In making a determination of significant public benefits, the state forester and the regional forester shall consider, at a minimum, whether the installation of practices by landowners who own more than 1,000 acres but less than 5,000 acres are necessary to achieve cost-effective resource management objectives without unduly affecting program participation of other eligible landowners.

(c) The practice is eligible under this subchapter.

(4) Applications will be approved provided grant funds are available. Department approval of an application shall constitute an agreement by the state, United States and the landowner.

(5) Upon approval of a practice, the department shall prepare a practice outline that identifies the needed technical practices, specifications, and approximate time frames for the implementation of the practice, to achieve the objectives of the practice. The outline shall be attached to and become part of the landowner forest stewardship plan and shall be effective for the duration of the practice. The requirements in the practice outline shall constitute the basis for determining acceptable performance upon practice completion.

(6) Upon approval of a practice, the landowner shall be notified in writing by the FSA. The notice shall state that the landowner can begin implementing the approved practice.

History: Cr. Register, August, 1992, No. 440, eff. 9-1-92; am. (1) and (6), Register, May, 1999, No. 521, eff. 6-1-99.

NR 47.21 Payment to landowners. (1) A landowner shall complete each practice within 18 months of approval. However, if a practice is not completed in 18 months due to conditions beyond the landowner's control, a 6 month extension period may be granted by the department.

(2) Upon certification by the department that a practice has been completed in accordance with specifications, the grant payment shall be calculated by the department and disbursed to the landowner by the Kansas City Treasury, Regional Dispersing Office, P O Box 3329, Kansas City, KS 66103.

(3) A practice may consist of one or more component activities. A landowner may receive partial payment for completed components on the condition that the landowner agrees to complete the remaining components of the practice within the time period specified by the department, not to exceed 18 months following approval to implement the practice, unless an extension is justified as provided in sub. (1).

Note: For instance, one component of tree planting is site preparation; another component is the planting of the trees.

(4) Where performance actually rendered does not meet the minimum specifications for the practice due to factors beyond the landowner's control, the department may approve grant payment under one of the following conditions:

(a) The landowner repeats applications of components previously implemented or establishes additional eligible components under terms and conditions the department approves to the extent that measures are needed to meet the objectives of the landowner forest stewardship plan; or

(b) The landowner establishes to the satisfaction of the department that:

1. A reasonable effort was made to meet the minimum requirements; and

2. The practice, as performed, adequately meets the objectives of the landowner forest stewardship plan.

(5) Where the landowner has received grant assistance for site preparation and the establishment of trees has been unsuccessful due to factors beyond the landowner's control, the department shall require that trees be re-established and shall approve grant assistance for the activity.

(6) The minimum length of time a landowner shall be required to maintain a practice is 10 years.

(7) To be eligible to receive cost-share grants under the program, a landowner shall agree to maintain program practices for 10 years, unless otherwise specified by the forest service.

(8) Prior to receiving approval to implement any program practice, eligible landowners shall have a department approved landowner forest stewardship plan. If a landowner sells, conveys, or otherwise loses control of lands upon which there is a continuing obligation to maintain a practice and the new landowner does not agree to assume the responsibility for maintaining the practice, the landowner who was originally obligated to maintain the practice shall be liable to reimburse the United States for grant payments on the practices. The state forester may discount the reimbursement owed the United States by the percentage of years during which the practice has been maintained. In the case of death or incompetency of any landowner, the state forester shall approve grant payments to the successor if the successor agrees to maintain the practice for the duration of the agreement.

(9) Any landowner who may be entitled to any grant payment under this section may assign the right, in whole or in part, with the prior written approval of the department.

(10) No grant payment owed to any landowner shall be subject to any claim arising under state law by any creditor, except agencies of the United States government.

History: Cr. Register, August, 1992, No. 440, eff. 9-1-92; am. (2), Register, May, 1994, No. 461, eff. 6-1-94.

