NR 23.01 Purpose. The provisions of this chapter, along with other applicable rules and statutes, regulate fishing in Wisconsin–Michigan boundary waters.

Note: This section is shown as amended eff. 4–1–09 by CR 08–010. Prior to 4–1–09 it reads:

NR 23.01 Purpose. The provisions of this chapter regulate fishing in Wisconsin–Michigan boundary waters.

History: Cr. Register, March, 1986, No. 363, eff. 4–1–86; CR 08–010: am. Register November 2008 No. 635, eff. 4–1–09.

NR 23.015 License waiver. On the first Saturday and consecutive Sunday in June each year, no fishing license is required to fish the Wisconsin–Michigan boundary waters.

History: Cr. Register, April, 1987, No. 376, eff. 5–1–87; am. Register, April, 1989, No. 400, eff. 5–1–89; am. Register, May, 1995, No. 473, eff. 6–1–95.

NR 23.02 Definitions. The following definitions apply to terms used in this chapter:

(1) “Bag limit” or “daily bag limit” has the meaning given in s. NR 20.03 (8).

(2) “Dip net” means a piece of netting suspended from a frame designed to be raised and lowered vertically when fishing.

(3) “Fisher” means any person engaged in fishing.

(4) “Length of fish” means the distance measured in a straight line from the tip of the snout of the fish to the end of its tail with the tail or caudal fin fully extended.

(4m) “Menominee river” means the Menominee river, all impoundments downstream to its confluence with Green Bay, and that portion of Green Bay bounded by the mouth of the Meno-

minee river on the west, the “government pier” or breakwall on the south, the “lighthouse pier” or breakwall on the north, and a line connecting the eastern–most points of those breakwalls on the east.

(5) “Minnow” has the meaning given it in s. 29.001 (54), Stats.

(6) “Open season” means that period of the year established in s. NR 23.04 when a specific species of fish is allowed to be taken.

(7) “Possession limit” has the meaning given in s. NR 20.03 (31).

(8) “Rough fish” has the meaning given it in s. 29.001 (74), Stats., and also includes amur carp (*Ctenopharyngodon idella*).

(8m) “Safe harvest” means a level of harvest that incorporates an appropriate margin of safety, estimates of the population and acceptable exploitation rates which will reasonably prevent harvest of more than 35% of the population of adult walleyes or 27% of the population of adult muskellunge. The margin of safety assures that the true safe harvest is not exceeded in more than 1 of 40 cases. For waters where a population estimate has not been made, a regression model based upon population estimates from other waters will be used. The margin of safety used depends upon the age of the population estimate and whether a regression model was used.

(8n) “Secretary” means secretary of the department of natural resources.

(9) “Sport fishing” means fishing, when authorized, with hook and line, spearing and the use of a dip net.

(10) “Wisconsin–Michigan boundary waters” means the following waters that form the interstate boundary water between the states of Wisconsin and Michigan:

NR 23.055 Modifications in daily bag limit and minimum size limit in response to tribal harvest. (1) ADJUSTMENT. In order to prevent a total harvest of more than 35% of the adult walleye population or 27% of the adult muskellunge population, the secretary may lower the daily bag limit on walleye and increase the minimum size limit for muskellunge in specific waters in response to the harvest goals of the Chippewa bands for their spear, net or trap fisheries. The adjusted daily bag and size limits shall be in effect until March 1 of the year following the tribal harvest. The safe harvest levels on individual waters shall

be determined by the department.

(a) *Walleyes.* The daily bag limit will be reduced when the department is notified by the Chippewa bands of their harvest goals on individual waters. The extent of the reduction depends upon the percent of the safe harvest they intend to take and the age of the population estimate used to determine the safe harvest or if a regression model was used to determine the safe harvest. The daily bag limits to be used with the different percentages and for various basis of determining the safe harvest are as follows:

Reduced daily bag limits for walleye angling

Daily bag limit	% of safe harvest to be speared, trapped or netted		
	current pop. est.	pop. est. made 1-2 yrs. ago	pop. est. made 3 yrs. ago or more or regression model
4	1-7	1-14	1-20
3	8-18	15-39	21-54
2	19-36	40-76	55-84
1	37-68	77-94	85-94
0	69 or more	95 or more	95 or more

(b) *Muskellunge.* The minimum size limit will be increased when the department is notified by the Chippewa bands that their harvest goal on an individual water is 60% or more of the safe harvest. The minimum size limits to be used with different percentages of the safe harvest are as follows:

Increased minimum size limits for muskellunge angling

% of safe harvest to be speared, trapped or netted by tribes	Minimum size limit
60-94	45 inches
95 or more	55 inches

(2) **READJUSTMENT.** If the Chippewa bands inform the department that they have completed harvesting and their goal has not been reached, the secretary may raise the daily bag limit or reduce the minimum size limit to the limit specified as appropriate using the percent of the safe harvest level expected to be harvested as indicated in sub. (1). If a new population estimate is made, the safe harvest level shall be changed accordingly and the daily bag limit or minimum size limit shall be adjusted according to the percentage of the new safe harvest level that is expected to be harvested as indicated in sub. (1). The readjusted daily bag and size limits shall be in effect until March 1 of the year following the tribal harvest.

(3) **BAG AND POSSESSION LIMITS.** (a) Reduced daily bag limits calculated pursuant to this section are individual lake limits and may be combined, but no person may exceed a total daily bag limit of 5 walleyes.

(b) While fishing no person may possess fish on any water in excess of the bag limit or under the size limit for that water.

(4) **NOTICE.** Adjustments and readjustments of bag limits and minimum size limits under subs. (1) and (2) shall become effective upon publication of the adjustment or readjustment in the official newspaper in the area affected.

Note: Sub. (1) is shown as amended eff. 4-1-09 by CR 08-010. Prior to 4-1-09 it reads:

(1) Dip nets may be used for taking suckers, redhorse, carp, smelt and lawyers or burbot from April 1 to May 14, in the Menominee river except in that portion from the upstream side of the Hattie Street Bridge in Marinette-Menominee upstream to the next dam and within 200 feet below dams on the river.

(2) Dip nets used for taking, catching, and killing rough fish and smelt may not exceed 9 feet square or 9 feet in diameter with a bag not more than 4 feet deep when lifted.

(3) No person may use or operate any dip net in any manner other than by raising and lowering it vertically when fishing.

NR 23.09 Ice fishing. Buildings, vehicles, tents, fish shanties or similar enclosures may be used on the ice for fishing in the Wisconsin-Michigan boundary waters.

(1) The door of any enclosure or shelter shall be unlocked and readily opened from the outside at all times while the enclosure or shelter is occupied.

(2) All shelters shall be removed from the ice on or before March 15, or prior to that time if ordered by the department when it determines the ice has become unsafe for travel.

(3) All buildings, tents, fish shanties and similar enclosures or shelters maintained, occupied, or used for fishing on the ice of any Wisconsin-Michigan boundary waters shall have the name and address of the person owning or using it printed in the English language on the outside of it so the name is readily visible at all times.
