from the office of such county clerk to any member of the deer hunting party beginning at 1:00 p.m. on September 28. The county clerk shall return all permits when requested to do so not issued by him to the conservation director for issuance.
