## **1997 ASSEMBLY BILL 973**

May 13, 1998 – Introduced by COMMITTEE ON RULES, by request of Representative Ladwig. Referred to Committee on Ways and Means.

1       **AN ACT relating to:** the expenditure of \$1,277,306 from the transportation fund  
2              for payment of a claim against the state made by James Cape and Sons  
3              Company.

---

***Analysis by the Legislative Reference Bureau***

This bill directs expenditure of \$1,277,306, from the transportation fund in payment of a claim made by James Cape and Sons Company against the department of transportation (DOT). In 1992 and 1993, the claimant performed work for DOT under contract for highway improvements at the intersection of I 94 and STH 156 in Kenosha County. At the request of DOT, the claimant performed additional work and incurred related costs that were not contemplated by its contract.

The claimant alleges that these costs were necessitated by delays, design errors, inconsistent direction and premature suspension of part of its work by DOT, which delayed its anticipated completion dates for parts of the project. The costs included \$956,363 in direct costs for pavement spread loss and cold weather protection, extended equipment costs, additional mobilization costs and dirt rehandling, \$125,984 in overhead costs, together with \$194,959 for the estimated costs of preparing this claim, additional bonding costs and profit on all costs except bonding costs (total = \$1,277,306). As of May 5, 1998, neither DOT nor the claims board has made any recommendation with respect to this claim.
