---

**2015 Wisconsin Act 76**  
[2015 Assembly Bill 158]

**Repealing Certain Rules  
Promulgated by the Department of  
Natural Resources**

2015 Wisconsin Act 76 repeals a chapter of the Wisconsin Administrative Code that was promulgated by the Department of Natural Resources and relates to the administration of three grant programs. The three programs include: (1) a program for the replacement or rehabilitation of private, on-site wastewater treatment systems; (2) a program for point source pollution abatement; and (3) a program for combined sewer overflow abatement projects.

The first program is currently administered by the Department of Safety and Professional Services, which has promulgated rules to administer the program under ch. SPS 387, Wis. Adm. Code. Statutory authority for the second program expired in 1990. No state funds have been appropriated for the third program in recent years.

*Effective date:* November 13, 2015
