Analysis by the Legislative Reference Bureau

This bill creates a tax credit program administered by the Wisconsin Economic Development Corporation under which a person, referred to in the bill as an "eligible applicant," who owns a sole proprietorship, single-member limited liability company, or single-owner corporation in Wisconsin may receive tax credits in connection with the employee the eligible applicant employs in the first full-time job created by the applicant.

Specifically, under the bill, WEDC may certify an eligible applicant to claim a nonrefundable credit to offset income taxes for up to three consecutive taxable years as follows:

- 1. For the first such taxable year during which the eligible applicant employs an employee in an eligible full-time job, an amount equal to 100 percent of the wages paid to the employee in that year or \$10,000, whichever is less.
- 2. For the second such taxable year during which the eligible applicant employs an employee in an eligible full-time job, an amount equal to 50 percent of the wages paid to that employee in that year or \$5,000, whichever is less.

A full-time job is eligible under the bill if it is the first full-time job created by the eligible applicant that is not held by the eligible applicant or a member of the eligible applicant's immediate family and if the job was first created by the eligible applicant within the three years immediately preceding the date of initial application. The bill defines "full-time job" to mean a regular, nonseasonal full-time position in which an individual, as a condition of employment, is required to work at least 2,080 hours per year, including paid leave and holidays, and for which the individual receives pay that is equal to at least 150 percent of the federal minimum wage. Under the bill, the maximum amount of the credits that WEDC may certify under the program may not exceed \$20,000,000 in any calendar year.
