DEPARTMENT OF NATURAL RESOURCES

27

2. Namekagon river between its confluence with the St. Croix river and the outlet of Lake Namekagon in Bayfield county.

(b) State wild and scenic rivers. All state wild and scenic rivers designated under s. 30.26, Stats., including:

1. Pike river in Marinette county.

2. Pine river and its tributary Popple river in Florence and Forest counties.

(c) Wolf river upstream of the northern Menominee county line.

(d) The following Class I trout waters:

1. Adams county — Big Roche-a-Cri creek

2. Bayfield county — Flag river, Sioux river

3. Chippewa county — Duncan creek, Elk creek, McCann creek

4. Door county — Logan creek

5. Douglas county — Bois Brule river and its tributaries

6. Dunn county — Elk creek

7. Florence county — Brule river including Montagne creek and Riley creek tributaries; tributaries to the Pine-Popple rivers including Chipmunk, Cody, Haley, Haymarsh, LaMontagne, Lepage, Lunds, Martin, Olson, Patten, Pine, Riley, Rock, Simpson, Seven Mile, Wakefield and Woods creeks; Little Popple river

8. Iowa county — Love-Strutt creek, Trout creek

9. Kewaunee county — Little Scarboro creek

10. Langlade county — Clearwater creek, Drew creek, Evergreen river

11. Lincoln county — Center fork New Wood creek, Little Pine creek

12. Marathon county — Holt creek, Spranger creek, Plover river

13. Marinette county — Cedarville creek, Otter creek, Holmes creek, East Thunder creek, North fork Thunder river, Eagle creek, Little Eagle creek, Plumadore creek, Meadow brook, Upper Middle Inlet creek, Middle Inlet creek, Wausaukee river, Little Wausaukee creek, Coldwater brook, Medicine brook, South Branch Miscauno river, Miscauno river, Swede John creek, South Branch Pemebonwon river, Spikehorn creek, Silver creek, Little Silver creek, Sullivan creek; tributaries to the Pike river including Little South Branch Pike river, Camp D creek, Camp F creek, Camp 9 creek, Cole creek, Glen creek, Harvey creek, North Branch Harvey creek, South Branch Harvey creek, Hemlock creek, Molloway creek, K.C. creek, Little Harvey creek, Lost creek, MacIntire creek, Phillips creek, Sackerson creek, Shinns creek, Sidney creek, Smeesters creek, Springdale brook, Whiskey creek

14. Marquette county — Chaffee creek, Lawrence creek, Tagatz creek

15. Monroe county — Rullands Coulee creek

16. Oconto county — First South Branch Oconto river, Second South Branch Oconto river, Hills Pond creek

Register, February, 1989, No. 398

WISCONSIN ADMINISTRATIVE CODE

17. Portage county — Emmons creek, Radley creek, Sannes creek, Trout creek

18. Richland county — Camp creek

28

19. Sheboygan county — Nichols creek

20. St. Croix county — Kinnickinnic river above STH "35"

21. Vernon county — Rullands Coulee creek, Spring Coulee creek, Timber Coulee creek

22. Vilas county — Deerskin river

23. Walworth county — Bluff creek, Potawatomi creek, Van Slyke creek

24. Waupaca county — Emmons creek, Griffin creek, Jackson creek, Leers creek, Peterson creek, Radley creek, Sannes creek, Spaulding creek, Trout creek, Whitcomb creek, North Branch Little Wolf river

25. Waushara county — Willow creek north of Redgranite, Mecan river north of Richford, Little Pine creek

(2) The waters in sub. (1) may not be lowered in quality.

(3) Surface waters, or portions thereof, may be added to, or deleted from, the outstanding resource waters designation through the rule making process under the provisions of ch. 227, Stats., and s. NR 2.03.

History: Cr. Register, February, 1989, No. 398, eff. 3-1-89.

NR 102.11 Exceptional resource waters. (1) Surface waters which provide valuable fisheries, hydrologically or geologically unique features, outstanding recreational opportunities, unique environmental settings, and which are not significantly impacted by human activities may be classified as exceptional resource waters. All the following surface waters are designated as exceptional resource waters:

(a) Class I trout waters listed in Wisconsin Trout Streams publication 6-3600 (80) that are not listed in s. NR 102.10.

