HSS 127.01 Statutory authority. The following rules implement ss. 140.90 and 450.075, Stats., which require the department of health and

HSS 127

social services to create, implement, and administer the Wisconsin drug formulary.

History: Cr. Register, August, 1981, No. 308, eff. 9-1-81.

HSS 127.02 Definitions. (1) "Average cost" means a unit cost determined by the department to the mean acquisition cost of the drug product equivalents.

(2) "Department" means the department of health and social services.

(3) "Drug product" means a specific drug in a specific dosage form from a known source of manufacture, whether by brand name or generic name.

(4) "Drug product equivalent" means a drug product listed in the formulary as being chemically identical and therapeutically equivalent to a brand name or reference drug product.

(5) "Drug product substitution" means the process by which a pharmacist dispenses a drug product other than the product prescribed by a practitioner.

(6) "Formulary" means this chapter.

(7) "Unit" means the most common dosage form of a listed drug product. For oral solid forms the unit is a single capsule or tablet; for other forms the unit is listed.

History: Cr. Register, August, 1981, No. 308, eff. 9-1-81.

HSS 127.025 Use of drug product equivalents in filling prescriptions. For the purposes of s. 450.075 Stats., only those drug products listed in the drug formulary under the heading of approved manufacturers are considered to be drug equivalents, and any substitution under this section shall be performed with a drug product equivalent from an approved manufacturer.

Note: Approved manufacturers include all names under which the product is manufactured by that facility; i.e., approval of Purepac also includes its Kalipharm and Rondex labels, and approval of Drummer also includes the Lemmon Co. label.

History: Cr. Register, August, 1981, No. 308, eff. 9-1-81.

HSS 127.03 Posting. An unaltered copy of the most recent volume of the formulary, as published by the department, shall be conspicuously posted and available for consumer review wherever prescription drugs are sold. A sign printed and distributed by the department informing the consumer of the formulary and of the prescription filling options available for drugs listed in the formulary shall be posted in such a manner that it is easily noticed and can be easily read by a reasonable person presenting a prescription order to the pharmacist or pharmacist's agent for filling.

History: Cr. Register, August, 1981, No. 308, eff. 9-1-81.

HSS 127.04 Notification. If the prescription order is written for a specific drug product listed in the formulary, the pharmacist or an agent of the pharmacist shall inform the consumer that the prescribed drug product is listed in the formulary and that a drug product equivalent

may be dispensed. This notification shall be made by means of an oral or written statement to the consumer at the time the prescription order is presented for filling; or at the time of delivery of the completed medication if the delivery occurs off the pharmacy premises.

History: Cr. Register, August, 1981, No. 308, eff. 9-1-81.
