February 16, 1999 – Introduced by Joint Committee on Finance, by request of Governor Tommy G.

Thompson. Referred to Joint survey committee on Tax Exemptions.

AN ACT **relating to:** state finances and appropriations, constituting the executive budget act of the 1999 legislature.

Analysis by the Legislative Reference Bureau

INTRODUCTION

This bill is the "executive budget bill" under section 16.47 (1) of the statutes. It contains the governor's recommendations for appropriations for the 1999–2001 fiscal biennium. The bill repeals and recreates the appropriation schedule in chapter 20 of the statutes, thereby setting the appropriation levels for the 1999–2001 fiscal biennium.

The descriptions that follow relate to the most significant changes in the law that are proposed in the bill. In most cases, changes in the amounts of existing spending authority and changes in the amounts of bonding authority under existing bonding programs are not discussed.

For additional information concerning this bill, see the department of administration's publication *Budget in Brief* and the executive budget books, the legislative fiscal bureau's summary document and the legislative reference bureau's drafting files, which contain separate drafts on each policy item. In most cases, the policy item drafts contain a more detailed analysis than is printed with this bill.

GUIDE TO THE BILL

As is the case for all other bills, the sections of the budget bill that affect statutes are organized in ascending numerical order of the statutes affected.

Treatments of prior session laws (styled "laws of [year], chapter" from 1848 to 1981, and "[year] Wisconsin Act" beginning with 1983) are displayed next by year of original enactment and by act number.

The remaining sections of the budget bill are organized by type of provision and, within each type, alphabetically by state agency. The first two digits of the four-digit section number indicate the type of provision:

For example, for general nonstatutory provisions relating to the historical society, see Section 9124. For any agency that is not assigned a two-digit identification number and that is attached to another agency, see the number of the latter agency. For any other agency not assigned a two-digit identification number or any provision that does not relate to the functions of a particular agency, see number "58" (**other**) within each type of provision.

In order to facilitate amendment drafting and the enrolling process, separate section numbers and headings appear for each type of provision and for each state agency, even if there are no provisions included in that section number and heading. Section numbers and headings for which there are no provisions will be deleted in enrolling and will not appear in the published act.

AGRICULTURE

Under current law, one of the eligibility requirements for the farmland preservation credit is that the land to which the credit relates must be subject either to a farmland preservation agreement between the landowner and the department of agriculture, trade and consumer protection (DATCP) or to an exclusive agricultural use zoning ordinance that is certified by the land and water conservation board (LWCB). A farmland preservation agreement requires the owner to keep the land in agricultural use for the duration of the agreement, up to 25 years, although DATCP may release land from an agreement under certain circumstances. In some of the circumstances under which DATCP may release land from a farmland preservation agreement, or if land is rezoned from exclusive agricultural use, DATCP is required to file a lien against the land for the amount of the farmland preservation credit received by the owner during the preceding ten years.

For taxable years beginning after December 31, 2000, this bill eliminates the requirement that land be subject to a farmland preservation agreement or exclusive agricultural use zoning in order for the owner to qualify for the farmland preservation credit. See **TAXATION** for a description of all of the changes in the credit. The bill prohibits DATCP from entering into additional farmland preservation agreements and requires DATCP to release land from an existing farmland preservation agreement at the request of the owner. DATCP must file a lien against the land for the amount of the farmland preservation credit received by the owner during the preceding ten years unless the land qualifies for release under one of the current circumstances under which a lien is not required. Under the bill, land that is rezoned from exclusive agricultural use zoning after December 31, 2000, is not subject to a lien.

Under current law, another eligibility requirement for the farmland preservation credit is that the land be farmed in compliance with a soil and water conservation plan or with soil and water conservation standards established by the county in which the land is located and approved by LWCB. Under the bill, beginning on January 1, 2001, all claimants must comply with the soil and water conservation standards. The bill requires counties to revise the standards so that they are consistent with the tolerable erosion standard established by LWCB and with nutrient management rules promulgated by DATCP.

Under current law, an exclusive agricultural use zoning ordinance must generally provide that the minimum parcel size for establishing a residence or a farm operation is 35 acres. This bill eliminates that requirement effective January 1, 2001, and requires instead that an exclusive agricultural use ordinance must specify a minimum lot size.

Under current law, a person may not operate a nursery (a place where plants are grown for sale) in this state without a license from DATCP. The license fee is based primarily on total nursery acreage. A person other than the operator of a nursery may not sell nursery stock without a nursery dealer license from DATCP. The nursery dealer license fee is \$25 for each place of business.

Under this bill, the license fee for a nursery operator (called a nursery grower) is based on annual sales of nursery stock and the nursery dealer license fee is based on annual purchases of nursery stock. The bill also requires that Christmas tree growers be licensed as nursery growers.

Current law requires county land conservation committees to prepare land and water resource management plans. The plans must be reviewed by LWCB and approved by DATCP. This bill provides for land and water resource management plans to be reviewed by DATCP, in consultation with the department of natural resources, and approved by LWCB. The bill also changes the requirements for the contents of a land and water resource management plan by, among other things, requiring the identification of water quality goals and a system for monitoring the progress of the activities described in the plan.

Under current law, DATCP awards grants for land and water resource management projects and for the construction of animal waste management systems. Current law authorizes the issuance of up to \$3,000,000 in state bonds for this program. This bill increases that bonding authority by \$3,575,000.

Under current law, DATCP regulates establishments where animals are slaughtered and where meat is processed if those establishments are not federally licensed. This bill requires slaughtering and meat processing establishments that are not federally licensed to comply with the federal regulations that apply to federally licensed establishments, except as otherwise provided in rules promulgated by DATCP.

Under current law, DATCP collects fees related to fertilizer, animal feeds and pesticides from persons who manufacture and sell these products. The fees are used for the management of agricultural chemicals. The 1997–99 biennial budget act lowered the amount of these fees for two years. This bill extends the lower fee amounts for two additional years.

For the fertilizer and animal feed fees, the bill also imposes a weights and measures fee on each ton of fertilizer or animal feed sold. The fees are used by DATCP for its weights and measures inspection program. This bill reduces the fertilizer and animal feed fees so that the total fee per ton remains the same as it is under current law.

Under current law, drainage boards operate drainage districts, which drain property owned by two or more persons. DATCP assists drainage boards and oversees their activities and promulgates rules that apply to drainage boards.

This bill establishes a program under which DATCP makes grants to drainage boards to assist the boards to comply with applicable laws and rules.

This bill authorizes DATCP to accept electronic applications and payments for licenses issued and services provided by DATCP. DATCP may charge a fee to cover its electronic processing costs.

COMMERCE AND ECONOMIC DEVELOPMENT

ECONOMIC DEVELOPMENT

This bill authorizes the department of commerce to award grants and loans to businesses that are located in the same county as a casino that is operated by a federally recognized American Indian tribe or band or in a county adjacent to such a county. A grant for professional services, such as engineering studies, feasibility studies, marketing assistance or legal or accounting services, may not exceed \$15,000. A grant or loan for fixed asset financing may not exceed \$100,000. For either of these grants or loans, the department must determine that the recipient has been negatively impacted by the existence of the casino and that the recipient has a need for the grant or loan to improve its profitability. Unless the department waives the requirement for financial hardship reasons, any business receiving a grant or loan must provide matching funds for 25% of the cost of the project.

The bill also authorizes the department to award a grant or loan to a business described above for the purpose of diversifying the economy of a community in proximity to a casino. In determining whether to award a grant or loan, the department must consider a project's potential to retain or increase jobs, potential for significant capital investment and contribution to the economy of the community in proximity to the casino and to the economy of the state. A business that receives a grant or loan must provide matching funds for at least 25% of the cost of the project. Moneys for all of these grants and loans come from Indian gaming receipts. In addition, Indian gaming receipts are used for economic development grants for Brown County in fiscal years 1999–2000 and 2000–01.

Under current law, general purpose revenue is appropriated to the department of commerce for economic development for American Indians. This bill changes the source of the funding to Indian gaming receipts.

The Wisconsin Housing and Economic Development Authority (WHEDA) administers a number of loan guarantee programs. Under the small business development loan guarantee program, WHEDA may guarantee up to 80% or \$200,000, whichever is less, of the principal of a loan made by a private lending institution to a business that employs 50 or fewer full-time employes (small business), or to the elected governing body of a federally recognized American Indian tribe or band in this state, for certain business development projects. The total outstanding guaranteed principal amount of all loans that WHEDA may guarantee under the program is \$9,900,000.

This bill adds a new type of eligible borrower to the program: a small business that is located in the same county as a casino that is operated by a federally recognized American Indian tribe or band or in a county that is adjacent to such a county. For such a loan, WHEDA may guarantee up to 100% or \$200,000, whichever

is less, of the loan principal. In addition, for such a loan WHEDA annually may pay to the financial institution that made the loan up to 3.5% of the outstanding balance of the loan as an interest subsidy. The bill increases the total outstanding guaranteed principal amount of all loans that WHEDA may guarantee under the program from \$9,900,000 to \$21,150,000. The bill also authorizes WHEDA to use Indian gaming receipts for guarantees and interest subsidies for loans made to businesses located in the same counties as American Indian casinos or in counties adjacent to those counties.

Currently, under the physician loan assistance and health care provider loan assistance programs, the department of commerce may repay up to a specified amount in educational loans on behalf of a physician, physician's assistant, nurse-midwife or nurse practitioner who agrees to practice at least 32 clinic hours per week for three years in one or more eligible practice areas, defined generally as areas in this state with shortages of certain types of health care providers. The loan repayments are funded from general purpose revenue. This bill changes the funding source to Indian gaming revenue.

This bill appropriates Indian gaming receipts to the department of tourism for tourism marketing expenditures and for providing funds to nonprofit organizations for the joint effort marketing of tourism in the state.

This bill authorizes WHEDA to organize and maintain a nonstock, nonprofit corporation for the purpose of investing in biotechnology companies in this state. Biotechnology is defined as technology related to life sciences. General purpose revenue is provided to the corporation for start-up capital and for its reasonable administrative expenses. WHEDA must provide administrative services to the corporation by assigning its own employes or by contracting with private or state agencies to provide the services.

The corporation may invest in a biotechnology company by purchasing capital participation instruments, such as capital stock, partnership or membership interests, evidences of indebtedness and royalties, in a commercial, industrial or other economic enterprise undertaken by the biotechnology company. The corporation may not purchase more than 49% of the voting stock in any such enterprise and may not invest more than \$200,000 in any one biotechnology company.

The board of directors of the corporation includes the executive director of WHEDA, the secretary of commerce, the secretary of administration, the executive director of the investment board, the president of the University of Wisconsin System and the president of Forward Wisconsin, Inc., or the designee of any of them, and three other members who are initially appointed by the governor and who must include representatives of the state's biotechnology research community, biotechnology industry and venture capital industry.

This bill authorizes the department of commerce to award a grant of not more than \$1,000,000 to a consortium of business, governmental and educational entities in the Racine–Kenosha area for a manufacturing technology training center. The consortium must submit a business plan to the department, and the secretary of commerce must approve the plan before the grant may be made. The department and the consortium must enter into a written agreement concerning the use of the grant proceeds, and the consortium must submit a report to the department on the use of the grant proceeds within six months after spending the proceeds.

This bill authorizes the department of commerce to make a loan of not more than \$600,000 to a person for a project that includes a pedestrian bridge. In order to receive the loan, the person must submit a project plan and the plan must be approved by the secretary of commerce. The person must enter into a written agreement with the department related to the use of the loan proceeds, and must agree to report to the department on the use of the loan proceeds after the proceeds are spent.

This bill eliminates the manufacturing assistance grants program, under which the development finance board awards grants to fund a management assessment and plan, to provide customized training for employes of a business supplying a manufacturing business and to provide support for a manufacturing extension center technology transfer program. Grants may not total more than \$750,000 in a fiscal biennium and are funded with general purpose revenue from the Wisconsin development fund and with repayments from grants and loans made from the Wisconsin development fund.

This bill authorizes the department of commerce to award a grant to a technology-based nonprofit organization to provide support for a manufacturing extension center. Grants awarded under the program may not exceed \$1,000,000 in a fiscal year and are funded solely with repayments of grants and loans made from the Wisconsin development fund.

This bill authorizes the department of commerce to award grants for costs associated with the start-up or expansion of a business that is or will be located in a city, village or town that has a population of more than 6,000 or that is located in a county with a population density of 150 or more persons per square mile. The department may not award more than \$15,000 to any one person in a fiscal biennium, and may not award more than \$250,000 under the program in a fiscal biennium. A person may not receive a grant unless the person submits to the department a comprehensive informational application and contributes at least 25% of the cost of the project.

Currently, if the department of commerce designates an area as a development zone, a development opportunity zone or an enterprise development zone, a person or corporation that conducts or that intends to conduct economic activity in the

designated zone may be eligible for certain tax credits, called development zones credits, based on the creation or retention of jobs and on expenses incurred to remediate environmental problems.

This bill eliminates the requirement that the department obtain the approval of the joint committee on finance to designate more than 50 enterprise development zones and increases the number of enterprise development zones that the department may designate to 100. The bill increases the amount in tax credits that the department must allow a person to claim for creating or retaining a job in a development zone or in an enterprise development zone. The bill increases to \$300,000,000 the total amount of tax credits that may be claimed under the development zone and enterprise development zone programs together. Under current law, the amount of tax credits that may be claimed under the development zone program is \$33,155,000 and the amount that may be claimed under the enterprise development zone program is not specified. Finally, the bill authorizes the department to designate enterprise development zones for projects that will likely provide for significant environmental remediation. Under current law, the department may designate an enterprise development zone only for a project that is likely to retain or increase employment in the state and that will likely have a positive effect on an area that meets at least three criteria relating generally to economic circumstances. Of the 100 enterprise development zones that the department may designate under the bill, the department must designate at least ten for projects for environmental remediation.

Currently, the department of commerce awards grants to persons for the redevelopment of brownfields and associated environmental remediation activities. Brownfields are abandoned, idle or underused industrial or commercial facilities or sites that are adversely affected for expansion or redevelopment by actual or perceived environmental contamination. Grants are paid from general purpose revenue and from the environmental fund.

This bill adds another type of grant to the program based on the creation or retention of jobs. Under the bill, any person eligible for a grant under the current program is eligible for the new type of grant if, in addition to satisfying the criteria under current law, the grant applicant creates or retains jobs with the grant proceeds. At least 80% of the jobs created or retained must be filled by individuals who are parents of minor children and who have family incomes that do not exceed 200% of the federal poverty line. The new grants are paid from the federal temporary assistance for needy families block grant moneys. The current requirement that the department must award at least seven grants under the program for projects that are located in municipalities with a population of less than 30,000 is changed to a requirement that the department must award at least 14 grants for projects that are located in municipalities with a population of less than 50,000.

The department of commerce currently awards grants and loans from the Wisconsin development fund for various purposes generally related to technology and product research and development and labor training. This bill provides that

in fiscal year 1999–2000 the department of commerce may provide up to \$100,000 in assistance from the fund to a nonprofit organization that provides assistance to organizations and individuals in urban areas.

Currently, WHEDA guarantees the repayment of loans made to businesses and individuals for various specified purposes by private lending institutions. The loans are guaranteed from the Wisconsin development reserve fund. This bill transfers \$2,000,000 from the Wisconsin development reserve fund to the environmental fund, which funds such activities as environmental repair, groundwater management and nonpoint source water pollution abatement. In addition, the bill reduces WHEDA's loan guarantee authority for the remediation of brownfields.

Currently, moneys in the housing rehabilitation loan program administration fund may be used to pay for WHEDA's expenses in administering the housing rehabilitation loan program, which promotes housing rehabilitation through, among other things, the purchase of housing rehabilitation loans from lenders. Moneys may be transferred to the general fund if the moneys are no longer required for the housing rehabilitation loan program. This bill eliminates the transfer of moneys to the general fund and instead authorizes the transfer of moneys to the Wisconsin development reserve fund, which WHEDA uses to fund loan guarantees under all of its loan guarantee programs.

The bill also eliminates the cultural and architectural landmark loan guarantee program, under which WHEDA may guarantee a loan to an organization for acquiring, constructing, improving or rehabilitating a property that is an architectural masterpiece and that has historical significance.

Under the statutes, records created and maintained by a governmental agency are normally open to inspection by anyone who requests inspection or copies of the records. Also under current law, a governmental agency is prohibited from selling or renting a record containing an individual's name or address unless authorized by statute. This bill allows the department of tourism to refuse to reveal names, addresses and related demographic information from any lists maintained by the department of persons who have requested travel information from the department. In addition, if the department reveals information from any such list, the department may charge a fee to recover its costs in compiling and providing the information.

Under current law, the department of commerce awards grants to community-based organizations for regional economic development, but is limited in the amount that it may award in a fiscal year. This bill removes this limit so that the department may use its discretion in the total amount of grants awarded.

Under current law, the department of commerce provides technical assistance, or a grant for technical assistance, to individuals, nonprofit organizations and businesses with fewer than 25 full-time employes for developing and planning the

start-up or expansion of a business that is expected to provide job opportunities for persons with severe disabilities. This bill makes businesses with fewer than 100 employes eligible for such assistance.

COMMERCE

This bill allows a savings bank, a savings and loan association and a state bank (a financial institution) to become certified by the division of banking in the department of financial institutions (DFI) as a universal bank. If certified as a universal bank, the financial institution may exercise certain additional powers.

In order to be certified as a universal bank, a financial institution must be chartered or organized, and regulated, as a Wisconsin financial institution and be in existence and continuous operation for at least three years; must be well-capitalized or adequately capitalized; must not exhibit moderately severe or unsatisfactory financial, managerial, operational and compliance weaknesses; and must not have been the subject of any enforcement action within the 12 months preceding the application.

A financial institution that the division of banking certifies as a universal bank retains its original status and remains subject to all of the laws that applied to the financial institution prior to its certification as a universal bank, except to the extent that such laws are inconsistent with the powers and duties of universal banks.

The bill expands the powers of a financial institution that becomes certified as a universal bank to include any activity authorized for any savings bank, savings and loan association or state bank. In addition, the bill does all of the following with respect to the powers that a universal bank may exercise:

- 1. The bill grants a universal bank the authority to exercise all powers that may be exercised, either directly or through a subsidiary, by a national bank, a federally chartered savings bank or a federally chartered savings and loan association.
- 2. A universal bank may deal in loans or extensions of credit for any purpose. Like state banks, the limitations imposed on a universal bank's lending generally focus on the total amount of liabilities of any one lender at any one time. Although the limit varies, the general rule is that the total liabilities of any one person to a universal bank may not exceed 20% of the capital of the universal bank. In addition, the bill grants a universal bank additional authority to lend an aggregate amount to all borrowers not to exceed 20% of the bank's capital. The division of banking may suspend this additional authority based upon factors including the universal bank's capital adequacy, management, earnings, liquidity and sensitivity to market risk.
- 3. To the extent consistent with safe and sound banking powers, a universal bank may purchase, sell, underwrite and hold certain investment securities in an amount up to 100% of the universal bank's capital. A universal bank may not invest greater than 20% of its capital in any one obligor or issuer. Subject to certain limits, the bill also allows a universal bank to purchase, sell, underwrite and hold equity securities. Universal banks may also invest in certain housing properties and projects and profit–participation projects. The bill provides that a universal bank also may invest without limitation in several specific types of securities. The universal bank may invest in risk management instruments, including financial

futures transactions, financial operations transactions and forward commitments, solely for the purpose of reducing, hedging or otherwise managing its interest rate risk exposure. In addition, a universal bank may invest in other financial institutions. However, the bill contains specific provisions governing the purchase by a universal bank of its own stock and of stock in banks and bank holding companies.

- 4. The bill grants a universal bank the authority to establish the types and terms of deposits that the universal bank solicits and accepts. A universal bank may pledge its assets as security for deposits and, with the approval of the division of banking, may securitize its assets for sale to the public. In addition, a universal bank may exercise certain safe deposit and trust powers.
- 5. A universal bank may exercise all powers necessary or convenient to effect the purposes for which the universal bank is organized or to further the businesses in which the universal bank is lawfully engaged. In addition, the bill allows a universal bank to engage in activities that are reasonably related or incident to the purposes of the universal bank. The bill specifies numerous activities that are either reasonably related or incidental powers, including real estate-related services; insurance services, other than insurance underwriting; securities brokerage; investment advice; securities and bond underwriting; mutual fund activities; financial consulting; and tax planning and preparation. A universal bank may also engage in any activity permitted to be engaged in by bank holding companies under the federal Bank Holding Company Act.

Under Wisconsin's version of the Uniform Unclaimed Property Act (UUPA), the holder of certain types of intangible property that is presumed to be abandoned must report and deliver the property to the state treasurer. If the presumption that the property is abandoned is incorrect, the holder must file a statement with the state treasurer explaining the error in the presumption. The UUPA defines intangible property to include a sales credit reflected in a vendor's bookkeeping. This bill excludes from the definition of intangible property a balance credited by a business association to a commercial customer's account in the ordinary course of business. Thus, the bill eliminates the requirement that a vendor either report and deliver to the state treasurer a sales credit issued to a commercial customer's account or file a statement with the state treasurer explaining why the sales credit is not reportable as abandoned property.

Under current law, certain articles and substances, including toys containing mercury, are statutorily banned from being sold or distributed in this state. This bill expands the ban to include fever thermometers that contain mercury.

Under current law, a person who owns a meter used to sell or deliver liquefied petroleum gas must comply with certain requirements to ensure the accuracy of the meter and the price charged to the purchaser. These requirements include registering the meter with the department of agriculture, trade and consumer protection (DATCP) and having the meter inspected annually by a meter servicing

company that is licensed by DATCP. The meter service company then must file with DATCP a report of the test results.

This bill changes the registration requirement to a licensing requirement and imposes the requirement on the operator of the meter instead of the owner. The bill also imposes the requirement that the meter be inspected on the operator instead of on the owner.

Current law imposes fees on meter owners for failing to comply with these registration and testing requirements and on meter servicing companies for failing to comply with the reporting requirements. This bill authorizes DATCP to suspend or revoke operator licenses for and meter and servicing licenses for these failures.

On January 1, 1999, 11 members of the European Union (Germany, France, Italy, Spain, the Netherlands, Belgium, Portugal, Finland, Ireland, Austria and Luxembourg) adopted the euro as their single currency. Beginning on January 1, 1999, there is a three-year period for the conversion of the currencies of the members to the euro. On January 1, 2002, euro notes and coins will be introduced and on July 1, 2002, the member currencies will be withdrawn from circulation.

This bill provides a general mechanism for interpreting contracts or other legal instruments that are entered into or executed in this state or that contain provisions that require the contract or other legal instrument to be interpreted according to the laws of this state and that use currencies or other monetary units affected by the introduction of the euro. Generally, under the bill, any contract or other legal instrument that uses a currency or other monetary unit that is affected by the euro must use the euro as a commercially reasonable substitute for the currency or monetary unit. The bill also provides that no person may discharge or otherwise excuse performance under any contract or other legal instrument, or unilaterally alter the terms of, or terminate, any contract or other legal instrument, as a result of the requirement that the euro be a commercially reasonable substitute for the currency or monetary unit.

This bill changes the name of the division of savings and loan in DFI to the division of savings institutions.

This bill authorizes DFI to charge members of the public a fee for accessing or using DFI's databases or computer systems.

BUILDINGS AND SAFETY

Under current law, the department of commerce regulates private sewage systems. A private sewage system is a sewage treatment system with a septic tank or an alternative sewage system approved by the department of commerce, such as a holding tank. Under current law, a person who is responsible for a point source of pollution (pollution from a pipe or similar conveyance into the surface water or groundwater of this state) is generally required to obtain a water pollution discharge permit from the department of natural resources (DNR).

Under this bill, the department of commerce regulates small sewage systems rather than private sewage systems. A small sewage system either is a wastewater treatment and disposal system that discharges below the surface of the ground and that has a design flow that does not exceed a maximum established by the department of commerce or is a holding tank. The bill authorizes DNR to exempt small sewage systems from the requirement to obtain a water pollution discharge permit.

Current law charges governmental units (counties in which small sewage systems are located or, for counties with a population of at least 500,000, the cities, villages or towns in which such systems are located) with certain regulatory duties concerning private sewage systems. Governmental units may delegate these regulatory duties to town sanitary districts or certain public inland lake protection and rehabilitation districts if these districts consent. This bill permits governmental units to delegate these regulatory duties to the department of commerce if the department consents.

Under current law, one statute authorizes governmental units to issue sanitary permits for the installation of small sewage systems and another statute authorizes both the department of commerce and governmental units to issue sanitary permits. The department's practice has been to issue sanitary permits for the installation of small sewage systems on state-owned property only. This bill permits both the department and governmental units to issue sanitary permits for the installation of small sewage systems on either private or state-owned property.

Current law prohibits a governmental unit from issuing a sanitary permit for the installation of a small sewage system if the department of commerce finds that the governmental unit has not adopted a small sewage system ordinance, as required by law, or if the governmental unit fails to carry out its regulatory duties concerning small sewage systems. This bill provides instead that the department may order the governmental unit to remedy its failure to adopt a small sewage system ordinance or to carry out its regulatory duties.

Under current law, the department of commerce administers a grant program for the replacement or rehabilitation of certain types of failing small sewage systems. Generally, a covered system is one that discharges sewage into surface water, groundwater or bedrock or to drain tile or the surface of the ground. Under the program, the department awards grants to eligible local governmental units which, in turn, award grants to eligible individuals and businesses. A person is generally eligible for a grant to replace or rehabilitate a failing sewage system if, among other things, he or she owns a principal residence that was constructed and inhabited before July 1, 1978, and that is served by a covered system and if the person's annual Wisconsin adjusted income does not exceed \$45,000. If there is insufficient funding for all eligible individuals and businesses, the grants are prorated.

Under this bill, in a year in which the department of commerce must prorate funds under the program, a local governmental unit that received a prorated grant may apply for a no-interest loan to increase the prorated grants provided to eligible

individuals and businesses. To obtain a loan, a local governmental unit must enter into a financial assistance agreement with the department of administration and the department of commerce. In addition, the bill provides that a person is eligible for a grant if the system serving the principal residence was installed before July 1, 1978, the person's federal adjusted gross income does not exceed \$45,000 and the person meets the other eligibility requirements.

Current law requires small sewage systems to be inspected every three years by, among others, persons licensed by DNR to service septic tanks (pumpers). This bill eliminates pumpers as a class of approved inspectors for small sewage systems and adds small sewage system inspectors certified by the department of commerce. The bill also eliminates the three–year inspection requirement and requires instead that the department of commerce establish a schedule for the inspection or pumping of systems.

Current law requires cities and metropolitan sewerage districts to report to the department of commerce each failure of a state licensed plumber to qualify as a journeyman or master plumber and each wilful violation of any plumbing regulation. This bill eliminates this reporting requirement.

CORRECTIONAL SYSTEM

ADULT CORRECTIONAL SYSTEM

This bill provides that the department of corrections (DOC) may not enter into any contract or other agreement if, in the performance of the contract or agreement, a prisoner would perform data entry or telemarketing services and have access to any information that may serve to identify a minor or have access to an individual's financial transaction card numbers, checking or savings account numbers or social security number. Under the bill, a financial transaction card means an instrument or device issued to the cardholder for obtaining anything on credit, for certifying or guaranteeing the availability of funds sufficient to honor a draft or check or for gaining access to an account.

Under current law, DOC may, until July 1, 1999, operate the juvenile secured correctional facility at Prairie du Chien as a state prison for nonviolent offenders who are not more than 21 years of age. This bill extends that authority to July 1, 2001.

This bill requires DOC to establish a probation and parole holding and alcohol and other drug abuse treatment facility in Milwaukee, a medium security correctional institution in Redgranite and a medium security correctional facility in New Lisbon.

JUVENILE CORRECTIONAL SYSTEM

Under current law relating to community youth and family aids (generally referred to as "youth aids"), various state and federal funds are allocated to counties to pay for state-provided juvenile correctional services and local

delinquency-related and juvenile justice services. DOC charges counties for the costs of services provided by DOC. This bill provides new per person daily cost assessments upon counties for juvenile placements during the 1999–2001 fiscal biennium as follows:

	7	/1/1999	1	1/2000	1/	1/2001
		to		to		to
<u>Placement</u>	<u>12</u>	/31/1999	<u>12</u>	/31/2000	<u>6/3</u>	<u> 30/2001</u>
Juvenile correctional institution	\$	157.29	\$	158.46	\$	159.62
Transfers from a juvenile correctional institution to a treatment facility	\$	157.29	\$	158.46	\$	159.62
Child caring institution	\$	169.24	\$	172.46	\$	175.67
Group home	\$	117.42	\$	119.65	\$	121.88
Foster care	\$	26.17	\$	26.67	\$	27.16
Treatment foster care	\$	75.37	\$	76.80	\$	78.23
Departmental corrective sanctions services	\$	85.18	\$	80.67	\$	76.67
Departmental aftercare	\$	16.85	\$	17.03	\$	17.20

Under current law, DOC may operate or contract for the operation of secured correctional facilities for holding in secure custody juveniles who have been adjudicated delinquent and placed in a secured correctional facility under the supervision of DOC by the court assigned to exercise jurisdiction under the juvenile justice code (juvenile court). Current law also permits DOC to license child welfare agencies to operate secured child caring institutions (secured CCI's) for holding in secure custody juveniles who have been adjudicated delinquent and referred to the child welfare agency by the juvenile court or by DOC. A juvenile court may place a juvenile in a secured correctional facility or a secured CCI only if the juvenile has been adjudicated delinquent for committing an act that would be punishable by a sentence of six months or more if committed by an adult and has been found to be a danger to the public and in need of restrictive custodial treatment.

This bill permits the county board of supervisors of not more than one county to establish, and DOC to license, a secured group home for holding in secure custody juveniles who have been adjudicated delinquent for committing an act that would be punishable by a sentence of six months or more if committed by an adult, who have been found to be a danger to the public and in need of restrictive custodial treatment and who have been placed under the supervision of DOC by the juvenile court.

Under current law, various laws apply to juveniles who are placed in a secured correctional facility or a secured CCI. Those laws relate to such subjects as sex offender registration, the commitment of sexually violent persons, a

deoxyribonucleic acid data bank of sex offenders, human immunodeficiency virus (HIV) testing when certain persons have been significantly exposed to HIV, adult jurisdiction and criminal penalties for certain persons who commit assault, transfers to a state treatment facility, aftercare planning, escape, notification of victims and witnesses when a juvenile is released or escapes from correctional custody, taking runaways into custody, strip searches and an exception to the open records law when disclosing a record would endanger the security of an institution. This bill applies those laws to juveniles who are placed in a secured group home in the same manner as those laws apply to juveniles who are placed in a secured correctional facility or a secured CCI.

Under current law, DOC provides a corrective sanctions program for juveniles who have been placed under the supervision of DOC. Under the corrective sanctions program, DOC must place a participant in the community, provide intensive surveillance of the participant and provide an average of \$5,000 per year per slot to purchase community-based treatment services for participants. This bill reduces the amount that DOC must provide to purchase community-based treatment services for corrective sanctions program participants to \$3,000 per year per slot.

COURTS AND PROCEDURE

CIRCUIT COURTS

Current law provides for limited payment of attorney fees by the unsuccessful litigant to the successful litigant in all civil actions. In a civil action concerning money damages or property, the successful litigant is entitled to attorney fees based on the following schedule:

Amount recovered/value of property	\underline{Fee}
\$1,000 or more	\$100
\$500 to \$999.99	\$ 50
\$200 to \$499.99	\$ 25
Under \$200	\$ 15

This bill changes the amount of attorney fees allowed in these cases as follows:

Amount recovered/value of property	Fee, not to exceed
Greater than \$5,000	\$500
\$1,000 to \$5,000	\$300
Under \$1,000	\$100

The bill also increases the amount of attorney fees recoverable in civil cases that do not involve money damages or property from a maximum of \$100 to a maximum of \$500.

