### *Analysis by the Legislative Reference Bureau*

The Wisconsin Institute of Family Medicine currently operates a summer externship program for students who have completed their first year at the University of Wisconsin (UW) Medical School or the Medical College of Wisconsin. Each student in the program spends 8 weeks working with a family physician.

Beginning in the 1998-99 academic year, this bill directs the department of administration annually to pay to the institute an amount equal to the amount raised by the institute for the program from other sources in the previous fiscal year, not exceeding \$100,000, for the purpose of increasing the number of students enrolled in the UW Medical School and Medical College of Wisconsin who are able to participate in the program. The bill appropriates a sum sufficient for that purpose.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