NR 47.22 Reconsideration. Any landowner, successor or assignee who is dissatisfied with any determination made under the program may request reconsideration by the state forester and, if the matter is still not resolved, by the regional forester. All requests for reconsideration shall be in writing and shall contain factual information explaining the basis for requesting reconsideration. All decisions upon reconsideration shall be issued in writing.

History: Cr. Register, August, 1992, No. 440, eff. 9-1-92.

NR 47.23 Enforcement. (1) If any landowner, successor or assignee uses any scheme or device to unjustly benefit from this program, the cost-share grants shall be withheld or a refund of all or part of any program payments otherwise due or paid that person shall be secured. A scheme or device includes, but is not limited to, coercion, fraud or misrepresentation, false claims, or any business dissolution, reorganization, revival or other legal mechanism designed for or having the effect of evading the requirements of this subchapter.

(2) If any landowner or successor takes any action or fails to take action which results in the destruction or impairment of a prescribed practice for the duration of the practice, cost-share grants shall be withheld or a refund of all or part of any program payments otherwise due or paid shall be secured.

(3) Nothing herein requiring the withholding or refunding of cost-share grants shall preclude any other penalty or liability otherwise imposed by law.

(2) Upon certification by the department that a practice has been completed in accordance with specifications, the grant payment shall be calculated by the department and disbursed to the landowner by the department or its agent.

(3) A practice may consist of one or more component activities. A landowner may receive partial payment for completed components, with approval of the department forester, on the condition that the landowner agrees to complete the remaining components of the practice within the time period specified by the department, not to exceed 18 months following approval to implement the practice, unless an extension is justified as provided in sub. (1).

(4) Where performance actually rendered does not meet the minimum specifications for the practice due to factors beyond the landowner's control, the department may approve grant payment under one of the following conditions:

(a) The landowner repeats applications of components previously implemented or establishes additional eligible components under terms and conditions the department approves to the extent that measures are needed to meet the objectives of the landowner forest stewardship plan; or

(8) Prior to receiving approval to implement any program practice, eligible landowners shall have a department approved landowner forest stewardship plan. If a landowner sells, conveys, or otherwise loses control of lands upon which there is a continuing obligation to maintain a practice and the new landowner does not agree to assume the responsibility for maintaining the practice, the landowner who was originally obligated to maintain the practice shall be liable to reimburse the department for payments on the practices. The state forester may discount the reimbursement owed the department by the percentage of years during which the practice has been maintained. In the case of death or incompetency of any landowner, the department shall approve grant payments to the successor if the successor agrees to maintain the practice for the duration of the agreement.

(9) Any landowner who may be entitled to any grant payment under this section may assign the right, in whole or in part, with the prior written approval of the department.

(3) Nothing in this subchapter requiring the withholding or refunding of cost-share grants shall preclude any other penalty or liability otherwise imposed by law.

NR 47.914 Application procedures. (1) An eligible applicant, described in s. NR 47.913 (1), may apply for participation in the statewide treatment program and cost sharing for aerial insecticide treatment and associated administrative costs for eligible blocks as described in s. NR 47.913 (2).

(2) Applicants shall submit applications for cost sharing to department staff, identified on the application for the area of the state involved, no later than December 1, along with a map of each proposed treatment block on a 7.5 minute quadrangle map to be eligible for participation in the treatment program for that year. Applications can be obtained by writing to the program manager for the gypsy moth grant program, bureau of community financial assistance, PO Box 7921, Madison, WI 53707-7921.

(3) Applicant shall send a copy of the record of expenses from July 1-December 31 by January 7 to department staff identified on the application.

(4) The department shall review applications and recommend treatment for blocks determined to be eligible to the department of agriculture, trade and consumer protection for inclusion in the state treatment plan. If the department finds that a block is ineligible, the map and basis for the decision of ineligibility shall be identified and returned to the applicant for revision. Revised proposed treatment blocks shall be reconsidered by the department if filed for reconsideration within 2 weeks of the date of service of the decision of ineligibility on the applicant.

