## **1997 SENATE BILL 102**

March 4, 1997 - Introduced by Senator Wineke, cosponsored by Representative Travis. Referred to Committee on Education.

- 1 AN ACT to repeal 120.12 (10) of the statutes; relating to: the use of school district
- 2 property by citizen associations.

## Analysis by the Legislative Reference Bureau

Under current law, a school board must grant the use of a school building or other school property to any nonpartisan, nonsectarian, nonexclusive association that is organized for the discussion of public questions or for the promotion of public health by instruction in physical culture and hygiene or by physical exercises. The school board may not charge a fee for such use.

This bill eliminates the above requirement. The bill does not affect the authority of a school board to grant the temporary use of school grounds, buildings, facilities or equipment, upon conditions (including fees that do not exceed actual costs) determined by the school board, to any responsible person for any lawful nonschool purpose.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **Section 1.** 120.12 (10) of the statutes is repealed.
