<p>11. Policy Problem Addressed by the Rule On April 14, 2020, the Secretary-designee of the Wisconsin Department of Health Services issued Emergency Order #25 to impose safety measures for migrant labor camps in response to the SARS-CoV-2 virus which causes the coronavirus disease 2019. In this Fiscal Estimate &amp; Economic Impact Analysis, the virus and disease are referred to as "COVID-19." Because the risks associated with COVID-19 for migrant workers were likely to continue after Emergency Order # 25 expired on June 13, 2020, the Department promulgated emergency rule EmR2014, which expires on March 8, 2021. When EmR2014 was promulgated, it was not anticipated that a permanent rule would be necessary. In fact, the Department does not seek to make these protections permanent in DWD 301. Yet, because COVID-19 risks continue into this year's migrant labor season, a new emergency rule, based on recent public health guidance, is necessary for the preservation of public health, safety, and welfare.</p>	
<p>12. Summary of the Businesses, Business Sectors, Associations Representing Business, Local Governmental Units, and Individuals that may be Affected by the Proposed Rule that were Contacted for Comments. The Department held a preliminary public hearing and comment period on the scope statement for the rule and received comments from the Midwest Food Products Association, United Food &amp; Commercial Workers Union Local 1473, and Legal Action of Wisconsin. In drafting the rule, the Department considered comments by the Midwest Food Products Association, Seneca Foods Corporation, Legal Action of Wisconsin, and United Migrant Opportunity Services. The Department also received input from the Governor's Council on Migrant Labor.</p>	
<p>13. Identify the Local Governmental Units that Participated in the Development of this EIA. None.</p>	
<p>14. Summary of Rule's Economic and Fiscal Impact on Specific Businesses, Business Sectors, Public Utility Rate Payers, Local Governmental Units and the State's Economy as a Whole (Include Implementation and Compliance Costs Expected to be Incurred) While there are costs associated with complying with the rule, the rule is intended to minimize the spread of COVID-19 to protect food production and processing and farming operations that use migrant labor and, thereby, have a net positive economic impact on those businesses.</p>	

## ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

---

15. Benefits of Implementing the Rule and Alternative(s) to Implementing the Rule

The rule is intended to minimize the spread of COVID-19 in migrant labor camps. The alternative is to do nothing.

---

16. Long Range Implications of Implementing the Rule

The rule is an emergency rule with a temporary duration that is not intended to have long range implications other than preventing the spread of COVID-19.

---

17. Compare With Approaches Being Used by Federal Government

The Migrant & Seasonal Agricultural Worker Protection Act (MSPA), 29 U.S.C. 1801, et. seq., sets standards for migrant and seasonal agricultural workers regarding housing and transportation. MSPA requires that providers of housing to migrant and seasonal agricultural workers comply with certain minimum standards for health and safety, and that transportation providers have vehicles that meet certain standards for safety. It also requires the contractors of migrant agricultural workers to provide prior notice to such workers of the working conditions.

---

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Except in Michigan, no agency in an adjacent state has promulgated rules that specifically address protecting migrant workers from exposure to COVID-19. Except in Michigan, agencies in adjacent states are issuing guidance and recommendations from their health departments and sharing CDC and Occupational Safety and Health Administration recommendations to employers. On March 2, 2021, the Michigan Department of Agriculture and Rural Development promulgated emergency rules requiring owners and operators of agricultural labor housing camps to develop and implement COVID-19 preparedness and response plans, which must include a training component for providing adult camp residents with information about social distancing, personal protective equipment, and enhanced sanitation and prevention measures. The emergency rules also require camp operators to report to local health departments information about camp residents who exhibit COVID-19 symptoms or who test positive for COVID-19. The emergency rules include other requirements, including requiring camp operators to arrange for those camp residents to be evaluated by healthcare providers and requiring camp operators to provide isolation and quarantine housing to those camp residents.
