NR 10.001 Definitions. (1) "Antlerless deer" means any deer without antlers or with an antler less than 3 inches in length.

Note: Subsection (9) does not remove the requirement of ss. 29.224 and 350.06, Stats., to enclose bows or crossbows in carrying cases. The rule does not apply to bows or crossbows only because the natural resources board recognizes that certain designed bow cases may allow portions of the bow, for instance the handle, to be exposed and yet still render the bow inoperable.

(9m) For the purpose of administering the Canada goose hunting permit system, "Exterior goose management zone" or the "Exterior zone" means all that part of the state outside of the Collins, Horicon, Pine Island and Theresa goose management zones described in s. Note: Bear dog trials and training are regulated by ch. NR 17.

(c) *Pack size.* No more than 6 dogs in a single pack may be used to pursue bear regardless of the number of bear hunters assisting the bear harvest permittee and regardless of the dog ownership.

Note: Only a bear hunting licensee with a bear harvest permittee may pursue bear during the open season on bear.

(d) *Dog replacement.* Until the maximum of 6 dogs are released in pursuit of a bear, dogs may be added to the pack. However, no dogs engaged in the pursuit of such bear may be replaced by another dog.

**NR 10.102 Bear hunting permits. (1) BEAR QUOTAS.** Bear quotas are based on the status of zone black bear populations in relation to established population goals as determined by inventories.

(a) *Purpose.* The department shall issue bear harvest permits in sufficient numbers to assure maintenance of bear populations for each zone indicated in par. (d).

(b) *Permit formula.* In each black bear management zone, the number of permits to be issued to harvest the desired numbers of bear shall be based on an average of the hunter success rates from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing permits for a zone without an adequate history of permits, the average success rates of similar zones shall be applied or the department shall estimate an anticipated success rate. The permit number formula is:

$$\text{Permit number} = \frac{\text{Bear to be harvested}}{\text{Hunter success rate}}$$

(c) *Success rate formula.* Permit success rates used to compute the number of permits to be issued for each zone shall be those calculated by the department from annual bear season harvest reports except where no previous history of success rates exist. The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of bear harvested}}{\text{Number of permits issued}}$$

(d) *Population goals.* This fall, pre-hunt black bear population goal is as follows:

<u>Zone</u>	<u>Population Goal</u>
A	4,100
B	1,600
C	200

(2) **APPLICATION PROCEDURE.** Application for harvest permits shall be on forms provided by the department. Applicants shall indicate their black bear hunting zone preference. Applications shall be postmarked no later than the Friday nearest January 15 or received by the department license section, 101 South Webster, P.O. Box 7924, Madison, WI 53707 no later than 4:30 p.m. on that Friday each year.

(3) **PERMIT ISSUANCE.** The department shall select successful applicants and issue permit approval notices no later than February 15 of each year. The department may reissue a permit if the permit is returned undelivered by the postal authorities or if the applicant fails to or cannot comply with s. 29.1085, Stats. Selection shall be by random drawing.

(4) **FEES.** A successful applicant shall submit the appropriate permit fee established by s. 29.092 (2) (kg) or (kr), Stats., to the department before receiving a harvest permit. The fees shall be mailed and postmarked no later than the Friday nearest March 1 or received by the department license section, 101 South Webster, P.O. Box 7924, Madison, WI 53707 no later than 4:30 p.m. on that Friday each year.

(5) **PERMIT ATTACHMENT.** The bear harvest permit shall be attached to the bear hunting license by the applicant immediately upon receipt.

(6) **BEAR PURSUIT.** No licensee may pursue a bear by any method unless that person holds a valid bear harvest permit or is assisting a person who holds a valid bear harvest permit issued under s. 29.1085, Stats.

**NR 10.103 Deer hunting. (1) TAGS.** A one-piece back and carcass tag shall be issued with each hunting license and shall remain intact until the hunter kills a deer.

(2) **VALIDATION.** Any person who kills a deer shall immediately separate the issued carcass tag from the back tag and validate the carcass tag by slitting the mark designating the month, day, time of kill and type of deer. Failure to completely validate the carcass tag renders possession of the deer illegal and the carcass tag invalid.

