***Analysis by the Legislative Reference Bureau***

**EARLY CANVASSING OF ABSENTEE BALLOTS**

Under current law, absentee ballots may not be canvassed until election day. Current law additionally provides that any municipality may provide by ordinance that, in lieu of canvassing absentee ballots at polling places, a municipal board of absentee ballot canvassers established by the municipality is responsible for canvassing all absentee ballots received by the municipal clerk by 8 p.m. on election day. In such a municipality, the board of absentee ballot canvassers is required to convene a meeting any time after the polls open and before 10 p.m. on election day

to canvass the absentee ballots cast in the municipality in the election. Among the requirements governing such a meeting, any member of the public has the same right of access to the meeting that the individual would have to observe the canvassing of absentee ballots at a polling place.

Also under current law, other than as described above, votes, including votes cast by absentee ballot, are canvassed at the polling place after polls close on election day. However, in a municipality that uses an electronic voting system, the municipal clerk or municipal board of election commissioners may adjourn the vote canvass to a central counting location where votes cast at multiple polling places in the municipality and absentee ballots may all be counted after the polls close on election day.

This bill does all of the following:

1. Requires the municipal board of absentee ballot canvassers in a municipality having an ordinance described above to begin canvassing absentee ballots on the day before an election.

2. Provides that no municipality may utilize a central counting location unless it has passed an ordinance providing for the canvassing of absentee ballots by a board of absentee ballot canvassers.

3. Provides that the board of absentee ballot canvassers must publicly convene at 7 a.m. on the day before the election to begin the canvass of absentee ballots for the municipality and may not recess until 10 p.m. on that day, or at such time when there are no further absentee ballots to be processed on that day, whichever is earlier, at which time the meeting must recess and then reconvene at 7 a.m. on election day and continue until all absentee ballots received by the municipal clerk by 8 p.m. on election day have been canvassed.

4. Upon recess of the board of absentee ballot canvassers on the day before the election, at least once every four hours on election day until the polls close, and at least once every hour after the polls close until the canvass is complete, requires the municipal clerk or his or her designee to post, at his or her office and on the Internet at a site announced by the clerk before canvassing begins, and to make available to any person upon request, a statement that shows the number of absentee ballots that the board has canvassed and the number of absentee ballots returned to the clerk that remain to be canvassed.

5. If the meeting of the board of absentee ballot canvassers convenes and then recesses on the day before the election, requires the board to secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper-evident security seals in a double-lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of absentee ballots on election day, the board must check and record the status of each tamper-evident seal and must immediately notify the Elections Commission of any evidence of tampering. If the board discovers evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the equipment is replaced and the replacement equipment is tested. Also, if the board discovers evidence of tampering, the municipality must conduct a

recount after the election and must audit the election equipment to verify the accuracy of the absentee ballot count.

6. Allows a board of absentee ballot canvassers to perform only certain tasks in canvassing of absentee ballots on the day before the election. Automatic tabulating equipment may not be used to tabulate absentee ballots until election day, and absentee ballots canvassed under the bill may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

7. Provides that no person may act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under the bill before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates that prohibition is guilty of a Class I felony, the penalty for which is a fine not to exceed \$10,000 or imprisonment not to exceed three years and six months, or both.

8. Authorizes, at the discretion of the municipal clerk, municipalities not utilizing a central counting location and not having a board of absentee ballot canvassers to begin processing absentee ballots beginning at 7 a.m. on the day before the election subject to requirements substantially similar to those described above.

Finally, under current law, criminal penalties are provided for election officials who commit certain specified kinds of election fraud. Otherwise, the willful neglect or refusal of an election official to perform a duty prescribed under the election laws is punishable by disqualification to act as an election official for five years. Under the bill, a member of the municipal board of absentee ballot canvassers or other election official who willfully neglects or refuses to perform any of the duties prescribed under the bill, and other duties prescribed under current law, with respect to the canvassing of absentee ballots by a municipal board of absentee ballot canvassers is guilty of a Class I felony.

#### **ISSUANCE OF PRESIDENTIAL BALLOTS**

Under current law, certain new and former residents of Wisconsin may apply for and receive a ballot for the purpose of voting only for candidates for president and vice president at a presidential election in Wisconsin. This bill prohibits poll workers and other election officials from providing a ballot used for voting for the offices of president and vice president only, unless the elector is a new or former resident of the state and applies and qualifies for the presidential ballot as provided by law.

#### **TIMELINE FOR SENDING OR TRANSMITTING ABSENTEE BALLOTS**

Current law requires a municipal clerk to send an absentee ballot for each partisan primary, presidential preference primary, and general election to all electors requesting the ballot, including military and overseas electors, no later than the 47th day before the partisan primary, presidential preference primary, or general election or, if the request is not made before that day, within one business day after the request is received. For all other primaries and elections, the municipal clerk must send or transmit the absentee ballot no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received.

Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to electors

other than military and overseas electors no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received. Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to military and overseas electors no later than the 45th day before the primary or election or, if the request is not made before that day, within one business day after the request is received. That 45th day timeline is consistent with federal law.

#### NOMINATION PAPERS FOR CERTAIN INDEPENDENT CANDIDATES

Under current law, nomination papers for independent candidates for any office to be voted upon at a general election, except president and vice president, may be circulated no sooner than the April 15 preceding the general election and must be filed no later than 5 p.m. on the June 1 preceding the partisan primary, which is held on the second Tuesday in August preceding the general election. Under current law, nomination papers for independent candidates for president and vice president may be circulated no sooner than the July 1 preceding the general election and must be filed no later than 5 p.m. on the first Tuesday in August preceding a presidential election.

Under the bill, the timeline for circulating and filing nomination papers for independent candidates for president and vice president is the same as that for all other independent candidates for offices to be voted on at the general election: nomination papers may be circulated no sooner than the April 15 preceding the general election and must be filed no later than the June 1 preceding the partisan primary.

24 day, the election inspectors shall check and record the status of each tamper-evident  
25 seal. The election inspectors shall immediately notify the commission of any

4 5.84. If the election inspectors discover evidence of tampering under this paragraph,  
5 the municipality shall conduct a recount after the election of all absentee ballots cast

12 canvass is complete or after the polls close on election day, whichever is later.

13 (f) No person may intentionally act in a manner that would give him or her the  
14 ability to know or to provide information on the accumulating or final results from  
15 the ballots canvassed under this section before the canvass is complete or before the

12 the number on a separate list maintained under this subsection. The board of  
13 absentee ballot canvassers shall record each elector's sequential count number on  
14 the face of the elector's certificate envelope.

15 **SECTION 15.** 7.52 (3) (a) of the statutes is amended to read:
