This bill directs DPI, annually by June 30, to publish a school and school district accountability report that includes the following components:

1. Multiple measures to determine performance, including pupil achievement and growth in reading and mathematics; measures of college and career readiness; and gaps in pupil achievement and rates of graduation, categorized by race, English language proficiency, disability, and income.

2. An index system to identify a school's level of performance and annually place each school into one of five performance categories.

Within one year after an independent charter school, or a private school participating in a parental choice program, begins using the student information system established by DPI, DPI must include the school in its annual school accountability report.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