Under current law, in civil cases certain disbursements, such as those made for the costs of certified copies of public papers or records, postage and depositions, are

recoverable by the successful litigant, but are limited to \$50 for each item. This bill expands the list of disbursements that are recoverable to include such items as overnight delivery and facsimile transmissions and increases the limit to \$100 for each item. The bill also increases the amount that a successful litigant may recover for the cost of each expert witness testifying on behalf of the successful litigant from \$100 to \$300 and for filing a motion from \$50 to \$300.

Under current law, when the clerk of circuit court collects a fee from a person commencing a civil action, including garnishment, small claims and forfeiture actions, the clerk is also required to collect a \$7 justice information system fee. Four–sevenths of the \$7 fee is used to pay the costs incurred by the department of administration to develop and operate the automated justice information system. Two–sevenths of the \$7 fee is used to pay the costs incurred by the director of state courts for the operation of the circuit court, court of appeals and supreme court automated information systems and for the payment of interpreter fees. The remaining \$1 of the fee does not have a specified purpose.

This bill raises the justice information system fee from \$7 to \$9 and uses the additional \$2 of each fee to pay the costs incurred by the director of state courts for the operation of the circuit court, court of appeals and supreme court automated information systems and for the payment of interpreter fees.

PUBLIC DEFENDER

Under current law, the state public defender (SPD) provides legal representation to indigent persons in criminal, delinquency and certain related cases. The SPD assigns cases either to staff attorneys in the agency's trial division or local private attorneys. A staff attorney working in the trial division is expected to meet an annual caseload standard. This bill provides that, beginning on July 1, 2000, the SPD may exempt up to ten staff attorneys in the trial division from the annual caseload standards based on the need of those attorneys to perform other assigned duties.

OTHER COURTS AND PROCEDURE

Under current law, the department of agriculture, trade and consumer protection (DATCP) administers and enforces certain consumer protection and trade practices laws. These laws include laws prohibiting or regulating methods of competition, fraudulent representations, fraudulent drug advertising, prize notices, mail-order sales, purchases of vegetables and dairy products from farmers and advertising of telecommunication services. They also include laws relating to weights and measures. A person found to have violated one of these laws is subject to a forfeiture or a fine.

This bill requires a court to impose an assessment equal to 15% of the fine or forfeiture if the court imposes a fine or forfeiture for a violation of any of these laws or local ordinances enacted pursuant to these laws. The assessments that are

collected are appropriated to the department of agriculture, trade and consumer protection to pay for providing consumers with information and education.

Currently, the state is immune from most lawsuits. Although state authorities, local governments and state and local governmental officers, employes and agents may be sued, statutory and common law limitations severely limit the types of lawsuits that may be brought against, and the amounts and types of damages that may be recovered from, these entities. Currently, these entities may also limit their liability by contract.

This bill prohibits lawsuits, to the extent that they are now permitted, against these entities for the alleged failure to deal with the failure of a computer system to handle any date, or the inability of a computer system to interpret, produce, calculate, generate, utilize, manipulate, represent or account for any date, if the entities make a good faith effort to address the alleged failure. The immunity provided by the bill may not be waived.

The bill also eliminates current requirements for the state and local governments to pay interest to vendors on late payments arising from date-related failures described above.

Under current law, the governmental unit that provides certain public assistance benefits as a result of an injury, sickness or death that creates a claim or cause of action on the part of a public assistance recipient or beneficiary or his or her estate against a third party must be joined by the plaintiff as a party to the claim or action. The governmental unit has the right to recover from the third party the amount provided in public assistance benefits. This is known as subrogation. The governmental unit may make a claim or maintain an action or intervene in a claim or action by the recipient, beneficiary or estate against the third party. A party that is joined in a cause of action based on subrogation may, among other things, agree to have his or her interests represented by the party who caused the joinder. If this option is selected the subrogated party must sign a written waiver of the right to participate in the action.

Under this bill, if the department of health and family services (DHFS) is joined based on subrogation because of the provision of medical assistance (MA) benefits, DHFS need not take any affirmative action in order to have its interests represented by the party causing the joinder.

Currently, an attorney retained to represent a current or former recipient of public assistance benefits, or the recipient's estate, in asserting a claim that is subrogated, must provide notice of the claim, and of any award or settlement, to the governmental unit that provided the benefits. If an attorney is not representing the current or former recipient of public assistance in asserting a claim that is subrogated, the current or former recipient or his or her guardian most provide the notice. If the recipient is deceased, the personal representative of the recipient's estate must provide the notice if an attorney is not representing the estate.

This bill requires a person against whom a subrogated claim is made, or that person's attorney or insurance company, to provide notice of the claim, and of any

award or settlement, to DHFS if that person, or that person's attorney or insurer, knows or should know that the claim is subrogated because of the provision of MA benefits. Additionally, under this bill, if DHFS or a county is a subrogated party because of the provision of MA benefits, the subrogation creates a lien on the claimant's recovery, equal to the amount of the MA paid as a result of the injury, sickness or death that gave rise to the claim.

Under current law, DHFS must file a claim against the estate of a recipient of certain health aids for the amount of aid paid to the recipient. If the recipient's spouse or minor or disabled child survives the recipient, and the recipient's estate includes an interest in a home, the probate court must, in the final judgment, assign the interest in the home subject to a lien in favor of DHFS for the amount of DHFS's claim. Currently, small estates may be settled or assigned summarily, in which case a final judgment is not entered. Instead, a summary order is entered. This bill states that the lien requirement extends to cases in which assignment of the home is made by summary order.

EDUCATION

PRIMARY AND SECONDARY EDUCATION

Current law allows up to 15% of the enrollment of the Milwaukee Public Schools (MPS) to attend, at no charge, any private school located in the city of Milwaukee under certain circumstances. The state pays the parent or guardian of the pupil an amount equal to the amount of per pupil aid that MPS receives from the state or an amount equal to the private school's educational cost per pupil, whichever is less. The parent or guardian must endorse the check for the use of the private school. The state reduces the MPS school aid entitlement, for each pupil participating in the program, by the amount of per pupil aid that MPS would otherwise receive.

Under current law, the city of Milwaukee, the University of Wisconsin-Milwaukee and Milwaukee Area Technical College may establish and operate a charter school or may initiate a contract with an individual or group to operate a school as a charter school. For each pupil attending the charter school, the state pays the charter school an amount equal to the shared cost per pupil (the portion of a school district's costs that are aided by the state divided by the school district's enrollment) of MPS and reduces the MPS school aid entitlement by an identical amount.

Current law also generally limits the increase in the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to \$208.88 per pupil in the 1998–99 school year and, in subsequent school years, to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. To determine the total allowable revenue increase for a school district under the revenue limit, the department of public instruction (DPI) uses a three-year rolling average pupil enrollment, which includes, for MPS, some of the pupils enrolled in the choice program and the charter schools described above. DPI may adjust a school district's revenue limit upwards or downwards for a number of contingencies,

including transfers of service responsibilities between a school district and another governmental unit and changes in a school district's boundaries. Any school district that received less in revenue per pupil in the previous school year than a revenue ceiling of \$6,100 (low–revenue district) may increase its revenues up to the revenue ceiling. A low–revenue district is not subject to a revenue limit and its concomitant adjustments.

Beginning in the 1999–2000 school year, this bill replaces the per pupil inflation adjustment with a fixed revenue limit of \$208.88 per pupil. The bill also provides that, beginning with aid paid in the 1999–2000 school year, pupils participating in the choice program or attending one of the charter schools described above are not counted in the enrollment of MPS for state aid purposes and are not counted in the three-year rolling average for revenue limit purposes. The MPS school aid entitlement is not directly reduced as a result of such participation or attendance. In addition, the bill directs DPI to adjust the revenue ceiling of a low-revenue school district as if it constituted a revenue limit.

Currently, if a school district's three-year rolling average for the 1998-99 school year is less than the average of the number of pupils enrolled in the school district in the three previous school years, the school district's revenue limit is increased for the 1998-99 school year by the additional amount that would have been calculated had the decline in the three-year rolling average enrollment been 25% of what it was. This bill extends this one-year revenue limit increase for declining enrollment to subsequent school years.

Current law generally provides that the enrollment of a school district in the previous school year must be used to calculate general school aid for the current school year. The enrollment of MPS, however, includes pupils in the choice program in the current school year who were enrolled in grades kindergarten to three in a private school located in Milwaukee in the previous school year and who did not participate in the choice program. This bill eliminates these additional choice pupils from MPS enrollment for calculating general state aid.

Current law provides two special state aid adjustments for any school district that would otherwise receive in any school year less than 85% of the aid that it received in the previous school year. If a school district is eligible for both of these special state aid adjustments, the school district's state aid is increased to an amount equal to 85% of the state aid that the school district received in the previous school year. A school district is entitled to receive a special state aid adjustment only if the additional aid does not result in a state aid payment greater than the school district's shared cost. This bill provides that, if a school district is eligible for both special state aid adjustments, the school district receives the greater adjustment if the additional aid does not result in a state aid payment greater than the school district's shared cost.

Under current law, if a school district exceeds its revenue limit without referendum approval, DPI must reduce the school district's state equalization aid payment by the excess revenue amount. If a school district's equalization aid is less

than the penalty amount, DPI must reduce the school district's other state aid payments until the remaining excess revenue is covered. If the aid reduction is still insufficient to cover the excess revenues, DPI must order the school board to reduce the property tax levy by an amount equal to the remainder of the excess amount or refund the amount with interest, if taxes have already been collected. DPI does not include the excess revenue in the school district's base. This bill imposes these same penalties on low-revenue school districts that exceed their revenue ceilings.

Current law requires each school board to adopt either its own academic standards or the academic standards contained in the governor's executive order issued January 13, 1998, and to administer fourth and eighth grade promotional examinations to fourth and eighth grade pupils enrolled in the school district, including pupils enrolled in charter schools located in the school district. Beginning in the 2000–01 school year, each school board must also administer a high school graduation examination that is designed to measure whether pupils have met the academic standards adopted by the school board. A school board may either adopt examinations developed by DPI or develop its own examinations. A school board must notify DPI if it adopts its own high school graduation examination instead of the high school graduation examination developed by DPI, and it must determine the high school grades in which the examination is administered each school year.

This bill provides that a school board must administer the high school graduation examination to all pupils enrolled in a charter school located in the school district other than a Milwaukee charter school described above. The bill also provides that the operator of a Milwaukee charter school must adopt academic standards and administer fourth, eighth and high school graduation examinations to pupils enrolled in the charter school. The operator may either adopt DPI's examinations or develop its own. In addition, the bill requires a school board or the operator of a Milwaukee charter school to notify DPI annually by October 1 if it intends to administer its own high school graduation examination in the following school year and provides that, beginning in the 2001–02 school year, the high school graduation examination may be administered only to 11th and 12th graders.

Current law requires each school board and operator of a Milwaukee charter school to administer the tenth grade examination developed by DPI to all tenth graders enrolled in the school district or the charter school. This requirement does not apply after the 2000–01 school year. This bill eliminates the expiration of the tenth grade examination requirement.

Under current law, beginning September 1, 2002, a school board may not grant a high school diploma to a pupil unless he or she passes the high school graduation examination. Beginning July 1, 2002, a pupil may not be promoted from the fourth to the fifth grade or from the eighth to the ninth grade unless the pupil passes the fourth and eighth grade promotional examinations. A pupil's parent or guardian, however, may excuse a pupil from taking any of these examinations. A pupil who is excused must satisfy alternative criteria for promotion or graduation.

This bill imposes upon operators of Milwaukee charter schools the same prohibitions against promotion that are imposed upon school boards. Finally, the bill eliminates the authority of a pupil's parent or guardian to excuse the pupil from taking the high school graduation examination.

Under current law, a school board, board of control of a cooperative educational service agency (CESA) or a county children with disabilities education board is eligible for special education aid if the state superintendent of public instruction is satisfied that the special education program has been maintained according to law. This aid is equal to a percentage of the amount expended on special education costs in the preceding school year.

This bill eliminates the reimbursement rates for handicapped education costs and school age parents program costs and directs that aidable costs be fully reimbursed, subject to the availability of funds. The bill also provides that the operator of a Milwaukee charter school described above is eligible for special education aid, on a current school year basis, if the operator operates a special education program and the state superintendent is satisfied that the operator has complied with the federal Individuals With Disabilities In Education Act as though the operator were a school board.

Under current law, a charter school may be established by, among other things, petitioning the school board of the school district in which the charter school will be located to enter into a contract with a person to establish and operate a charter school. Within 30 days after receiving a charter school petition, the school board must hold a public hearing on the petition. The MPS board must grant or deny a petition to establish a charter school within 30 days after the public hearing. If the MPS board denies the petition, the person seeking to establish a charter school may, within 30 days of the denial, appeal the denial to the state superintendent of public instruction, who must decide the appeal within 30 days after receiving it.

This bill requires all school boards to grant or deny a charter school petition within 30 days after the public hearing and permits the person seeking to establish a charter school to appeal a denial of a charter school petition to the state superintendent.

Under current law, the Milwaukee charter schools described above are not instrumentalities of MPS, and the MPS board may not employ any personnel for these charter schools. If, however, the city of Milwaukee contracts with an individual or group operating for profit to operate a charter school, the charter school is an instrumentality of MPS and the MPS board must employ all personnel for the charter school.

This bill provides that if the city of Milwaukee contracts with an individual or group operating for profit to operate a charter school, the charter school is not an instrumentality of MPS, and the MPS board may not employ any personnel for the charter school.

Current law authorizes the MPS board to contract with any nonsectarian private school located in the city to provide educational programs for pupils enrolled in the school district. The MPS board may also close any school that it determines is low in performance. If the MPS board closes a school or reopens a school that has been closed, the superintendent of schools may reassign the school's staff without regard to seniority in service. In addition, the MPS board is prohibited from bargaining collectively with respect to: 1) the board's decision to contract with a private nonsectarian school or private nonsectarian agency in the city to provide educational programs to pupils, or the impact of any such decision on the wages, hours or conditions of employment of the employes who perform those services; or 2) the reassignment of employes who perform services for the board, with or without regard to seniority, as the result of a decision of the board to close or reopen a school or to contract with a person to operate a charter school or convert a school to a charter school, or the impact of any such reassignment on the wages, hours or conditions of employment of the employes who perform those services. This bill extends the above provisions to cover all school boards.

This bill provides that, beginning in 2001, no public school may commence its school term until September 1. The bill specifies that the prohibition does not prevent a school board from holding athletic contests or practices before that date, scheduling in-service days or work days before that date or holding school year-round.

In the 1996–97 and 1998–99 school years, a school board having a school with an enrollment that was at least 50% low-income in the previous school year was permitted to enter into a five-year achievement guarantee contract with DPI on behalf of one school in the school district (and up to ten schools in MPS) if, among other things, in the previous school year that school had an enrollment that was at least 30% low-income. Under these contracts the school district must reduce class size and improve academic achievement in grades kindergarten to three in the school or schools covered by the contract in exchange for receiving state aid.

This bill permits a school board to enter into a five-year achievement guarantee contract beginning in the 2000–01 school year on behalf of one or more schools if, among other things, in the previous school year a school in the school district had an enrollment that was at least 50% low-income and each school on whose behalf the school board contracts had an enrollment that was at least 62% low-income (80% low-income for MPS).

Under current law, a school board may request DPI to waive school board or school district requirements except those pertaining to, among other things, teacher licensing. This bill permits a school board to request a waiver of the teacher licensing requirement.

This bill prohibits the state superintendent of public instruction from renewing a teaching license unless the person seeking renewal has received training in educational technology.

Current law directs DPI to award a \$2,000 grant in the 1999–2000 school year to any person who is certified by the National Board for Professional Teaching Standards (NBPTS) before July 1, 2000, and who satisfies several additional conditions. In the 2000–01 school year, DPI must award a \$2,500 grant to each person who received a \$2,000 grant, maintains his or certification by the NBPTS and satisfies several additional conditions.

This bill eliminates all of the above dates. Under the bill, a person who becomes certified by the NBPTS receives the initial \$2,000 grant in the school year in which he or she becomes certified. The bill also directs DPI to award the person a \$2,500 grant in each of the succeeding nine years.

Under current law, referenda are required or authorized to be held by school districts to incur debt or exceed state revenue limits, or to exceed the levy rate limit for a school construction fund that is applicable only to MPS. Currently, these referenda are required or authorized to be held at special elections when no offices appear on the ballot.

This bill provides that such referenda must be held concurrently with the spring election (held in each year) or the general election (held in each even-numbered year), or on the Tuesday after the first Monday in November in an odd-numbered year.

Current law directs DPI, the department of administration (DOA) and the legislative fiscal bureau to estimate jointly the amount necessary to appropriate as general school aid to ensure that the total amount of state aid received by all school districts equals two-thirds of total school district revenues from state aid and property taxes.

This bill provides that the amounts received by school districts to compensate them for the reduction in their tax bases due to the property tax exemption for computers is included in the calculation of school district revenues.

Under current law, the state superintendent of public instruction administers four alcohol and other drug abuse prevention and intervention grant programs for school districts. Current law also limits the amount the state superintendent may award under each grant program.

This bill consolidates the alcohol and other drug abuse prevention and intervention programs into one grant program administered by the state superintendent and allows a school board to apply for a grant to fund any kind of alcohol and other drug abuse prevention and intervention program. In addition, the bill eliminates the limit on the amount of each grant that the state superintendent may award.

This bill directs the state superintendent to award grants to school districts, CESAs and other persons for staff development.

This bill directs the state superintendent to consult with the technology for educational achievement in Wisconsin (TEACH) board before awarding school technology resource grants. School technology resource grants are funded with federal moneys and are awarded to school districts for various educational technology purposes.

Current law authorizes the state superintendent to award a grant to a nonprofit corporation to fund partially the costs of planning, developing and operating a youth village program. A youth village program is a residential program that provides an alternative education for pupils whose life outside school seriously interferes with their educational progress and who are functioning below their grade level in basic academic skills, are behind in academic credits or have a record of poor grades or attendance problems. This bill eliminates the youth village grant program.

This bill directs DPI to award grants to school districts for smoking prevention programs in grades kindergarten to eight. A grant may not exceed \$10,000.

Under current law, DPI distributes general purpose revenue to head start agencies, which provide comprehensive health, educational, nutritional, social and other services to economically disadvantaged children and their families. This bill changes the source of the funding for the head start program and a variety of other early childhood education programs from general purpose revenue to moneys from the federal temporary assistance for needy families block grant.

Under current law, an alternative school for American Indians may voluntarily establish an American Indian language and culture education program. If the alternative school meets certain management and accounting criteria, it is eligible to receive \$185 from DPI for each pupil who completes the fall semester in the program of instruction. This bill increases the aid for which the alternative school is eligible to \$200 per pupil and provides that this aid is paid from moneys derived from Indian gaming receipts.

Under current law, a pupil who transfers from one school district to another to reduce racial imbalance under the interdistrict special transfer program (commonly known as chapter 220) is counted as one pupil for state aid and revenue limit purposes by the school district in which the pupil resides. A school district that participates in the intradistrict special transfer program receives additional state aid.

This bill provides that each interdistrict transfer pupil is counted by the school district in which he or she resides as one-half pupil for state aid and revenue limit

purposes. The bill also requires MPS to use at least 10% of the intradistrict aid that it receives in each school year to build or lease neighborhood schools.

HIGHER EDUCATION

Current law prohibits the University of Wisconsin Hospitals and Clinics Authority (UWHCA) from issuing bonds or incurring additional indebtedness if the aggregate amount of the UWHCA outstanding bonds, together with all other indebtedness of UWHCA, exceeds \$50,000,000. This bill increases this amount to \$90,000,000. In addition, the bill prohibits UWHCA from issuing any new bonds for the purpose of purchasing a clinic or a hospital.

Under current law, DOA administers the college tuition prepayment program, which allows an individual, a trust or a legal guardian to purchase tuition units from DOA that may be redeemed in the future to pay tuition at any accredited institution of higher education in the United States.

This bill transfers administration of the college tuition prepayment program from DOA to the state treasurer. The bill also makes two modifications to the program. Under current law, if a contract is terminated, under certain circumstances DOA may not issue a refund for one year and may not issue a refund of more than 100 tuition units in any year. This bill eliminates these restrictions and clarifies that tuition units may be used to pay mandatory student fees.

Under current law, the board of regents of the University of Wisconsin (UW) System may exempt up to 200 students at the UW-Parkside campus and up to 150 students at the UW-Superior campus from nonresident tuition in programs identified as having surplus capacity. This tuition award program (TAP) terminates at the end of the 1998–99 academic year. This bill extends the termination date of TAP until the end of the 2000–01 academic year.

Under current law, all academic student fees received by the board of regents of the UW System are credited to an appropriation account that funds degree credit instruction for the UW System. However, the board may, with some exceptions, spend only the amounts in the appropriation schedule for degree credit instruction. This bill, with some exceptions, authorizes the board to spend all academic student fee revenue it receives for degree credit instruction.

This bill directs the board of regents of the UW System to allocate \$1,000,000 from the UW System's general program operations appropriation in each year of the biennium to advance the work of the UW center for tobacco research and intervention.

This bill enumerates in the 1999–2001 state building program a full-scale aquaculture demonstration facility to be built at Ashland and to be operated by the board of regents of the UW System. Under the bill, \$3,000,000 in program revenue supported borrowing is authorized for the construction of the facility. The program

revenue that will support the borrowing consists of moneys received by the state from the Indian gaming compacts.

Current law directs the technical college system (TCS) board to administer, or contract for the administration of, the telecommunications retraining program. Under the program, which is funded by contributions from telecommunications companies, certain telecommunications industry workers are eligible to receive grants for retraining. The program expires at the end of the 1998–99 fiscal year.

This bill extends the expiration date of the program to June 30, 2000, and requires additional contributions from telecommunications companies if the telecommunications retraining board determines that additional contributions are necessary.

This bill directs the TCS board to produce an annual statewide guide containing information on all of the technical colleges and their programs and to distribute it to students, parents, high school personnel and others. For this purpose, the bill authorizes the board to use up to \$125,000 of the amount appropriated each fiscal year as state aid for the technical colleges.

This bill directs the TCS board to award a grant in the 1999–2001 fiscal biennium to the Waukesha County Technical College for the development of its printing program.

OTHER EDUCATIONAL AND CULTURAL AGENCIES

Under current law, the educational communications board (ECB) is responsible for overseeing and coordinating the provision of public broadcasting to Wisconsin. In addition, the board of regents of the UW System, as licensee, must manage, operate and maintain a radio and television station and provide the ECB part-time use of equipment and space necessary for the operations of the state educational radio and television networks.

This bill directs the secretary of administration, the president of the UW System and one person chosen by the governor to draft and file articles of incorporation for a nonstock, nonprofit educational broadcasting corporation and to take all actions necessary to exempt the corporation from taxation under the Internal Revenue Code. In addition, these persons must prepare and submit to the joint committee on finance (JCF) for JCF's approval an operational plan for the corporation that includes a list of those persons employed by the board of regents and the ECB who are best–suited to provide educational broadcasting services for the corporation and an estimate of the level of funding necessary to cover the corporation's annual operating expenses.

The corporation is entitled to receive state aid for initial administrative expenses if its articles of incorporation state that the purpose of the corporation is to provide educational broadcasting to this state; the articles of incorporation name as initial directors the secretary of administration, two representatives to the assembly, two senators, a member of the board of regents and three individuals

selected by the governor; and the initial board of directors of the corporation submits an application to the federal communications commission (FCC) to transfer all broadcasting licenses held by ECB and the board of regents to the corporation.

If the FCC approves the transfer of all broadcasting licenses held by the ECB and the board of regents to the corporation, the ECB is eliminated on the effective date of the transfer of the broadcasting licenses. In addition, the corporation is entitled to receive additional state aid for operational expenses if, among other things, the board of directors of the corporation offers employment beginning on the effective date of the transfer of all of the broadcasting licenses to those individuals designated in the operational plan; the board of directors of the corporation negotiates with the board of regents and the secretary of administration for the use of state-owned equipment and space necessary for the operations of educational radio and television networks; and the secretary of administration approves any amendment to the corporation's articles of incorporation or bylaws.

This bill requires DOA to prepare a report on the privatization of state-owned and state-leased communications towers that are used for public broadcasting, except for the Milwaukee Area Technical College tower. The report must include a plan for implementing privatization. No later than June 30, 2000, DOA must submit the report to JCF for its approval.

Under current law, the public service commission (PSC) requires certain telecommunications providers to make contributions to the universal service fund. Moneys in the fund must be used for programs administered by the PSC for programs to promote universal access to telecommunications services and affordable access to high-quality education, library and health care information services, including a program for providing institutions with support payments for certain telecommunications services (institutional assistance program), and for certain other PSC programs. In addition, the fund is used for certain programs administered by the TEACH board, including an educational telecommunications access program for providing data lines and video links to certain educational institutions.

This bill eliminates the requirement for the PSC to use moneys in the fund to promote affordable access to high-quality education, library and health care information services. The bill also transfers the institutional assistance program to the TEACH board, which must provide support payments to eligible institutions as determined by the PSC. In addition, all of the PSC's duties regarding the educational telecommunications access program, except the PSC's duties regarding requiring telecommunications providers to contribute to the fund, are transferred to the TEACH board.

Under this bill, federated and consolidated public library systems and the Wisconsin Schools for the Visually Handicapped and the Deaf may also participate in the educational telecommunications access program. The bill allows any educational agency that participates in the program to obtain access to more than one data line if it can show to the satisfaction of the TEACH board that the additional lines are more cost–effective than a single line. An educational agency that obtains

access to a data line under the program may enter into a shared service agreement with a city, village, town or county (political subdivision) that provides the political subdivision with access to any excess bandwidth on the data line that the educational institution does not use. A political subdivision that obtains access to bandwidth may not receive compensation for providing access to the bandwidth to any other person and no moneys from the universal service fund may be used to pay installation costs that are necessary to provide a political subdivision with access to the bandwidth. The bill also prohibits an educational agency from requesting access to an additional data line under the program for the purpose of providing a political subdivision with access to excess bandwidth and from providing access to a data line under the program to a private business entity.

Current law directs the TEACH board to award educational technology training and technical assistance grants, on a competitive basis, to CESAs and to consortia consisting of two or more school districts or CESAs, or of one or more school districts or CESAs and one or more public library boards. This bill requires that at least one of these grants be awarded annually to an applicant located in the territory of each CESA. The bill also directs the TEACH board, beginning in the 2000–01 fiscal year, to award at least one grant in each fiscal year to an educational organization or consortium of educational organizations for the development and implementation of a foreign language instruction program in a public school in grades kindergarten to six.

Under current law, the Wisconsin Advanced Telecommunications Foundation provides funding for certain advanced telecommunications technology application projects and for efforts to educate telecommunications users about advanced telecommunications services. This bill allows the TEACH board to contract with the foundation to provide administrative services to the foundation.

Under current law, the educational approval board (EAB), which is attached to the higher educational aids board (HEAB), approves and supervises education and training of veterans under certain programs under federal law. EAB also regulates certain schools, including certain proprietary schools, and the solicitation of students by such schools.

This bill eliminates EAB and transfers its functions regarding veterans' education and training to the department of veterans affairs. The bill transfers all of the other functions of EAB to HEAB. The bill creates an educational approval council to advise HEAB in carrying out its duties.

Currently, under the Wisconsin higher education grant program, HEAB awards grants to postsecondary resident students enrolled at least halftime in accredited higher education institutions in this state. Students at tribal colleges are not eligible for grants under the program. HEAB is required to promulgate rules establishing policies and procedures for determining dependent and independent student status and calculating expected parental and student contributions under

the program. Current law specifies a method for HEAB to award these grants to dependent students. HEAB also administers the tuition grant program for students enrolled at accredited, nonprofit, post–high school educational institutions and tribal colleges. In addition, HEAB administers an Indian assistance grant program to assist those Indian students who are residents of this state to receive a higher education. Grants under the Indian assistance grant program are based on financial need. One–half of each such grant is paid by the state with general purpose revenue; the other half is contributed by Indian tribes or bands.

Under this bill, students at tribal colleges are eligible for grants under the Wisconsin higher education grant program, but not for grants under the tuition grant program. The bill appropriates money derived from the Indian gaming receipts to pay for the grants awarded to tribal college students under the Wisconsin higher education grant program and to pay the state's share of each grant under the Indian assistance grant program. In addition, the bill eliminates the requirement for HEAB to promulgate rules regarding student status and expected contributions under the Wisconsin higher education grant program, as well as the method specified for awarding grants to dependent students. The bill requires instead that HEAB award grants under the Wisconsin higher education program based on a formula that accounts for expected parental and student contributions.

Currently, HEAB administers the academic excellence higher education scholarship program that awards scholarships, for up to four years of study, to certain students enrolled at participating institutions of higher education in this state who had the highest grade point averages in their high schools. This bill specifies that this program and its scholarship recipients must be referred to as the governor's scholarship program and governor's scholars, respectively, in all printed material disseminated or otherwise distributed by HEAB.

The state currently appropriates money to the state historical society from the conservation fund for interpretive programming at the Northern Great Lakes Center. This bill designates the Northern Great Lakes Center as a historic site. The bill appropriates money derived from the Indian gaming receipts for the operation of the Northern Great Lakes Center historic site. The appropriation from the conservation fund is not eliminated.

The state currently appropriates general purpose revenue to the arts board to award grants to individuals and groups concerned with the arts and to contract with individuals, organizations, units of government and institutions for services furthering the development of the arts and the humanities. This bill appropriates money derived from the Indian gaming receipts for such grants awarded to, and such contracts entered into with, American Indian individuals, groups, organizations, tribal governments and institutions.

This bill appropriates money to the Medical College of Wisconsin for the study and prevention of tobacco–related illnesses.

EMINENT DOMAIN

Under current law, any municipality, board, commission, public officer or corporation that is authorized to acquire property by condemnation and that acquires property either by purchase or by condemnation, and any entity that carries out a program or project with public financial assistance that causes any person to move or to move his or her personal property, must provide relocation benefits to persons displaced by the program or project. Relocation benefits include moving expenses, replacement housing payments and business or farm replacement payments.

This bill eliminates the authority of the department of natural resources (DNR) to acquire property by condemnation. The bill also provides that if DNR carries out a program or project that causes a person to move or to move his or her personal property, DNR is not required to provide relocation benefits. Under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act, however, a person is eligible for relocation benefits specified under the federal law if a state agency (including DNR) carries out a program or project with federal financial assistance.

Finally, the bill authorizes the building commission, at the request of DNR, to acquire property by condemnation for any public purpose. Under current law, the eminent domain authority of the building commission is limited to the acquisition of land that it deems necessary for a site for Madison downtown state office facilities. If the building commission acquires property at DNR's request, whether by condemnation or purchase, it is required to provide relocation benefits.

Under current law, a property owner whose property has been partially condemned for a sewer or transportation facility must pay property taxes in the year of the condemnation for both the condemnee's remaining property and the portion of the property that was awarded to the condemnor. Current law also provides that, in a partial condemnation, the portion of the condemnee's current property tax obligation that applies to the condemnee's remaining property must be subtracted from the award of compensation for the taking. To recover both the condemnor's and the condemnee's prorated share of property taxes, the condemnee must file a claim with the condemnor.

This bill provides that, if the property owner retains a majority interest in the property after the condemnation, the condemnor may choose not to subtract the condemnee's prorated taxes from the award payment and may include the condemnor's prorated taxes in the award payment, thereby eliminating the need for the condemnee to file a claim with the condemnor.

EMPLOYMENT

Current law requires the division of connecting education and work in the department of workforce development (DWD) to administer the youth

apprenticeship and school-to-work programs provided by DWD under the federal School-to-Work Opportunities Act of 1994. Under the youth apprenticeship program, DWD must approve occupations and develop curricula for youth apprenticeship programs, and may award training grants to employers that provide on-the-job training and supervision for youth apprentices. Under the school-to-work program, DWD must approve statewide skill standards. Also under current law, DWD may award grants to nonprofit corporations and public agencies for the provision of career counseling centers that provide youths with career education and job training information and that assist youths in locating apprenticeship and other work experience opportunities that are related to the youth's education.

This bill eliminates the division of connecting education and work in DWD, creates a governor's work-based learning board attached to DWD and transfers to that board the administration of the youth apprenticeship, school-to-work and career counseling center programs. The bill transfers to the technical college system board the responsibility for developing youth apprenticeship curricula, subject to the approval of the governor's work-based learning board. Under the bill, the governor's work-based learning board is also responsible for administering a study grant program created under the bill for high school graduates who meet or exceed a grade point average determined by the governor's work-based learning board and who enroll in a technical college within one year after high school graduation, and a work-based learning program created under the bill for youths who are eligible to receive federal temporary assistance for needy families.

The bill also directs the governor's work-based learning board to award grants to local partnerships for the implementation and coordination of local youth apprenticeship programs. The bill defines a local partnership as one or more school districts, or any combination of one or more school districts, other public agencies, nonprofit organizations, individuals or other persons, who have agreed to be responsible for implementing and coordinating a local youth apprenticeship program. A local partnership that is awarded a grant may use the grant moneys to recruit employers and students to participate in the program; coordinate academic, vocational and occupational learning, school-based and work-based learning and secondary and postsecondary education for participants in the program; assist employers in identifying and training workplace mentors; and perform any other implementation or coordination activity that the governor's work-based learning board may direct or permit the local partnership to perform.

Under current law, the state superintendent of public instruction may award a grant to a nonprofit organization in Milwaukee County that is providing an innovative school-to-work program for children at risk (children who are behind their age group in the number of high school credits attained or in basic skill levels and who are dropouts, habitual truants, parents or adjudicated delinquents) to assist those children in acquiring employability skills and occupation-specific competencies before leaving high school. This bill transfers to the governor's work-based learning board the responsibility for awarding that grant.

Under current law, the Wisconsin employment relations commission (WERC) must collect fees from parties who request WERC services relating to labor disputes involving fact-finding, mediation or arbitration. This bill requires that WERC collect a fee from any party who requests that WERC assemble a panel of individuals who are not members or employes of WERC to act as an arbitrator to resolve a dispute involving the interpretation or application of a collective bargaining agreement.

ENVIRONMENT

HAZARDOUS SUBSTANCES AND ENVIRONMENTAL CLEANUP

Requirement to clean up hazardous substance spills

Current law generally requires a person who possesses or controls a hazardous substance that is discharged or who causes the discharge of a hazardous substance to restore the environment to the extent practicable and to minimize the harmful effects of the discharge on the environment. Courts have held that a person possesses or controls any hazardous substance that is present on property that the person owns. Current law generally exempts a local governmental unit (a city, village, town, county, redevelopment authority and housing authority) from these clean-up requirements with respect to hazardous substance discharges on land acquired in specified ways, such as through tax delinquency proceedings or condemnation.

This bill requires local governmental units to agree to provide access to land that is subject to the exemption for the purpose of letting someone else conduct a cleanup of the discharge. The bill also expands the local governmental exemption from the clean-up requirements in a number of ways:

- 1. The bill makes community development authorities eligible for the exemption.
- 2. Under current law, the local governmental unit exemption from clean-up requirements is not available if the discharge is from an underground petroleum storage tank. This bill eliminates that limitation.
- 3. The bill applies the exemption to land acquired with funds from this state's stewardship program, land acquired through escheat and land acquired from another local governmental unit that is entitled to the exemption. Land is acquired through escheat when the owner dies without a will that disposes of the land and without any heir.
- 4. The bill exempts a local governmental unit from the requirement to clean up a hazardous substance that has migrated from a property acquired in one of the specified ways to another property.

The bill also exempts a local governmental unit that has acquired property in one of the specified ways from certain requirements relating to hazardous waste if the hazardous waste is cleaned up, DNR approves the cleanup and other conditions are satisfied.

Under current law, a lender who acquires land through enforcement of a security interest is not liable for a discharge of a hazardous substance on that land if certain requirements are satisfied. This bill requires a lender to provide access to

the land on which the discharge occurred for the purpose of letting someone else conduct a cleanup of the hazardous substance. Under current law, the lender-liability exemption is not available if the discharge is from an underground petroleum storage tank. This bill makes the lender-liability exemption available if the discharge is from an underground petroleum storage tank.

Exemption from clean-up requirement for voluntary parties

Under current law, any person, except for a person who intentionally or recklessly caused the original discharge of a hazardous substance on a property, is called a voluntary party. A voluntary party is exempt from absolute requirements to restore the environment and minimize the harmful effects of the discharge, and from the requirements of other laws relating to hazardous substances, if an environmental investigation of the property is conducted and approved by the department of natural resources (DNR), the property is cleaned up, DNR certifies that the cleanup restored the environment and minimized the harmful effects of the discharge and the voluntary party maintains and monitors the property as required by DNR. This exemption applies even if later changes to the law impose greater responsibilities on the voluntary party or if it is discovered that the cleanup failed to fully restore the environment or to minimize the harmful effects of the discharge.

Under this bill, any person, including a person who intentionally or recklessly caused the discharge of a hazardous substance, is eligible for the voluntary party exemption under the conditions described above. The bill authorizes DNR to require a voluntary party to obtain insurance to cover the cost of a cleanup in case the initial cleanup fails.

The bill also specifies that the voluntary party exemption applies only with respect to hazardous substances released on the property before DNR approves the environmental investigation of the property. In order to qualify for the voluntary party exemption, the bill requires that both the voluntary party's property and any other property affected by a discharge originating from that property be cleaned up. Once DNR approves the cleanup, the voluntary party is exempt from further clean-up requirements on both the voluntary party's own property and any other property affected by a discharge originating from that property.

Under current law, a person is exempt from the requirements to restore the environment and minimize the effects of the discharge of a hazardous substance on the environment with respect to the existence of a hazardous substance in groundwater on property possessed or controlled by the person if the discharge originated from a source off of the property, the person agrees to allow access to the property so that someone else can conduct a cleanup and the person agrees to any other condition necessary to ensure that an adequate cleanup can be conducted.

Under this bill, for a property affected by an off-site discharge that has contaminated the groundwater and by discharges of other hazardous substances, a voluntary party is exempt from absolute requirements to restore the environment and minimize the harmful effects of the discharges, and from the requirements of other laws relating to hazardous substances, if: 1) an environmental investigation

of the property is conducted and approved by DNR; 2) the property is cleaned up, except with respect to the discharge that originated off-site; 3) DNR certifies that the cleanup restored the environment and minimized the harmful effects of the discharge, except with respect to the discharge that originated off-site; 4) DNR determines in writing that the voluntary party qualifies for the off-site exemption; and 5) the voluntary party maintains and monitors the property as required by DNR.

Currently, a person may be allowed to use natural attenuation to clean up a hazardous substance in groundwater if DNR determines that natural attenuation will bring the groundwater into compliance with groundwater standards within a reasonable period. "Natural attenuation" means the reduction in the amount and concentration of a substance in groundwater that occurs because of natural processes.

Under this bill, if groundwater on a property is contaminated by a hazardous substance in a concentration that exceeds a groundwater standard and DNR determines that natural attenuation will restore groundwater quality, a voluntary party is exempt from absolute requirements to restore the environment and minimize the harmful effects of the discharges, and from the requirements of other laws relating to hazardous substances, if: 1) an environmental investigation of the property is conducted and approved by DNR; 2) the property is cleaned up, except with respect to the substance for which DNR approves natural attenuation; 3) DNR certifies that the cleanup restored the environment and minimized the harmful effects of the discharge, except with respect to the substance for which DNR approves natural attenuation; 4) the voluntary party maintains and monitors the property as required by DNR; and 5) if required by DNR, the voluntary party obtains insurance to cover the cost of a cleanup in case natural attenuation fails.

Under this bill, a voluntary party is exempt from the requirements to clean up any hazardous substance discharge on a property that is discovered after two environmental investigations have been conducted and approved by DNR with respect to the property if the voluntary party has obtained insurance to cover the clean-up costs.

Petroleum storage remedial action

Under current law, the department of commerce administers a program to reimburse owners of certain petroleum product storage tanks for a portion of the costs of cleaning up discharges from those tanks. This program is commonly known as PECFA.

This bill authorizes the department of commerce to issue revenue obligations, to be paid from revenues deposited in the petroleum inspection fund, to fund the payment of claims under the PECFA program. Revenue obligations issued under this bill may not exceed \$450,000,000 in principal amount. See STATE GOVERNMENT, STATE FINANCE.

Under current law, the department of revenue (DOR) collects a petroleum inspection fee of three cents per gallon on petroleum products that are received for sale in this state. The fee is deposited in the petroleum inspection fund and is used to fund PECFA as well as various other programs.

This bill requires the department of commerce to change the amount of the petroleum inspection fee under specified conditions. If the amount of unpaid PECFA claims, as of June 30 of an odd-numbered year, exceeds \$10,000,000, the department must increase the fee, effective the following April 1, as necessary to increase annual revenues by the amount by which unpaid claims exceed \$10,000,000. If the balance in the petroleum inspection fund on June 30 of an odd-numbered year exceeds \$10,000,000 and no PECFA revenue bonds are outstanding, the department must reduce the fee, effective the following April 1, as necessary to reduce annual revenues by \$5,000,000 or the amount by which the balance in the fund exceeds \$10,000,000, whichever is greater.

Currently, PECFA reimburses applicants for interest costs incurred in financing a cleanup, but that reimbursement is limited to interest at 1% over the prime rate. Under this bill, PECFA does not reimburse interest costs incurred by an applicant in financing a cleanup if the applicant has annual gross revenues in excess of \$20,000,000. For other applicants, the PECFA interest reimbursement is limited to interest at 5%. The limits on interest reimbursements apply to interest incurred after October 31, 1999, on claims filed after October 31, 1999.

Under current law, DNR generally may order a responsible person to conduct a cleanup of a hazardous substance that has been discharged into the environment and may oversee the cleanup. However, under current law, the department of commerce may order and oversee cleanups of certain discharges from petroleum product storage tanks. The department of commerce has authority over cleanups if the site of the discharge is classified as low or medium priority based on the threat that the discharge poses to public health, safety and welfare and to the environment and if the site is not contaminated by nonpetroleum hazardous substances. Current law requires DNR and the department of commerce to enter into a memorandum of understanding that establishes procedures and standards for determining whether a site is high, medium or low priority. Under this state's groundwater law, DNR and the department of health and family services set enforcement standards. An enforcement standard represents a concentration of a substance in groundwater.

This bill requires the department of commerce to establish the standards for categorizing sites of petroleum product discharges by rule, rather than by memorandum of understanding. The bill requires the department of commerce and DNR to attempt to agree on the standards. The bill prohibits the departments from providing, in those standards, that all sites at which a groundwater enforcement standard has been exceeded are high priority. The bill also requires the departments to design the standards to classify no more than 50% of sites as high priority. If the departments cannot agree on the standards, the secretary of administration must resolve the disagreement.

Under PECFA, the owner of a petroleum product storage tank may receive an award for the amount by which the cost of the cleanup exceeds a deductible amount, up to a specified maximum. The current maximum for underground tanks varies from \$100,000 for small farm tanks to \$1,000,000 for tanks located at a facility at which petroleum is stored for resale and tanks that handle an average of more than 10,000 gallons of petroleum per month.

This bill changes the maximum PECFA award for any underground petroleum product storage tank to \$100,000 if the site of the discharge from the tank is classified as medium priority or low priority under the classification system promulgated by rule by the department of commerce. The change in the maximum PECFA award applies to PECFA claims for which remedial action plans are approved after November 30, 1999.

Currently, the PECFA deductible for underground tanks is generally \$2,500 plus 5% of eligible costs, but not more than \$7,500, except that the deductible for heating oil tanks owned by school districts and technical college districts is 25% of eligible costs.

This bill changes the PECFA deductible amount for certain underground petroleum product storage tanks. Under this bill, the deductible for an underground petroleum product storage tank that is located at a facility at which petroleum is stored for resale or an underground petroleum product storage tank that handles an annual average of more than 10,000 gallons of petroleum per month is \$10,000, plus \$2,500 if the eligible costs exceed \$50,000, plus \$2,500 more if eligible costs exceed \$80,000, plus \$10,000 more for each whole \$100,000 by which eligible costs exceed \$150,000, except that the department of commerce may, by rule, exempt a class of owners and operators from this higher deductible.

The bill also changes the PECFA deductible amount for aboveground storage tanks located at terminals from \$15,000 plus 5% of the amount by which eligible costs exceed \$200,000 to \$15,000 plus 15% of the amount by which eligible costs exceed \$200,000. A terminal is a facility that is connected to a petroleum pipeline.

This bill authorizes the department of commerce to promulgate rules for assigning award priorities to cleanups under PECFA, except for cleanups of discharges from home heating oil tanks, small farm tanks and heating oil tanks owned by school districts. If the department promulgates the rules, it must pay PECFA awards, for cleanups that begin after the rules take effect, in order of the award priorities under the rules. The bill requires the department to inform the owner or operator of a petroleum product storage tank of the date on which it is appropriate to begin a cleanup, based on when the department estimates funding will be available for an award for the cleanup. The bill authorizes an owner or operator to delay beginning a cleanup until the date that the department determines it is appropriate to begin the cleanup. The bill also authorizes the department to deny PECFA reimbursement for interest costs if an owner or operator begins a cleanup before the appropriate beginning date as determined by the department.

This bill authorizes the department of commerce to require a person to pay a fee as a condition of submitting a bid to provide a service for a cleanup under PECFA. If the department of commerce imposes a fee, the department may purchase, or provide funding for the purchase of, insurance to cover the amount by which the costs of conducting a cleanup exceed the amount bid to conduct the cleanup.

This bill requires the department of commerce and DNR to report information every six months about petroleum product cleanups that are in progress.

Dry cleaner environmental response program

Under current law, DNR administers the dry cleaner environmental response program, under which owners and operators of dry cleaning facilities are reimbursed a portion of the costs incurred in cleaning up a discharge of dry cleaning solvent. This program is funded, in part, by dry cleaning license, solvent and inventory fees that are paid by owners and operators of dry cleaning facilities. As a condition of receiving reimbursement, owners and operators of closed dry cleaning facilities must pay annually for 30 years the average yearly dry cleaning license fee and an amount equal to the total amount collected as annual dry cleaning solvent fees divided by the number of operating dry cleaning facilities for that year. These required fees are in addition to the deductible owners and operators must pay before receiving a reimbursement.

This bill eliminates the requirement that operators of closed dry cleaning facilities pay annual fees for 30 years. Instead, the bill requires owners of dry cleaning facilities to pay as part of the deductible an amount equal to 30 times the average license fee for the year in which the reimbursement is made and an amount equal to 30 times the total collected as solvent fees divided by the number of operating dry cleaning facilities for the year. This bill also increases the deductible for closed facilities when eligible costs exceed \$200,000.

Currently, financing costs are reimbursable costs under the dry cleaner environmental response program. This bill excludes financing costs from reimbursable costs under the program.

Under current law, the first priority for reimbursement under the dry cleaner environmental response program is reimbursement for immediate action activities (activities taken within a short time after a discharge occurs or after a discharge is discovered). After reimbursements for immediate action activities, DNR is required to give highest priority to paying reimbursements for eligible costs incurred before October 14, 1997.

This bill requires DNR each year, after paying reimbursements for immediate action activities, to make a specified portion of the funds available to pay reimbursements for eligible costs incurred before October 14, 1997, and to use the rest of the funds to pay reimbursements for costs incurred on or after October 14, 1997.

This bill requires applicants under the dry cleaner environmental response program to notify DNR of insurance claims made for the costs of cleanup of a dry cleaner solvent spill and to disclose the amount of insurance proceeds received. The bill also requires applicants to notify DNR if they intend to file suit against an insurance company to recover clean–up costs and allows DNR to join a private suit filed by an applicant against an insurance company for the purpose of recovering clean–up costs.

Under the dry cleaner environmental response program, the owners of certain dry cleaning facilities are eligible for reimbursement for the costs of preliminary site screening and interim remedial equipment to begin the cleanup of dry cleaning discharges before the completion of full site investigations and cleanup plans. The reimbursement for preliminary site screening and interim equipment may not exceed \$15,000, of which not more than \$2,500 may be for the preliminary site screening.

Under this bill, the reimbursement for preliminary site screening and interim remedial equipment is 50% of the eligible costs, but not more than \$20,000, of which not more than \$3,000 may be for the cost of the preliminary site screening.

The dry cleaner environmental response program is currently funded from the dry cleaner environmental response fund, a segregated fund. Under current law, DNR is authorized under certain circumstances to fund cleanups of hazardous substance discharges from the environmental fund, another segregated fund.

Under this bill, if DNR funds a cleanup of a discharge of dry cleaning solvent from the environmental fund, DNR must transfer from the dry cleaner environmental response fund to the environmental fund an amount equal to the amount expended from the environmental fund for the cleanup. DNR must make the transfer when it determines that sufficient funds are available.

Other hazardous substances and environmental cleanup

This bill authorizes a local governmental unit to recover costs it incurs in cleaning up a property on which a hazardous substance has been discharged if the local governmental unit acquired the property in one of several specified ways, including through tax delinquency proceedings or condemnation. The local governmental unit may recover the costs from a person who possessed or controlled the hazardous substance at the time that the local governmental unit acquired the property or who caused the discharge of the hazardous substance, unless the person is exempt from the requirement to clean up the property under the hazardous substances spills law.

This bill creates a brownfields site assessment grant program to be administered by DNR. Under the program, cities, villages, towns, counties, redevelopment authorities, community development authorities and housing authorities may apply for a grant to conduct preliminary clean-up activities at brownfield sites. The grants specifically cover the costs of investigating

environmental contamination, demolishing structures and removing abandoned containers and asbestos. Applicants who receive a grant under the program must contribute matching funds equal to 20% of the grant and are required to pay back the grant if they receive a loan under the land recycling loan program to conduct the same clean-up activities.

Currently, under the land recycling loan program, this state provides loans to cities, villages, towns and counties (political subdivisions) for projects to remedy environmental contamination at sites owned by political subdivisions where the environmental contamination has affected, or threatens to affect, groundwater or surface water. The loans are provided at subsidized interest rates.

This bill provides that recipients of loans under the land recycling loan program are not required to pay any interest. The bill also makes redevelopment authorities and housing authorities eligible for loans under the program.

The budget act for each fiscal biennium establishes the present value of the subsidies that may be provided under the land recycling loan program during that fiscal biennium. This bill sets the present value of the land recycling loan program subsidies that may be provided during the 1999–2001 fiscal biennium at \$9,400,000.

Under current law, the department of commerce regulates tanks that store flammable and combustible liquids. This bill requires the department of commerce also to regulate tanks that store liquids that are considered hazardous substances under the federal Superfund Act. Under current law, the department of commerce collects a \$100 groundwater fee for plan review and approval for tanks that store flammable and combustible liquids and that have a capacity of 1,000 gallons or more. Under this bill, the groundwater fee also applies to plan review of tanks that store liquids that are considered hazardous substances under the federal Superfund Act and that have a capacity of 1,000 gallons or more.

WATER QUALITY

Under the clean water fund program, this state currently provides financial assistance for projects for controlling water pollution, including sewage treatment plants. One form of financial assistance provided is a loan at a subsidized interest rate. The budget act for each fiscal biennium establishes the present value of the subsidies that may be provided under the clean water fund program during that fiscal biennium. This bill sets the present value of the clean water fund program subsidies that may be provided during the 1999–2001 fiscal biennium at \$87,400,000.

Currently, under the safe drinking water loan program, this state provides loans to local governmental units for projects for the construction or modification of public water systems. The loans are provided at subsidized interest rates. The budget act for each fiscal biennium establishes the present value of the subsidies that may be provided under the safe drinking water loan program during that fiscal

biennium. This bill sets the present value of the safe drinking water loan program subsidies that may be provided during the 1999–2001 fiscal biennium at \$5,200,000.

Under current law, the state is authorized to contract public debt in an amount not to exceed \$12,130,000 to fund the safe drinking water loan program. This bill increases that amount to an amount not to exceed \$16,000,000.

One form of assistance that the clean water fund program, the safe drinking water program and the land recycling loan program provide is a loan at a subsidized interest rate. Another form of assistance is a payment to the board of commissioners of public lands to reduce interest payments on a loan from the board for a project that is eligible for assistance under one of the programs.

This bill provides that a payment to the board of commissioners of public lands under the clean water fund program, the safe drinking water loan program or the land recycling loan program may not exceed the amount of subsidy necessary to provide the loan directly under the clean water fund program, the safe drinking water loan program or the land recycling loan program.

Under current law, DNR, in conjunction with the department of agriculture, trade and consumer protection (DATCP), the land and water conservation board (LWCB) and local governmental units, administers a program to provide financial assistance for measures to reduce water pollution from nonpoint (diffuse) sources. Current law authorizes the issuance of general obligation bonds as one source of funding for the financial assistance under the nonpoint source program. This bill increases the bonding authority for the nonpoint source program from \$34,363,600 to \$48,763,600.

Current law authorizes DNR to provide cost-sharing grants for projects to assist agricultural facilities to comply with nonpoint source water pollution control requirements established by DNR and DATCP. These cost-sharing grants are currently funded with proceeds of general obligation bonds. This bill increases the bonding authority for the cost-sharing grants from \$2,000,000 to \$4,000,000.

Under current law, the nonpoint source program is funded with general purpose state revenues, segregated revenues from the environmental fund and proceeds of state bonds. This bill provides additional funds for financial assistance under the nonpoint source program from moneys paid to this state under Indian gaming compacts. The bill also provides funds to be paid to the Oneida Nation under the nonpoint source program from moneys paid to this state under Indian gaming compacts.

Under current law, persons who discharge wastewater into the waters of this state are required to pay an annual wastewater discharge fee to DNR. DNR is required to structure the fee so that municipalities that are subject to the fee pay 50% of the total charged and other persons that are subject to the fee pay the other 50%.

Currently, DNR may not charge total fees that exceed \$7,450,000. This bill changes the cap on the wastewater discharge fee to \$7,925,000.

Under current law, DNR and the department of health and family services establish standards for the concentration of contaminants in groundwater. When the groundwater standards are exceeded, action must be taken under this state's groundwater law. This bill authorizes DNR to charge a fee for placing information concerning a property on which a groundwater standard is exceeded into a database.

AIR QUALITY

Under current law, the owner or operator of a stationary source of air pollution who must obtain an air pollution control permit from DNR is required to pay an annual fee to DNR. The fee is a specified amount per ton of certain air pollutants emitted by the stationary source in the preceding year, except that an owner or operator is generally not required to pay the fee for emissions of any pollutant in excess of 4,000 tons per year.

This bill establishes a new facility fee for stationary sources that emit a total of at least five tons of the pollutants on which the current fee is based. The fee ranges from \$50 to \$20,000, depending on the total amount of those pollutants emitted.

Under current law, generally a person may not begin construction of a stationary source of air pollution without a construction permit issued by DNR. This bill authorizes DNR to issue general construction permits, each of which may cover numerous similar stationary sources of air pollution.

Current law authorizes DNR to establish, by rule, fees for inspecting nonresidential asbestos demolition and renovation projects regulated by DNR. The fees may not exceed \$200 per project. This bill raises the limit on fees for inspecting nonresidential asbestos demolition and renovation projects to \$210.

Under current law, the department of justice (DOJ) generally is responsible for taking actions in court to enforce environmental laws. This bill authorizes DNR to issue a citation (similar to a traffic ticket) if it determines that a person has violated certain of DNR's rules related to asbestos abatement and management. The bill requires DNR to promulgate rules, which must be approved by DOJ, specifying the violations for which citations may be issued. Under the bill, the same procedures are used for the issuance of a citation and the collection of a forfeiture as are used for hunting and fishing violations.

RECYCLING

Under current law, DNR administers a financial assistance program to assist with costs related to operating recycling programs and for complying with the prohibition on disposing of yard waste in landfills. The amount of a grant under the program is generally the lesser of 66% of eligible net costs or \$8 per person served,

except that, if the lesser of those two amounts is less than 33% of the eligible expenses, the amount of the grant is 33% of the eligible expenses.

This bill reduces the maximum amount of a grant that may be awarded under this financial assistance program. Under the bill, the amount of a grant is the greater of 66% of eligible net costs or 33% of the eligible expenses, except that the grant may not exceed \$8 per person. This change effectively sets a maximum grant amount of \$8 per person and makes grants based on 33% of the eligible expenses subject to proration of grants if the sum of grants payable under the program exceeds available funds. The financial assistance program currently expires after 2000. This bill extends the program through 2001.

Current law prohibits the disposal of listed recyclable materials in a landfill. The prohibition does not apply to any city, village, town, county or other governmental unit that is responsible for the region's solid waste management (responsible unit) and that operates an effective recycling program. A recycling program is an effective recycling program if it meets specified criteria. In addition to the exception from the disposal prohibition, a responsible unit that administers an effective recycling program is eligible for a state grant to reimburse the responsible unit for some of its costs incurred in operating the effective recycling program.

Under current law, beginning in 2000, a responsible unit's recycling program is an effective recycling program only if the responsible unit has in place a system of volume-based solid waste fees to generate revenue equal to the responsible unit's costs for solid waste management other than those reimbursed by the state. This criterion does not apply to any responsible unit that separates for recycling at least 25% by volume or by weight of the solid waste collected within the region by the responsible unit or by any person under contract with the responsible unit, or to any responsible unit that provides solid waste to an operating solid waste treatment facility under a contract that was in effect on January 1, 1993.

This bill eliminates the requirement that, to have its recycling program considered an effective recycling program, a responsible unit have in place a system of volume-based solid waste fees to generate revenue equal to the responsible unit's costs for solid waste management other than those reimbursed by the state.

The recycling market development board (board), which is attached to the department of commerce and which will be eliminated on June 30, 2001, has various powers and duties related to recycling, including awarding financial and other assistance to improve the marketing of, and to develop markets for, certain materials recovered from solid waste. The board may contract with other persons to accomplish any of its powers and duties. Funding for the board's contracts comes from the recycling fund. Funding for the financial assistance that the board awards comes from the recycling fund and from repayments of loans made by recipients of financial assistance awarded by the board. This bill eliminates the recycling fund as a funding source for the board's contracts and financial assistance and provides that the

funding for both comes solely from repayments of loans made by recipients of financial assistance awarded by the board.

The department of commerce made loans before July 1, 1995, for various purposes related to recycling. Repayments of those loans are deposited in the recycling fund. This bill provides that repayments of those loans are to be used to fund the board's contracts and financial assistance that the board awards.

This bill requires DNR to award grants of \$75,000 on September 1, 1999, and \$50,000 on July 1, 2000, to the Wheelchair Recycling Project for the purpose of refurbishing used wheelchairs and other mobility devices and returning them to use by persons who otherwise would not have access to needed or appropriate equipment.

OTHER ENVIRONMENT

In 1998, DNR and Winnebago County entered into an agreement under which the county agreed to accept sediments that are dredged from the Fox River and that are contaminated with polychlorinated biphenyls (PCBs) for disposal in the county's landfill.

This bill authorizes DNR to enter into an agreement with Winnebago County under which this state indemnifies the county against any liability or damage resulting from the county's acceptance of PCB-contaminated sediments if the sediments are disposed of in a manner approved by DNR. The bill also authorizes DNR to enter into an agreement with the city of Oshkosh under which this state indemnifies the city against any liability or damage resulting from the city accepting PCB-contaminated leachate from the landfill that contains the PCB-contaminated sediments.

Current law provides a process for negotiation and arbitration between a person who wishes to construct or expand a landfill or a hazardous waste facility and a committee representing those affected municipalities and counties that choose to participate in the process. An affected municipality or county is one in which a facility is proposed to be located or one whose boundary is within 1,500 feet of the area in which waste would be treated, stored or disposed of. Other municipalities may participate in the negotiation and arbitration process with the agreement of all parties to the process. Under current law, a town, city or village in which all or part of the facility is proposed to be located may appoint four members to a committee or the number of members appointed by the county and other affected municipalities plus two, whichever is greater.

Under this bill, a town, city or village in which all or part of a landfill or a hazardous waste facility is proposed to be located may appoint four members to a committee or the number of members appointed by the county, other affected municipalities and any municipalities added by agreement of the parties plus two, whichever is greater.

Under current law, DNR may require tests related to programs administered by DNR to be conducted by laboratories certified or registered by DNR or DATCP or

certified or registered by another state or a federal agency that recognizes laboratory certification by DNR and that uses standards equivalent to this state's standards.

This bill authorizes DNR to apply to the federal environmental protection agency to be approved to accredit laboratories under a national environmental laboratory accreditation program. If DNR is approved to accredit laboratories under the national program, an accredited laboratory may conduct tests that currently must be conducted by a certified or registered laboratory, this state must accept test results from laboratories accredited by other accrediting authorities and other accrediting authorities must accept test results from laboratories accredited by DNR.

Under current law, DNR, the department of commerce and the board of regents of the University of Wisconsin (UW) System are required to promote hazardous pollution prevention, which means changes in processes or raw materials that reduce or eliminate the use or production of hazardous substances, toxic pollutants and hazardous waste. This bill requires DNR, the department of commerce and the board of regents of the UW System to promote pollution prevention, which means an action that prevents waste from being created, reduces the amount of waste that is created or changes the nature of waste being created in a way that reduces the hazards to public health or the environment posed by the waste.

GAMBLING

Under current law, the compensation paid to a retailer who sells lottery tickets is 5.5% of the retail price of the lottery tickets. In addition, under current law, the compensation paid to a retailer who sells scratch-off or instant games is 6.25% of the retail price of scratch-off or instant games. This bill authorizes the department of revenue to establish, by rule, a program to provide for additional compensation to be paid to retailers who meet certain performance goals. Under this program, the total compensation provided to retailers who meet the performance goals may not exceed 1.0% of gross lottery revenues.

Under current law, the department of health and family services may award grants to individuals or organizations in the private sector to conduct compulsive gambling awareness campaigns. These grants are funded from the lottery fund, from revenues generated by pari-mutuel wagering and from moneys paid to the state under Indian gaming compacts. This bill provides that the grants must be funded entirely from moneys paid to the state under Indian gaming compacts.

HEALTH AND HUMAN SERVICES

LONG-TERM CARE; FAMILY CARE

Current law

Currently, home and community-based long-term care is provided to persons who are elderly, physically or developmentally disabled, chronically mentally ill or chemically dependent as a benefit under one or more programs administered by the

department of health and family services (DHFS). These programs are funded by federal, state or, in some instances, county moneys, and each program has individualized eligibility criteria and benefit restrictions. For elderly and disabled persons, these programs include medical assistance (MA), the long-term support community options program (COP), three community integration programs (CIPs) and community aids. MA is a comprehensive jointly funded federal-state health program for persons with low income and few assets. COP provides assessments of functionality and home and community-based care to, among others, elderly and disabled persons as an alternative to institutionalized care; one part of COP is funded by state moneys and the other part is funded under a joint federal-state program under a waiver of federal medicaid laws. Under other joint federal-state programs under waivers of federal medicaid laws, CIPs provide home and community-based services and continuity of care for persons relocated from institutions, including state centers for the developmentally disabled, and persons who meet requirements for MA reimbursement in nursing homes.

Currently, under a pilot project, DHFS contracts with a public or private entity to serve as a clearinghouse of information for individuals who are interested in home or community-based long-term support services or institutional long-term care services and to perform assessments to determine an individual's functional abilities, disabilities, personal preferences and need for home or community-based services or institutional services. Under a second pilot project, DHFS may contract with counties or federally recognized American Indian tribes or bands to demonstrate the ability of counties or tribes or bands to manage all long-term care programs under a long-term care management organization.

Currently, nursing homes are prohibited from admitting patients until a physician has completed a plan of care and the patient has been assessed under COP or the long-term care pilot project or has waived the assessment.

Creation of family care benefit, resource centers and care management organizations

This bill establishes a program of financial assistance for long-term care and support items, called a family care benefit, for persons who are eligible and are enrolled in a care management organization, an entity whose attributes are established in this bill. The family care benefit is funded by general purpose revenue appropriated for MA, COP and community aids. DHFS must request from the federal secretary of health and human services any waivers of federal medicaid laws necessary to permit the use of federal moneys to provide the family care benefit to recipients of MA; however, regardless of whether a waiver is approved, DHFS may implement the family care benefit. Persons are eligible for, but not necessarily entitled to, the family care benefit if they are at least 18 years of age, do not have a primary disabling condition of mental illness, substance abuse or developmental disability and meet certain functional and financial eligibility criteria. A person is entitled to the family care benefit and may enroll in a care management organization if he or she is financially eligible, meets cost-sharing requirements and meets any of several functional eligibility requirements or if he or she has a primary disabling condition of developmental disability and was a resident of a county or member of a

tribe or band that operated a care management organization under a pilot project. Divestment prohibitions, prohibitions on treatment of certain trusts, provisions on protection of income and resources of a couple for maintenance of a spouse in the community, and estate recovery provisions, all of which correspond to similar prohibitions and provisions under MA, apply to enrollees. A client may contest denial of eligibility, the determination of cost sharing, denial of entitlement, failure to provide timely services and support items in the plan of care, reduction of services or support items, development of an unacceptable plan of care and termination of the family care benefit, by filing a written request for a hearing within 45 days after receipt of notice of the contested matter.

The bill establishes requirements for a resource center, which, among other things, must provide information and referral services, determine functional and financial eligibility for the family care benefit, assist persons to enroll in a care management organization and determine eligibility for certain other benefits, including MA. Within six months after the family care benefit is available to all eligible persons in the area of the resource center, the resource center must provide information about its services to all older persons and persons with physical disabilities who reside in nursing homes, community-based residential facilities, adult family homes and residential care apartment complexes in the area of the resource center. A resource center must have a governing board that reflects the ethnic and economic diversity of the geographic area served by the resource center, and at least one-fourth of the governing board's members must be older persons or persons with physical or developmental disabilities or family members, guardians or other advocates of such persons.

The bill establishes requirements for a care management organization, which must accept the enrollment of persons who are entitled to the family care benefit, as well as the enrollment of persons who are eligible for the family care benefit and for whom funding is available. Under a contract with DHFS, the care management organization must, among other things, conduct a comprehensive assessment for each enrollee, develop a comprehensive care plan for the enrollee and provide or contract for the provision of necessary services. DHFS may, by contract, require solvency protections for a care management organization. A care management organization must have a governing board that is subject to requirements that are similar to those for the governing board of a resource center. The bill specifically exempts a care management organization from requirements for licensure as a home health agency.

Under the bill, DHFS must prescribe and implement a per person monthly rate structure for costs of the family care benefit. DHFS also must prescribe and enforce performance standards for the operation of resource centers and care management organizations, conduct ongoing evaluations of the system implementing the family care benefit and ensure that independent organizations conduct reviews of the quality of management and service delivery of resource centers and care management organizations.

Family care district

This bill authorizes county boards of supervisors to create, on a single county or multicounty basis, family care districts. Under the bill, a family care district is a separate local unit of government, the primary purpose of which is to operate a resource center or a care management organization, but not both. The jurisdiction of the family care district is the county or counties of the county board or boards of supervisors who created the district. The family care district's board is appointed by the county board or boards of supervisors and must consist of 15 persons for a single county and, for a multicounty family care district, an additional member for each county in excess of two. Board members must be residents of the family care district's jurisdiction and must satisfy certain additional requirements.

The bill grants to a family care district various local government powers, including the power to adopt and alter an official seal; adopt bylaws and policies and procedures to regulate its affairs; sue and be sued; negotiate and enter into leases and contracts; employ agents, employes or special advisers; and buy, sell or lease property. However, a family care district may not issue bonds or levy a tax or assessment. Under the bill, a family care district must appoint a director, who must manage the family care district's property, business and employes. The family care district must also develop and implement a personnel structure and other employment policies. With respect to the hiring of employes who formerly were county employes to perform the same or substantially similar functions that they previously performed, the family care district must perform certain tasks to ensure that the employes' compensation, benefits, seniority and status in class under county employment are not diminished. If the county has established its own retirement system the county must include family care district employes in participation and applicable benefits.

Numerous laws that apply to special purpose districts and local units of government apply to the family care district, including, among others:

- 1. The members of the family care district governing board and the director of the family care district are subject to the code of ethics for local government officials.
 - 2. The family care district is exempt from the sales and use taxes.
- 3. The family care district is subject to public employe occupational safety and health laws.
 - 4. The family care district is governed by unemployment compensation laws.
- 5. The family care district may participate in the local governmental property insurance fund.
- 6. The family care district is governed by municipal administrative procedures concerning constitutionally protected rights.
- 7. Persons attempting to sue the family care district are subject to limitations on actions that may be brought against it and limitations as to the filing of the notice of the injury and recoverable damages.

The bill also provides that a family care district:

- 1. Must adhere to the open records laws, except in certain circumstances.
- 2. Must adhere to the open meetings laws.

- 3. Is subject to auditing by the legislative audit bureau and review of its performance by the joint legislative audit committee.
- 4. Is an employer for all purposes of the municipal employment relations laws; as such, employes of the district may organize and seek to establish all terms of wages, hours and conditions of employment through collective bargaining.
- 5. Is subject to prohibitions on public funding for abortions and for abortion-related activities.
 - 6. May participate in the local government pooled-investment fund.
 - 7. Is exempt from local property tax and income tax.
 - 8. Is subject to laws regulating buildings and safety.
- 9. Is governed by state minimum wage and hour and family and medical leave laws and is subject to worker's compensation laws.
- 10. May participate in programs of state retirement, health and long-term care benefits, disability benefits and survivor benefits, deferred compensation plans, employe-funded reimbursement accounts and health insurance premium credits and be included as a coverage group under social security.
- 11. Is an employer for the purposes of coverage for group and individual health benefits and for small employer health insurance.
- 12. Is a municipality for the purposes of laws relating to the publication of legal notices.

Under the bill, obligations and debts of a family care district are not the obligations or debts of the county that created the family care district. A family care district may be dissolved by joint action of the family care district board and the county board or boards of supervisors that created the district, subject to performance of its contractual obligations and approval by the secretary of health and family services. If the family care district was created by more than one county, the county boards of supervisors that created the district must agree on the apportioning of the district's property before dissolution may occur.

Expansion of pilot projects

This bill authorizes DHFS to continue contracting with counties or American Indian tribes or bands under the current pilot projects until July 1, 2001. After that date, DHFS may contract with one or more entities certified as meeting requirements for a resource center and for services of an entity as a care management organization. During the first 24 months in which a county has a contract with DHFS under which the county accepts a per person per month payment for each enrollee in the county's care management organization, the authority of DHFS to contract with another organization to operate a care maintenance organization in that county is restricted.

Under the bill, a county, an American Indian tribe or band, a family care district or an organization may not directly operate both a resource center and a care management organization. If a county board of supervisors and the county executive or county administrator apply to DHFS for a contract to operate a resource center, the county board may create a family care district to apply to DHFS for a contract to operate a care management organization; if the county board and the county executive or administrator apply for a contract to operate a care management

organization, the county board may create a family care district to apply to DHFS for a contract to operate a resource center. If the governing body of an American Indian tribe or band elects to apply for a contract to operate a resource center, the tribe or band members may form a separate corporation to apply for a contract to operate a care management organization; if the governing body elects to apply for a contract to operate a care management organization, the tribe or band members may form a separate corporation to apply for a contract to operate a resource center. A county or family care district may apply jointly with a tribe or band or tribal or band corporation for a contract to operate a care management organization or resource center.

The bill authorizes a county department of social services, human services, developmental disabilities services or community programs or an aging unit authorized by the applicable county board of supervisors to apply to DHFS to operate a resource center or a care management organization. The bill also authorizes the secretary of health and family services, in order to facilitate the transition to the family care benefit system, to grant a county limited waivers to certain COP and CIP statutes and rules promulgated under those statutes.

Requirements of care facilities

This bill requires the secretary of health and family services to certify to each county, nursing home, community-based residential facility, adult family home and residential care apartment complex the date on which a resource center that serves the area of the county, home, facility or complex is first available to provide a functional and financial screen to specific groups of eligible individuals or for specified facilities. Each affected nursing home, community-based residential facility, adult family home and residential care apartment complex must inform prospective residents of the facility about the services of the resource center, the family care benefit and the availability of a functional and financial screen to determine eligibility. Also, these facilities and hospitals must refer to the resource center any person who seeks admission and who is aged at least 65 years or has a physical disability, unless the person has received a screen for functional eligibility within the previous six months, is entering the facility only for respite care or is an enrollee of a care management organization. Failure to comply with these requirements subjects the facility to an administrative forfeiture. prohibitions on the admittance to nursing homes of persons without a COP or other assessment do not apply to persons for whom the secretary of health and family services has certified that a resource center is available.

Council on long-term care and board on aging and long-term care

This bill creates in DHFS a 15-member council on long-term care that terminates on July 1, 2001. The council must assist DHFS in developing policy related to long-term care issues. The council also must review and make recommendations to DHFS concerning the DHFS standard contract provisions for resource centers and care management organizations, the family care benefit and other matters, and must monitor patterns of complaints, persons on waiting lists and patterns of enrollments and disenrollments.

The bill makes several changes to the membership of the board on aging and long-term care and requires the board to contract with organizations to provide advocacy services, including negotiation, mediation and assistance in administrative hearings or judicial proceedings, to potential or actual recipients of the family care benefit or their families or guardians.

OTHER LONG-TERM CARE

Under current law, a county may not use COP or CIP funds to provide services to an individual who resides in a community-based residential facility unless the individual receives, before admission, an assessment of his or her functional abilities, disabilities and need for medical and social long-term community support services.

Current law also requires a community-based residential facility, prior to admitting a person, to prepare a statement of financial condition for a person who intends to pay for residence in the facility from private funds. The statement of financial condition must estimate a date, if any, by which the person's assets and other private funding would be depleted if he or she were to reside continuously in the community-based residential facility. If that date is less than 24 months after the date of the statement of financial condition, the community-based residential facility must provide the statement to the county department of social services.

This bill allows a county, in accordance with guidelines established by DHFS, to waive the requirement to conduct a functional assessment prior to a person's admission to a community-based residential facility. However, if a person applies for admission to a community-based residential facility on or after the date that this bill becomes law and his or her statement of financial condition indicates that, if the individual were to reside in the community-based residential facility, his or her assets and other private funds would be depleted within 12 months, the community-based residential facility must refer him or her to the county department of social services to determine whether an assessment should be conducted.

Currently, revenues received by DHFS from skilled nursing facility violation forfeiture assessment surcharges and interest pay for certain costs that are associated with the violations, such as resident relocation to another facility and reimbursement for misappropriated property. This bill permits DHFS to use a portion of the penalty assessment surcharge and interest revenues for innovative projects that aim to protect health and property of residents of skilled nursing facilities.

PUBLIC ASSISTANCE

Under current law, a county department of human services or social services (county department) or, in Milwaukee County, DHFS must make payments of \$215 per month to a relative of a child who is providing care and maintenance for the child if certain conditions are met (kinship care and long-term kinship care). Under this bill, a county department or DHFS may, but is not required to, make those payments

if certain conditions are met. The bill also provides that, notwithstanding fulfillment of the conditions of eligibility for the receipt of those payments, a relative who is providing kinship care or long-term kinship care for a child is not entitled to receive those payments.

Under current law, a parent who receives federal supplemental security income (SSI), or a state supplemental payment, receives a monthly supplemental payment of \$100 for each dependent child with whom the parent lives, if certain conditions are met. This bill increases that monthly supplemental payment to \$150 per dependent child.

Current federal law permits states to establish a demonstration project under which certain low-income individuals may establish savings accounts, referred to as individual development accounts. The funds deposited into an individual development account may be used for certain expenses associated with postsecondary education, first home purchases, business capital expenses or medical expenses, to meet necessary living expenses following loss of employment or to make payments necessary to prevent the eviction of the individual from his or her residence or the foreclosure on the mortgage for the principal residence of the individual. An individual may only deposit earned income into the account. For every dollar that the individual deposits into the account, the administering state or local agency or American Indian tribal governing body, or a qualified nonprofit agency, must deposit at least 50 cents and not more than four dollars into that account. The federal government makes a grant to the matching contributor that equals the lesser of the aggregate amount of funds committed as matching contributions from nonfederal funds or \$1,000,000.

This bill allows the department of workforce development (DWD) to establish an individual development account demonstration project in this state in accordance with the federal law.

Under current law, DWD is required to recover benefit overpayments made under the aid to families with dependent children (AFDC) program and under the Wisconsin works (W-2) program (this state's welfare reform initiative which emphasizes work for benefits).

This bill permits DWD to recover overpaid AFDC or W-2 benefit amounts from former benefit recipients by issuing a warrant directed to the clerk of circuit court. The warrant is considered a perfected lien upon the person's right, title and interest in all real and personal property. DWD may then file an execution commanding the sheriff of any county in which property of the person is found to collect and sell sufficient property to pay the amount stated in the warrant.

The bill also allows DWD to collect the overpaid AFDC or W-2 benefits by levy upon any property of the person to whom the benefits were paid. Under the bill, such a person who refuses to surrender the property is subject to enforcement proceedings. A third party who fails to surrender property that is subject to a levy is liable for up to 25% of the amount the debt. The bill sets forth the process for

serving the levy and releasing the levy. The bill also exempts certain wages, the first \$1,000 in a bank account and certain other property from a levy.

Under current law, DWD must allocate certain moneys for various public assistance programs. This bill eliminates the requirement that moneys be allocated for some of the programs and adds the following new programs to the list of those for which moneys must be allocated:

- 1. A program to fund efforts to provide an emotionally and intellectually stimulating environment for certain low-income children under the age of five.
 - 2. A literacy program targeted at certain low-income individuals.
- 3. A competitive grant program to fund programs that improve social, academic and employment skills of certain low-income youth.
- 4. A program to assist low-income workers to maintain their jobs and to improve their basic skills.
- 5. A program to match retirees with youth to provide the youth with workforce mentoring.
- 6. A program to encourage the positive involvement of fathers in their children's lives.
- 7. A grant program under which DWD may award up to \$1,000,000 to counties and private entities to provide community-based alcohol and other drug abuse treatment that is targeted to certain low-income individuals.

The bill also permits DWD to transfer funds received under the federal temporary assistance for needy families block grant program to other agencies for various programs.

Under current law, a county department of social or human services must certify eligibility for and issue food coupons to needy households, except that a Wisconsin works (W-2) agency is required, to the extent permitted under federal law or waiver, to certify eligibility for and issue food coupons to eligible participants in the W-2 program.

This bill requires a W-2 agency, to the extent permitted under federal law or waiver, also to certify eligibility for and issue food coupons to: 1) persons who may be required to participate in the food stamp employment and training program; and 2) other persons who are under the age of 61 and who are not disabled.

Under current law, certain federal economic support programs require that a state maintain or increase its average annual expenditures for those programs. This is commonly referred to as a maintenance-of-effort requirement.

This bill allows DWD to expend moneys from its economic support programs appropriation for services to identify funds that may be used for the maintenance-of-effort requirement.

Currently, under the learnfare program, a child between the ages of 6 and 17 who is the dependent child of a recipient of benefits under the W-2 program must meet a school attendance requirement to avoid the imposition of certain sanctions.

Currently, DWD may expend moneys for a study of the school attendance requirement under the learnfare program for children who are 6 to 12 years of age. This bill eliminates that expenditure authority.

Under current law, if a recipient of certain public assistance benefits dies and the estate of the deceased recipient is insufficient to pay for the funeral, burial and cemetery expenses, the county or applicable American Indian tribal governing body or the organization responsible for burial of the recipient must pay the cemetery expenses that are not paid by the deceased recipient's estate (but not more than \$1,000) and must pay the funeral and burial expenses that are not paid by the deceased recipient's estate (but not more than \$1,000).

Under this bill, a county, tribal governing body or organization responsible for burying the recipient is not required to make a payment for funeral, burial or cemetery expenses if the request for the payment is made more than 12 months after the recipient died.

Under current law, DWD administers a work experience program for noncustodial parents (parents who do not live with their children for substantial periods of time), commonly referred to as the children first program. A parent who fails to pay court-ordered child support or to meet the child's needs for support because of unemployment or underemployment is required to participate in the program, under which the person is provided with certain types of work experience, job training and job search assistance. Currently, DWD may contract with any county to administer the children first program. DWD pays the county \$200 for each person who participates in the program in that county.

This bill permits DWD to contract with a W-2 agency or a county to administer the children first program. The bill requires DWD to pay the administering county or W-2 agency \$400 for each person who participates in the program in the region in which the county or W-2 agency administers the program.

This bill provides that DHFS may use moneys derived from Indian gaming compacts to fund relief block grants to American Indian tribal governing bodies.

WISCONSIN WORKS

Under current law, two W-2 agencies in Milwaukee County are permitted to implement a program under which certain participants in community service jobs (wholly subsidized employment) may be paid wages rather than monthly grants. To qualify for a wage-paying community service job, the participant must already be engaged in unsubsidized employment for at least 15 hours per week. Currently, a W-2 agency may not require a person to work in a wage-paying community service job more than the lesser of 15 hours per week or the difference between 40 hours and the number of hours per week that the participant works in unsubsidized employment. If the participant qualifies for the federal earned income tax credit (EITC), current law qualifies the participant for the state EITC as well. Currently,

the wage-paying community service job program is scheduled to sunset on October 1, 2001.

This bill eliminates the sunset date for the wage-paying community service job program and expands the program, beginning on January 1, 2001, to allow all W-2 agencies to implement it for any individual that the W-2 agency determines is capable of working in an unsubsidized job but who, despite reasonable efforts, is unable to secure full-time unsubsidized employment. However, the bill caps the number of slots for the program at 2,500 statewide. Under the bill, a participant in a wage-paying community service job is disqualified from the state EITC with respect to any wages earned under the wage-paying community service job. Additionally, under the bill, the participant need not be engaged in unsubsidized employment to qualify for a wage-paying community service job. Finally, the bill allows a W-2 agency to require a participant in a wage-paying community service job to work in a community service job for not more than 30 hours per week and to participate in job search activities for not more than ten hours per week.

This bill requires a W-2 agency to assess the educational needs of an individual whom the W-2 agency proposes to place in unsubsidized employment or a trial job. Under the bill, if the W-2 agency determines that the individual needs basic education, such as courses leading to the granting of the equivalent of a high school diploma, and if the individual wishes to pursue the basic education, the W-2 agency must make basic education a part of an employability plan that the W-2 agency develops for the individual. The bill requires the W-2 agency to pay for the basic education services.

Under current law, with certain limited exceptions, a participant in the W-2 program may be required to work in a community service job for not more than 30 hours per week and to participate in education or training activities for not more than ten hours per week. If the W-2 agency requires fewer than 30 hours of work per week because the participant has part-time unsubsidized employment, the participant's grant amount may be reduced by an amount equal to the product of \$5.15 and the difference between 30 and the number of hours that the participant is required to work. This bill specifies that if a W-2 agency places a person in a community service job for fewer than 30 hours per week because that person has part-time unsubsidized employment, the W-2 agency may reduce the monthly grant in accordance with a schedule developed by DWD.

Under current law, a child care subsidy is available to a parent or guardian of a child who is under the age of 13 if the parent or guardian meets certain income and asset limits and needs child care to participate in certain work-related activities, including employment skills training. If child care is needed in order to participate in employment skills training (which includes English as a second language courses, high school graduation equivalency courses and technical college courses), the parent or guardian must demonstrate that he or she has been employed in an

unsubsidized job for at least nine consecutive months or that he or she is a participant in a W-2 employment position in order to receive a child care subsidy.

Under this bill, if a person wishes to receive a subsidy for child care that is needed in order to pursue basic education (such as English as a second language courses, high school graduation equivalency courses or literacy tutoring), that person must demonstrate that he or she is employed in unsubsidized employment (without regard to length of employment) or that he or she is a participant in a W-2 employment position. A person who wishes to receive a subsidy for child care that is needed in order for the person to participate in a course of study at a technical college, or to pursue education that provides an employment skill, must demonstrate that he or she has been working in unsubsidized employment for three months (and continues to be so employed) or that he or she is in a W-2 employment position. As under current law, the W-2 agency must determine that the basic, technical or other education would facilitate the person's efforts to obtain employment.

Under current law, a contract to operate as a W-2 agency must require that the W-2 agency provide, or contract with another person to provide, credit establishment and credit repair assistance to W-2 participants. Currently, DWD may allocate not more than \$3,000,000 annually for credit assistance to W-2 recipients in the city of Milwaukee.

Under this bill, rather than requiring credit establishment and credit repair services, a W-2 agency contract must require that the W-2 agency provide, or contract with another to provide, budgeting and financial planning services. The bill eliminates the allocation for credit establishment and credit repair services offered to W-2 participants in the city of Milwaukee.

Current contracts between DWD and W-2 agencies require the agencies to offer follow-up services for 60 days after a W-2 participant moves from a W-2 employment position to unsubsidized employment. This bill permits a W-2 agency, subsequent to that follow-up period, to offer case management services, including the provision of employment skills training, English as a second language classes and basic education, to an individual who has moved from a W-2 employment position to unsubsidized employment, regardless of the individual's income or asset level.

Currently, in calculating a person's income for the purpose of determining financial eligibility for W-2 or for a W-2 child care subsidy, a W-2 agency must include child support payments received by the person on behalf of any child who is a member of that person's household. This bill removes child support payments from the income consideration. The bill also directs the W-2 agency to include in the calculation of income for W-2 child care eligibility net earnings and certain business-related expenses reported to the Internal Revenue Service for farm and self-employment income.

MEDICAL ASSISTANCE

Under current law, certain people are eligible for MA because of substantial medical needs that consume so much of their income as to qualify them as low-income. This category of MA recipients is commonly referred to as medically needy. Other people are eligible for MA by virtue of their receipt of other federal assistance, such as SSI. This category of MA recipients is commonly referred to as categorically needy.

This bill directs DHFS to seek federal approval and to request any necessary waivers to expand MA eligibility to disabled persons who would qualify for SSI but for excess income and assets. Under the bill, a disabled person whose family's income is less than 250% of the federal poverty line and whose assets do not exceed \$20,000 is eligible to receive MA if the person pays a monthly premium and a one–time initial premium established by DHFS. The bill directs DHFS, however, to pay the monthly premium for a person who is eligible for this MA purchase plan and who is receiving services under COP. The bill also authorizes DHFS to pay for that person's one–time entry premium.

The bill also requires DHFS to evaluate how to coordinate the MA purchase plan with HIRSP, which provides major medical health insurance coverage for, among others, persons who are covered under medicare because they are disabled but for which persons who are eligible for MA are not eligible. DHFS is required, if necessary, to develop proposed legislation that coordinates the two programs and that addresses the provision of health care coverage for individuals who are eligible for both HIRSP and the MA purchase plan.

Under the current MA program, DHFS certifies persons or facilities that meet certain criteria as providers and pays for services and items that MA recipients receive from the certified providers. DHFS is authorized or required to enforce numerous sanctions, including decertification or suspension from the MA program, against providers who fail to comply with requirements under the program or to whom improper or erroneous payments or overpayments have been made. To implement these sanctions, DHFS must provide written notice, a fair hearing and a written decision.

This bill prohibits MA providers from submitting false claims for payment of services or items. The bill permits DHFS to assess forfeitures for violations of the prohibitions and to impose a surcharge on a forfeiture that is assessed.

The bill authorizes DHFS to require certain MA providers, as a condition of certification, to file with DHFS a surety bond, payable to DHFS, under terms and in an amount specified by DHFS, that would reasonably pay the amount of a recovery and DHFS's costs to pursue recovery of overpayments or to investigate and pursue allegations of false claims or statements.

The bill authorizes DHFS, if DHFS first makes specified findings, to prescribe MA provider certification criteria that limit the number of providers of particular services or that limit the amount of resources, including employes and equipment, that a certified provider may use to provide MA services and items.

The bill makes various changes relating to the procedures for the recovery by DHFS of improper or erroneous MA payments or overpayments.

The bill eliminates DHFS's general authority to suspend a provider, but authorizes DHFS, if certain criteria are met, to suspend certification for a provider pending a hearing on whether the provider must be decertified for violation of federal or state laws. The bill eliminates the right of notice, a fair hearing and a written decision for most sanctions against providers that DHFS may enforce, except for decertification from or restriction of a provider's participation in the MA program.

The bill authorizes DHFS to prescribe conditions of MA participation and reimbursement terms and to impose additional sanctions for noncompliance. The bill requires immediate access, upon request by DHFS, to provider records and specifies that a provider's failure to provide access constitutes grounds for decertification.

The bill changes provisions concerning liability for repayment of improper or erroneous payments or overpayments of a provider who sells or otherwise transfers ownership of his or her business. Under the bill, before such a sale or transfer may take place, the provider must notify DHFS of the impending sale and DHFS must inform the provider of the extent of liability, if any. If liability exists, the provider must so inform the prospective transferee of the extent of the liability and the liability attaches to both the provider and the transferee, with the sale or other transfer conditioned upon repayment. If the provider fails to inform the transferee, liability does not attach to the transferee. Repayment must be made prior to the sale or transfer and, if not done, the sale or transfer is void.

Currently, a person who disposes of assets for less than the fair market value in order to qualify for MA is ineligible for MA for a certain period. Current law specifies that a transfer of assets to an irrevocable annuity is a transfer that is below the fair market value if the amount of the transfer exceeds the expected benefit.

This bill provides that a transfer of an asset to an irrevocable annuity, or a transfer of an asset by promissory note or similar instrument, is a transfer for the fair market value of the asset if certain conditions are met.

Under current law, DHFS must recover from the estate of a deceased MA recipient the amount of MA paid on behalf of the recipient while the recipient was a resident in a nursing home or an inpatient in a medical institution and the amount of MA paid on behalf of the recipient for certain services received by the recipient after the recipient was over the age of 55. One mechanism for recovery is a claim filed against the estate, which may include a lien placed on the home of a recipient who is a nursing home resident and not expected to return home. Currently, a lien may only be for the amount of MA paid on behalf of the recipient while the recipient resides in a nursing home.

This bill expands the estate recovery program as follows:

1. In addition to obtaining a lien on the home of a nursing home resident who is not expected to return home, the bill directs DHFS to obtain a lien on the home of an inpatient in a hospital who is not expected to return home. The lien, in both cases,

is for the amount of MA paid on behalf of that recipient that is generally recoverable, rather than only the amount paid while the recipient was in the nursing home (or hospital).

2. DHFS must recover expenditures for personal care services, which include assistance with meals, dressing, movement, bathing or other personal needs or maintenance.

Under current law, a court may reduce DHFS's claim in an estate by up to \$3,000 to allow heirs and beneficiaries to retain certain personal property, including up to \$1,000 in tangible personal property that is not used in trade, agriculture or other business. This bill allows a court to reduce DHFS's claim in an estate by up to \$5,000, including \$3,000 in tangible personal property that is not used in trade, agriculture or other business.

Under current law, payments to nursing homes for care provided to recipients of MA are determined under a payment system that considers specific allowable costs, under standards prescribed by DHFS. The standards for payment of allowable direct care costs, support service costs, heating fuel and utility costs and administrative and general costs of a nursing home may not be less than the median for such costs of a sample of all nursing homes. Payment for net property taxes or municipal services are required to be made on a range from actual costs to a maximum limit determined by DHFS. Payment for capital costs of a nursing home must be based on the home's replacement value, subject to DHFS limitations, except that DHFS may not reduce final capital payment by more than \$3.50 per patient day and except that DHFS limitations do not apply to certain nursing homes that have high capital costs. DHFS must calculate a payment for a nursing home by applying specified standards and considering specified cost centers and allowable costs. Payments are based on cost reports from the nursing home's previous fiscal year.

This bill eliminates the requirement that DHFS base payment on information from cost reports from the nursing home's previous fiscal year. The bill also eliminates the requirement that the standards for payment by DHFS of allowable costs for direct care, support services, heating fuel and utilities, administration and general services be not less than the median for such costs for a sample of all nursing homes, although the bill still requires DHFS to consider a sampling of nursing homes in determining payment. The bill eliminates the limitation on the amount by which DHFS may reduce final capital costs payment of a nursing home. The bill revises the standard for payment for net property taxes or municipal services to limit the payment to actual previous costs, subject to a maximum determined by DHFS.

Under current federal law, with certain exceptions, states are permitted to require an individual who is eligible for MA to enroll in a managed care plan (generally a health maintenance organization, or HMO) rather than receiving services under the traditional fee-for-service system. Federal law prohibits states from requiring a child who is in foster care to enroll in a managed care plan as a condition of receiving MA.

This bill authorizes DHFS to request a waiver from the secretary of the federal department of health and human services to permit DHFS to require children in foster care to enroll in a managed care plan as a condition of receiving MA. If the waiver is granted and in effect, the bill permits DHFS to implement the waiver.

This bill requires DHFS to request a waiver from the secretary of the federal department of health and human services to permit DHFS to cover under MA clinical evaluation services for certain persons with HIV. The bill limits coverage to \$500 per year per person.

Currently, DHFS must annually submit to JCF a report on nursing home bed utilization by MA recipients for the previous year. If the report indicates that the utilization has decreased, DHFS must include a proposal to transfer funds from the MA appropriation account to the COP appropriation account for expenditure for noninstitutional long-term support services.

This bill provides that the transfer of funds from MA to COP may not reduce the MA appropriation account balance below the amount necessary to ensure that the appropriation account will end the current fiscal year or the current fiscal biennium with a positive balance. The bill requires that DHFS's report to JCF include a discussion and detailed projection of the likely balances, expenditures, encumbrances and carry-over of currently appropriated amounts in the MA appropriation accounts.

Currently, MA recipients may obtain coverage for inpatient hospital services and outpatient services for treatment of alcohol or other drug abuse. This bill provides that MA recipients may receive, until July 1, 2003, residential treatment services for alcohol and other drug abuse, limited to 45 days of treatment services per treatment episode. The benefit may be provided only in a facility of fewer than 16 beds in a county, city, town or village that elects both to become certified as a provider of the services, or to contract with a certified provider to provide the services, and to pay the amount of the allowable charges for the services under the MA program that is not provided by the federal government.

Under current law, dental services are provided to MA recipients on a fee-for-service basis or under some form of managed care, such as through enrollment by a recipient in a health maintenance organization that provides dental services. This bill increases the amount paid under the MA program for dental services providers who provide services on a fee-for-services basis.

Currently, DHFS annually may distribute no more than \$2,256,000 of MA moneys as supplements to rural hospitals that, compared to other rural hospitals, have a high utilization of inpatient services by persons whose care is provided from governmental sources. This bill authorizes DHFS to distribute the supplements of MA moneys also to critical access hospitals. A critical access hospital is a hospital

that DHFS determines meets specific federal medicaid requirements and has specific federal certification.

Under current law, at the request of DHFS, health insurers must provide information to enable DHFS to identify MA recipients who are eligible, or who would be eligible as dependents, for health insurance coverage. This bill authorizes DHFS to provide any information that it receives from a health insurer to DWD. The two departments must agree on procedures to safeguard the confidentiality of the information.

Currently, DHFS is authorized to provide enhanced reimbursement under CIP for a person who was relocated to the community from an intermediate care facility for the mentally retarded that closes. This bill additionally authorizes DHFS to provide enhanced reimbursement under CIP for a person who is relocated to the community from an intermediate care facility for the mentally retarded, or a distinct part of the facility, that has a DHFS-approved plan of closure and that intends to close within 12 months.

CHILDREN

Under current law, DHFS awards grants for various programs relating to youth alcohol and other drug abuse, adolescent pregnancy and other adolescent services. These programs include a neighborhood drug use and violence prevention program, a community alcohol and other drug abuse prevention program, a drug prevention program for Milwaukee public high school athletes, an adolescent self-sufficiency program, an adolescent pregnancy prevention program, an adolescent resource center in Milwaukee, a minority adolescent parenting skills program in Milwaukee and an adolescent choices project.

