**ASSEMBLY SUBSTITUTE AMENDMENT 1,
TO ASSEMBLY BILL 86**

October 19, 2021 - Offered by Representative DITTRICH.

1 **AN ACT** *to create* chapter 461 of the statutes; **relating to:** providing
2 complementary and alternative health care practitioners with exemptions
3 from practice protection laws, requirements and prohibitions for individuals
4 who provide complementary and alternative health care services, and
5 providing a penalty.

Analysis by the Legislative Reference Bureau

This bill does the following: 1) establishes certain requirements and prohibitions for complementary and alternative health care (CAHC) practitioners; 2) provides exemptions for CAHC practitioners from prohibitions against acting without certain health-care related licenses, certifications, and other credentials if they comply with provisions in the bill; and 3) provides the Department of Safety and Professional Services with authority to investigate and take action against a CAHC practitioner for violating a provision in the bill.

Under current law, DSPS, in conjunction with a number of credentialing boards attached to DSPS, regulates and provides for the credentialing of various types of health-care professions. Current law contains numerous prohibitions against engaging in certain health-care related practices and against using titles associated with certain health-care related professions without a required credential.
