SPS 81.05 Scope of appraisal practice. Except as permitted by state or federal law, licensed and certified appraisers are

authorized to conduct appraisals in conjunction with federally related and non-federally related transactions as follows:

(1) **CERTIFIED GENERAL APPRAISER.** A certified general appraiser may conduct appraisals of 1-to-4 family residential real estate and commercial real estate without regard to transaction value.

(2) **CERTIFIED RESIDENTIAL APPRAISER.** A certified residential appraiser may conduct appraisals of 1-to-4 family residential real estate without regard to transaction value and of commercial real estate having a transaction value of not more than \$250,000.

(3) **LICENSED APPRAISER.** A licensed appraiser may conduct appraisals of complex 1-to-4 family residential property having a transaction value of not more than \$250,000; non-complex 1-to-4 family residential property having a transaction value of not more than one million dollars, and commercial real estate having a transaction value of not more than \$250,000.

Note: Under federal law, a financial institution is responsible for making the final determination of whether an appraisal is complex. A financial institution may presume that appraisals of 1-to-4 family residential properties are not complex, unless the institution has readily available information that a given appraisal will be complex. If during the course of the appraisal a licensed appraiser identifies factors that would result in the property, form of ownership, or market conditions being considered atypical, the financial institution must either ask the licensed appraiser to complete the appraisal and have a certified appraiser approve and cosign the appraisal, or engage a certified appraiser to complete the appraisal. 12 CRF 225.63.