This bill eliminates all of these programs. The bill directs DHFS to award grants to public and private organizations operating in Milwaukee County; county departments of human services, social services, community programs or developmental disabilities services operating in counties other than Milwaukee County; and federally recognized American Indian tribes or bands in this state to provide programs to prevent and reduce the incidence of youth violence and other delinquent behavior, youth alcohol and other drug use and abuse, nonmarital pregnancy and child abuse and neglect; to increase the use of abstinence as a method of preventing nonmarital pregnancy; and to increase adolescent self–sufficiency by encouraging high school graduation, vocational preparedness, improved social and other interpersonal skills and responsible decision making. The bill requires DHFS to provide a set of benchmark indicators to measure the outcomes that are expected of a program receiving a grant and permits DHFS to renew a grant only if the recipient shows improvement on those indicators.

Under current law, an agency that is responsible for investigating reports of suspected or threatened child abuse or neglect must determine, within 60 days after receipt of such a report, whether abuse or neglect has occurred or is likely to occur.

Currently, there is no procedure for appealing that determination. This bill provides that if such a determination contains a finding that a specific person has abused or neglected a child, that person may appeal that finding in accordance with procedures established by DHFS.

Under current law, an agency that is responsible for investigating reports of suspected or threatened child abuse or neglect must keep its records confidential and may disclose those records only under certain conditions. This bill permits such an agency, subject to standards established by DHFS, to disclose to the news media and the general public information from the agency's records in cases in which a child died or was placed in serious or critical condition as a result of abuse or neglect.

Under current federal law, each state that receives a grant under the federal Child Abuse Prevention and Treatment Act must establish not less than three child abuse and neglect citizen review panels to evaluate the extent to which local agencies responsible for providing child protective services are effectively discharging their responsibilities and must ensure that otherwise confidential child abuse and neglect records are made available to those panels. This bill permits a child abuse and neglect citizen review panel established by DHFS or a county department to have access to the otherwise confidential child abuse and neglect records of an agency responsible for child protection as necessary for the panel to carry out its functions.

Under current law, a person is eligible for a subsidy for child care for a child who is under the age of 13 if the person meets certain requirements. The person must be a parent or other primary caretaker of the child; the person must initially have a gross income at or below 165% of the federal poverty line; and the person's assets may not exceed \$2,500 in combined equity value.

This bill expands eligibility for a child care subsidy beginning on January 1, 2000. Under the bill, the initial income limit is increased to 185% of the poverty line and the asset limit is eliminated. The bill also expands the subsidy to cover child care for disabled children who are under the age of 19.

Under current law, DWD must award grants for the start-up or expansion of child care services and must attempt to award these grants to head start agencies, employers that provide or wish to provide child care services for their employes, family day care centers, group day care centers and day care programs for the children of student parents. A person who is awarded a child care start-up or expansion grant must contribute matching funds equal to 25% of the amount awarded and may not use any grant moneys to purchase or improve land or to purchase, construct or permanently improve, other than minor remodeling, any building or facility.

This bill requires DWD to award low-interest loans for the start-up or expansion of child care services. Under the bill, the same requirements that apply to the awarding of child care start-up or expansion grants, other than the matching funds requirement, apply to the awarding of child care start-up or expansion

low-interest loans. The bill also requires DWD to attempt to award child care start-up and expansion grants and low-interest loans to organizations that provide child care for sick children and to child care providers that employ participants or former participants in a W-2 employment position.

Under current law, if a W-2 agency determines that a person is eligible for a child care subsidy, the W-2 agency must refer that person to the county department. The county department determines, in accordance with a schedule developed by DWD, the amount of the person's copayment for child care; provides a child care subsidy, either in the form of a voucher or a direct payment to the child care provider; and helps the person identify available and appropriate child care. The county department also sets maximum reimbursement rates for child care providers and certifies certain child care providers. Finally, under current law, a county department is responsible for conducting a background investigation of child care providers prior to certifying them.

This bill permits DWD to require a county department, a tribal governing body or a W-2 agency to administer the child care subsidy program, except that in Milwaukee County, DWD must require a W-2 agency to administer the child care subsidy program in that county. Under the bill, whichever entity administers the program is responsible for determining the copayment amount, providing the subsidy, conducting background investigations on and certifying child care providers and identifying available and appropriate child care for subsidy recipients. County departments, however, retain the responsibility for setting maximum reimbursement rates for child care providers.

Under current law, DHFS may not license a person to operate a foster home, treatment foster home, group home, shelter care facility, child welfare agency or day care center; a county department or a child welfare agency may not license a person to operate a foster home or treatment foster home; a county department may not certify a person as a day care provider; and a school board may not contract with a person to operate a day care program if the person has been convicted of or has pending a charge for a serious crime, as defined by DHFS by rule; has abused or neglected a client or a child; has misappropriated client property; or is not sufficiently credentialed to provide adequate client care. In addition, such a licensed, certified or contracting entity may not hire or contract with such a person if the person is expected to have access to the entity's clients and may not permit such a person to reside at the entity as a nonclient. Such a person may, however, subject to certain exceptions, demonstrate that he or she has been rehabilitated. At the time of initial licensure, certification, hiring, contracting or residence and every four years after that, DHFS, a county department, a child welfare agency or a school board must obtain, with respect to an operator or nonclient resident of an entity, and an entity must obtain, with respect to an employe or contractor who has or is expected to have access to the entity's clients, certain personal background information, including information obtained from a criminal history search. DHFS, a county department,

a child welfare agency or a school board may charge a fee for obtaining this background information about an operator or nonclient resident of an entity.

This bill changes the type of interaction with clients that an employe or contractor must have to require a background investigation of the employe or contractor and to prohibit the employe or contractor from being hired by or from contracting with an entity. The bill, rather than requiring an investigation of an employe or contractor who has or is expected to have access to a client, instead requires an investigation of an employe or contractor who provides or is expected to provide to clients direct care that is more intensive than negligible in quantity or quality or in the amount of time required to provide the care. The bill also permits DHFS, a county department, a child welfare agency, a W-2 agency or a school board to charge a fee for the cost of providing background information to an entity about an employe or contractor and to charge a fee to a person for the cost of determining whether the person has been rehabilitated.

Under current law, a foster home may provide care and maintenance for no more than four children unless all of the children are siblings. This bill permits a foster home to provide care and maintenance for no more than four children or, if necessary to enable a sibling group to remain together, for no more than six children or, if DHFS promulgates rules permitting a different number of children, for the number of children permitted under those rules.

Under current law, subject to certain exceptions, DHFS, a county department or a licensed child welfare agency (collectively "agency") may not make available for inspection or disclose the contents of any record kept or information received about an individual in the care or legal custody of the agency except by order of the court assigned to exercise jurisdiction under the children's code (juvenile court). Current law, however, is silent as to the confidentiality of records kept and information received relating to a foster parent, treatment foster parent or family-operated group home parent (substitute care parent).

This bill prohibits an agency from making available for inspection or disclosing the contents of any record kept or information received relating to a substitute care parent or a family member of a substitute care parent without first receiving the written permission of the substitute care parent, except by order of the juvenile court. The bill does not prohibit an agency from disclosing information in confidence to another social welfare agency, from disclosing the contents of a record as permitted under the child abuse and neglect reporting law, from disclosing to the child's parent, guardian or legal custodian the name and address of the substitute care parent or from including the location of the child's placement in the child's permanency plan.

Current law appropriates to DHFS certain general purpose revenues (GPR) and federal revenues for foster care and for adoption assistance payments to parents who adopt children with special needs. This bill expands the purposes for which GPR and federal foster care and adoption services moneys are appropriated to DHFS to

include the cost of contracting with private adoption agencies to provide adoption services for children with special needs who are under the guardianship of DHFS.

Under current law, in Milwaukee County, DHFS is required to provide the juvenile court with services necessary for investigating and supervising child welfare cases under the children's code and the county board of supervisors is required to provide the juvenile court with services necessary for investigating and supervising cases under the juvenile justice code. Child welfare cases under the children's code include cases in which a child is alleged to have been abused or neglected or otherwise to be in need of protection or services under the children's code. Cases under the juvenile justice code include cases in which a juvenile is alleged to be delinquent, in violation of a civil law or ordinance or in need of protection or services under the juvenile justice code, that is, habitually truant from home or school, uncontrollable or a school dropout. The chief judge of the judicial administrative district covering Milwaukee County must formulate written judicial policy governing intake and juvenile court services for matters under the children's code and the juvenile justice code.

This bill prohibits the chief judge from directing DHFS to provide intake and juvenile court services in cases in which the referral information indicates that the juvenile should be referred to the juvenile court under the juvenile justice code, unless that information indicates that the juvenile should also be referred to the juvenile court under the children's code. The bill also requires the chief judge to direct DHFS and Milwaukee County to coordinate the provision of services in cases in which a DHFS intake worker determines that jurisdiction exists under the juvenile justice code instead of or in addition to the children's code and in cases in which a Milwaukee County intake worker determines that jurisdiction exists under the children's code instead of or in addition to the juvenile justice code.

HEALTH

Under current law, DHFS must administer a health care program (known as badger care) to provide health care coverage to low-income (generally defined as having an income at or below 185% of the federal poverty line) children and their parents if the children reside with their parents.

This bill expands the badger care program to cover any child under the age of 19 who meets financial and other eligibility requirements, regardless of whether the child resides with his or her parents. The bill also requires DHFS to lower the maximum income level for initial eligibility for badger care if funding for badger care is insufficient to accommodate the projected enrollment in badger care and requires DHFS to raise the income limit to up to 185% of the federal poverty line if, after having lowered the income level, funding for badger care becomes sufficient to cover projected enrollment of persons at the higher income level.

Currently, the health insurance risk-sharing plan (HIRSP) provides major medical health insurance coverage for persons who are covered under medicare because they are disabled, persons who have tested positive for human

immunodeficiency virus (HIV) and persons who have been refused coverage, or coverage at an affordable price, in the private health insurance market because of their mental or physical health condition. Also eligible for coverage are persons (called eligible individuals) who do not currently have health insurance coverage, but who were covered under certain types of health insurance coverage for at least 18 months in the past. HIRSP offers its enrollees who are not eligible for medicare an annual choice of coverage option. Responsibility for administering HIRSP is split between DHFS and the HIRSP board of governors (board).

This bill makes various changes to HIRSP. Except for an eligible individual, a person who is at least 65 years of age is not eligible for HIRSP coverage. The bill provides that a person who has HIRSP coverage on the date on which he or she attains age 65 does not lose eligibility for coverage because of his or her age.

With certain exceptions, current law provides that a person for whom a premium, deductible or coinsurance amount is paid by any governmental agency is not eligible for HIRSP coverage. The bill provides that a person who receives a reimbursement from DHFS for the cost of drugs for the treatment of HIV infection and for the treatment of acquired immunodeficiency syndrome (AIDS) is not ineligible for HIRSP coverage by reason of the reimbursement.

With certain exceptions, current law sets the deductible for coverage under HIRSP at \$1,000. HIRSP pays 80% of covered costs exceeding the deductible. After a covered person has paid \$2,000 in costs, including the deductible, in a calendar year, the bill directs HIRSP to pay 100% of the covered costs for the remainder of the calendar year. If more than one member of a family has HIRSP coverage, HIRSP pays 100% of covered costs after the family has paid \$4,000 in costs. The bill specifies these values for covered persons not eligible for medicare who choose the other coverage option that HIRSP offers. Under the other coverage option, the deductible is \$2,500. HIRSP pays 100% of the covered costs after a covered person has paid \$3,500 in costs in a calendar year. For a family with more than one covered person, HIRSP pays 100% of covered costs after the family has paid \$7,000 in costs.

Finally, the bill transfers to DHFS some of the board's responsibilities, such as establishing procedures for hearing grievances and collecting assessments from insurers, and requires the board to advise DHFS with respect to those responsibilities.

Under current law, DHFS may not license, certify, issue a certificate of approval to or register a person to operate an adult treatment facility or organization or to provide adult treatment services if DHFS knows that the person has been convicted of or has pending a charge for a serious crime; has been found to have abused or neglected a facility client or misappropriated client money; has abused or neglected a child; or is not sufficiently credentialed to provide adequate client care. In addition, an adult treatment facility or organization or a person providing services may not hire such a person if that person may have access to clients and an adult treatment facility may not allow him or her to reside as a nonclient at the facility. The prohibitions do not apply if the person demonstrates to DHFS that he or she has been rehabilitated, unless the person has been convicted of certain offenses. DHFS must

obtain specific personal background information, including that obtained from criminal history searches, about persons applying to operate adult treatment facilities or organizations or applying to provide adult treatment services. In addition, DHFS must obtain the information every four years for all persons licensed to operate such facilities or organizations or to provide such services and for nonclient facility residents and may charge a fee for conducting those personal background information checks. Every adult treatment facility or organization and every person who provides adult treatment services must obtain the same types of information about prospective employes or contractors, and every adult treatment facility must obtain such information about persons who seek to reside as nonclients in the facilities. The information must be obtained every four years for employes or contractors.

This bill authorizes DHFS to conduct background investigations on behalf of adult treatment facilities and organizations and persons who provide adult treatment services and to charge a fee for doing so. Additionally, the bill authorizes DHFS to charge persons a fee for the costs incurred by DHFS under requests to demonstrate that the persons have been rehabilitated.

The bill changes the type of interaction with clients that a prospective employe or a prospective contractor must have in order to require a background investigation of the employe or contractor and to prohibit the employe or contractor from being hired by or from contracting with adult treatment facilities, organizations or services. The bill, rather than requiring investigation of a person who has or is expected to have access to the clients of the facility, organization or service, instead requires investigation of a person who provides to the clients or is expected to provide to the clients, direct care that is more intensive than negligible in quantity or quality or in the amount of time required to provide the care. Restrictions on nonclient residents at the facility, organization or service are unchanged by the bill.

Under current law, DHFS administers the birth and developmental outcome monitoring program (BDOMP). Under that program, a report must be made to DHFS by a physician or nurse who diagnoses or confirms a suspected diagnosis that a child under the age of six has a condition resulting from a low birth weight, a chronic condition possibly requiring long-term care, a birth defect or a developmental disability or other severe disability. DHFS must develop and implement a system for the collection, updating and analysis of the information reported and to disseminate the information.

This bill eliminates BDOMP. Instead, the bill requires physicians, hospitals, certain clinics and clinical laboratories to report birth defects identified in children under the age of two to DHFS. The bill requires DHFS to establish and maintain a registry that documents the diagnosis of a birth defect in a child under the age of two. As under current law, personally identifying information that is contained in the reports made to DHFS is confidential and, with certain exceptions, may not be released to any person. Finally, the bill creates a council on birth defect prevention

and surveillance to advise DHFS regarding the registry and rules related to reporting.

Under current law, DHFS licenses and otherwise regulates emergency medical technicians and ambulance service providers. DHFS may charge a reasonable fee for licensure. This bill authorizes DHFS to impose forfeitures on ambulance service providers for violation of laws that prescribe conditions for licensure and for operation of ambulances. The bill clarifies that DHFS may charge a fee for the renewal of licenses for emergency medical technicians and ambulance service providers and authorizes DHFS to charge fees for untimely license renewal. DHFS must promulgate rules to establish the amounts for assessments of the forfeitures, fees for license renewal and late renewal fees.

This bill does all of the following with respect to tuberculosis:

- 1. Requires that laboratories that perform primary culture for mycobacteria also perform organism identification for mycobacterium tuberculosis and conduct antimicrobial drug susceptibility tests on the mycobacterium tuberculosis bacteria. The results of that test must be reported to DHFS.
- 2. Creates a process by which a person with infectious tuberculosis or with a suspected case of tuberculosis may be confined pending a hearing if the confinement is to be longer than 72 hours.
- 3. Permits local health departments to request from DHFS certification to establish and maintain a public health dispensary.

This bill provides that DHFS may use moneys derived from Indian gaming compacts to fund grants for cooperative American Indian health projects.

Under current law, DHFS must base fees for renewal of home health agency licenses on the annual net income, as determined by DHFS, of each home health agency seeking license renewal. This bill eliminates annual net income of home health agencies as a basis for establishing fees for home health agency license renewal, thus permitting DHFS to base fees on any criterion.

MENTAL ILLNESS AND DEVELOPMENTAL DISABILITIES

Under current law, a person who is believed to be mentally ill and a proper subject for treatment and who evidences certain acts, omissions or other behavior that indicate that he or she satisfies at least one of five standards of dangerousness may be detained on an emergency basis and transported to and detained and treated in a mental health treatment facility. A petition signed by three others may be brought against the detained person alleging that the detained person is mentally ill, is a proper subject for treatment and is dangerous because he or she meets a standard for involuntary civil commitment. If such a petition is filled with a court, the subject of the petition must be given a hearing to determine if there is probable cause to support the petition's allegations. If a court finds probable cause, a final hearing on commitment must be held. If, at the hearing, the person is again found

to satisfy one of the standards of dangerousness he or she may be involuntarily committed to the care and custody of a county department of community programs for appropriate treatment.

Currently, one of the five standards of dangerousness for involuntary civil commitment terminates on December 1, 2001. That standard, known as the fifth standard, requires that a person, because of mental illness, either evidences the incapability of expressing an understanding of the advantages and disadvantages of and alternatives to accepting a particular medication or treatment after these have been explained to him or her or evidences substantial incapability of applying an understanding of those advantages, disadvantages and alternatives to his or her mental illness in order to make an informed choice as to whether to accept or refuse medication or treatment. The person also must evidence a substantial probability, as demonstrated by both his or her treatment history and recent acts or omissions. that he or she needs care or treatment to prevent further disability or deterioration. Lastly, the person must evidence a substantial probability that he or she will, if left untreated, lack services necessary for his or her health or safety and suffer mental, emotional or physical harm that will result in either the loss of his or her ability to function independently in the community or the loss of cognitive or volitional control over his or her thoughts or actions.

This bill eliminates the December 1, 2002, termination of the fifth standard for emergency detention and involuntary civil commitment of persons with mental illness.

Currently, if a person is found to be a proper subject for treatment and is found to satisfy at least one of the five standards of dangerousness, the person may initially be committed for treatment for a period not to exceed six months. In addition, a commitment order may be extended after an evaluation of the person. Each consecutive commitment order extension may be for a period not to exceed 12 months.

An inmate of a jail, house of correction or prison may be subject to an involuntary commitment proceeding based on a petition described above. However, there is an alternative petition that may be used to begin an involuntary commitment proceeding against an inmate. This alternative petition must allege all of the following: 1) that the inmate is mentally ill, is a proper subject for treatment and is in need of treatment; 2) that the inmate has been fully informed about, and has had the opportunity to discuss, his or her treatment needs and the mental health services available to him or her; and 3) that appropriate less restrictive forms of treatment have been attempted and have been unsuccessful. If an inmate is committed based on an alternative petition, the total period that the inmate may be committed may not exceed 180 days in any 365-day period.

This bill extends the period for which an inmate of a state prison may be committed based on an alternative petition to a period not to exceed one year. The bill does not change the current time limits on the commitment of an inmate of a jail or house of correction based on an alternative petition.

Current law provides a procedure for involuntarily committing sexually violent persons to DHFS for control, care and treatment. A sexually violent person is a person who has been convicted of certain sexually violent offenses and who is dangerous because he or she suffers from a mental disorder that makes it substantially probable that the person will engage in acts of sexual violence.

Under current law, when a person is found to be a sexually violent person the person must be committed to the custody of DHFS. The court that commits the person must specify whether the person is to be placed in institutional care or on supervised release in the community, and DHFS must arrange for control, care and treatment of the person in the least restrictive manner consistent with the requirements of the person and in accordance with the court's commitment order.

If the court decides to place the person on supervised release, DHFS and the county social services department (county department) of the person's county of residence must prepare a plan for the treatment and services that the person will receive while on supervised release. If the county department of the person's county of residence declines to prepare a plan, DHFS or the court must find another county department to prepare the plan. In *State v. Sprosty*, 221 Wis. 2d. 401 (Ct. App. 1998), the court of appeals held that once a court has ordered a person placed on supervised release, the person must be released and DHFS and the county responsible for preparing the plan must provide or contract for appropriate treatment and services or, if such treatment and services are not available, create them.

This bill makes the following changes relating to supervised release of sexually violent persons:

1. The bill establishes new guidelines for a court's decision concerning whether to place a person on supervised release. Under the bill, a court may not order a person to be placed on supervised release if the court finds that it is substantially probable that the person will engage in acts of sexual violence unless the person resides in a facility with a level of security comparable to that of a secure mental health unit or facility. However, even if it makes this finding, the court may withhold its decision concerning placement and order DHFS and the appropriate county department to prepare a plan for supervised release for the person, but only if the person first establishes that it is likely that the daily cost of providing the necessary programs and facilities for control, care and treatment of the person on supervised release would not exceed the daily cost of control, care and treatment of the person at a secure mental health unit or facility.

If the court withholds its decision and orders preparation of a supervised release plan, the court must then consider whether to approve or disapprove the plan under the new procedure created by the bill (see item 2., below). Even if the plan meets the criteria for approval under the new procedure, the court may approve the plan and place the person on supervised release only if the daily cost of supervised release would not exceed the daily cost of institutional care at a secure mental health unit or facility.

2. The bill creates a new procedure that a court must use to approve or disapprove a supervised release plan. Under the bill, the court must hold a hearing on a proposed supervised release plan within 30 days after the plan is presented to

the court. Based on evidence provided at the hearing, the court must approve the plan if it determines that the plan provides adequate treatment and services to the person and adequate protection to the community. Likewise, the court must disapprove the plan if it determines that the plan does not provide adequate treatment and services to the person and adequate protection to the community. If the court disapproves the plan, DHFS and the county department must revise the plan and present it to the court again. If the court approves the plan, the court must order that the person be placed on supervised release in the county that prepared the plan. DHFS and the county department that prepared the plan must implement the plan and DHFS may ask the court for any orders that are necessary to ensure implementation of the plan.

The bill also requires DHFS to place a sexually violent person in a secure mental health treatment setting if the court decides to place the person in institutional care rather than on supervised release.

This bill requires DHFS to contract with counties or federally recognized American Indian tribes or bands to provide one or two demonstration projects in fiscal year 2000–01. The projects are to provide mental health and alcohol or other drug abuse services under managed care programs of MA to persons who suffer from mental illness, alcohol or other drug dependency, or both illness and dependency. DHFS must submit for approval by the secretary of the federal department of health and human services any necessary requests for waiver of federal medicaid laws to effectuate these managed care demonstration projects.

Under current law, the Mendota Mental Health Institute and the Winnebago Mental Health Institute are operated by DHFS to provide specialized psychiatric services, research and education. In addition, DHFS may establish a system of outpatient mental health clinic services in any institution that DHFS operates. A county department of community programs must under contract authorize all care of most patients in the mental health institutes. Also, DHFS may provide outpatient services at the Winnebago Mental Health Institute to public school pupils.

This bill eliminates the explicit authorization for the Winnebago Mental Health Institute to provide outpatient mental health services for pupils. Instead, the bill authorizes DHFS to allow a mental health institute to offer, when DHFS determines that community services need to be supplemented, mental health outpatient treatment and services, day programming, consultation and services in residential facilities, including group homes, child caring institutions and community-based residential facilities, that are situated on the grounds of a mental health institute. These services may be provided only under a contract between DHFS and specified entities, to persons who are referred by the entity. Further, the services are governed by the terms of the contract or by statutes and DHFS rules that regulate facilities, govern certain mental health services and provide mental health patient rights. In the event of a conflict between contract provisions and these statutes or rules, the services must comply with the contractual, statutory or rules provision that is most protective of the health, safety, welfare or rights of the recipient of the services, as

determined by the mental health institute. Specified mental health statutes, including emergency detention and commitment laws, and zoning and other county, city, town or village ordinances, do not apply to provision of the services.

Under current law, DHFS provides funding through county departments of community programs for mental health treatment services for persons who are in or relocated from facilities that have been found by the federal health care financing administration to be institutions for mental diseases (and, thus, ineligible for receipt of MA). Also under current law, every person who applies for admission to a nursing home or to an institution for mental diseases must be screened to determine if the person has a developmental disability or a mental illness and, if so, whether the person needs facility care and active treatment for the developmental disability or mental illness.

This bill requires DHFS to provide funding for active treatment of a person in a nursing home or institution for mental diseases who has been determined, through screening, to have a mental illness and to need the treatment.

Under current law, county departments of community programs authorize the care of all patients in state mental health institutes. DHFS regularly bills the county departments for care provided by mental health institutes at rates that reflect the estimated per diem cost of specific levels of care, as adjusted periodically by DHFS.

This bill authorizes DHFS to set rates on a flexible basis, rather than at the estimated per diem cost of specific levels of care, for billing county departments of community programs for care provided in mental health institutes. The bill requires that the flexible rate structure recover the cost of operations.

Under current law, DHFS provides services at the Southern Center for the Developmentally Disabled for up to ten developmentally disabled persons who are mentally ill or exhibit extremely aggressive and challenging behaviors and for up to 12 such persons at the Northern Center for the Developmentally Disabled. This bill increases to 36 the total number of such persons for whom DHFS may provide services and permits the services to be provided at the southern, northern and central state centers for the developmentally disabled.

OTHER HEALTH AND SOCIAL SERVICES

Under current law, DHFS and the department of commerce are authorized to jointly regulate sources of ionizing and nonionizing radiation. DHFS annually registers sites of ionizing radiation installations, such as medical sites, and imposes annual fees for each site and each X-ray tube at the site. Violation of the regulatory statutes or rules subjects the violator to a forfeiture.

This bill eliminates the authority of the department of commerce to regulate sources of ionizing and nonionizing radiation. The bill authorizes the governor to enter into agreements with the U.S. Nuclear Regulatory Commission to discontinue certain federal governmental licensing and related regulatory authority with respect to by-product, source and special nuclear radioactive material and to assume state

regulatory authority. Under the bill, if the agreements are made, persons possessing licenses issued by the U.S. Nuclear Regulatory Commission are considered to be licensed by the state.

The bill authorizes DHFS, beginning on January 1, 2003, to license specifically the possession, use, transfer or acquisition of radioactive by–product material and to license specifically the possession, use, manufacture, production, transfer or acquisition of radioactive material or devices or items that use radioactive material and to operate a site that uses radioactive material. The bill also authorizes DHFS to establish general license requirements for the possession, use, transfer or acquisition of by–product radioactive material or devices or items that contain by–product radioactive material.

The bill authorizes DHFS annually, until January 1, 2003, to assess a fee of 36% of the U.S. Nuclear Regulatory Commission license application fee and annual materials license fee, for any person in this state holding a license issued by the U.S. Nuclear Regulatory Commission. The bill also authorizes DHFS to revise the fee amounts.

The bill eliminates court-imposed forfeitures for violations of the radiation regulatory statutes and rules of DHFS and instead establishes administrative forfeitures that DHFS may directly assess.

Lastly, the bill authorizes DHFS to issue emergency orders to protect the public from radiation exposure; increases the annual fees for registration of ionizing radiation installation sites and for X-ray tubes at those sites; and changes current law to prohibit, rather than to allow, the transfer of registration of ionizing radiation installations if ownership transfers.

This bill appropriates federal substance abuse block grant moneys to DHFS and authorizes DHFS to award the moneys to counties and private entities to provide community-based alcohol and other drug abuse treatment programs. The programs must meet the special needs of women with problems resulting from alcohol or other drug abuse and must emphasize parent education, vocational and housing assistance and coordination with other community programs and with treatment under intensive care.

Under current law, DHFS distributes community aids to counties to provide social, mental health, developmental disabilities and alcohol and other drug abuse services. DHFS must distribute community aids in the form of a basic county allocation, together with certain categorical allocations, including an allocation for Alzheimer's family and caregiver support. A county's annual community aids allocation is specified in a contract between DHFS and the county, and DHFS distributes the county's allocation in reimbursement of claims submitted by the county for moneys expended for those services.

This bill specifies that DHFS may distribute no more than \$4,500,000 of the basic county allocation in each fiscal year based on performance standards developed by DHFS for services funded by community aids. The bill provides that, if a care management organization under the family care program, created under the bill (see

Long-term care; family care), is available in a county, DHFS may dispose of the county's Alzheimer's family and caregiver support allocation and not more than 21.3% of the county's basic county allocation by transferring a portion of those allocations, as determined by DHFS, to the family care program to fund the services of resource centers and care management organizations under that program and by transferring a portion of those allocations, as determined by DHFS, to the county's allocation for adult protective services created under the bill.

On January 4, 1999, DWD assumed responsibility from the clerks of court for receiving and disbursing child support, maintenance, family support and other support–related payments. A payer of support or maintenance currently must pay an annual receipt and disbursement fee of \$25 to DWD. This bill provides that the receipt and disbursement fee must be paid by wage assignment, just as support and maintenance payments are paid.

Current law provides that each order for child or family support, maintenance or spousal support is an automatic assignment of a person's wages to DWD in an amount that is sufficient to ensure payment of the amount under the order, as well as any arrearages due at a periodic rate that does not exceed 50% of the amount due under the order, as long as the additional amount for arrearages does not leave the person at an income below the federal poverty line. Current law also provides that, if an assignment does not require immediately effective withholding and the payer misses a payment, the court or family court commissioner may cause the assignment to go into effect by providing notice of the assignment to the payer's employer or other person from whom the payer receives or will receive money. The payer also receives notice and may request a hearing on whether the assignment should remain in effect.

This bill clarifies that the portion of the original assignment that was for any arrearages due is an assigned amount that does not require immediately effective withholding and that, if a payer accrues an arrearage by missing a payment, the assignment of the arrearage may be put into effect, without another court hearing, by providing notice to the payer and to a person from whom the payer receives or will receive money. The bill provides that, in addition to the court and the family court commissioner, the county child support agency may cause the assignment for arrearages to go into effect by sending the required notices.

The bill also provides that the wage assignment of a person obligated to pay support or maintenance continues in effect after the person no longer has a current obligation to pay if the person has an arrearage in the payment of support or maintenance. The amount of the assignment may be up to the amount that the assignment was before the person's current obligation to pay support or maintenance terminated.

Under current law, in a number of situations the state may join in an action affecting the family (such as a divorce action or an action to enforce a child support order) as a real party in interest for purposes of establishing paternity or securing future support or reimbursement of aid paid. The most common situation is when a child or custodial parent of a child involved in the action is the recipient of certain

services or benefits provided by the state. This bill adds another situation under which the state may join in an action as a real party in interest: if a custodial parent involved in the action is receiving food stamp benefits.

Under current law, DWD certifies to the department of revenue (DOR) the names of individuals who are delinquent in the payment of child or family support, maintenance, medical expenses of a child or birth expenses (support). DOR uses the information to intercept income tax refunds that would be paid to those delinquent obligors. DWD also provides the certifications that it makes to DOR to various specified state agencies that make grants or loans to individuals. Any individual who is the subject of such a certification is prohibited from receiving a grant or loan.

Also under current law, if an individual who has a court-ordered obligation to make periodic payments of support fails to make a payment, the amount of the delinquent support automatically becomes a lien against all of the individual's property. DWD is required to maintain a statewide support lien docket that lists the delinquent obligors and the amount of support that each owes.

This bill eliminates the requirement that DWD provide to the various specified state agencies the certifications that it provides to DOR. Instead the bill prohibits each agency from making a grant or loan to an individual whose name appears on the statewide support lien docket, unless the individual provides to the agency a copy of a payment agreement that has been approved by a county child support agency for the payment of the delinquent support.

Under current law, the state receives federal foster care and adoption assistance funding under Title IV-E of the federal Social Security Act (generally referred to as IV-E funds), in reimbursement of moneys expended by the state and the counties for activities relating to foster care and the adoption of children. DHFS distributes IV-E funds as community aids to counties for the provision of social services to children and families. If on December 31 of any year there remains unspent or unencumbered in the community aids basic county allocation an amount that exceeds the amount of IV-E funds allocated as community aids in that year (excess IV-E funds), DHFS must carry forward to the next year those excess IV-E funds and distribute not less than 50% of those excess IV-E funds to counties other than Milwaukee County for services and projects to assist children and families.

