Chapter HSS 144 was renumbered chapter HFS 144 under s. 13.93 (2m) (b) 1., Stats., and corrections made under s. 13.93 (2m) (b) 1., 6. and 7., Stats., Register, June, 1997, No. 498.

HFS 144.01 Introduction. (1) PURPOSE AND AUTHORITY. The purpose of immunization is to prevent disease and suffering and any permanent disability resulting from the disease. These rules implement s. 252.04, Stats., which as public policy seeks to identify and immunize those students who are still susceptible to measles, mumps, rubella, polio, hepatitis B, varicella, diphtheria, tetanus and pertussis upon admission to an elementary, middle, junior or senior high school or a day care center, or *Haemophilus influenzae b* and pneumococcal infection upon admission to a day care center, in order to prevent transmission of these diseases.

(2) RELATIONSHIP TO INFANT AND PRESCHOOL IMMUNIZATION SCHEDULES. The emphasis placed in this chapter on meeting minimum immunization requirements upon entry to Wisconsin schools at any grade level or to a day care center complements efforts by the department to promote early immunization of infants and preschoolers according to accepted immunization schedules. Children immunized according to accepted immunization schedules will exceed the minimum requirements set forth herein for all ages and grades.

HFS 144.03 Minimum immunization requirements.

(1) INDIVIDUALS INCLUDED. The minimum immunization requirements authorized by s. 252.04, Stats., apply to any student

admitted to a Wisconsin elementary, middle, junior or senior high school or to a Wisconsin day care center.

(2) REQUIREMENTS FOR THE 2008–09 SCHOOL YEAR AND FOR SCHOOL YEARS FOLLOWING THE 2008–09 SCHOOL YEAR. (a) Table HFS 144.03–A as qualified by pars. (b) to (g) lists the number of doses of each required vaccine that each student in the 2008–09 school year and following school years shall have received since birth for the age or grade of the student. These comprise the mini-

mum basic and booster immunizations required under s. 252.04 (2), Stats. They do not, however, represent all the recommended immunizations for those individuals who begin immunizations in infancy and follow currently accepted immunization schedules.

(b) Immunization against measles, mumps and rubella shall have been received on or after the date of the first birthday. A dose received 4 days or less before the first birthday is acceptable.

¹ For kindergarten only, at least one dose to be received after 4 years of age unless medically contraindicated. A dose received 4 days or less before the fourth birthday is acceptable.

² A single dose, booster immunization against tetanus, diphtheria and pertussis is required on entrance to grades 6, 9 and 12, beginning with the 2008–09 school year. See sub. (3) for phase–in of other grades.

³ Two doses of Var vaccine are required on entrance to grades K, 6 and 12, beginning with the 2008–09 school year. See sub. (3m) for phase–in of other grades.

(c) Exceptions may be made in requirements for the fourth dose of DTP/DT/DTaP/Td vaccine and the fourth dose of polio vaccine. Students who receive the third dose of either of these vaccines after their fourth birthday are not required to receive a fourth dose of that vaccine.. A dose received 4 days or less before the 4th birthday is acceptable.

(d) For students in ungraded schools or students age 5 or older in day care centers, the immunization requirements are those for the grade which would normally correspond to the individual’s age. Immunization against measles, mumps and rubella is also required for all students age 19 or older.

A parent of a minor student or an adult student may indicate a reliable history of varicella by signing a statement that the student has had varicella disease.

(g) Exceptions may be made in requirements for the third dose of Hep B vaccine. Students who receive two doses of a licensed two–dose formulation of Hep B vaccine are not required to receive a third dose of Hep B vaccine.

(h) Exceptions may be made in requirements for PCV. Students who begin the PCV series at 12 to 23 months of age are only required to receive 2 doses at least 2 months apart. Students who receive their first dose of PCV at 24 months of age or after are not required to obtain additional doses. A dose received 4 days or less before 24 months of age is acceptable.
