AN ACT **relating to:** state finances and appropriations, constituting the executive budget act of the 1995 legislature, and making appropriations.

GUIDE TO NONSTATUTORY MATERIAL

As is the case for all other bills, the SECTIONS of the budget bill treating statutory material are displayed in the ascending numerical sequence of the statute units affected. In some parts of the bill, not all consecutive SECTION numbers are used.

Treatments of prior session laws (styled "[year] Wisconsin Act ...." or, before 1983, "laws of [year], chapter ....") are displayed next by year of original enactment and by act number.

Following the treatment of prior session laws, the remaining nonstatutory material is set forth in bill SECTIONS numbered as follows:

9101 to 9159: Nonstatutory provisions; agency name.
9201 to 9259: Appropriation changes; agency name.
9301 to 9359: Initial applicability; agency name.
9400 to 9459: Effective dates; agency name.

In each of the 4 categories, there is a separate SECTION number for every agency. In that number, the last 2 digits correspond to the agencies as shown below. For example, for nonstatutory provisions that are not appropriation changes or initial applicability or effective date provisions affecting the historical society, see SECTION 9128. The agencies are listed in alphabetical sequence by key word. For any agency not yet assigned a 2–digit identification number or any provision that does not relate to the functions of any particular agency, see number "59" (other) in each category.

Agreement to

perform services authorized under this subsection may not be a condition of employment for any ~~state~~ such officer or employe.

SECTION 9. 11.36 (3) and (4) of the statutes are amended to read:

11.36 **(3)** Every person who has charge or control in a building, office or room occupied for any purpose by this state ~~or~~, by any political subdivision thereof or by the University of Wisconsin Hospitals and Clinics Authority shall prohibit the entry of any person into that building, office or room for the purpose of making or receiving a contribution.

(4) No person may enter or remain in any building, office or room occupied for any purpose by the state ~~or~~, by any political subdivision thereof or by the University of Wisconsin Hospitals and Clinics Authority or send or direct a letter or other notice thereto for the purpose of requesting or collecting a contribution.

SECTION 14L. 13.101 (4a) of the statutes is created to read:

13.101 **(4a)** The committee may transfer appropriated moneys from the appropriation account of any state agency, as defined in s. 20.001 (1), under which document production, reproduction or distribution costs are financed, other than a sum sufficient appropriation account, to the appropriation account under s. 20.870 (1) (r), in an amount not exceeding the savings accruing to the state during the fiscal biennium in which the transfer is made resulting from the centralization of document production, reproduction or distribution functions in the department of administration, as documented by the department.

SECTION 14g. 13.101 (4b) of the statutes is created to read:

13.101 **(4b)** The committee may transfer appropriated moneys from the appropriation account of any state agency, as defined in s. 20.001 (1), other than a sum sufficient appropriation account, in an amount not greater than the estimated

savings to the state resulting from the implementation by the agency of an information technology project under s. 16.971 (5), to the appropriation account under s. 20.870 (1) (r). The committee shall not act under this subsection unless the estimated savings to the state are documented by the secretary of administration.

SECTION 15. 13.101 (4g) of the statutes is amended to read:

13.101 **(4g)** At the request of the department of agriculture, trade and consumer protection under s. 92.14 (4r), the committee may transfer funds from the appropriation under s. 20.370 ~~(4) (cq)~~ (6) (aq) to the appropriation under s. 20.115 (7) (q) if necessary to provide grants under s. 92.14 (4) (c).

SECTION 16. 13.101 (6) (a) of the statutes is amended to read:

Appropriations of receipts and of a sum sufficient shall for the purposes of this section be regarded as equivalent to the amounts expended under such appropriations in the prior fiscal year which ended June 30. All functions of said state agencies shall be continued in an efficient manner, but because of the uncertainties of the existing situation no public funds should be expended or obligations incurred unless there shall be adequate revenues

to meet the expenditures therefor. For such reason the committee may make reductions of such appropriations as in its judgment will secure sound financial operations of the administration for said state agencies and at the same time interfere least with their services and activities.

(b) If the building, structure or land was used by a single agency, as defined in s. 13.48 (14) (a), the committee may, upon request of that agency, transfer not more than 50% of the moneys so credited to any appropriation account of that agency, other than a sum sufficient appropriation account, without finding that an emergency exists under sub. (3) (a) 1. Upon such transfer, the amounts in the schedule for any sum certain appropriation to the agency from the account to which a transfer is made are increased by the amount transferred during the fiscal year or biennium for which the appropriation is made.

(c) The committee may, upon request of the building commission, transfer not more than 50% of the moneys so credited to the building trust fund without finding that an emergency exists under sub. (3) (a) 1.

SECTION 2937. 49.34 of the statutes is created to read:

49.34 Purchase of care and services. (1) All services under this subchapter purchased by the department or by a county department under s. 46.215, 46.22 or 46.23 shall be authorized and contracted for under the standards established under this section. The department may require the county departments to submit the contracts to the department for review and approval. For purchases of $10,000 or less the requirement for a written contract may be waived by the department. When the department directly contracts for services, it shall follow the procedures in this section in addition to meeting purchasing requirements established in s. 16.75.