This bill requires DHFS to distribute as community aids to counties other than Milwaukee County any MA funds received as reimbursement of moneys expended in those counties by the state and by the counties for case management services provided to children who are recipients of MA (MA targeted case management funds). The bill also provides that, if on December 31 of any year there remains unspent or unencumbered in the community aids basic county allocation an amount that exceeds the combined amount of IV-E funds and MA targeted case management funds distributed as community aids in that year (excess IV-E and MA targeted case management funds), DHFS must carry forward to the next year those excess IV-E and MA targeted case management funds and distribute those excess funds to

counties other than Milwaukee County for services and projects to assist children and families.

The bill also requires DHFS to establish and counties to implement a statewide automated child welfare information system (generally referred to as WISACWIS) before July 1, 2006; permits DHFS, beginning on July 1, 2001, to distribute excess IV–E funds only to counties that are making a good faith effort to implement WISACWIS; and permits DHFS to recover from a county that does not implement WISACWIS before July 1, 2006, any excess IV–E funds distributed to that county after June 30, 2001.

Under current law, general purpose revenue funds services for adolescent parents that emphasize high school graduation and vocational preparation, training and experience (otherwise known as adolescent self-sufficiency services); adolescent pregnancy prevention services; in Milwaukee County, services of an adolescent resource center and services related to development of adolescent parenting skills; and the provision of information to communities about problems of adolescents and information to and activities for adolescents to aid in skills development (otherwise known as adolescent choices project grants). This bill substitutes moneys that are received under the federal TANF block grant to fund all of these services.

Current law directs the adolescent pregnancy prevention and pregnancy services board to award grants to provide adolescent pregnancy prevention programs or pregnancy services. The grants currently are funded with general purpose revenue. This bill funds the grants with moneys that are received under the federal TANF block grant program.

This bill appropriates moneys derived from Indian gaming compacts to fund the American Indian drug abuse prevention and education program, to fund the delivery of social services and mental hygiene services to American Indians and to fund vocational rehabilitation services for Native American individuals and federally recognized tribes or bands.

Currently, each person ordered to pay a fine or forfeiture for operating a motor vehicle while under the influence of an intoxicant, controlled substance or other drug (OWI) is required to pay a driver improvement surcharge of \$340. A majority (62.4%) of the money collected from the driver improvement surcharge is used by the county where the violation occurred to provide alcohol and other drug abuse services to drivers who are referred for alcohol or other drug abuse assessment. A portion of the remainder of the money is used to provide chemical testing training to law enforcement officers and a portion is allocated by the secretary of administration to various state agencies for services related to OWI offenses.

Under this bill, of the money received by the state from the driver improvement surcharge, \$290,900 is transferred to the department of transportation for the purchase of preliminary breath screening instruments. These instruments are used

to test the breath of a person who is suspected of committing an OWI offense at the time that the person is stopped to help determine if an arrest is appropriate.

INSURANCE

This bill requires every managed care plan, which is, generally, a health care plan that requires insureds to obtain services from certain specified providers under contract with the health care plan, to offer at least one point-of-service coverage option in each geographical service area of the managed care plan. A point-of-service coverage option is a coverage option under which an insured may obtain health care services that are paid for by the health care plan from a provider of his or her choice, regardless of whether that provider is a participating provider of the insured's health care plan or a member of the health care plan's provider network.

This bill authorizes the office of the commissioner of insurance (OCI) to make a grant of not more than \$200,000 to a private organization for the establishment of private health insurance purchasing pools for small employers. (Generally, small employers are those with 50 or fewer employes.) The private organization must submit a business plan to OCI and the commissioner of insurance must approve the plan before the grant may be made. OCI and the private organization must enter into a written agreement concerning the use of the grant proceeds, and the private organization must submit a report to OCI after spending the proceeds.

Under current law, most policy forms for all types of insurance must be filed with OCI and approved prior to use. This bill allows the commissioner to exempt certain classes of insurance policy forms from the requirement for prior filing and approval.

Currently, OCI charges various fees for services that it provides, as well as for its regulation of the insurance industry. This bill changes the amount of the fee that OCI charges an applicant for examination for a license as an insurance intermediary and the amount of the fee for regulating an insurance intermediary each year after the year in which the intermediary's license was initially issued to amounts set by the commissioner by rule.

LOCAL GOVERNMENT

Under current law, a county board may engage in zoning and land-use planning that may result in the preparation of a county development plan for the physical development of the towns within the county and for the cities and villages within the county whose governing bodies agree to have their areas included in the county plan. The development plan may include a number of elements, such as comprehensive surveys, existing land-use, population, economy, soil characteristics, wetland and floodplain conditions and natural features of the county.

Also under current law, a city or village, or certain towns that exercise village powers, may create a plan commission to engage in zoning and land-use planning.

The plan commission must adopt a master plan for the physical development of the city, village or town including, in some instances, unincorporated areas outside of the city or village. The master plan is required to show the commission's recommendations for such physical development, and must also contain a comprehensive zoning plan.

Also under current law, regional planning commissions (RPCs) may be created by the governor or, in response to a resolution submitted by the governing body of a city, village, town or county (political subdivision), by a state agency or official that the governor designates. Currently, there are eight multicounty RPCs in the state and one RPC that consists only of Dane County. Five counties, which are adjacent to Dane County, are not in an RPC. Generally, the membership composition of an RPC is specified by statute, and the governor may dissolve an RPC by the request of a majority of the local governments in the region.

An RPC is required to prepare a master plan for the physical development of the region, which must contain the RPC's recommendations for such physical development. The elements of an RPC's master plan are the same as the elements contained in a master plan developed by a city, a village and certain towns, although all of an RPC's functions are solely advisory to the political subdivisions that comprise the region.

This bill changes the membership composition of the Dane County RPC on the 31st day after the effective date of the bill, and dissolves the RPC on December 31, 2001. Under the bill, all of the members of the Dane County RPC are appointed by the governor from lists submitted by the Dane County executive, the mayor of the city of Madison and associations representing third and fourth class cities, villages and towns. If the Dane County RPC has any outstanding debt on the date of its dissolution, that debt is assessed to Dane County. The bill also requires the five boards of the counties that are not in an RPC, and the Dane County board, to vote on whether they want to participate in a new multicounty RPC. If at least two-thirds of the voting counties approve, the new RPC becomes effective on January 1, 2002. The bill also specifies that the membership composition of all RPCs that are created after December 31, 2001, that include a county that contains a 2nd class city must follow the same statute that sets the membership composition for a RPC that contains a 1st class city. Finally, the bill prohibits after December 31, 2001, the creation of an RPC that consists of only one county.

The bill also changes the requirements that must be contained in a county development plan or a city, village, town or RPC master plan. Under the bill, all such plans must do all of the following:

- 1. Include background information on the local governmental unit and a statement of objectives, policies, goals and programs of the local governmental unit to guide the future growth and development of the local governmental unit over a 20-year planning period.
- 2. Include information on the local governmental unit's housing stock and plans for housing for residents with all income levels and various needs.

- 3. Address transportation issues and evaluate the relationship between the local governmental unit's transportation plans and state and regional transportation plans.
- 4. Guide the development of public and private utilities, governmental services and community facilities.
- 5. Guide the development of conservation policies for, and the effective management of, agricultural, natural, historic and cultural resources.
- 6. Promote the stabilization, retention or expansion of the economic base of, and quality employment opportunities in, the local governmental unit.
 - 7. Provide for joint planning and decision making with other jurisdictions.
- 8. Guide the future development and redevelopment of public and private property in the local governmental unit.
- 9. Contain programs and specific actions to be completed in a stated sequence, including proposed changes to any applicable zoning ordinances, building codes or subdivision ordinances, to implement the other elements.

The bill does not, however, require a local governmental unit to take any specific action at any particular time. If a local governmental unit that has not created a development plan or a master plan before the effective date of the bill does so, or amends an existing plan after the effective date of the bill, the new elements of a development plan or master plan that are contained in the bill must be used.

Under current law, most towns may incorporate as a city or village only after following certain procedures and receiving approval for the incorporation from a circuit court and from the department of administration (DOA). The circuit court must review the incorporation petition to ensure compliance with procedural and signature requirements and must make several determinations relating to minimum area and population density requirements of the area to be incorporated. This bill reduces the minimum area requirements from four square miles to three square miles under certain circumstances. DOA must also determine whether the proposed incorporation is in the public interest.

Current law allows any combination of cities, villages or towns (municipalities) to determine the boundary lines between them under a cooperative plan that is approved by DOA. This bill authorizes municipalities that enter into a cooperative plan to include as part of the plan the incorporation of all or part of a town into a city or village. Because an incorporation that is part of a cooperative plan may not take effect unless it is approved in a referendum, such a plan must include a contingency cooperative plan that will take the place of the plan if the proposed incorporation is defeated in the referendum. An incorporation as part of a cooperative plan is subject to DOA review and very limited circuit court review.

Under current law, a city, village, town or county (political subdivision) may create an environmental remediation tax incremental district (ERTID) to defray the costs of remediating contaminated property that is owned by the political

subdivision. The mechanism for financing eligible costs is very similar to the mechanism under the tax incremental financing (TIF) program.

Under this bill, ER tax incremental financing may be used to defray the costs of remediating contaminated property that is owned by private persons.

Currently, before a political subdivision may use ER tax incremental financing, it must create a joint review board that is similar to the current tax incremental district (TID) joint review board, or a city or village may use an existing TID joint review board, to review the political subdivision's proposal to remediate environmental pollution. If the joint review board approves the proposal, the political subdivision may proceed with its plan. An ERTID joint review board is made up of one representative chosen by the school district that has power to levy taxes on the property that is remediated, one representative chosen by the technical college district that has power to levy taxes on the property, one representative chosen by the county that has power to levy taxes on the property that is remediated, one representative chosen by the political subdivision and one public member.

This bill clarifies that the joint review board consists of one representative from each of the taxing jurisdictions that has power to levy taxes on the property in the ERTID.

Under current law, if more than one school district, more than one technical college district or more than one county has the power to levy taxes on the property that is remediated, the unit in which is located property that has the greatest value chooses that representative to the board. Under the bill, a similar provision applies if more than one city, village or town has the power to levy taxes on the property that is remediated.

Currently, a political subdivision that has incurred eligible costs to remediate environmental pollution on a parcel of property may apply to the department of revenue (DOR) to certify the environmental remediation tax incremental base (ERTIB) of the parcel.

Under the bill, the environmental remediation does not need to be completed before a political subdivision may apply to DOR to certify the ERTIB. The political subdivision is required, under the bill, to submit to DOR a statement that the political subdivision has incurred some eligible costs and to include with the statement a detailed proposed remedial action plan that contains cost estimates for anticipated eligible costs. The political subdivision is also required to include certification from DNR that the department has approved the site investigation report that relates to the parcel.

Currently, eligible costs are costs related to the removal, containment or monitoring of, or the restoration of soil or groundwater affected by, environmental pollution. Eligible costs are reduced by any amounts received from persons who are responsible for the discharge of a hazardous substance on the property and by the amount of net gain on the sale of the property by the political subdivision.

This bill includes in eligible costs property acquisition costs, costs associated with the restoration of air, surface water and sediments affected by environmental pollution, demolition costs including asbestos removal, and the costs of removing and disposing of certain abandoned containers. The bill reduces eligible costs by any

amounts received, or reasonably expected by the political subdivision to be received, from a local, state or federal program for the remediation of contamination in the district and that do not require reimbursement or repayment. Under the bill, a political subdivision is authorized to use an ER tax increment to pay the cost of remediating environmental pollution of groundwater without regard to whether the property above the groundwater is owned by the political subdivision.

Under current law, town territory that is contiguous to any city or village may be annexed to that city or village. In a county with a population of at least 50,000, DOA is authorized to mail to the clerks of the town and city or village involved in the proposed annexation a notice that states that, in the opinion of DOA, the annexation is against the public interest. Currently, DOA renders its opinion within 20 days after receipt of the notice of annexation.

Under this bill, the period of time under which DOA renders its opinion is expanded from 20 days to 60 days. DOA may halt the annexation process if DOA determines that the legal description or scale map is illegible, contains errors that prevent DOA from ascertaining the territory that is proposed to be annexed or does not conform to generally accepted standards for the preparation of legal descriptions or scale maps. If the proposed annexing city or village cures these defects to DOA's satisfaction, the annexation process may proceed.

Currently, an annexation ordinance takes effect upon the enactment of the ordinance. Under the bill, an annexation ordinance does not take effect until it is recorded with the register of deeds.

Under the current blighted area law, cities, villages and towns (municipalities) may undertake redevelopment projects, which include the acquisition of property, to improve conditions in blighted or slum areas. Under the current Blight Elimination and Slum Clearance Act, a redevelopment authority is created in every municipality in which slum and blighted areas exist to engage in blight elimination, slum clearance and urban renewal programs. Under the TIF program, cities or villages may create tax incremental districts to foster redevelopment in blighted or slum areas.

This bill adds environmental pollution to the current definition of a blighted area under the blighted area law, the Blight Elimination and Slum Clearance Act and the TIF program.

Under current law, any person may inspect, copy or receive a copy of a public record unless the record is specifically exempted from access under state or federal law or authorized to be withheld from access under state law, or unless the custodian of the record demonstrates that the harm done to the public interest by providing access to the record outweighs the strong public interest in providing access.

This bill specifically authorizes the custodian of any record of a local governmental unit to withhold from access information contained in a record of the

governmental unit pertaining to the home address or home telephone number of any employe of that governmental unit.

NATURAL RESOURCES

FISH, GAME AND WILDLIFE

This bill changes the fees charged by the department of natural resources (DNR) for certain hunting and fishing approvals. For hunting, the bill increases the fees for all resident hunting licenses except turkey hunting licenses and small game hunting licenses issued to certain persons. The bill increases the fees for all nonresident hunting licenses except turkey hunting licenses. The bill also increases the fees for trapping licenses, bonus deer hunting permits and wild turkey hunting stamps. The bill decreases the fee for pheasant hunting stamps.

For fishing approvals, the bill increases the fees for resident annual fishing licenses and fishing licenses issued jointly to resident married couples. The bill increases the fees for all nonresident fishing licenses except two-day sports fishing licenses. The bill increases the fee for sturgeon spearing licenses and decreases the fees for inland waters trout stamps and Great Lakes trout and salmon stamps.

This bill increases the fees charged by DNR for licenses for wild animal game farms, except fur animal farms, and for wildlife exhibits.

The bill also authorizes DNR to impose surcharges for the following licenses:

- 1. Licenses for game farms on which there are bears or cougars.
- 2. Licenses for game farms on which the licensee permits an individual to hunt game birds for a fee.
- 3. Licenses for game farms on which the licensee sells game animals, the gross revenue from which is \$10,000 or more in the preceding license year.

Under current law, state agencies, including DNR, must release certain information to a third party upon that party's request. This bill changes this requirement as it applies to information about holders of fish and game licenses, stamps and other approvals (approval holders) as follows:

- 1. DNR may not release any information about approval holders who are under the age of 18 or about approval holders who request that DNR not release any such information.
- 2. DNR may, at its discretion, release the names and addresses of, and demographic information about, all other approval holders and may produce and sell lists of the names, addresses and demographic information.
- 3. DNR may not release telephone numbers or driver's license numbers of approval holders, or approval numbers or identification numbers given to approval holders by DNR, under any circumstances.

Under current law, DNR may issue bonus deer hunting permits to state residents and nonresidents who hold deer hunting licenses in order to control the state's deer population. This permit allows the holder to kill an additional deer. Under current law, most applicants must pay a fee for this permit. Also under

current law, DNR or its agents collect an issuing fee for most fish and game licenses. This bill requires that if a person must pay a fee for a bonus deer hunting permit, he or she must also pay an issuing fee.

Under current law, DNR appoints agents to issue fish and game approvals. DNR may charge a handling fee to cover the costs incurred by DNR in issuing these approvals by mail, telephone or electronic means. Under this bill, DNR may authorize any of its agents to collect and retain this handling fee.

This bill requires that DNR establish a system to allow a hunter to reserve the same deer hunting back tag number each year upon payment of a reservation fee. DNR may limit the number of back tag numbers that may be reserved.

This bill grants DNR specific authority to promulgate rules to regulate wildlife rehabilitators. The rules may include a system for issuing rehabilitator licenses or permits.

Under current law, if DNR and the Lac du Flambeau band of the Lake Superior Chippewa (band) have in effect an agreement under which the band agrees to limit its treaty-based, off-reservation rights to fish, the band may elect to issue DNR fishing licenses and DNR inland waters trout stamps as an agent of DNR and to retain the fees that the band collects for these licenses and stamps. Current law also authorizes DNR to pay the band an amount equal to the amount that DNR collects from its other agents who issue DNR fishing licenses and trout stamps on the reservation if the agreement is in effect. Under current law, these payments are made from the conservation fund.

This bill provides additional funding for these payments from moneys received by the state under Indian gaming compacts.

This bill provides funding to DNR for costs associated with the management of the state's elk population from moneys received by the state under Indian gaming compacts.

NAVIGABLE WATERS

Under current law, with certain exceptions, a riparian owner may not place a structure or deposit or conduct certain other activities in a navigable body of water without first obtaining a permit from or entering into a contract with DNR. For most structures, deposits or activities (riparian activities) that require a permit or contract, the procedure for obtaining the permit or contract requires that DNR provide notice to the public in a newspaper that is likely to give notice in the area where the riparian activity will be located and to the county and city, village or town (municipality) in which the riparian activity will be located. If DNR receives a written objection in response to the notice, it must hold a public hearing on the issue of whether it should approve the permit or contract. DNR may also use this notice and hearing procedure when it is not specifically required if DNR determines that

substantial interests of any party may be adversely affected by the granting of the permit or contract. For certain other riparian activities that require permits, current law does not require this notice and hearing procedure. These riparian activities include the placement of fish cribs, bird nesting platforms, gravel, riprap and bridges less than 35 feet wide and the enlargement of certain artificial waterways.

This bill changes these public notice and hearing procedures. These changes include the following:

- 1. The first notice issued by DNR must contain a preliminary decision of whether to grant the permit or the contract instead of stating that DNR will render a decision without a hearing unless a substantive written objection is received within 30 days. The preliminary decision becomes final if no such objection is received within 30 days.
- 2. If DNR receives such an objection, it must distribute a notice to certain interested parties. Also, for certain types of permits or contracts and wherever DNR determines that an environmental impact assessment is required, the applicant for the permit or contract must publish a notice containing the preliminary decision in an area newspaper.
- 3. If an objection is timely filed in response to these notices DNR must determine whether it is a substantive written objection and, if so, whether the riparian activity affects a public right or interest in navigable waters. If DNR determines the objection is substantive and that the riparian activity affects a public right or interest, DNR must offer the person making the objection the choice of a public hearing before an administrative law judge, an informal hearing before DNR staff, or a dispute resolution proceeding. If DNR determines that the objection is substantive but that the riparian activity does not affect a public right or interest, DNR must offer the choice between the informal hearing and the dispute resolution proceeding.

The riparian activities that are subject to these notice and hearing requirements under current law continue to be subject to the requirements under the bill. The bill also applies the requirements to the permits and contracts to remove material from beds of navigable waters.

Under current law, DNR must issue permits authorizing activities in navigable waters such as the placement of structures or deposits. For certain types of activities in navigable waters, DNR may issue a general permit that allows anyone to engage in a type of activity as opposed to an individual permit to a specific individual who wants to engage in the activity. Currently there are two programs under which DNR issues general permits. One applies throughout the state (regular program). The other program is a five-year project for the Wolf River and Fox River basin area, under which DNR issues general permits for any activity in navigable waters that requires a permit (pilot program). Under both programs, DNR issues a general permit if it determines that the environmental impact of the activity is insignificant and that the issuance of the permit will not cause pollution or injury to the rights of the public or riparian property owners.

This bill eliminates the pilot program and makes the following changes in the regular program:

- 1. DNR may issue a general permit for any activity that requires a specific permit or a contract. Under current law, DNR may issue general permits for only certain activities that require permits such as placement of fish cribs, bird nesting platforms, gravel and riprap and the enlargement of certain waterways.
- 2. A time limit of five years is imposed on any general permit. There are no time limits under the current two programs.
- 3. A person is allowed to maintain a structure or deposit or continue an activity under the authority of a general permit after the general permit is no longer in effect unless DNR determines that the structure, deposit or activity is detrimental to a public right or interest in navigable waters.
- 4. Only municipalities, public inland lake protection and rehabilitation districts, town sanitary districts and groups of ten or more riparian owners that would be affected by the issuance of a general permit may apply for a general permit. Under the current regular program, anyone may apply. Under the pilot program, these specific persons plus any contractor who has been involved in placing structures along navigable waters and certain local entities such as certain lake associations and nonprofit conservation organizations may apply.
- 5. Public notice must be given and in certain cases, a public hearing must be held before DNR may issue a general permit for any activity. Under the pilot program, notice and hearing are required only if they are required before DNR issues an individual permit for the activity in question. Under the regular program there are no notice or hearing requirements because the types of activities for which general permits are available have no notice and hearing requirements before DNR may issue the permit.
- 6. A person conducting an activity under a general permit must comply with any local ordinance that contains standards that are at least as restrictive as those contained in the general permit. Currently, the pilot program requires compliance with any applicable local ordinances.
- 7. The fee structure for general permits and for authorization to act under general permits is incorporated from the pilot program.
- 8. DNR may inspect projects or activities in navigable waters that are undertaken pursuant to permits issued or contracts entered into by DNR. Currently the pilot program has similar provisions.

Under current law, most boats must have certificates of number or of registration that are issued every two years for a fee by DNR. The fees are generally based on the size of the boat. This bill increases these fees by 50% and increases the period of certification and registration to three years.

Under current law, DNR awards grants for planning projects to provide information on the quality of water in lakes. DNR also awards grants for management projects that will improve or protect the quality of water in lakes or in their ecosystems.

This bill allows these grants to be used to provide information and education on the use of lakes and their ecosystems. Current law allows these grants to be used to provide information only on the water quality in lakes. The bill also specifically allows grant recipients to conduct assessments of lake uses and the uses of surrounding land.

This bill creates a new grant program for river protection activities for certain rivers. The program includes grants for both planning projects and management projects and is similar to the lake planning grant program and the lake management grant program. River protection management grants may be used to purchase land or conservation easements in order to protect or improve a river or its ecosystem, to restore in–stream or shoreline habitat and to install pollution control practices. DNR may award grants under the program for up to 75% of the cost of the project. The bill imposes a limit of \$10,000 on each planning grant and a limit of \$50,000 on each management grant. Cities, villages, towns, counties, special purpose districts, river management organizations that meet certain qualifications and nonprofit conservation organizations are eligible for these grants.

Under current law, no permit is required from DNR for highway and bridge work that is directed and supervised by the department of transportation (DOT) and that involves the placement of structures or the deposition of material in navigable waters of this state if the work is accomplished in accordance with interdepartmental liaison procedures established by DOT and DNR for minimizing the adverse environmental impact of the work.

This bill exempts any transportation project, including rail, harbor and airport projects, directed and supervised by DOT from having to obtain a permit from DNR to place structures or deposit material in navigable waters if the transportation project is accomplished in accordance with the interdepartmental liaison procedures. The bill also allows DOT, in connection with a transportation project, to construct, dredge or enlarge any artificial waterway connecting to a navigable water without obtaining a permit from DNR if the project is accomplished using the interdepartmental liaison procedures.

Under current law, DNR awards grants to municipalities and public inland lake protection and rehabilitation districts for the purposes of dam maintenance, repair, modification, abandonment and removal. This bill expands the purposes for which DNR may give financial assistance to include other activities that increase the safety of the dam if the activities cost less than maintaining, repairing, modifying or removing the dam. Currently, at least \$250,000 of the \$11,850,000 in grant assistance must be spent to remove dams that are less that 15 feet wide and that create impoundments of 50 acre-feet or less. This bill changes these size requirements to 15 feet in height and 100 surface acres.

This bill authorizes DNR to charge a fee for providing any information that DNR maintains in a format that may be accessed by computer concerning the waters of this state, including maps and other water resource management information.

RECREATION

Under current law, a minor who is under 12 years old may operate a snowmobile only if the minor is accompanied on the same snowmobile by an adult. A minor who is 12, 13, 14 or 15 years old may operate a snowmobile only if he or she holds a valid snowmobile safety certificate or if he or she is accompanied on the same snowmobile by a person who is over the age of 18 or by a person who is over the age of 14 and who has a valid snowmobile safety certificate. Snowmobile operators who are at least 16 years old are exempt from being accompanied and from holding a snowmobile safety certificate.

Under this bill, a person who is at least 12 years old and who is born on or after January 1, 1985, must have a valid snowmobile safety certificate to operate a snowmobile. This change goes into effect on January 1, 2001. The bill makes no changes to current law for minors under 12 years old.

Under current law, a person operating a snowmobile adjacent to a roadway or on certain roadways that are open to snowmobiles for access to lodging or residences must observe the roadway speed limits. This bill expands this requirement to cover all roadways upon which snowmobiles are operated.

Current law prohibits tampering with the odometer of a motor vehicle and with the hour meter of farm equipment. This bill prohibits any person from knowingly interfering with the proper operation of the odometer of a snowmobile or all-terrain vehicle and from operating a snowmobile or all-terrain vehicle with a malfunctioning odometer. The bill prohibits any person, with intent to defraud, from interfering with the proper operation of an hour meter on a snowmobile, all-terrain vehicle or boat.

This bill authorizes conservation wardens and other law enforcement officers to stop and inspect a snowmobile to determine whether required equipment is in good working order and to order out of operation a snowmobile found to be unsafe for operation or in violation of required equipment standards. Conservation wardens may issue a repair order to the owner or operator of the snowmobile in addition to or instead of any penalties that apply to violating the equipment standards. The bill also prohibits DNR and American Indian tribes and bands from registering snowmobiles that failed their most recent equipment inspection until repairs have been made.

Under current law, DNR administers a registration system for all-terrain vehicles, boats and snowmobiles. This bill authorizes DNR to appoint agents, who may be county clerks or other persons not employed by DNR, to issue all-terrain vehicle and snowmobile registration certificates and to renew certain all-terrain

vehicle and snowmobile certificates and all certificates of number and registration for boats. The bill also authorizes DNR to establish an expedited service for these renewals, which may be used by the agents or by DNR directly.

The bill establishes a fee of \$3 for the issuance of these registration documents by DNR agents and requires that the agents remit \$2 of each issuing fee to DNR. The bill authorizes DNR to establish a supplemental renewal fee for renewals done by agents or for the use of expedited services by persons who wish to renew the certificates immediately and in person.

Under current law, DNR provides supplemental aid for the maintenance and grooming of state and county snowmobile trails if the actual cost of maintenance or grooming exceeds the amount determined under the trail aids formula, which sets a maximum amount per mile of trail. Currently, this supplemental aid is funded by moneys transferred from the transportation fund to the conservation fund. The amount transferred annually equals 40% of the estimated amount of excise tax paid on gasoline by operators of snowmobiles registered in this state.

This bill provides additional funding for these supplemental trail aids from the fees charged by DNR for snowmobile trail use stickers, which are required on most snowmobiles that are operated in this state but not registered in this state.

This bill provides funding for snowmobile enforcement and safety activities from moneys received by the state under Indian gaming compacts.

OTHER NATURAL RESOURCES

This bill creates the natural resources land endowment fund, which is a nonlapsible trust fund consisting of gifts, grants and bequests made to the fund. Moneys in the fund may be used by DNR to preserve, develop, manage and maintain lands under the jurisdiction of DNR that are used for conservation or recreational purposes.

This bill authorizes DNR to pay rewards to individuals who provide information to DNR that leads to a finding by a court that a person has committed a violation of one of the statutes, administrative rules or ordinances enforced by DNR. The bill authorizes the natural resources board to evaluate reward claims and determine whether, and in what amount, a reward will be paid.

Under current law, DNR may acquire, develop and manage land for specific purposes such as state forests, state parks, state natural areas and hunting and shooting grounds. This bill authorizes DNR to designate, acquire, develop and manage land for the purpose of conserving the state's natural resources. DNR must designate such lands state natural resource areas. DNR may allow various resource management and recreational uses within the boundaries of the state natural resources areas.

Under current law, DNR administers four programs instructing persons in the safe use of snowmobiles, boats and all-terrain vehicles and in the safe use of firearms and bows for hunting. Each program has somewhat different provisions establishing or regulating the instruction fee charged for participation in the program and the portion of that fee that the instructor may keep to cover his or her expenses. This bill makes these provisions uniform. Under the bill, all of these fees are set by rule by DNR and the instructor may keep up to 50% of the fee. As under current law, the portion of the fees not kept by the instructors are remitted to DNR and are deposited in the conservation fund.

Under current law, the Minnesota-Wisconsin boundary area commission is a joint commission created by a compact entered into between Minnesota and Wisconsin. The commission addresses issues relating to land and water use along the boundary between the two states. This bill repeals the authorization for Wisconsin's representation on the commission and withdraws Wisconsin from the compact and the joint commission.

This bill annually transfers \$2,000,000 in moneys received by the state under Indian gaming compacts to the conservation fund.

Under current law, DNR administers the stewardship program, under which funding is provided for various conservation purposes. This bill allows DNR to spend up to \$500,000 from stewardship funds for the establishment and development of a state park that will provide access to Lake Michigan from the city of Milwaukee. Current law limits the use of some of the area to be included in the state park to only navigation and fishery purposes. This bill allows this area to also be used for public park purposes.

This bill appropriates federal moneys for the construction of pedestrian and bicycle facilities along Lake Michigan in the city of Milwaukee.

Currently, DNR's administrative rules establish water quality standards for wetlands. Activities that are carried out by DOT in connection with highway and bridge construction and maintenance are exempt from these rules if the activities comply with certain interdepartmental procedures established by DNR and DOT for minimizing the adverse environmental impact of the activities. This bill creates an additional exemption from these wetland water quality standards for activities that affect wetland areas if the wetland area that will be affected is less than 15 acres, the activity is in a city in Trempealeau County and the city adopts a resolution stating that the exemption is necessary to protect jobs or promote the creating of jobs in the city. The bill also prohibits DNR from reviewing and disapproving an amendment to a city or county shoreland or floodplain zoning ordinance if the amendment affects this exempt activity.

Currently, DNR requires that certain persons provide performance bonds or other surety when entering into a timber sale contract to cut or remove timber products from state forest lands. This bill appropriates to DNR all the money it receives from such a surety for any costs incurred to repair or otherwise remedy any damage caused by the person while performing under the contract.

Under current law, DNR awards grants for fire-fighting equipment to cities, villages, towns, counties and fire-fighting organizations. The grant recipient must agree to assist DNR in fighting forest fires when requested to do so by DNR. This bill eliminates the current sunset for the program of June 30, 1999.

OCCUPATIONAL REGULATION

This bill changes the fees that the department of regulation and licensing (DORL) charges for all initial and renewal credentials of the occupations and businesses that DORL regulates except for renewal credentials for aesthetics schools, barbering or cosmetology schools, cemetery authorities, cemetery preneed sellers, cemetery salespersons, charitable organizations, electrology instructors, electrology schools and manicuring schools.

This bill requires DORL to prepare proposed legislation that establishes a process for annually evaluating the necessity of at least 25% of the credentialing boards in DORL and eliminating those that are unnecessary. The proposed legislation must also establish four–year credentials instead of two–year credentials under current law.

This bill requires DORL to promulgate rules that establish additional fees that an applicant must pay if the applicant requests DORL to process an initial application for a credential or a renewal application on an expedited basis.

Under current law, DORL may, under certain circumstances, cancel a credential if the credential holder pays an initial or renewal credential fee with a check that is not paid by the bank upon which the check is drawn. This bill allows DORL to cancel a credential under the same circumstances for payment by a credit or debit card.

