PI 29.06 Transportation for pupils who move out of the P-5 school attendance area. (1) Under s. 115.45 (9) (a),

Stats., if a pupil attending a P-5 school moves from the attendance area of that school to another attendance area after the third Friday in September, the board may offer the pupil the opportunity to attend the P-5 school for the remainder of the school term. (3) At the end of each school term, the board shall submit a final claim to the state superintendent for the cost of the transportation under sub. (1), which states the number of pupils transported under this section, the number of days each pupil was transported, and the actual cost of the transportation. The state superintendent shall pay the board an amount not to exceed 4% of the board's P-5 program grant. If the claim is less than the amount originally estimated, the board may apply the excess to its P-5 program costs if both of the following apply:

(a) Every eligible pupil was offered the opportunity to participate under this section and no pupil was denied; and

(b) The board has made expenditures under the P-5 program to support the claim.
