***Video service provider fee***

Under current law, the state provides an aid payment to municipalities to compensate the municipalities for a state-mandated reduction in the amount of video service provider franchise fees that a municipality may impose and collect. The aid amount is a percentage of the gross receipts reported to the municipality by the video service provider. In 2020, the amount that a municipality received was equal to 0.5 percent of the video service provider's gross receipts. In 2021, the municipality will receive an amount equal to 1 percent of the gross receipts. Annually, beginning in 2022, the municipality will receive an amount equal to the amount it received in 2021.

This bill changes the appropriation for the aid payment from an annual appropriation to a sum sufficient appropriation.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
