

Chapter CU 59

MISCELLANEOUS INVESTMENTS BY
CREDIT UNIONS

CU 59.01 Miscellaneous investments CU 59.03 Minimum requirements
CU 59.02 Definition CU 59.04 Commissioner's consent

CU 59.01 Miscellaneous investments. In addition to the specific investments identified in section 186.11, Wis. Stats., credit unions, subject to the minimum requirements established below, may also invest in "institutional investments" without the prior approval of the commissioner of credit unions.

History: Cr. Register, August, 1972, No. 200, eff. 9-1-72.

CU 59.02 Definition. "Institutional investments" represent securities issued by hospitals, churches, sanatoria, seminaries, dioceses, and similar type institutions.

History: Cr. Register, August, 1972, No. 200, eff. 9-1-72.

CU 59.03 Minimum requirements. (1) The institutional security must have at least a "AA" rating by Fitch Investors Service of New York City, or a comparable rating service.

(2) Even though exempt with the federal securities and exchange commission, the institutional investment securities should be registered with the office of the commissioner of securities, state of Wisconsin, and saleable in the state of Wisconsin.

(3) The institutional investments are to be limited to institutions located within the continental United States.

(4) The maturity of the securities purchased may be up to 5 years from the date of purchase. The foregoing is not to be construed as permitting investments in excess of 60 months.

(5) A credit union may not invest in institutional investments within the "balloon"; that is, where a substantial portion of the securities mature on the same date, usually, the last maturity year.

(6) An individual credit union may not invest more than \$50,000 in securities issued by any one individual institution without the prior approval of the commissioner of credit unions.

(7) At the date of the investment, the credit union must have at least 70% of its liquidity in investments other than institutional investments.

(8) The individual investment must be approved by a majority of the investing credit union board of directors.

History: Cr. Register, August, 1972, No. 200, eff. 9-1-72.

CU 59.04 Commissioner's consent. Subject to the foregoing minimum requirements as outlined above in section CU 59.03, the commissioner of credit unions hereby grants his permission to eligible credit unions to make investments in institutional investments. However, it should be pointed out that the responsibility for the selection of this type of investment necessarily rests with the board of directors of the in-

vesting credit union. The commissioner of credit unions in granting this permission, merely indicates that he does not object to the credit union investing therein, but does not indicate that this type of investment necessarily is in the best interests of the credit union.

History: Cr. Register, August, 1972, No. 200, eff. 9-1-72.