(5) The department shall notify applicants of eligibility of proposed blocks.

(6) The applicant shall enter into an agreement with the department regarding cost sharing and continued eligibility under this subchapter to continue its eligibility.

(7) The applicant shall notify landowners and tenants within the eligible proposed treatment blocks and an area surrounding those blocks to be determined by the applicant. All notices will provide information on location of proposed treatment blocks, insecticide to be used, approximate timing of treatment, how to register an objection to treatment of property and the name, address and phone number of the local coordinator. Notification requirements of applicants to landowners and tenants shall include:

(a) A written notification of planned treatment and information listed above mailed to persons owning or renting land in the treatment blocks and an area surrounding the blocks as determined by the applicant. The mailing list shall be retained in the records of the applicant for 3 years subsequent to the treatment and submitted to the department upon its request.

(b) Publication of a class 1 legal notice as defined in s. 985.07, Stats., in a local newspaper at least 10 days prior to a deadline des-

(c) A press release at least 10 days prior to the deadline for objection to treatment of property and which announces the public meeting.

(d) A public meeting conducted by the applicant and held at least 7 days prior to the deadline for objection to treatment of property.

(8) Records of calls and notification mailings, meetings and publications shall be kept by the applicant and submitted to the department in accordance with the grant agreement. Failure to maintain and submit these records required in this paragraph and in the grant agreement shall result in cancellation of treatment blocks from that applicant.

(9) Applicants shall contact objectors who register an objection to treatment of their property before the deadline, determine the cause for objection and attempt to resolve it. Applicants may offer the option of having the objector notified by phone within 24 hours of when the spray will take place as an alternative to removing the property from the treatment. Objectors who take this option will be included in the list described in sub. (11). If objections cannot be resolved, local coordinators shall work with the department's designated staff to remove the property and a 250 foot surrounding buffer zone from treatment. If a treatment block is canceled because accommodating objectors makes the block untreatable in the judgment of the contractor for pesticide application, the local coordinator shall notify residents and return money that has been collected from the landowners or tenants. The applicant shall resolve any objections on the basis of payment and the applicant is responsible for the entire local share of costs of treatment for blocks under its jurisdiction. Treatment blocks will be removed from the program due to nonpayment of the cost share by the applicant.

(10) (a) The department shall provide an estimate of per acre cost for treatment to local coordinators no later than February 15th of each year. The applicant shall collect the entire estimated cost for treatment of the blocks the applicant applied for and pay it to the department by April 1 unless otherwise provided on the application. Once the payment for treatment blocks has been received, the boundaries of these treatment blocks shall be considered fixed. Alteration or cancellation of a treatment block may only occur in the event of an irreconcilable conflict with a federally listed threatened or endangered species or where the contractor for pesticide application determines treatment of the block to be hazardous to the contractor. If a block is removed, the department shall return the payment for that treatment block and the local coordinator shall notify residents and return money that has been collected for the spray treatment from the landowners or tenants.

(b) The department shall, under cooperative agreement, work with the department of agriculture, trade and consumer protection to coordinate treatments.

(11) Applicants shall submit no later than April 1 of each year a list of telephone contacts associated with each treatment block to the designated department staff specified in the application. Required contacts for each block include all schools and licensed daycare providers within a treatment block, local government officials, health, police, sheriff and fire departments within whose jurisdiction a treatment block exists, hospital emergency rooms in the area of treatment blocks, persons requesting 24-hour notification and other concerned parties as needed. These lists will be used by department staff to provide daily notification during the aerial treatments.

(12) Applicants shall submit a record of administrative costs incurred in the project period of July 1 through June 30 to the department by July 15.

The county may collect adequate funds to cover administrative expenses or treatment expenses and determine how reimbursement of federal cost share is distributed once it is received by the county. Any funds recovered in excess of total program expenses shall be returned to the source of local cost share.