(b) Other Class I trout waters:

1. Abraham Coulee creek in section 29, township 20 north, range 8 west from its headwaters to the Abraham Coulee road bridge in Trempealeau county.

2. Bear creek originating in section 3, township 20 north, range 7 west in Trempealeau county.

3. Biser creek originating in section 19, township 12 north, range 3 west in Sauk county.

4. Bostwick creek from CTH M upstream 6.2 miles to the headwaters in LaCrosse county.

5. Bufton Hollow creek originating in section 23, township 12 north, range 2 west in Richland county. Register, February, 1989, No. 398 6. Columbus creek originating in section 29, township 20 north, range 6 west in Jackson county.

7. Dutch creek originating in section 12, township 19 north, range 8 west in Trempealeau county.

8. Joe Coulee creek originating in section 1, township 20 north, range 7 west in Trempealeau county.

9. Little creek originating in section 21, township 20 north, range 6 west in Jackson county.

10. Marble creek originating in section 30, township 10 north, range 3 east in Sauk county.

11. Marshall creek originating in section 4, township 11 north, range 1 west in Richland county.

12. Martin creek originating in section 22, township 6 north, range 2 east in Iowa county.

13. South Bear creek originating in section 2, township 12 north, range 2 west in Richland county.

14. Spring brook downstream from CTH Y south of Antigo to its confluence with the Eau Claire river in Marathon county.

15. Spring Coulee creek from the headwaters to SE ¼, SE ¼, section 33, township 16 north, range 1 east in Monroe county.

16. Unnamed creek 2-12 originating in section 36, township 20 north, range 7 west of Trempealeau county.

17. Unnamed creek 4-9 originating in section 4, township 11 north, range 1 west in Richland county.

18. Unnamed creek 5-6 originating in section 6, township 19 north, range 8 west in Trempealeau county.

19. Unnamed creek 7-4 originating in section 6, township 20 north, range 7 west in Trempealeau county.

20. Unnamed creek 8-9 originating in section 5, township 20 north, range 7 west in Trempealeau county.

21. Unnamed creek 8-14 originating in section 1, township 20 north, range 8 west in Trempealeau county.

22. Unnamed creek 9-13 originating in section 4, township 20 north, range 6 west in Jackson county.

23. Unnamed creek 10-8 originating in section 10, township 11 north, range 1 west in Richland county.

24. Unnamed creek 10-10 originating in section 14, township 20 north, range 6 west in Jackson county.

25. Unnamed creek 11-4 originating in section 1, township 20 north, range 7 west in Trempealeau county.

26. Unnamed creek 11-7 originating in section 2, township 20 north, range 7 west in Trempealeau county.

Register, February, 1989, No. 398

28-2 WISCONSIN ADMINISTRATIVE CODE

27. Unnamed creek 13-3a originating in section 19, township 20 north, range 6 west in Trempealeau county.

28. Unnamed creek 13-3b originating in section 6, township 20 north, range 6 west in Trempealeau county.

29. Unnamed creek 15-13 originating in section 1, township 20 north, range 8 west in Trempealeau county.

30. Unnamed creek 15-4 originating in section 3, township 20 north, range 6 west in Trempealeau county.

31. Unnamed creek 16-2 originating in section 22, township 20 north, range 6 west in Jackson county.

32. Unnamed creek 17-5 originating in SE 1/4, section 5, township 20 north, range 6 west in Jackson county.

33. Unnamed creek 24-3a originating in section 24, township 11 north, range 1 west in Richland county.

34. Unnamed creek 26-7 originating in section 2, township 20 north, range 6 west in Jackson county.

35. Unnamed creek 34-2 originating in section 17, township 20 north, range 8 west in Trempealeau county.

36. Unnamed creek 34-15 originating in section 27, township 20 north, range 7 west in Trempealeau county.

37. Unnamed stream originating in section 29, township 10 north, range 3 east in Sauk county.

38. Washington Coulee creek originating in section 29, township 20 north, range 6 west in Jackson county.

(2) The waters identified in sub. (1) may not be lowered in quality except as provided in ch. NR 207.

