

**Ag 10.12 Diseased animals.** (1) **PERMIT TO MOVE.** When permits are issued for movement of animals exposed to or afflicted with any contagious or infectious disease pursuant to section 95.19, Wis. Stats., the permit shall indicate the disposition of such animals.

(2) **TUBERCULOSIS REACTORS.** When permits are issued for the movement of tuberculosis reactors for the purpose of slaughter, the permit shall specify that such animals shall be moved directly to a slaughtering establishment maintaining federal inspection.

**History:** 1-2-56; am. (2), Register, June, 1959, No. 42, eff. 7-1-59.

**Ag 10.13 Slaughtering establishments.** (1) **PERMIT TO SLAUGHTER.** No person operating an establishment which does not maintain federal inspection shall slaughter or receive for slaughter any diseased animals without first obtaining a permit from the department. Such permit shall be granted and be continued only if: (a) the holder thereof shall retain a veterinarian to make ante-mortem and post-mortem examination of all diseased animals slaughtered, and (b) such establishment is equipped with facilities satisfactory to the department for cleaning and disinfecting vehicles used to transport diseased animals.

(2) **DISEASED ANIMALS, REPORT OF SLAUGHTER.** Each operator of a slaughtering establishment shall report to the department the description and results of post-mortem examination, if any, of each diseased animal slaughtered. Such reports shall be filed within 10 days following the date on which any diseased animal was slaughtered.

**History:** 1-2-56; am. (1), Register, June, 1959, No. 42, eff. 7-1-59.

**Ag 10.14 Bovine tuberculosis quarantine.** Every herd of bovine animals in which one or more tuberculosis reactors are found shall be quarantined by the department and notice thereof shall be given the herd owner. Such quarantine may be released as provided in section 95.495, Wis. Stats., or when the reactors have been removed for slaughter and all remaining animals in the herd have passed at least one negative test for tuberculosis, applied not less than 60 days after the first test.

**History:** 1-2-56; am. Register, June, 1959, No. 42, eff. 7-1-59.

**Ag 10.15 Removal of bovine animals from stockyards.** (1) **CERTIFICATE REQUIRED.** No person shall remove any bovine animal from a specifically approved livestock market or public stockyard inspected by the federal bureau unless it is accompanied by a certificate including a report of a negative brucellosis, tuberculosis and anaplasmosis test conducted not more than 30 days prior to such removal.

(2) **EXCEPTIONS.** The test requirements of subsection (1) shall not apply to:

- (a) Calves under 6 months of age or under 400 pounds.
- (b) Steers.
- (c) Animals of Wisconsin origin if they are moved in compliance with sections 95.27, 95.49 and 95.495, Wis. Stats.
- (d) Animals removed to another such stockyard or market.
- (e) Animals removed to a slaughtering establishment.
- (f) Animals removed to a quarantine feed lot.
- (g) Feeder cattle received, handled and released in a manner approved by the department.

(3) **QUALIFICATIONS FOR RELEASE.** To qualify an animal for release under exception (2) (g) the following conditions must be met:

- (a) The cattle shall be consigned to an approved feed lot.
- (b) The cattle must be received and held in an approved isolated area or an area thoroughly cleaned and disinfected prior to use.
- (c) Only feeder cattle as defined in section Ag 10.01 (17) are eligible.

**History:** 1-2-56; am. Register, June, 1959, No. 42, eff. 7-1-59; am. Register, January, 1965, No. 109, eff. 2-1-65; am. Register, March, 1970, No. 171, eff. 4-1-70; r. and recr., Register, February, 1972, No. 194, eff. 3-1-72.

**Ag 10.16 Swine vaccination.** (1) **OFFICIAL REPORT.** No person other than a veterinarian shall execute an official report of vaccination of swine against hog cholera; and no veterinarian shall execute such report unless the swine have been identified by an ear tag or other means of permanent identification approved by the department. The report shall be filed with the department within 15 days after vaccination on forms provided by the department. Live virus vaccines approved under provisions of title 9, section 76.16c, code of federal regulations, may be used only: (a) by persons having written approval from the department for experimental use; (b) biological laboratories inspected and licensed by the federal government; or (c) veterinarians having a permit from the department for their use in vaccinating or treating swine necessary for export or for such other uses as may be authorized by the department for the control of serious outbreaks of the disease.

(2) **REPORT TO BUYER.** No person shall sell swine which are represented as treated against hog cholera without furnishing to the buyer at the time of sale an official report of such inoculation. Swine treated with anti-hog cholera serum or antibody concentrate alone shall not be represented as receiving prophylaxis treatment more than 14 days after inoculation.

(3) **OFFICIAL SERUM PROPHYLAXIS.** Swine treated with anti-hog cholera serum or antibody concentrate shall be individually identified in a manner approved by the department to identify the swine as being so treated.

**History:** 1-2-56; am. (1), (2) and (3), cr. (4), Register, February, 1962, No. 74, eff. 3-1-62; r. and recr., Register, April, 1963, No. 83, eff. 5-1-63; am. (5); cr. (5) (a) and (b), Register, January, 1965, No. 109, eff. 2-1-65; am. (1), Register, February, 1967, No. 134, eff. 3-1-67; r. and recr., Register, May, 1968, No. 149, eff. 6-1-68; am. (3), Register, July, 1969, No. 163, eff. 8-1-69; am. (2) and r. (4) and (5), Register, March, 1970, No. 171, eff. 4-1-70.

**Ag 10.17 Removal of swine from stockyards.** No person shall remove any swine from stockyards of a slaughtering establishment, except swine which are removed and shipped directly to another such stockyards.

**History:** 1-2-56; am. Register, June, 1959, No. 42, eff. 7-1-59; am. Register, November, 1962, No. 83, eff. 12-1-62.

**Ag 10.18 Brucellosis milk test procedure.** The Abortus Brucella Ring Test (hereinafter referred to as the ABR test) required by section 95.26, Wis. Stats., shall be conducted on milk and cream specimens taken from composite samples kept by persons purchasing milk or cream from producers, pursuant to section 98.13, Wis. Stats. Upon application in writing signed by the operator of a dairy plant, a majority of the producers of any dairy plant or an organization representing a majority of the producers of any dairy plant, the depart-