Note: The carcass tag attachment procedures are also provided in s. 29.40 (2), Stats.

**NR 10.104 Deer hunting permits. (1) FINDING.** The natural resources board finds that an additional harvest of deer is necessary to reduce the deer herd to the overwinter population goals established in s. NR 10.01 (3) (e) 9. e. and properly manage the deer herd in the state.

(2) **APPLICATION PROCEDURE.** Permits shall be in accordance with ss. 29.107 and 29.108, Stats., issued to any person in possession of a valid current Wisconsin deer hunting license applying in the following manner:

(a) *Limit.* No person may submit more than one application.

(b) *Form.* Application forms supplied by the department shall be completed and submitted by the applicant.

(c) *Application deadline.* Applications shall be postmarked no later than the Friday nearest October 1 or received by the department license section, 101 South Webster, Box 7924, Madison, WI 53707, no later than 4:30 p.m. on that Friday each year.

(3) **PERMIT ISSUANCE.** Upon receipt of proper application, the department shall issue permits in the following manner:

(a) *Initial permit.* Successful applicants for hunter's choice or antlerless permits shall be determined by random selection from all eligible applications received for each deer management unit. Permits remaining unissued for any deer management unit after all initial applications have been processed may be issued by the department on a first-come, first-served basis, in accordance with any statutorily established landowner preference permit issuance system, or as established by par. (b).

(b) *Second permit.* If the number of hunter's choice or antlerless permits in any management unit exceeds the number of applications for such permits, the department may issue the remaining permits available for that unit as antlerless deer hunting permits only to its successful initial deer hunting permit applicants. Permittees to be issued the second permit shall be randomly selected in accordance with any statutorily established landowner preference permit issuance system.

(4) **PERMIT VALIDATION.** Validation decals numbered to correspond with the permit shall be issued to each successful applicant. The permit holder shall affix a validation decal to his or her current deer registration stub and corresponding back tag immediately upon receipt.

Register, October, 1988, No. 394

(5) **PERMIT AUTHORITY.** No person may hunt antlerless deer in deer management units described as such in s. NR 10.01 (3) (e) unless he or she possesses a current validated deer hunting permit.

(6) **BAG LIMIT.** Each issued deer hunting permit shall authorize the use of the holder's current valid Wisconsin deer hunting license, back tag and carcass tag for the killing of one deer in the deer management unit designated on the permit as follows:

(a) *Hunter's choice deer hunting permit.* Valid for the taking of one deer of either sex or age, except on Chambers Island in Door County where the bag limit shall be one antlerless deer or one buck deer with a forked antler as indicated on the permit.

(b) *Antlerless deer hunting permit.* Valid for the taking of one antlerless deer only.

(7) **DEER HARVEST QUOTAS.** Deer harvest quotas are based on deer management unit populations in relation to established population goals as determined by inventories, the past effect of varying antlerless harvest levels on deer management unit populations, and the estimated impact of the previous winter's severity on deer survival and subsequent fawn production.

(a) *Purpose.* The department shall issue party permits, antlerless permits or hunter's choice permits in sufficient numbers to assure maintenance of overwintering deer populations for each deer management unit indicated in par. (d).

(b) *Permit formula.* In each deer management unit, the number of permits to be issued to harvest the desired number of deer shall be based on the hunter success rate average from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing a harvest quota for a deer management unit without an adequate history of permits, the average success rates of similar deer management unit shall be applied or the department shall estimate an anticipated success rate. The permit number formula is:

$$\text{Permit number} = \frac{\text{Antlerless deer to be harvested}}{\text{Hunter success rate}}$$

(c) *Success rate formula.* Permit success rates used to compute the number of permits to be issued for each deer management unit shall be those calculated by the department from annual deer season harvest statistics except where no previous history of success rates exist. The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of antlerless deer harvested}}{\text{Number permits issued}}$$

(d) *Overwinter goals.* Overwinter population goals expressed in terms of deer per square mile of deer range by deer management unit are as follows:
