

- (b) Books used by a tubercular person should either be destroyed or withheld from circulation for at least one month and during this time kept standing in the sunlight opened so that the rays of the sun can reach the maximum number of pages. Surfaces should be changed from day to day. Time and sunlight are recommended as the best means to accomplish the destruction of infectious material deposited upon books.

**H 49.10 Sale of milk and dairy products from infected home restricted.** The sale or use of milk and dairy products from a place where cholera (Asiatic), diphtheria, plague, smallpox, respiratory streptococcal infections (including scarlet fever and streptococcal sore throat), typhoid fever, paratyphoid fever, or other salmonella disease is found to exist is strictly forbidden unless the milk is handled, milk utensils washed and stock cared for and the product transported by persons disassociated from the infected individual. The adequacy of such disassociation shall be determined by the local health officer or the state board of health. The handling by the infected person of milk or milk products for sale, or stock, equipment or other utensils used to produce such products is forbidden under any circumstances.

**H 49.15 Release cultures.** Where release cultures are required in communicable diseases, such cultures shall be examined in a laboratory approved by the state board of health for such purposes.

**H 49.20 Transporting cases.** When it is necessary to transport a person suffering with a dangerous communicable disease from one town, village or city to another, the consent of the health officer where the patient lives and also the health officer of the town, village or city to which the patient will be transported must first be obtained. Transportation must be made by private conveyance and proper precautions exercised to prevent needless exposure of all persons who may come in contact with the patient during transit.

**H 49.25 Mail in placarded home.** No mail or other materials shall be sent from a placarded home unless such mail or materials have been prepared and disinfected under the direction of the local health officer.