(2) All services purchased under this subchapter shall meet standards established by the department and other requirements specified by the purchaser in the contract. Based on these standards the department shall establish standards for cost accounting and management information systems that shall monitor the

utilization of the services, and document the specific services in meeting the service plan for the client and the objective of the service.

(3) (a) Purchase of service contracts shall be written in accordance with rules promulgated and procedures established by the department. Contracts for client services shall show the total dollar amount to be purchased and for each service the number of clients to be served, number of client service units, the unit rate per client service and the total dollar amount for each service.

(b) Payments under a contract may be made on the basis of actual allowable costs or on the basis of a unit rate per client service multiplied by the actual client units furnished each month. The contract may be renegotiated when units vary from the contracted number. The purchaser shall determine actual marginal costs for each service unit less than or in addition to the contracted number.

(c) For proprietary agencies, contracts may include a percentage add–on for profit according to rules promulgated by the department.

(d) Reimbursement to an agency may be based on total costs agreed to by the parties regardless of the actual number of service units to be furnished, when the agency is entering into a contract for a new or expanded service that the purchaser recognizes will require a start–up period not to exceed 180 days. This reimbursement applies only if identified client needs necessitate the establishment of a new service or expansion of an existing service.

(e) If the purchaser finds it necessary to terminate a contract prior to the contract expiration date for reasons other than nonperformance by the provider, the actual cost incurred by the provider may be reimbursed in an amount determined by mutual agreement of the parties.

(f) Advance payments of up to one–twelfth of an annual contract may be allowed under the contract. If the advance payment exceeds $10,000, the provider shall supply a surety bond in an amount equal to the amount of the advance payment applied for. No surety bond is required if the provider is a state agency. The cost of the surety bond shall be allowable as an expense.

(4) For purposes of this section and as a condition of reimbursement, each provider under contract shall:

(a) Except as provided in this subsection, maintain a uniform double entry accounting system and a management information system which are compatible with cost accounting and control systems prescribed by the department.

(b) Cooperate with the department and purchaser in establishing costs for reimbursement purposes.

(c) Unless waived by the department, biennially, or annually if required under federal law, provide the purchaser with a certified financial and compliance audit report if the care and services purchased exceed $25,000. The audit shall follow standards that the department prescribes.

(d) Transfer a client from one category of care or service to another only with the approval of the purchaser.

(e) Charge a uniform schedule of fees as specified under s. 49.32 (1) unless waived by the purchaser with the approval of the department. Whenever providers recover funds attributed to the client, such funds shall offset the amount paid under the contract.

(5) Except as provided in sub. (5m), the purchaser shall recover from provider agencies money paid in excess of the conditions of the contract from subsequent payments made to the provider.

(5m) (a) In this subsection:

1. "Provider" means a nonprofit, nonstock corporation organized under ch. 181 that contracts under this section to provide client services on the basis of a unit rate per client service.

(b) 1. Subject to subds. 2. and 3., if revenue under a contract for the provision of a rate–based service exceeds allowable costs incurred in the contract period, the provider may retain from the surplus generated by that rate–based service up to 5% of the contract amount. A provider that retains a surplus under this subdivision shall use that retained surplus to cover a deficit between revenue and allowable costs incurred in any preceding or future contract period for the same rate–based service that generated the surplus or to address the programmatic needs of clients served by the same rate–based service that generated the surplus.

2. Subject to subd. 3., a provider may accumulate funds from more than one contract period under this paragraph, except that, if at the end of a contract period the amount accumulated from all contract periods for a rate–based service exceeds 10% of the amount of all current contracts for that rate–based service, the provider shall, at the request of a purchaser, return to that purchaser the purchaser's proportional share of that excess and use any of that excess that is not returned to a purchaser to reduce the provider's unit rate per client for that rate–based service in the next contract period. If a provider has held for 4 consecutive contract periods

an accumulated reserve for a rate–based service that is equal to or exceeds 10% of the amount of all current contracts for that rate–based service, the provider shall apply 50% of that accumulated amount to reducing its unit rate per client for that rate–based service in the next contract period.

3. If on December 31, 1995, the amount accumulated by a provider from all contract periods ending on or before that date for all rate–based services provided by the provider exceeds 10% of the provider's total contract amount for all rate–based services provided by the provider in 1995, the provider shall, at the request of a purchaser, return to that purchaser the purchaser's proportional share of that excess.

(f) All providers that are subject to this subsection shall comply with any financial reporting and auditing requirements that the department may prescribe. Those requirements shall include a requirement that a provider provide to any purchaser and the department any information that the department needs to claim federal reimbursement for the cost of any services purchased from the provider and a requirement that a provider provide audit reports to any purchaser and the department according to standards specified in the provider's contract and any other standards that the department may prescribe.

(6) Contracts may be renegotiated by the purchaser under conditions specified in the contract.

(7) The service provider under this section may appeal decisions of the purchaser in accordance with terms and conditions of the contract and ch. 68 or 227.
