history of child care responsibilities as the parent with primary physical placement, and the availability of work in or near the parent’s community. If evidence is presented that due diligence has been exercised to ascertain information on the parent’s actual income or ability to earn and that information is unavailable, the court may impute income of 35 hours per week at the federal minimum hourly wage.

$$\frac{\text{(earning capacity)}}{\text{(gross income or income modified for business expenses)}} = \text{(income imputed based on earning capacity)}$$

**C. Calculation of Income Imputed from Assets**

**SECTION II – Computation of the Monthly Child Support Obligation for Serial–Family Payers**

1. Enter the monthly income available for child support from Section I, part D, line 5. \_\_\_\_\_
2. Determine the order of the payer’s legal obligations for child support by listing them according to the date each obligation is incurred. For marital child(ren), the legal obligation for child support is incurred on the child’s date of birth. For nonmarital child(ren), the legal obligation for child support is incurred on the date of the court order. For nonmarital child(ren) in an intact family, it is incurred on the date of adoption or the date of the filing of an acknowledgment of paternity. For a nonmarital maternal child(ren) in an intact family, it is incurred on the child’s date of birth.
 

Date of the first legal obligation	_____
Date of the second legal obligation	_____
Date of the third legal obligation	_____
Date of the fourth legal obligation	_____
3. Determine the monthly child support for the first legal obligation:
  - a) If the payer is subject to an existing support order for that legal obligation, the support is the monthly amount of that order, except a shared–placement order. Enter that amount here. \_\_\_\_\_
  - b) If the payer is in an intact family or is subject to a shared–placement order, the support is determined by multiplying the monthly income available for child support (line 1) by the percentage for the appropriate number of children. (table at Section I, part D, line 6). Enter that amount here. \_\_\_\_\_
4. Subtract either line 3(a) or 3(b) from the monthly income available for child support in line 1. \_\_\_\_\_  
**This is the first adjusted monthly income available for child support.**
5. Determine the monthly child support for the second legal obligation:
  - a) If the payer is subject to an existing support order for that legal obligation, the support is the monthly amount of that order, except a shared–placement order. Enter that amount here. \_\_\_\_\_

**DWD 40 Appendix B**

WISCONSIN ADMINISTRATIVE CODE

b) If the payer is in an intact family or is subject to a shared-placement order, the support is determined by multiplying the monthly income available for child support (line 1) by the percentage for the appropriate number of children. (table at Section I, part D, line 6). Enter that amount here.

\_\_\_\_\_

6. Subtract either line 5(a) or 5(b) from the first adjusted monthly income for child support in line 4.

\_\_\_\_\_

**This is the second adjusted monthly income available for child support.**

7. Determine the monthly child support for the third legal obligation:

a) If the payer is subject to an existing support order for that legal obligation, the support is the monthly amount of that order, except a shared-placement order. Enter that amount here.

\_\_\_\_\_

b) If the payer is in an intact family or is subject to a shared-placement order, the support is determined by multiplying the monthly income available for child support (line 1) by the percentage for the appropriate number of children. (table at Section I, part D, line 6). Enter that amount here.

\_\_\_\_\_

8. Subtract either line 7(a) or 7(b) from line 6 (second adjusted monthly income available for child support).

\_\_\_\_\_

**This is the third adjusted monthly income available for child support.**

9. Continue this process for each additional legal obligation for child support that the serial-family payer has incurred. Multiply the appropriate percentage for the number of children subject to the new order by the final adjusted monthly income available for child support to determine the child support obligation

\_\_\_\_\_

**Note:** In cases where a court order needs to be determined for marital children and the date of an adjudicated paternity falls between the birth dates of the first and last child in the family with marital children, the legal obligation for child support to this family is determined as follows:

10. Determine the support for the number of children in this family whose birth dates are *before* the date of the paternity adjudication.

(Follow Section II, paragraphs 1 to 3)

\_\_\_\_\_

11. Determine the support for the number of children in this family whose birth dates fall *after* the date of the paternity adjudication by doing the following:

a) Enter the appropriate percentage from the table at Section 1, part D, line 6, for the number of *all* the children in the marital family.

\_\_\_\_\_

b) Enter the percentage used for the number of children in line 10.

\_\_\_\_\_

c) Subtract line 11(b) from line 11(a).

\_\_\_\_\_

d) Use the percentage in line 11(c) to determine the support for the remaining children in the marital family (Follow Section II, paragraphs 4 to 7).

Enter that amount here.

\_\_\_\_\_

12. Determine the appropriate support order for the marital family by adding the amounts in lines 10 and 11(d).
