(ss. 29.085 and 29.174, Stats.)

NR 10.001 Definitions. (1) "Antlerless deer" means any deer without antlers or with an antler less than 3 inches in length.

(1h) "Accompanied by", for the purposes of s. 29.227, Stats., means within sight and voice contact, without the aid of any mechanical or electronic amplifying device other than a hearing aid.

(1m) "Assisting", for the purpose of bear hunting, means helping a bear harvest permittee hunt a bear by handling dogs, tracking, trailing or locating the bear, or otherwise aiding while with the permittee or baiting.

(2) For the purposes of this chapter, "bait" means honey and any solid or nonliquid material attractive to wildlife.

(3) "Bearded turkey" means a turkey with a bristle-like appendage protruding from the upper part of the breast.

(3m) "Black bear hunting zone" means a zone established in s. NR 10.30.

(3s) "Blind", for the purpose of goose hunting in zones established in s. NR 10.31, means any framed enclosure or pit not more than 15 feet in its greatest dimension and camouflaged to provide concealment to hunters.

(4) "Bow" means any bow, drawn and held by and through the effort of the person releasing it, but does not include crossbow.

(5) "Buck deer" means any deer with an antler not less than 3 inches in length.

(5m) "Canada goose management zones and subzones" means those established in s. NR 10.31.

(6) "Crossbow" means any device using a bow which, once drawn, is held solely by means other than the effort of the person firing it.

(6m) "Current validated deer carcass tag", for purposes of s. 29.40 (2), Stats., means an unused tag of the current year validated according to the requirements of s. NR 10.103 (2).

(7) "Daily bag limit" means the maximum number of a game species which may be reduced to a person's possession in one day.

(7m) "Deer management unit" means a zone established in s. NR 10.28.

(8) "Department" means the department of natural resources.

(9) For the purposes of ss. 29.224 (2), 29.56, 29.565 (2), 29.57 (4) and 350.06, Stats., "enclosed within a carrying case" for firearms means completely contained in a gun case expressly made for that purpose which is fully enclosed by being zipped, snapped, buckled, tied, or otherwise fastened, with no portion of the firearm exposed.

Note: Subsection (9) does not remove the requirement of ss. 29.224 and 350.06, Stats., to enclose bows or crossbows in carrying cases. The rule does not apply to bows or crossbows only because the natural resources board recognizes that certain designed bow cases may allow portions of the bow, for instance the handle, to be exposed and yet still render the bow inoperable.

(9e) "Established range" means an existing facility that has target shooting with firearms as its major purpose.

(9m) For the purpose of administering the Canada goose hunting permit system, "Exterior goose management zone" or the "Exterior zone" means all that part of the state outside of the Collins, Horicon, Pine Island and Theresa goose management zones described in s. NR 10.31, and includes the Mississippi River, Brown County, Burnett County, New Auburn and Rock Prairie subzones which shall be treated as separate management subzones for other purposes.

(10) "Firearm season" means an open season for hunting with any of the following firearms loaded with a single slug or ball: rifle, muzzle-loader, shotgun or handgun for deer hunting described in s. NR 10.09 (1) (c) 1. c..

(10m) "Fully automatic firearm" means any firearm which continues to fire or is manufactured to continue to fire as long as the trigger is depressed.

Note: This definition does not include a semi-automatic firearm which fires a single shot with each pull of the trigger, then ejects the spent cartridge case and reloads without effort on the part of the shooter.

(13) "Liquid" means a substance, neither solid or gaseous, that flows freely and takes the shape of its container at a temperature of 70°F.

(14) "Liquid scent" means any nonsolid material except honey.

(e) *Recording of fisher and otter.* 1. Tagging and permits. a. No person may trap or attempt to trap any fisher or otter unless having first applied for and received from the department a trapping permit and tag or tags authorizing such trapping.

c. If the number of applications for fisher permits exceeds the number available in subd. 2, successful applicants shall be determined by random selection.

e. Each permit shall be numbered to correspond to the applicant's current trapping license and show the applicant's name and tag numbers.

f. No person may apply for more than one fisher permit or one otter permit.

2. Permit quota. a. Fisher quotas shall be primarily based on density estimates derived from annual track counts coupled with home range information based on telemetry data, numbers of fishers trapped during the previous year, and the sex, age and reproductive composition of harvested fishers. The department shall issue trapping permits in sufficient numbers to assure healthy, biological populations for each management zone indicated in subd. d.

b. In each management zone, the number of permits to be issued to harvest the desired numbers of fisher shall be based on an average of the trapper success rates from the most recent 3 previous seasons or by an average of fewer seasons where a 3-year average is not available. In establishing a quota for a zone without an adequate history of permits, the average success rates of similar quota areas shall be applied or the department shall estimate an anticipated success rate.

c. Permit success rates used to compute the number of permits to be issued for each quota shall be those calculated by the department from annual fisher season harvest reports.

The success rate formula is:

$$\text{Success rate} = \frac{\text{Number of fisher harvested}}{\text{Number of permits issued}}$$

The permit number formula is:

$$\text{Permit number} = \frac{\text{Quota fisher to be harvested}}{\text{Trapper success rate}}$$

d. The overwinter population goal for each management zone is one fisher per 4 square miles of fisher range.

3. Tagging procedure. a. Each person shall immediately upon possessing a fisher or an otter, attach and lock a valid tag, issued by the department, through the opening of the mouth to the opening of the eye, immediately beneath the skin.

b. No person may have a fisher or an otter pelt in possession or under control unless the person trapping the animal attaches the tag as required by this subdivision.

c. The tag shall remain attached to the pelt until removed by a fur dresser or taxidermist at time of preparation.

4. Fisher exhibition. Unless otherwise authorized by the department, each person who has trapped a fisher shall exhibit the pelt separated from the carcass along with the carcass to an authorized department representative in the county in which the animal was trapped, or in an adjoining county, no later than 5 days after the close of the fisher season. The fisher carcass shall be retained by the department.

5. Otter exhibition. Each person who has trapped an otter shall exhibit each pelt to an authorized department representative in the county in which the animal was trapped, or in an adjoining county, but within the area open to otter trapping, no later than 5 days after the close of the otter season.

b. Transfer, give, trade, sell or purchase any fisher or otter pelt without a registration tag being attached and locked to the head of the pelt.

8. Fisher or bobcat intended for mounting. Persons exhibiting fisher under subd. 4. or bobcat under s. NR 10.145 (3) who intend to have the fisher or bobcat mounted by a taxidermist may exhibit the fisher or bobcat to the department for registration in whole carcass condition without separating the pelt and need not surrender the skinned carcass to the department until after the taxidermist has separated the pelt.
