Sparsity aid; stop gap payments

Under current law, a school district is eligible for sparsity aid if the number of pupils per square mile in the school district is less than ten and the school district's membership in the previous school year did not exceed 1,000 pupils. The amount of aid is \$400 per pupil if the school district's membership in the previous school year did not exceed 745 pupils and \$100 per pupil if the if the school district's membership in the previous school year was between 745 and 1,000 pupils. Current law also provides a reduced payment, known as a stop gap payment, to a school district that was eligible to receive sparsity aid in the previous school year but is not eligible to receive sparsity aid in the current school year because it no longer satisfies the pupils-per-square-mile requirement. The amount of the stop gap payment is 50 percent of the amount of sparsity aid the school district received in the previous school year.

Under the bill, beginning in the 2023-24 school year, a school district is eligible for a sparsity aid stop gap payment if the school district is ineligible for sparsity aid in the current school year because it no longer satisfies the pupils-per-square-mile requirement or the membership requirement.

For further information see the local fiscal estimate, which will be printed as an appendix to this bill.
