Low-income housing tax credit

Under current law, WHEDA may certify a person to claim, for a period of up to six years, a state tax credit if the person has an ownership interest in a low-income housing project in Wisconsin and qualifies for the federal low-income housing tax credit program. This bill increases the period for which the credit may be claimed from 6 years to 10 years and increases the amount of credits that WHEDA may annually certify from \$42,000,000 to \$100,000,000. The bill also requires that the project be allocated the federal credit and financed with tax-exempt bonds that are not subject to the federal credit's volume cap—as opposed to *any* tax-exempt bonds, as required under current law—and allows WHEDA to waive these requirements to the extent that WHEDA anticipates that sufficient tax-exempt private activity bond volume cap under federal law will not be available to finance low-income housing projects in any year.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