Under current law, a cemetery authority that sells or solicits the sale of ten or more cemetery lots or mausoleum spaces during one calendar year and who compensates any other person for selling or soliciting the sale of the cemetery lots or mausoleum spaces must register with DORL. Under this bill, such a registration is required if a cemetery authority sells ten or more cemetery lots or mausoleum spaces during one calendar year, regardless of whether compensation is paid. In addition, a cemetery authority that solicits a sale of ten or more lots or spaces, but does not sell ten or more lots or spaces, is not required to register. The bill also specifies that a cemetery authority must file a separate registration with DORL for

each cemetery at which it sells ten or more cemetery lots or mausoleum spaces in a calendar year.

Also under current law, an individual who sells or solicits the sale of ten or more cemetery lots or mausoleum spaces in a calendar year must register with DORL as a cemetery salesperson. This bill specifies that this registration requirement applies to any person, such as a business entity, in addition to an individual, that sells or solicits the sale of ten or more cemetery lots or mausoleum spaces in a calendar year.

Finally, under current law, a person that is registered as a cemetery salesperson is required to comply with certain other requirements, including requirements regarding trust accounts and disciplinary proceedings, that also apply to real estate salespersons licensed by DORL. Under this bill, a person that is registered as a cemetery salesperson is not required to comply with these other requirements.

Under current law, an employe of an audiologist or speech-language pathologist who assists the audiologist or speech-language pathologist is exempt from audiologist or speech-language pathologist licensure requirements. This bill expands this exemption to cover any individual, not just an employe, who provides assistance to an audiologist or speech-language pathologist.

RETIREMENT AND GROUP INSURANCE

Under current law, a participating employe in the Wisconsin retirement system (WRS) may purchase any creditable service that he or she may have forfeited in the past. To reestablish the creditable service, the participating employe must submit an application to the department of employe trust funds (DETF) for all of the creditable service that he or she forfeited and pay a lump sum that equals the employe's statutorily required contributions on his or her earnings for each year of creditable service.

This bill permits a participating employe to submit more than one application to purchase forfeited WRS creditable service and allows the participating employe to purchase all or part of the creditable service that he or she forfeited in the past.

Under current law, a participant in WRS may elect to receive a social security integrated annuity. A social security integrated annuity allows a participant to receive a higher WRS annuity before the age of 62 than he or she would ordinarily receive. When the participant begins to receive social security payments at the age of 62, the WRS annuity is reduced to an amount that is less than he or she would ordinarily receive. The amount of the accelerated WRS monthly annuity received by the participant before he or she attains the age of 62 equals the sum of the WRS monthly annuity and the social security monthly annuity received by the participant after he or she attains the age of 62. Under current law, however, if the participant dies before the age of 62, the death benefit is based on the reduced WRS benefit.

Under this bill, if the participant dies before the age of 62, the death benefit is computed as if the person died in the month in which the annuitant would have

attained age 62. Thus, the death benefit paid will include the higher WRS annuity of a participant who was receiving a social security integrated annuity.

Under current law, with certain exceptions, if a state employe terminates employment in a position that is covered under WRS and has attained the minimum age to begin receiving a retirement benefit, or if a state employe is laid off, the employe's accumulated unused sick leave may be converted to credits for the payment of health insurance premiums during the employe's retirement or period of layoff.

This bill provides that, for most state employes, the credits may be used only to purchase health insurance under a plan contracted or provided by the group insurance board. However, for judges and district attorneys who became state employes in 1978 and 1990, respectively, and who elected to keep their county health insurance coverage, the credits may also be used to purchase health insurance provided by a county.

In addition, the bill authorizes the secretary of employe trust funds to promulgate rules permitting all state employes to use the credits for the purchase of additional health insurance, but only if the use of the credits to purchase the insurance will not result in the credits being treated as income under the Internal Revenue Code.

Under current law, DETF may not credit interest to moneys paid in error to DETF or to moneys paid to DETF by participants or employers that exceed Internal Revenue Code limits on contributions to a qualified governmental plan, such as WRS. This bill provides that DETF may credit interest on these moneys at a rate established by rule.

In addition, under current law, in the event DETF makes certain annuity underpayments that are not corrected within 12 months, DETF must pay interest on the amount of the underpayment at a rate of 0.4% for each full month during which the underpayment occurred. This bill provides that DETF must pay interest on the amount of the underpayment at a rate established by rule and eliminates the requirement that the underpayment not have been corrected within 12 months.

STATE GOVERNMENT

DISTRICT ATTORNEYS

Under current law, the state pays the salaries of and various benefits for district attorneys, deputy district attorneys and assistant district attorneys. This bill provides that two assistant district attorney positions (one each in Brown and Milwaukee counties) must be used exclusively to file and prosecute sexually violent person commitment petitions anywhere in this state.

STATE EMPLOYMENT

Under current law, with certain exceptions, positions in state government may only be authorized by law, by the legislature in budget determinations, by the joint committee on finance (JCF) and by the governor for certain positions funded from

federal revenues. This bill authorizes the board of regents of the University of Wisconsin (UW) System to increase its authorized full-time equivalent positions that are funded, in whole or in part, with general purpose revenue by not more than 1% above the level authorized for the board. Under the bill, the board of regents must submit a proposal to the secretaries of administration and employment relations, together with its methodology for accounting for the cost of funding these positions. If the secretaries of administration and employment relations jointly approve the proposal, the positions are authorized.

Under current law, no individual, other than a state elective official, who is employed in a full-time position or capacity with any state agency or authority may hold any other position or be retained in any other capacity with any state agency or authority from which the individual receives more than \$12,000 during the same year. This bill exempts any member of the faculty or academic staff, other than a state elective official, who has a full-time appointment at an institution within the UW System and who holds any other position or is retained in any other capacity by a different institution within the UW System from the \$12,000 compensation restriction.

STATE FINANCE

Under current law, the state may issue revenue obligations for certain specified purposes. In general, a revenue obligation is an obligation that is: 1) incurred to purchase, acquire, lease. construct. improve, operate manage revenue-producing enterprise; and 2) repayable solely from, and secured solely by, the property or income from the revenue-producing enterprise. This bill allows revenue bonding in situations that are not allowed under current law. The bill creates two types of revenue obligations. The first type, called an enterprise obligation, includes all obligations authorized under current law but is broader in that it eliminates the requirement that the bond be repayable solely from, and be solely secured by, property or income from the revenue-producing enterprise.

The second type of revenue obligation, a special fund obligation, is an undertaking by the state to repay a certain amount of borrowed money that is payable from a special fund consisting of fees, penalties or excise taxes. The bill authorizes not more than \$450,000,000 of this second type of revenue obligation bonding for the PECFA program. These revenue obligations are to be repaid from, and are secured by, the petroleum inspection fund. The bill expresses the legislature's expectation and aspiration that, if the legislature reduces the rate of the petroleum inspection fee and the fees in the fund prove insufficient to pay the principal and interest on the revenue obligations, the legislature will make an appropriation from the general fund sufficient to pay the principal and interest on the obligations.

Currently, the investment board may contract with outside investment advisers for the management of assets from any fund or trust under its control for investment in real estate, mortgages, equities, debt of foreign corporations and debt

of foreign governments. No more than 15% of the total assets of the fixed retirement investment trust or 15% of the total assets of the variable retirement investment trust may be covered by such contracts. This bill increases the cap from 15% to 25% of such funds.

Under current law, the investment board may establish a bonus compensation plan for the executive director and other employes of the board who are appointed in the unclassified service of the state. Under the plan, these employes may qualify for an annual bonus for meritorious performance, which is required to be distributed over a three–year period. Current law provides that the total amount of bonuses awarded for any fiscal year may not exceed a total of 10% of the total annualized salaries of all unclassified employes of the board. In addition, no bonus awarded to an individual employe for any fiscal year may exceed a total of 25% of the annual salary of the employe. In awarding bonus compensation for a given period, the board must consider the performance of funds similar to those for which it has managing authority and market indices for the same period.

This bill authorizes the investment board to create two different bonus compensation plans for two different groups of employes. The first plan provides bonus compensation for the executive director, internal auditor, unclassified employes appointed by the internal auditor and other unclassified employes of the board who are not investment professionals, as determined by the secretary of administration. This plan is identical to the bonus compensation plan under current law except that the total amount of bonuses awarded for any fiscal year may not exceed a total of 10% of the total annualized salaries of these employes as compared to all unclassified employes of the board.

The second plan provides bonus compensation for unclassified employes of the investment board who are investment professionals, as determined by the secretary of administration. The plan provides that the total amount of bonuses awarded for any fiscal year may not exceed a total of 25% of the total annualized salaries of these employes. In addition, the plan provides that no bonus awarded to an individual employe for any fiscal year may exceed a total of 50% of the annual salary of the employe. Under the plan, there is no requirement that the bonus compensation be paid out over a three–year period.

Under current law, the investment board must make all purchases of materials, supplies, equipment or services through the department of administration (DOA). DOA may delegate authority to the board and other state agencies to make purchases independently of DOA, but any agency to which DOA delegates purchasing authority must adhere to all statutory requirements that would apply if DOA made the purchases. In making purchases, DOA and the agencies to which DOA delegates purchasing authority are required, subject to numerous exceptions, to make purchases by solicitation of bids or competitive sealed proposals preceded by public notice, and to adhere to other requirements.

This bill permits the investment board to make all purchases independently of DOA, and excludes the investment board from certain requirements that DOA and

other executive branch agencies must adhere to in making purchases, including the requirement for solicitation of bids or proposals preceded by public notice. Under the bill, the board must, however, procure all stationery and printing from the lowest responsible bidder.

Under current law, the secretary of administration must limit the total amount of any temporary reallocations from segregated funds to the general fund at any one time during a fiscal year to an amount equal to 5% of the total appropriations of general purpose revenue, calculated by the secretary as of that time and for that fiscal year. This bill authorizes the secretary of administration to permit an additional 3% of the total appropriations of general purpose revenue to be used for temporary reallocations to the general fund but only if the reallocation is for a period not to exceed 30 days.

Currently, all state agencies, except the legislature and the courts, must submit biennial budget requests to DOA no later than September 15 of each even–numbered year. This bill directs those agencies to submit biennial budget requests to DOA before each budget period no later than the date prescribed by DOA.

Current statutes provide that "[n]o bill directly or indirectly affecting general purpose revenues ... may be enacted by the legislature if the bill would cause the estimated general fund balance on June 30 of any fiscal year ... to be an amount equal to less than one percent of the total general purpose revenue appropriations for that fiscal year plus any amount from general purpose revenue designated as "Compensation Reserves" for that fiscal year"

This bill changes that provision, for fiscal years 2000–01 and thereafter, with respect to the percentage of the general fund balance as follows:

- 1. For fiscal year 2000-01, 1.1% of general purpose revenue (GPR) appropriations for that fiscal year.
 - 2. For fiscal year 2001-02, 1.2% of GPR appropriations for that fiscal year.
 - 3. For fiscal year 2002–03, 1.4% of GPR appropriations for that fiscal year.
 - 4. For fiscal year 2003–04, 1.6% of GPR appropriations for that fiscal year.
 - 5. For fiscal year 2004-05, 1.8% of GPR appropriations for that fiscal year.
- 6. For fiscal year 2005–06 and thereafter, 2% of GPR appropriations for that fiscal year.

Under current law, the board of commissioners of public lands (BCPL) is responsible for managing certain lands held in trust by the state. The proceeds from these lands are deposited in the common school fund, the normal school fund, the university fund and the agricultural college fund (collectively, the trust funds). Under current law, BCPL may deduct expenses necessarily incurred in caring for and selling the lands from moneys deposited in the trust funds. This bill provides that such expenses include soil surveys and soil mapping activities.

Under current law, BCPL may loan moneys from the trust funds to certain local units to government. Current law also provides that any such borrower, after March 15 and prior to August 1 of any year, may prepay any part of the loan without penalty. This bill provides that, if a borrower prepays the outstanding principal balance of the loan before the due date of the first instalment payment, BCPL may charge the borrower a fee to cover any administrative costs incurred by BCPL in originating and servicing the loan.

Under current law, the governor may not administer, and no board, commission or department may encumber or expend, any block grant moneys received from the federal government under any federal law enacted after August 31, 1995, unless the governor first notifies JCF in writing that the block grant has been received and allows JCF an opportunity to review and approve or disapprove its proposed expenditure. This bill exempts from JCF review and approval the expenditure of block grant moneys that are allocated for certain public assistance and local assistance programs.

PUBLIC UTILITY REGULATION

This bill requires the public service commission (PSC) to conduct a study on implementing retail consumer choice for all consumers of electricity in this state. The study must address the following: 1) the infrastructure, taxation and statutory changes that are necessary for implementing retail choice; 2) recommendations for regulating new market entrants; 3) transitional, stranded and public benefits costs; and 4) the development and use of renewable energy resources.

Under current law, certain persons may file complaints with the PSC that allege a violation of the statutory provisions regarding public utilities. In addition, the PSC may, on its own motion, initiate a proceeding to determine whether such a violation has occurred.

This bill prohibits a person from filing a complaint, or making any other filing in a proceeding before the PSC, unless there is a nonfrivolous basis for doing so and unless each of the following is satisfied: 1) the filing is reasonably supported by applicable law; 2) the allegations in the filing have evidentiary support or are likely to have such support after further investigation or discovery; 3) the filing is not intended to harass another party to the proceeding; and 4) the filing is not intended to create a needless increase in the cost of litigation.

Within 60 days after a complaint is filed, the PSC must determine whether the complaint violates the specified prohibitions. The bill also allows the PSC to determine at any time during a proceeding whether a person has made a filing that violates the prohibitions. If the PSC determines that there is a violation, the PSC must order the violator to pay the reasonable expenses that any other party to the proceeding incurred because of the filing. In addition, the PSC may directly assess a forfeiture of between \$25 and \$5,000 against the violator.

This bill allows the PSC to approve a tariff filed by an electric public utility that allows a firm customer of the utility (an industrial or commercial customer of the utility that receives firm service, which is retail electric service that is provided on a noninterruptible basis) to sell unused firm service to an interruptible customer of the utility, which is an industrial or commercial customer of the utility that receives retail electric service on an interruptible basis. The PSC may approve such a tariff if it determines that such sales contribute to energy conservation and load management that are designed to reduce the energy needs of firm customers. If a firm customer contracts with an interruptible customer for such a sale under a tariff approved under the bill, the public utility must replace the firm service that is sold by the firm customer with interruptible service, and provide firm service to the interruptible customer in an amount that is equal to 80% of the amount of firm service that was sold.

Under current law, the PSC may, under certain circumstances, obtain from any public utility any information necessary for the PSC to perform its duties and may order a public utility to produce certain records. Under this bill, the PSC may require a telecommunications utility to submit information only if the PSC reduces, to the extent practicable, any burden on the telecommunications utility that results from complying with the requirement. In addition, a telecommunications utility is not required to provide information to the PSC unless the PSC certifies that the information is necessary for the PSC to enforce a statutory requirement and that the information is not unnecessarily duplicative of information that is already in the PSC's possession.

Also under current law, the PSC is allowed to withhold from public inspection any information that aids a competitor of a public utility. Under this bill, the PSC is required to withhold such information from public inspection. Under the bill, the PSC is also required to withhold from public inspection any information that is designated as confidential by a public utility that may aid a competitor of the public utility.

Under current law, a tariff filed with the PSC in which a telecommunications utility offers either a new telecommunications service or promotional rates may not take effect until ten days after the tariff is filed. Under certain specified circumstances, the PSC may also suspend the effectiveness of such a tariff. This bill provides that such a tariff is effective on the date specified in the tariff, unless the PSC suspends the effectiveness of the tariff as allowed under current law.

OTHER STATE GOVERNMENT

State building program

This bill enumerates in the 1999–2001 state building program a full-scale aquaculture demonstration facility to be built at Ashland and to be operated by the board of regents of the UW System.

Wisconsin election campaign fund supplement

Currently, a candidate for legislative office at the general election or a special election may qualify to receive a grant from the Wisconsin election campaign fund to finance certain campaign expenses. The maximum amount of the grant that is available to such a candidate may be reduced if the balance in the legislative and special election campaign account does not contain sufficient money to provide all eligible candidates who apply and qualify for grants with the maximum grants to which the candidates are entitled. The amount of money in the legislative and special election campaign account and the other accounts of the Wisconsin election campaign fund depends in part upon the number of designations made to the fund by individuals filing income tax returns.

This bill transfers \$750,000 in general purpose revenue into the legislative and special election campaign account in fiscal year 2000–01. The bill also directs the secretary of administration to submit proposed legislation relating to campaign finance reform and composition of the elections board to the cochairpersons of JCF no later than April 1, 1999.

State land information system

Currently, DOA may develop and maintain a geographic information system relating to land in this state. Currently, the land information board directs and supervises the state land information program. The board is abolished effective September 1, 2003. Prior to September 1, 2003, counties must transfer to the land information board a portion of the fees collected by registers of deeds for recording documents. Revenue from these fees supports the operation of the board and the remainder is used to provide grants to counties for land records modernization projects.

This bill directs the land information board to transfer a portion of this fee revenue, prior to September 1, 2003, to DOA for the purpose of developing and maintaining a computer-based Wisconsin land information system, without direction or supervision from the board. Under the bill, DOA continues to be responsible for the development and maintenance of the system on and after September 1, 2003, but the bill provides no specific funding for this purpose.

The bill also authorizes DOA to conduct soil surveys and soil mapping activities. Under the bill, DOA may assess any state agency any amount that it determines to be required to conduct the surveys and mapping activities. In addition, the bill permits DOA to contract with BCPL to conduct soil surveys and soil mapping activities on lands under the jurisdiction of BCPL.

State grants for local governmental planning

This bill permits DOA to award grants to counties, cities, villages, towns and regional planning commissions to finance the cost of planning activities, including contracting for planning consultant services, public planning sessions and other planning outreach and educational activities, or to purchase computerized planning data, planning software or the hardware required to utilize that data or software. The grants are funded by federal moneys provided to this state for

transportation-related planning activities. DOA must require any local governmental unit that receives a grant to finance at least 20% of the cost of the product or service to be funded by that grant from its own resources. All proposed expenditures to be made under any grant are subject to the written approval of the secretary of transportation.

National and community service board functions

Under current law, the national and community service board, attached to DOA, uses federal moneys and moneys that it receives from gifts, grants and bequests to assist persons who operate service programs that address unmet human, educational, environmental or public safety needs. Under this bill, the board is attached to the department of health and family services.

Currently, the national and community service board awards Wisconsin promise challenge grants to countywide consortia of public and private entities that provide resources to underserved youth. This program expires on January 1, 2000. The bill transfers administration of this program to DOA.

Penalty assessments

With certain exceptions, current law imposes a penalty assessment on any person who is ordered to pay a fine or forfeiture for violating a state law or a local ordinance. The penalty assessment is set at 23% of the total amount of the fines or forfeitures imposed for the violation. The moneys collected from penalty assessments are credited directly to various appropriation accounts based on a statutory formula and the appropriation accounts specify the purposes for which the moneys may be used. These purposes include: 1) training for local law enforcement officers and state correctional officers; 2) purchase of crime laboratory equipment; 3) matching federal funds provided for various law enforcement programs; 4) county-tribal law enforcement projects; 5) diversion of youth from gang activities; and 6) alcohol and other drug abuse prevention and treatment for minors.

This bill provides that, instead of being credited to specific appropriation accounts based on a statutory formula, all moneys collected from penalty assessments are credited to a single appropriation account in the office of justice assistance in DOA. Specified amounts of the moneys in this appropriation account are then transferred to other appropriation accounts to be used for the same purposes as under current law, except that under the bill no penalty assessment moneys are provided to fund county-tribal law enforcement projects. Under the bill, county-tribal law enforcement projects are funded using revenue that the state receives under Indian gaming compacts. The bill also allows penalty assessment moneys to be used for several new purposes, including information technology systems for DOC, automated justice information systems and reimbursement to counties for the costs of providing crime victim and witness services.

Resource recovery and recycling

This bill eliminates a requirement for DOA to maintain a clearinghouse of information regarding products made from recycled or recovered materials for

purchase by state agencies and authorities. The bill also repeals an appropriation to DOA from the recycling fund to finance DOA's recycling procurement specifications functions and administration of the recycled materials clearinghouse.

State master lease program

Currently, DOA may enter into a master lease for the lease of goods or the provision of services on behalf of one or more state agencies. This procedure may be used in lieu of direct procurement of goods or services and in some cases is used to finance the acquisition of goods by the state.

This bill permits DOA to use a master lease to obtain any property (real or personal) or services on behalf of a state agency, except that DOA may not use a master lease to obtain facilities for use or occupancy by the state or to obtain internal improvements (public works). The bill also permits DOA to use a master lease to obtain any property or services related to public safety functions on behalf of a local government.

Currently, DOA may undertake energy conservation construction projects. These projects are different from other state building projects in that they are undertaken outside the authorized state building program and are not subject to public notice and bidding requirements. Under such a project, the contractor guarantees energy savings to be realized by the state in a stated amount within a specified period, and, if the savings are not realized by the state within that period, the contractor need not be paid by the state for any difference between the amount guaranteed in the contract and the actual savings realized when the state pays for the construction project. Currently, the contractor must finance construction of any project at its own expense.

Under this bill, the state or the contractor may finance the cost of construction. If the state finances the cost of construction and the savings resulting from the construction within the period specified in the audit are less than the amount specified in the contract, the contractor must remit the difference to the state. The bill provides that, if a master lease is used to finance payments to be made to a contractor who is engaged in such a construction project, the payments under the lease may not be conditioned upon any payment required to be made by the contractor resulting from the contractor's guarantee.

Glass ceiling initiative

This bill creates a glass ceiling board, which is attached to DOA for administrative purposes, and directs the board to do all of the following:

- 1. Administer a Governor's Glass Ceiling Award Program to recognize annually Wisconsin businesses and organizations that advance or promote the advancement of women and minority group members to upper–level management positions.
- 2. Disseminate information to employers on glass ceiling issues and effective programs that have helped eliminate barriers to the promotion of women and minority group members to upper-level management positions.
- 3. Identify businesses and industries that provide exceptional opportunities for women and minority group members to advance to upper-level management

positions, and, whenever appropriate, promote the expansion of such businesses and industries in this state.

4. Actively promote the appointment of qualified women and minority group members to public and private governing bodies.

Ethics and lobbying law counsel

This bill permits the governor, upon request of the ethics board, to employ special counsel for the purpose of assisting the board in investigating or prosecuting an alleged violation of the lobbying regulation law or the code of ethics for state public officials and employes. The special counsel is paid from a sum sufficient appropriation for the compensation of special counsel. Currently, neither the governor nor the ethics board is authorized to employ special counsel for this purpose.

Cultural arts authorities

This bill directs the legislative reference bureau (LRB) to prepare a bill draft creating cultural arts authorities, based on instructions provided by DOA. The secretary of administration must submit the bill to the cochairpersons of JCF no later than April 1, 1999.

Sales of tobacco to minors

This bill requires the LRB to prepare legislation, based on final drafting instructions submitted by DOA no later than March 1, 1999, authorizing the development of a statewide protocol for licensing authorities and law enforcement agencies in conducting compliance surveys to determine the prevalence of illegal retail sales of tobacco products to underage persons. The bill requires the secretary of administration to submit the proposed legislation to the cochairpersons of JCF not later than April 1, 1999.

Transitional housing grants

Under current law, DOA may award grants that do not exceed \$50,000 each to counties and municipalities, community action agencies and private, nonprofit organizations for the purpose of providing housing and associated support services to homeless families and individuals. This bill removes the dollar limit on the grants so that a grant of any size may be awarded.

Representation by department of justice

Currently, if requested to do so by the head of a state agency, the department of justice (DOJ) defends that agency or any state officer, employe or agent of that agency in a civil action brought against the agency or person for an act arising out of his or her official duties. In addition to receiving general program revenue, the attorney general is paid by state agencies for the legal services provided under contracts or understandings between DOJ and the other agencies.

This bill appropriates to DOJ any money that is received by DOJ as the result of a contract or understanding between DOJ and another state agency that is approved by JCF or as part of the biennial budget act. Any money collected by DOJ under a contract or understanding with a state agency that is not approved by JCF or as part of the biennial budget act is not directly appropriated to DOJ. In addition, the bill provides that a state agency may not be charged for legal services provided to that agency by DOJ if DOJ is not required by statute to provide legal services to that agency and if that agency does not have a contract or understanding with DOJ that is approved by JCF or as part of the biennial budget act.

State employe addresses and telephone numbers

Under current law, any person may inspect, copy or receive a copy of a public record unless the record is specifically exempted from access under state or federal law or authorized to be withheld from access under state law, or unless the custodian of the record demonstrates that the harm done to the public interest by providing access to the record outweighs the strong public interest in providing access.

This bill specifically authorizes the custodian of any record of a state governmental unit to withhold from access information contained in a record of the governmental unit pertaining to the home address or home telephone number of any employe of that governmental unit.

Expenditure authority of department of administration

Currently, general purpose revenue is appropriated to DOA in separate appropriations for general program operations and for the operation of the state prosecution system (compensation of district attorneys and their deputies and assistants). This bill consolidates those appropriations.

Currently, program revenue is appropriated to DOA in four separate appropriations for: 1) transportation services; 2) printing, mail distribution and record services; 3) financial services; and 4) other services, except building construction services, telecommunications and data processing services, information technology services and projects and Wisconsin land council services. The revenue is derived from moneys received from other state agencies. This bill consolidates those four appropriations.

Under the consolidations, revenue collected for one purpose may be used by DOA for a different purpose within the same appropriation account, subject to the intent of the governor, JCF and legislature, as specified in various budgetary documents.

Funding source for department of administration positions

Currently, with limited exceptions, no state agency for which full-time equivalent positions have been authorized may change the funding source of any position that was provided by the legislature, JCF or the governor at the time the position was authorized or at the time the funding source was last changed.

This bill permits DOA, during the period beginning on the day on which this bill becomes law and ending on June 30, 2001, or on the day before publication of the

2001–03 biennial budget act, whichever is later, to change the funding source of any position authorized for DOA to carry out its functions with respect to supervision and management, the land information board, risk management, facilities management, housing assistance or gaming regulation if the position is currently funded from program revenue and the funding for the position would remain funded from program revenue that is collected by DOA to carry out one of these functions. The bill provides that any such change in the funding source of a position remains in effect after the period specified in the bill unless changed in accordance with current procedures.

Arrangements between governor and state agencies

This bill permits the governor to enter into cooperative arrangements with state agencies under which the agencies provide assistance to the governor in carrying out his or her responsibilities. The bill also permits the governor to expend any moneys received from the agencies to carry out these arrangements. Currently, the governor is not expressly authorized to enter into such arrangements.

Legislative technology bureau services

This bill permits the director of the legislative technology services bureau, by lease agreement, to purchase and install computer networking equipment to serve facilities of state agencies that are located in the same building in which a legislative branch office is located or in an adjacent building, and to provide related maintenance and support services to such agencies. Currently, the bureau is authorized and directed to provide and coordinate information technology support and services to the legislative branch of state government only.

Consolidation of state vehicle fleet management functions

This bill directs DOA to submit for consideration of JCF during the fourth quarter of 1999, an implementation plan for consolidating the vehicle fleet management functions of the department of natural resources (DNR) with the corresponding functions of DOA. The bill also directs DOA to submit for consideration of JCF during the third quarter of 2000 an implementation plan for consolidating the vehicle fleet management functions of the department of transportation (DOT) and the UW-Madison with the corresponding functions of DOA. The bill permits JCF to approve or to modify and approve the plans. If JCF approves a plan, with or without modifications, DOA may implement that plan. If JCF does not approve any plan, DOA may not implement that plan.

TAXATION

INCOME TAXATION

This bill makes various changes in the structure of the individual income tax system. The bill modifies the calculation of adjusted gross income (AGI), prohibits new claims from being made under certain income tax credits, creates a personal

exemption, modifies the itemized deductions credit and modifies the sliding scale standard deduction and the tax rates and brackets.

Under current law, the standard income tax deduction has four different categories, each of which has a different deduction amount based on income. The maximum standard deduction amounts in each category phase out as income increases. This bill retains the same four categories and increases the maximum income at which the standard deduction reaches \$0.

Under current law, the dollar amounts of the standard deduction and the dollar amounts of Wisconsin AGI are indexed for inflation for taxable years that begin after December 31, 1998. This bill suspends indexing for taxable year 2000.

Under current law, there are three income tax brackets for single individuals, certain fiduciaries, heads of households and married persons. This bill expands the number of brackets to four and lowers the rate of taxation in all four brackets in taxable year 2000. The bill also lowers the rate of taxation for taxable year 2001 and all taxable years thereafter for the first three brackets. The brackets remain the same for taxable year 2001 and are indexed for inflation in taxable years thereafter.

Under current law, the individual income tax brackets are indexed for inflation for taxable years beginning after December 31, 1998. This bill suspends indexing until taxable years beginning after December 31, 2001.

Under current law, after an individual calculates his or her gross tax liability, several tax credits may be calculated to reduce his or her gross tax liability. Some credits, like the earned income tax credit and the homestead tax credit, are refundable. Some credits, like the school property tax credit, the working families tax credit and the married persons credit, are nonrefundable. Generally, with a refundable credit, if the amount of the claim exceeds the taxpayer's tax liability, or if there is no tax due, the excess amount of the credit is paid to the claimant by a check from the state. With a nonrefundable credit, the amount of the credit is available only up to the amount of the taxpayer's tax liability.

Under this bill, for taxable years beginning after December 31, 1999, no new claims may be filed for the following nonrefundable tax credits: the school property tax credit, the working families tax credit, the dependent credit and the senior credit. In addition, the bill increases the married persons tax credit from a maximum credit of \$385 to \$440 in taxable year 2000 and from a maximum of \$420 to \$480 in taxable years beginning after December 31, 2000.

Under current law, the department of revenue (DOR) may not adjust the withholding tables to reflect the changes made to the tax rates or the changes in dollar amounts with respect to bracket indexing or with respect to standard deduction indexing for taxable years that begin before January 1, 2000. Under this bill, DOR must adjust the withholding tables to reflect the changes made to the tax rates and changes in dollar amounts with respect to bracket indexing that are made in this bill on July 1, 2000.

Under current law, for homestead tax claims filed in 1991 and thereafter, the threshold income is \$8,000, the maximum property taxes that a claimant may use in calculating his or her credit are \$1,450 and the maximum eligible income is \$19,154. Under this bill, for claims filed in 2000 and thereafter, the maximum

eligible income is raised to \$20,290. The threshold income and maximum property taxes remain the same as under current law.

The bill also modifies the nonrefundable itemized deductions credit. Under current law, the itemized deductions credit is calculated as 5% of the difference between the sum of certain amounts that are allowed as itemized deductions under the Internal Revenue Code (IRC) and the standard deduction. Under this bill, miscellaneous itemized deductions that are allowed as itemized deductions under the IRC are not allowed under the itemized deductions credit.

The bill creates a personal exemption for a taxpayer, the taxpayer's spouse and the taxpayer's dependents. The personal exemption is \$600 for each of these persons in taxable year 2000 and \$700 for each of these persons for taxable years that begin after December 31, 2000. An additional personal exemption exists for taxpayers who are at least 65 years old. This additional exemption is \$200 for taxable year 2000 and \$250 for taxable years that begin after December 31, 2000. The bill also eliminates the state's treatment of social security benefits, thus taxing the benefits at the rate used by the federal government, which is a higher rate.

Under current law, when computing corporate income taxes and franchise taxes, a formula is used to attribute a portion of a corporation's income to this state. The formula has three factors: a sales factor, a property factor and a payroll factor. The sales factor represents 50% of the formula and the property and payroll factors each represent 25% of the formula. When computing income taxes and franchise taxes for an insurance company, a formula with a premiums factor and a payroll factor is used to attribute a portion of an insurance company's income to this state.

Under this bill, beginning on January 1, 2000, the sales factor will be the only factor used to attribute a portion of a corporation's income to this state and the premiums factor will be the only factor used to attribute a portion of an insurance company's income to this state.

