Access to period products in schools

This bill requires each school district and operator of an independent charter school to provide period products to any pupil who needs them while at school, at no charge to the pupil. In addition, the bill requires DPI to distribute aid for the provision of period products to certain school districts and independent charter schools. Under the bill, a school district or independent charter school is eligible for aid if the school district or independent charter school had a greater percentage of economically disadvantaged pupils enrolled in or attending the school district or independent charter school than the statewide percentage of economically disadvantaged pupils in the previous school year. Under the bill, DPI must distribute to each eligible school district and independent charter school the greater of \$100 or an amount that is proportionate to the number of economically disadvantaged pupils enrolled in or attending the eligible school district or independent charter school in the previous school year compared to the total number of economically disadvantaged pupils enrolled in or attending eligible school districts or independent charter schools in the previous school year. If the amount appropriated for this aid is insufficient to pay the full amount of aid, DPI must prorate the aid payments among the eligible school districts and independent charter schools. The bill defines an “economically disadvantaged pupil” as a pupil who satisfies the federal income eligibility requirements for a free or reduced-price lunch.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
