Analysis by the Legislative Reference Bureau

This bill requires the Wisconsin Economic Development Corporation to award grants of up to \$2,000,000 to political subdivisions of this state for costs associated with the redevelopment of buildings or other sites owned by the political subdivision on a University of Wisconsin System branch campus that are or will no longer be used for academic purposes. A branch campus is any of the former two-year college campuses that were partnered with a four-year UW System campus in the 2018 UW System restructuring. A grant may be awarded only to fund activities that contribute to the overall economic improvement and enhancement of the community, including activities that facilitate job creation, workforce development, small business support, housing, or public infrastructure improvement. To receive a grant, a political subdivision must submit community letters of support for the grant and provide local matching funding in an amount of at least 20 percent of the grant amount. Before making any other grants, WEDC must first award a grant of up to \$2,000,000 to Richland County, then award grants of up to \$2,000,000 to Fond du Lac

County, Washington County, and Marinette County. The bill provides grant funding through a Joint Committee on Finance supplemental appropriation.