(3) DESIGNATION PROCEDURES. Surface waters, or portions thereof, may be added to, or deleted from, the exceptional resource waters designation through the rule making process under the provisions of ch. 227, Stats., and s. NR 2.03.

History: Cr. Register, February, 1989, No. 398, eff. 3-1-89.

NR 102.12 Great lakes waters. (1) The following surface waters are designated as Great Lakes waters:

(a) Lake Michigan, including Green Bay.

(b) Lake Superior.

(2) For the purpose of administering ch. NR 207 and consistant with chs. NR 105 and 106, the waters identified in sub. (1) and their tributaries are to be protected from the impacts of persistent, bioaccumulating toxic substances by avoiding or limiting to the maximum extent practicable increases in these substances.

History: Cr. Register, February, 1989, No. 398, eff. 3-1-89. Register, February, 1989, No. 398

28 - 3

NR 102.13 Fish and aquatic life waters. All surface waters not included in s. NR 102.05 (1) (b) 1, 2, 3 or 5 are fish and aquatic life waters.

History: Cr. Register, February, 1989, No. 398, eff. 3-1-89.

NR 102.14 Taste and odor criterion. (1) At certain concentrations, substances may not be toxic to humans, but may impart undesirable taste or odor to water or aquatic organisms ingested by humans. The taste and odor criterion is derived to prevent substances from concentrating in surface waters or accumulating in aquatic organisms to a level which results in undesirable tastes or odors to human consumers.

(2) The taste and odor criterion is derived as follows:

(a) For substances which impart tastes and odors to waters, the taste and odor criterion shall equal that threshold concentration $({\rm TC}_w)$ below which objectionable tastes or odors to human consumers do not occur. Threshold concentrations for substances imparting tastes and odors to water are listed in Table 1.

Table 1

Threshold Concentrations $(\mathrm{TC}_{\mathrm{w}})$ for Substances Causing Taste and Odor in Water

Substance	<u>Threshold Concentration $(ug/L)^1$</u>
Acenaphthene	20
Chlorobenzene	20
2-Chlorophenol	0.1
3-Chlorophenol	0.1
4-Chlorophenol	0.1
Copper	1000
2,3-Dichlorophenol	0.04
2.4-Dichlorophenol	0.3
2,5-Dichlorophenol	0.5
2,6-Dichlorophenol	0.2
3,4-Dichlorophenol	0.3
2,4-Dimethylphenol	400
Hexachlorocyclopentadiene	1
2-Methyl-4-Chlorophenol	1800
3-Methyl-4-Chlorophenol	3000
3-Methyl-6-Chlorophenol	20
Nitrobenzene	30
Pentachlorophenol	30
Phenol	300
2,3,4,6-Tetrachlorophenol	1
2,4,5-Trichlorophenol	1
2,4,6-Trichlorophenol	2
Zinc	5000

 1 A threshold concentration expressed in micrograms per liter (ug/L) can be converted to milligrams per liter (mg/L) by dividing the threshold concentration by 1000.

(b) For substances which impart tastes or odors to aquatic organisms, the taste and odor criterion shall be calculated as follows:

 $TOC = TC_{f}$

BAF		
Where:	$TOC = TC_f =$	Taste and odor criterion in milligrams per liter (mg/L) . Threshold concentration in milligrams of substance per kilo- gram of wet tissue weight (mg/kg) of the aquatic organism be- ing consumed below which undesirable taste and odor is not detectable to human consumers as derived in par. (d).
	BAF =	Aquatic life bioconcentration factor with units of liter per kilogram (L/kg) as derived in s. NR 105.10.

Register, February, 1989, No. 398

28-4 WISCONSIN ADMINISTRATIVE CODE

(c) The lower of the taste and odor criteria derived as specified in pars. (a) and (b) is applicable to surface waters classified as public water supplies. The taste and odor criteria derived as specified in par. (b) is applicable to Great Lakes, cold water, and warm water sport fish communities.

(d) Threshold concentrations for substances imparting tastes or odors to water (TC_w) other than those listed in Table 1 and threshold concentrations for substances imparting tastes or odors to aquatic organisms (TC_f) shall be selected by the department using its best professional judgment.

History: Cr. Register, February, 1989, No. 398, eff. 3-1-89.
