***Lead screening and outreach grants***

Under current law, DHS must award grants related to lead poisoning and lead exposure prevention. This bill increases the amount of money granted to fund lead screening and outreach activities at community-based human service agencies that provide primary health care, health education, and social services to low-income individuals in first class cities from \$125,000 each fiscal year to \$175,000. Currently, the only first class city is Milwaukee.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
