3 the statutes; **relating to:** health insurance coverage of autism treatment,
4 providing an exemption from emergency rule procedures, and granting
5 rule-making authority.

Analysis by the Legislative Reference Bureau

This substitute amendment requires health insurance policies and self-insured governmental and school district health plans to cover the cost of treatment for an insured for autism, Asperger's syndrome, and pervasive developmental disorder not otherwise specified if the treatment is prescribed by a physician and provided by a psychiatrist, a psychologist, a social worker who is certified or licensed to practice psychotherapy, a paraprofessional working under the supervision of any of those three types of providers, a professional working under the supervision of an outpatient mental health clinic, a speech-language pathologist, or an occupational therapist. The providers must be qualified to provide the services. The coverage provided must be at least \$60,000 for intensive-level services per year per insured, with a minimum of 30 to 35 hours of care per week for a minimum duration of four years, and at least \$30,000 for post-intensive-level services per year per insured. Beginning in 2011, the minimum coverage monetary amounts will be

adjusted annually to reflect changes in the medical consumer price index. The commissioner of insurance will publish the new minimum amounts each year in the Wisconsin Administrative Register. The commissioner must also promulgate a rule that further defines “intensive-level services,” “post-intensive-level services,” “paraprofessional,” and “qualified” for purposes of the coverage requirement and may promulgate rules for the requirement’s interpretation or administration.

The coverage requirement applies to both individual and group health insurance policies and plans, including defined network plans and cooperative sickness care associations; to health care plans offered by the state to its employees, including a self-insured plan; and to self-insured health plans of counties, cities, towns, villages, and school districts. The requirement specifically does not apply to limited-scope benefit plans, medicare replacement or supplement policies, long-term care policies, or policies covering only certain specified diseases.

The coverage may be subject to any deductibles, coinsurance, or copayments that apply generally under the policy or plan, but may not be subject to any limitations or exclusions, including limitations on the number of treatment visits.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
