ANALYSIS BY THE DEPARTMENT OF PUBLIC INSTRUCTION

Statute interpreted: s. 115.28 (7) (a), Stats.

Statutory authority: s. 115.28 (7) (a), Stats.

Explanation of agency authority:

115.28 General duties. The state superintendent shall:

(7) Licensing of teachers.

(a) License all teachers for the public schools of the state; make rules establishing standards of attainment and procedures for the examination and licensing of teachers within the limits prescribed in ss. 118.19 (2) and (3), 118.191, 118.192, 118.193, 118.194, and 118.195; prescribe by rule standards, requirements, and procedures for the approval of teacher preparatory programs leading to licensure, including a requirement that, beginning on July 1, 2012, and annually thereafter, each teacher preparatory program located in this state shall submit to the department a list of individuals who have completed the program and who have been recommended by the program for licensure under this subsection, together with each individual's date of program completion, from each term or semester of the program's most recently completed academic year; file in the state superintendent's office all papers relating to state teachers' licenses; and register each such license.

Plain language analysis:

PI 34 contains the current administrative rules governing the licensure of school personnel. This emergency rule makes numerous changes to the existing rule, which include the following:

- Creating the ability for Wisconsin educators who are age 55 or older to apply for a five-year, nonrenewable license without having to meet professional development requirements (i.e., 6 credits or a PDP).
- Increasing the number of consecutive days that a short-term substitute can be in the same assignment from 20 to 45 days. This should allow schools enough time to either find a properly licensed educator for the position or apply for an emergency license or permit for an educator who does not hold a license acceptable for the assignment.
- Expanding the renewal options for emergency licenses to include attempting to pass required tests for licensure for educators who have met all other requirements and submitting a plan to complete an approved program.
- Expanded the pathway for teachers to add additional licenses based on content tests to allow:
 - Teachers who hold an Early Adolescence-Adolescence (grades 5-12) regular education license can add another regular education license at the same developmental/grade level by passing a content test.

- Teachers who hold a Middle Childhood-Early Adolescence (grades 1-8) regular education license and have at least four semesters of teaching experience in grades 1 or 2 can add a regular education license at the Early Childhood level (birth to grade 3) by passing the Praxis II Elementary Education Content Knowledge test and the Foundations of Reading Test.
- Teachers who hold a Middle Childhood-Early Adolescence (grades 1-8) regular education license and have at least four semesters of teaching experience in English/language arts or math in grades 7 or 8 can add a license in that subject at the Early Adolescence-Adolescence level by passing a content test.

SECTION 14. STATEMENT OF EMERGENCY:

FINDING OF EMERGENCY

The Department of Public Instruction finds an emergency exists and that a rule is necessary for the immediate preservation of the public welfare. A statement of the facts constituting the emergency is:

School districts throughout the state are experiencing difficulties obtaining and retaining licensed personnel. These difficulties can impact children's educational experience. An emergency rule is needed to create additional flexibility in the teacher licensing process for individuals who are seeking a license for the 2016-17 school year, which starts July 1, 2016. A permanent rule would not be able to provide additional flexibility on a timely basis for the upcoming school year.

SECTION 15. EFFECTIVE DATE:

The rules contained in this order shall take effect upon publication as emergency rules pursuant to the authority granted by s. 227.24, Stats.
