### *Analysis by the Legislative Reference Bureau*

Currently, at the presidential election, electors may vote a straight party ticket for the candidates of any party that has a separate ballot or column on the ballot, except for the offices of president and vice president. In order to vote for the offices of president and vice president, electors must cast a separate ballot or vote, regardless of whether they vote a straight party ticket.

This bill eliminates the separate presidential ballot so that electors who vote a straight party ticket will automatically cast a vote for the candidates of their selected party for president and vice president without having to cast a separate ballot or vote for these offices.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