The bill also broadens the definition of sales as it relates to the sales factor used to apportion income for tax purposes. Receipts from the lease or rental of motor vehicles, rolling stock, aircraft and vessels used in this state are included in the sales factor. The sales factor also includes the royalties for the use of intangible property, the sales of intangible property and receipts from the performance of services.

Under current law, each separate corporation doing business in this state must file a tax return with DOR reporting its net income. Even separate corporations that are part of a unitary business, which is, generally, an affiliated group of corporations that operate as a unit and which is characterized by centralized management and decision making, are not required to file a combined tax return. Instead, a corporation doing business in this state that is part of a unitary business files a separate return.

This bill requires that an affiliated group of corporations that is part of a unitary business file a combined tax return with DOR. The bill creates a

presumption that all corporations that are part of an affiliated group are unitary and must file a combined return.

Under current law, an eligible claimant may recover a certain amount of property taxes paid through the refundable farmland preservation credit. One of the eligibility requirements for the farmland preservation credit is that the farmland to which the credit relates must be subject either to a farmland preservation agreement or to a county exclusive agricultural use zoning ordinance that requires the claimant to abide by certain soil and water conservation standards.

Currently, the credit is computed under a formula that is based on property taxes accrued on the claimant's farmland in the preceding calendar year, the claimant's household income and the agreement or zoning provisions that cover the farmland. This bill retains most of the current law's formula but, for taxable years beginning after December 31, 2000, the formula does not include any factor for a farmland preservation agreement or exclusive agricultural use zoning. See AGRICULTURE. For new claims that are filed for taxable years beginning after December 31, 2000, the maximum credit for which a claimant is eligible is reduced from current law levels and no new claims may be filed for a taxable year that begins after December 31, 2002.

The bill also creates a new, refundable farmland preservation acreage credit. This credit may be claimed by any person who is an eligible claimant under the farmland preservation credit. Under the acreage credit, a claimant who sells, donates or otherwise transfers the development rights to the claimant's farmland to a nonprofit entity, the state or a city, village, town or county may claim the credit. The bill defines development rights as a holder's nonpossessory interest in farmland that imposes a limitation or affirmative obligation, the purpose of which is to retain or protect natural, scenic or open space values of farmland, assuring the availability of farmland for agricultural, forest, wildlife habitat or open space use, protecting natural resources or maintaining or enhancing air or water quality.

A nonprofit entity may develop the farmland with the written consent of the owner of the property and of the department of agriculture, trade and consumer protection, but only in a way that retains or protects natural, scenic or open space values of the farmland. If a claimant sells, donates or otherwise transfers development rights to a political subdivision, the political subdivision may develop the farmland only in a way that is consistent with certain comprehensive planning requirements.

The acreage credit may only be claimed by the claimant who owns the farmland when the development rights are initially transferred. No new claims may be filed under the acreage credit for taxable years that begin after December 31, 2002.

Current law provides a tuition expenses subtraction, or deduction, from federal adjusted gross income of up to \$3,000 per year per student for tuition to attend a university, college, technical college or other approved school that is located in this state or that is subject to the Minnesota-Wisconsin reciprocity agreement. The subtraction is phased out at certain income levels. Also under current law,

nonresidents and part-year residents of this state may claim a prorated amount of the subtraction. This bill clarifies that the proration applicable to nonresidents and part-year residents of this state applies at all times and not just when the taxpayer is subject to the phaseout provisions and also changes current law such that the limitation of the credit to a claimant's total wages, income and net earnings from a trade or business taxable by this state applies to all taxpayers.

Under federal law, the amounts claimed under the state tuition expenses subtraction may also be claimed as a federal itemized deduction if the expenses are job-related. Under this bill, amounts claimed as a deduction under the tuition expenses subtraction may not be used in calculating the itemized deductions credit.

Under current law, an individual income tax refund that is payable on the basis of a joint return must be issued jointly to the persons who filed the return. Under this bill, if DOR is sent a copy of a formerly married couple's divorce judgment and that judgment apportions any tax refund that may be due the former couple, DOR is required to send the refund check to the person to whom the tax refund is apportioned, or one check to each of the former spouses, according to the apportionment that is specified under the terms of the judgment.

Currently, Wisconsin statutes provide that alimony and supplemental unemployment compensation that are paid while an individual is not a resident of this state may not be claimed as deductions for Wisconsin income tax purposes. The U.S. Supreme Court has ruled that a similar New York law violates the privileges and immunities clause of the U.S. Constitution. This bill modifies the statutes to conform to the U.S. Supreme Court's decision in the New York case.

Currently, the department of commerce administers three types of development zone programs. Generally, after the department designates an area as one of the three types of development zones, a person or corporation that conducts or that intends to conduct economic activity in the designated zone is or may be certified by the department as eligible for certain tax credits.

The calculation of one of these credits is based in part on a claimant's hiring members of a targeted group, as defined in the IRC, who are certified under a 90-day requirement by the department and who are also subject to certification rules under the IRC. This bill eliminates the requirement that certification must occur within a 90-day period.

Under current law, the state imposes an income or franchise tax on a foreign corporation doing business in this state. However, a foreign corporation may engage in certain business–related activities in this state without becoming subject to the state income or franchise tax.

This bill allows a foreign corporation to store its tangible personal property in this state and transfer possession of its tangible personal property to a person in this state, without becoming subject to the state income or franchise tax, if the other

person uses the personal property for fabricating, processing, manufacturing or printing.

PROPERTY TAXATION

Under current law, DOR assesses the value of taxable property in a county or taxation district. A county or taxation district may appeal DOR's assessment of the property in the county or taxation district by filing an appeal with the tax appeals commission. If the tax appeals commission determines on appeal that DOR incorrectly assessed the taxable property in a county or taxation district, the tax appeals commission may redetermine the assessment. Under current law, the tax appeals commission is authorized to hear appeals of tax matters, at times and places designated by the commission, and tax matters that are small claims cases in which the amount in controversy is less than \$2,500. The tax appeals commission may impose a \$1,000 penalty on a taxpayer who pursues a frivolous appeal.

Under this bill, a county or taxation district may appeal DOR's assessment of the property of the county or taxation district by filing an appeal with DOR. DOR hears the appeal and, if DOR determines that the appealed assessment is incorrect, DOR redetermines the assessment. DOR's decision on appeal may be appealed to the tax appeals commission.

The bill authorizes the tax appeals commission to submit a case to summary proceedings (an alternative dispute resolution proceeding) if the amount in controversy is less than \$100,000. The bill also increases the penalty for pursuing a frivolous appeal to \$5,000 and provides that the commission may hold hearings only in the following places: Appleton, Eau Claire, LaCrosse, Madison, Milwaukee and Wausau.

Under current law, if a person does not pay the tax that is due on a parcel of real property before September 1, the county treasurer must issue a tax certificate to the county that relates to that property. The issuance of a tax certificate begins the redemption period during which the taxpayer may retain his or her property by paying the delinquent taxes. If the property is not redeemed during the redemption period, which is usually two years, the county may acquire the property by taking a tax deed or by other methods.

Under this bill, if a county does not, within two years after the expiration of the redemption period, take a tax deed for property that is subject to a tax certificate and that is contaminated by a hazardous substance, the county must, upon receiving a written request from the city, village or town within whose jurisdiction the property is located, acquire the property by taking a tax deed. The county may then either retain ownership of the property or transfer ownership of the property, without consideration, to the municipality.

Under current law, a taxation district transfers its tax roll to the county or counties in which the taxation district is located. The county accepts all delinquent property taxes from the taxation district and credits the taxation district for delinquent taxes in the next tax levy. The county attempts to collect the delinquent

property taxes by issuing a tax certificate. After the county issues a tax certificate, an owner of real property has two years to redeem the certificate by paying the delinquent taxes. If the taxes remain unpaid after two years, the county may record a tax deed on the property. However, a county may cancel the delinquent taxes if the property is contaminated by a hazardous substance and the property owner agrees to clean up, maintain and monitor the property. The taxation district that transferred the relevant tax roll receives a credit on its tax levy from the county even though the county has canceled the tax.

This bill requires a county that cancels delinquent taxes to charge back to the appropriate taxation district any or all of the amount of the canceled taxes and to include that amount in the county's next tax levy against the taxation district.

OTHER TAXATION

Under current law, computers are exempt from the general property tax paid by businesses. Also under current law, computers owned by telephone companies, which are ad valorem taxpayers, are exempt from the ad valorem tax. An ad valorem tax is a tax imposed on property or on an article of commerce in proportion to its value.

This bill exempts from ad valorem taxation computers owned by other ad valorem taxpayers, such as railroads, airlines, pipeline companies, conservation and regulation companies and municipal electric association projects.

The bill also creates a personal property tax exemption for fax machines, copiers, cash registers and automated teller machines.

Under current law, the sale of time-share property is subject to the real estate transfer fee. This bill exempts from real estate transfer fees conveyances of those time-share properties that give the owner the right to use or occupy the real property during at least four separate periods over at least four years. Under current law, some, but not all, conveyances that are exempt from the real estate transfer fee are also exempt from the requirement of filing a real estate transfer return. This bill exempts from the requirement of filing a real estate transfer return these conveyances of time-share property.

The furnishing of rooms or lodging through the sale of time-share properties that are exempted from the real estate transfer fee by this bill is currently subject to the sales tax only if the use of the rooms or lodging is not fixed at the time of sale as to the starting date or the lodging unit and is for less than one month. This bill subjects to the sales tax all sales of time-share properties that are for less than one month, whether or not they are exempted from the real estate transfer fee by this bill, and whether or not the use of the rooms or lodging is fixed at the time of the sale.

The bill also subjects to the sales tax those charges associated with time-share property that at the time of the charges would be subject to the sales tax.

Under current law, a county may adopt an ordinance to impose sales and use taxes upon county retailers. DOR collects the sales and use taxes imposed by counties. The state retains 1.5% of the sales and use taxes collected to cover the costs

incurred by the state to administer, enforce and collect the taxes. DOR distributes the remaining taxes collected to the respective counties. This bill increases from 1.5% to 1.75% the amount of taxes collected that are retained by the state.

This bill changes the tobacco products tax from an occupational tax to an excise tax. The change allows the state to tax certain sales of tobacco products sold on reservations by American Indians to persons who are not American Indians.

This bill permits DOR to enter into agreements with American Indian tribes to provide for the refunding of the tobacco products tax imposed on tobacco products sold on reservations to enrolled members of the tribe residing on the tribal reservation. In addition, DOR is required to refund 50% of the taxes collected with respect to sales on reservations or trust lands of an American Indian tribe to the tribal council of the tribe having jurisdiction over the reservation or trust land on which the sale is made. These two provisions parallel existing authority of DOR in regard to cigarette taxes.

The bill also reduces from 70% to 50% the percentage of cigarette tax revenue collected in sales on reservations or trust lands that must be refunded to American Indian tribes.

Under current law, any taxpayer may petition DOR to compromise delinquent income or franchise taxes, including any applicable costs, penalties and interest. Under this bill, DOR is authorized to compromise any taxes, interest, penalties and costs that are due this state and that have not yet been recorded as delinquent.

This bill changes the rate of the gross earnings tax that is levied on a car line company and the amount that a railroad company must withhold from rental payments made to a car line company. A car line company is any person, other than a railroad, engaged in the business of leasing or furnishing car line equipment to a railroad and car line equipment is any railroad car or other equipment used in railroad transportation under a rental agreement.

Under current law, delinquent sales and use tax returns are subject to a \$10 late filing fee unless the return was not timely filed because of the death of the person required to file or because of reasonable cause, but not because of neglect. This bill changes the late filing fee to \$30 for returns that are filed for periods beginning after September 30, 1999.

This bill removes the requirement that the recertification application for assessors and assessment personnel be notarized and that it be submitted at least 60 days before the expiration date of the current certificate. Under the bill, DOR may, for good cause, accept an application for renewal up to one year after the expiration of the current certificate if the applicant has complied with the current continuing education and other recertification requirements.

TRANSPORTATION

HIGHWAYS

Current law requires that any major highway project, unlike other construction projects undertaken by the department of transportation (DOT), receive the approval of the transportation projects commission (TPC) and the legislature before the project may be constructed. A major highway project is a project having a total cost of more than \$5,000,000 and involving construction of a new highway 2.5 miles or more in length; reconstruction or reconditioning of an existing highway that relocates at least 2.5 miles of the highway or adds one or more lanes five miles or more in length to the highway; or improvement of an existing multilane divided highway to freeway standards. There are currently 75 enumerated major highway projects approved for construction. This bill adds one major highway project to the list of 75 enumerated projects already approved for construction.

Under current law, the building commission may issue revenue bonds in a principal amount of \$1,348,058,900, of which \$1,255,499,900 may be used for major highway projects and other transportation facilities and \$92,559,000 may be used for fees and other expenses related to the revenue obligations.

This bill increases the level of revenue bonding for major highway projects and transportation administrative facilities by 14.3% to \$1,435,165,900. The bill also authorizes the building commission to contract revenue obligations in any amount to pay fees and other expenses related to the revenue obligations.

This bill authorizes DOT to designate highways that have outstanding intrinsic value as scenic byways. The bill allows DOT to apply for federal designation of a scenic byway as a national scenic byway. Federal designation would make the scenic byway eligible for federal aid for scenic byways.

Under current law, outdoor advertising signs that are located along interstates and certain other highways and that advertise activities conducted on the property on which the signs are located (on-property signs) are subject to restrictions as to size, number and location. This bill prohibits the erection of on-property signs at locations that constitute traffic hazards and eliminates specific restrictions that apply solely to on-property signs located outside the incorporated area of a city or village. The bill specifies that on-property signs do not require permits issued by DOT.

Drivers and motor vehicles

Current law authorizes circuit courts and municipal courts to suspend or revoke a person's motor vehicle operating privilege for a variety of reasons, including failure to pay an amount ordered by the court for ordinance violations unrelated to operating a motor vehicle, such as failing to properly keep sidewalks clear of snow and ice. Suspensions and revocations for failure to pay generally continue until the person pays the amount owed. The suspension and revocation orders are forwarded

to DOT, which updates the person's driving record to reflect the suspension or revocation.

This bill requires DOT to develop a process, by rule, to charge courts a processing fee for each court order that suspends or revokes a person's operating privilege for failure to pay a forfeiture that was imposed for violating an ordinance unrelated to the violator's operation of a motor vehicle. The bill also allows courts to charge the violator a fee in an amount not more than the fee DOT charges the court for processing the order.

Current law requires DOT to redesign motor vehicle registration plates that are issued to certain specified vehicles, primarily automobiles and light-duty trucks, or that identify the registrant as a member of an authorized special group (such as U.S. military or veteran, physically disabled, University of Wisconsin campus or natural resources). DOT must begin issuing the newly designed plates beginning with registrations effective July 1, 2000, and must issue newly designed plates for every specified vehicle registered in this state by July 1, 2003. Vehicle registrants must pay \$10 or \$15, depending on the type of plate, for the newly designed plates.

This bill allows DOT until July 1, 2005, to complete the issuance of the newly designed plates. The bill also requires DOT to redesign these registration plates every six years, and to issue plates of the new design to replace plates that are six or more years old.

Under current law, if a person arrested for operating a motor vehicle while under the influence of an intoxicant (OWI) refuses to take a test to determine the amount of alcohol in his or her blood or breath, the law enforcement officer who requested the test takes possession of the person's license, prepares a notice of intent to revoke the person's operating privilege and gives a copy of the notice to the person, to the circuit court and to the district attorney. The notice informs the person of a number of items, including the right to request a court hearing to contest the revocation. The Wisconsin court of appeals, in *State v. Schoepp*, 204 Wis. 2d 266 (1996), held that a person who receives a notice of intent to revoke the person's operating privilege may utilize the full range of discovery procedures under state law, including the use of depositions and interrogatories.

This bill prohibits either party's use of discovery in these cases, except that if a hearing is requested, the person who refused to take the test has the right to receive a copy of any written or voice recorded statement of a witness before that witness testifies.

Currently, 31.29% of all moneys received by the state as driver improvement surcharges from persons convicted of OWI is used to pay for chemical testing and services provided by the state traffic patrol. The secretary of administration transfers the remaining driver improvement surcharge moneys to programs or purposes related to OWI, such as for the purchase of breath screening devices. Under this bill, the separate 31.29% payment is eliminated and the chemical testing and

services program is eligible for a funding transfer approved by the secretary of administration as are the other OWI-related programs.

Under current law, DOT may contract with third-party testers to conduct on-the-road tests for commercial motor vehicle drivers, abbreviated on-the-road tests for school bus drivers and special examinations for school bus drivers. This bill permits DOT to contract with third-party testers to conduct on-the-road tests for noncommercial motor vehicle drivers, except on-the-road tests for authorization to operate certain motorcycles.

This bill raises the fee for a driving skills test in a school bus or in a noncommercial motor vehicle from \$10 to \$15.

Current law requires DOT to issue a distinctive license document to any person who is under the legal drinking age when the license is issued. Under this bill, beginning on January 1, 2000, DOT must also issue a distinctive license document to any person who is under 18 years of age when the license is issued.

Under current law, no person may operate a school bus unless the person possesses an endorsement to operate school buses. A school bus endorsement is valid for the eight-year duration of the person's operator's license. This bill requires each school bus operator to pass an examination of his or her ability to safely operate a school bus at least once every 4 years.

1997 Wisconsin Act 84 made extensive changes to this state's laws regarding operating a motor vehicle with an operating privilege that is revoked or suspended (OAR or OWS). Most of those changes are scheduled to take effect on May 1, 2000, or sooner if DOT's computer system can accommodate the necessary changes.

This bill delays the effective date of 1997 Wisconsin Act 84 until May 1, 2001, or until DOT's computer system can accommodate the necessary changes, whichever occurs earlier. The bill specifies that DOT is not required to implement all of that act's changes simultaneously, but may establish different effective dates for those changes. The bill makes an OAR or OWS committed in another jurisdiction a minor traffic offense for purposes of determining whether the offending driver is a habitual traffic offender. Under the bill, all OAR and OWS will be treated as minor traffic offenses, without regard to where the offense was committed.

Currently, DOT is required to revoke the operating privilege of a person determined to be a habitual traffic offender. The revocation commences on the day on which DOT mails the person notice of the revocation or, if the person is already suspended or revoked, on the day on which the person is convicted and first considered a habitual traffic offender, or on the date on which the person surrendered his or her operator's license to begin the current revocation or suspension period.

This bill makes all revocations by DOT for habitual traffic offenders begin on the date DOT mails notice of the revocation.

Under current law, a highway authority may impose special weight limitations on highways that would likely be seriously damaged or destroyed if such limitations were not imposed. The weight limits are effective only if weight limit notice signs are properly posted. This bill requires the posting of advance weight limit notice signs, in addition to the weight limit notice signs, to allow motorists to avoid the weight-limited highway altogether.

Current law prohibits any person from driving upon a highway any motor vehicle that exceeds the maximum permissible gross vehicle weight or the maximum permissible weight per axle. Current law allows additional weight, beyond the weight limits ordinarily applicable, for certain trucks transporting exclusively milk from the point of production to the primary market and returning with dairy supplies and dairy products from such primary market to the farm. Only milk trucks having axle measurements of nine feet, one inch or greater qualify for the additional 2,000 pound axle weight. This bill extends the 2,000 pound weight limit to milk trucks having an actual axle distance of eight feet, six inches or more.

Under current law, DOT utilizes a telephone call-in procedure through which applicants may obtain certain single trip permits to operate vehicles that exceed the statutory size or weight limits. This bill requires DOT to implement a telephone call-in procedure through which applicants may obtain single trip, annual, consecutive month and multiple trip permits to operate vehicles that exceed the statutory size or weight limits, together with the designated route of travel. The bill also raises fees for certain single trip, annual, consecutive month and multiple trip permits issued by DOT by 10% beginning on January 1, 2000, and ending on June 30, 2003, after which time the fees revert to their current amounts.

This bill increases the fee for late payment of fees for registering a motor truck through DOT's automated telephone registration system from \$5 to \$10.

This bill eliminates the \$5 fee charged to financial institutions for processing electronic applications for motor vehicle title and registration.

Under current law, a claimant must serve legal process upon the secretary of transportation to commence a legal action against a nonresident driver for damages arising from a motor vehicle accident in this state. The secretary of transportation collects a \$15 fee from the claimant for each defendant in the action and forwards the legal process to the nonresident driver. This bill increases this service-of-process fee to \$25.

TRANSPORTATION AIDS

Under current law, DOT provides state aid payments to local public bodies in urban areas served by mass transit systems to assist the local public bodies with the expenses of operating those systems. DOT makes state aid payments in amounts sufficient to ensure that the combination of state and federal aids contributed toward the operating expenses of an urban mass transit system equals the uniform percentage established by DOT for the class of mass transit system. The percentage varies for each of the three classes of mass transit systems but is uniform for all mass transit systems within a class. The three classes are: 1) mass transit systems serving urban areas having a population of less than 50,000; 2) mass transit systems serving urban areas having a population of more than 50,000 but having annual operating expenses of less than \$20,000,000; and 3) mass transit systems having annual operating expenses of more than \$20,000,000.

This bill modifies the classes of mass transit systems and revises the amount of state aids payable to local public bodies served by those systems. The bill creates two classes of mass transit systems: 1) those having operating expenses of more than \$20,000,000 (Tier A); and 2) those having operating expenses of \$20,000,000 or less (Tier B). Under the bill, the sum of state and federal aid provided to a local public body served by a Tier A mass transit system may not exceed 50% of the mass transit system's projected operating expenses. The sum of state and federal aid provided to a local public body served by a Tier B mass transit system may not exceed 65% of the mass transit system's projected operating expenses, except that the sum of aids provided to local public bodies served by certain Tier B mass transit systems may not exceed 60% for calendar years 2000 and 2001.

Current law requires a local public body that receives state aid under the urban mass transit operating assistance program to pay a local contribution towards the mass transit system's operating expenses in an amount equal to at least 20% of the amount of state aid received under the program. This local contribution does not apply to local public bodies served exclusively by a shared-ride taxicab system. This bill requires all recipients to pay at least 10% of the operating expenses, regardless of the amount of state aid received under the program, except that recipients served exclusively by a shared-ride taxicab system must pay at least 5% of the system's operating expenses.

Under current law, DOT makes general transportation aids payments to a county based on a share-of-costs formula, and to a municipality (city, village or town) based on the greater of a share-of-costs formula for municipalities or an aid rate per mile (\$1,596 for 1998 and thereafter).

Beginning with general transportation aids payable for the year 2000, this bill increases the aid rate to \$1,644 per mile and increases the maximum amount of aid that may be paid under the program from the current limit of \$78,744,300 to \$81,106,600 for counties, and from the current limit of \$247,739,100 to \$254,784,900 for municipalities. The bill also allows a portion of law enforcement costs to be considered in the share-of-costs formula, instead of as highway-related traffic

police costs. The bill allows DOT to establish different portions for different classes of counties or municipalities.

This bill provides that aid amounts payable to any single municipality or county under the general transportation aids program may not be reduced by more than 2% annually.

This bill requires each municipality to assess biennially the condition of roads under its jurisdiction and to report the results to DOT.

This bill provides that the amount of aid that DOT may award under the elderly and disabled transportation capital assistance program, which provides aid for specialized vehicles and facilities used to provide transportation services to elderly and disabled persons, may not exceed the percentage of estimated costs specified by DOT or the percentage of costs that are eligible for federal aid, whichever is less.

Under current law, DOT may contract up to \$19,000,000 in public debt for the acquisition and improvement of rail property. This bill increases this authorized general obligation bonding limit from \$19,000,000 to \$23,500,000.

RAIL AND AID TRANSPORTATION

Under current law, DOT, local governmental bodies, local residents and railroad companies may petition the office of the commissioner of railroads (OCR) for a determination of whether a railroad crossing over a public highway protects and promotes public safety. OCR may order the railroad to install automatic warning signals or other suitable safety device at the railroad crossing.

This bill creates a railroad grade crossings committee to review every railroad grade crossing in this state to recommend crossings for improvements. The bill generally prohibits DOT from paying for improvements to railroad grade crossings ordered by OCR unless the committee first recommended improvements to the crossing.

Currently, under the freight railroad assistance program, DOT makes loans to cities, villages, towns and counties for acquiring freight railroad facilities, rehabilitating or constructing rail property improvements or improving freight railroad infrastructure. The loans are made at the legal rate of interest of 5%, unless DOT and the borrower agree to a different rate. This bill requires DOT to specify by rule a rate of interest applicable to such loans.

OTHER TRANSPORTATION

This bill increases the authorized general obligation bonding limit for grants awarded by DOT for harbor improvements from \$15,000,000 to \$18,000,000.

Under current law, participants under the Wisconsin retirement system (WRS) whose principal duties involve law enforcement, require frequent exposure to a high

degree of peril and require a high degree of physical conditioning are classified as protective occupation participants. Current law specifically classifies members of the state patrol as protective occupation participants. Under WRS, the normal retirement age of a protective occupation participant is lower, and the percentage multiplier used to calculate retirement annuities is higher, than for other participants.

This bill specifically classifies the administrator of the division of state patrol as a protective occupation participant for the purposes of WRS, if the division administrator is certified as qualified to be employed as a law enforcement officer in this state. The bill also makes the administrator a member of the state traffic patrol (having the same powers and duties of other members) if the administrator is certified as a law enforcement officer in this state. As a member of the state traffic patrol, the administrator is entitled to receive full pay and other benefits during any period in which the administrator is unable to work because of an injury sustained while performing certain duties that entail a considerable risk of injury or danger.

Under current law, the state traffic patrol consists of not more than 385 traffic officers in the classified service. This bill increases the authorized number of state patrol officers from 385 to 400.

Under current law, the operator of an authorized emergency vehicle (such as a police and fire vehicle or an ambulance) is exempt from certain traffic regulations when responding to an emergency call or when in pursuit of a suspected violator of the law. This exemption applies only when the operator is driving with due regard under the circumstances for the safety of all persons and, in most circumstances, is giving visible and audible signals.

This bill makes snowmobiles operated on state lands by DNR's law enforcement employes and all-terrain vehicles and snowmobiles operated by conservation wardens, on or off state lands, authorized emergency vehicles.

This bill requires DOT to award a grant of \$1,000,000 to the city of Superior for the construction of the Major Richard I. Bong Air Museum.

VETERANS AND MILITARY AFFAIRS

Under current law, in response to a war, insurrection, rebellion, riot or invasion, in the event of a public disaster resulting from a flood, conflagration or tornado, or upon application of certain public officials, the governor may order into active service all or any portion of the national guard. This bill allows the governor to order all or any portion of the national guard into active service when the governor considers that activation necessary for the protection of persons or property.

Under current law, to be eligible for veterans benefits, a veteran must meet certain criteria, including residency in this state and service on active duty under honorable conditions in the U.S. armed forces. The veteran may be eligible for benefits if he or she meets certain types of service requirements, such as service in

a war period or in specified conflicts or receipt of a specified service medal, or if he or she served on active duty for two consecutive years or the full period of his or her initial service obligation.

Under this bill, a veteran may also be eligible for benefits if he or she was a resident of this state for any consecutive five-year period after entry, reentry, enlistment or induction into service in the U.S. armed forces and before the date of his or her application for benefits or, if applicable, before the date of his or her death.

Currently, the department of veterans affairs (DVA) administers a mortgage loan program for veterans. Under the program, eligible veterans may obtain a mortgage loan for the purchase of a house or mobile home, construction of a home, home improvements, including construction of a garage, and certain refinancing related to a home purchase or construction. Under current law, the maximum loan amount for home improvements, including construction of a garage, is \$15,000. This bill changes that maximum loan amount to \$25,000.

Currently, DVA reimburses eligible nondisabled veterans for 50% of the tuition and fees incurred by the veteran while attending a postsecondary school as an undergraduate. This bill raises the reimbursement rate to 65% of the tuition and fees incurred by a nondisabled veteran.

Under current law, reimbursement is available under this program only for classes in an institution in the University of Wisconsin (UW) System or at a technical college or for classes attended by a veteran receiving a waiver of nonresident tuition under the Minnesota–Wisconsin student reciprocity agreement. Reimbursement is limited to tuition and fees paid for 120 part–time or full–time credits at an institution in the UW System, or for 60 part–time or full–time credits at a technical college, or an equivalent amount of credits at the institution at which the veteran is receiving a waiver of nonresident tuition. This bill allows the veteran to attend any institution of higher education, including technical colleges, but requires the veteran to enroll for at least 12 credits during the semester for which reimbursement is requested.

Under current law, an eligible veteran who is a resident of this state and who completes a correspondence course or a course as a part-time student from an institution of higher education may apply for reimbursement from DVA for a portion of the costs of the course if the course is related to the veteran's occupational, professional or employment objectives. Under current law, the maximum reimbursement that may be paid is 50% of the tuition and fees paid for the course. This bill increases the maximum reimbursement percentage from 50% to 65%.

Currently, DVA may borrow money from the veterans mortgage loan repayment fund and enter into transactions with the state investment board to obtain money to make loans to veterans under the veterans personal loan program. If DVA borrows money from the veterans mortgage loan repayment fund, DVA must pledge the loans made under the veterans personal loan program as collateral for that borrowed money.

Under this bill, DVA may borrow money from the veterans mortgage loan repayment fund to obtain money for the veterans personal loan program, but is not required to pledge the loans made under the personal loan program as collateral for the borrowed money. The bill provides that transactions with the state investment board may include the sale of veterans' loans.

This bill uses moneys received under the Indian gaming compacts to fund an American Indian services coordinator as a project position in DVA. The bill also uses moneys received under the Indian gaming compacts to award grants to the governing bodies of federally recognized American Indian tribes and bands for the creation of a model program that helps American Indians overcome barriers to the receipt of federal and state veterans benefits.

Under current law, the state may contract public debt for the purpose of making loans to veterans for the purchase or construction of housing, for home improvements and for refinancing any existing mortgage for the purchase or construction of a home or for home improvements. Currently, the state is authorized to contract public debt in an amount not to exceed \$1,807,500,000. This bill increases this amount to \$1,918,000,000.

Under current law, DVA operates the Wisconsin Veterans Museum in Madison. The museum contains the battle flags of Wisconsin armed forces units that served in the nation's wars and other relics and mementos of those wars. This bill provides that the mission of the Wisconsin Veterans Museum is to acknowledge, commemorate and affirm the role of Wisconsin veterans in the United States of America's military past by means of instructive exhibits and other educational programs.

Under current law, only a county with a population of 100,000 or more, a bank or trust company and the commandant of the Wisconsin Veterans Home at King may be a guardian of five or more unrelated wards at one time. The commandant may act as a guardian only of members of the Wisconsin Veterans Home at King and is not allowed to charge a fee for that service. This bill eliminates the commandant of the Wisconsin Veterans Home at King from among those who may act as guardian of five or more unrelated wards at one time.

Currently, the national guard, in the department of military affairs, operates the Badger Challenge program, which provides programs for high school aged disadvantaged youth to help them remain in and complete high school. This bill allows only youths who are members of families eligible to receive aid from the federal temporary assistance for needy families program to attend the Badger Challenge program. The bill removes state general purpose funding from the program and allows federal temporary assistance for needy families block grant

49.195 (1) If any parent at the time of receiving aid under s. 49.19 or a benefit under s. 49.148, 49.155 or 49.157 or at any time thereafter acquires property by gift. inheritance, sale of assets, court judgment or settlement of any damage claim, or by winning a lottery or prize, the county granting such aid, or the Wisconsin works agency granting such a benefit, may sue the parent on behalf of the department to recover the value of that portion of the aid or of the benefit which does not exceed the amount of the property so acquired. The value of the aid or benefit liable for recovery under this section may not include the value of work performed by a member of the family in a community work experience program under s. 46.215 (1) (o), 1991 stats., s. 46.22 (1) (b) 11., 1991 stats., or s. 49.50 (7j) (d), 1991 stats., or in a community work experience component under s. 49.193 (6), 1997 stats. During the life of the parent, the 10-year statute of limitations may be pleaded in defense against any suit for recovery under this section; and if such property is his or her homestead it shall be exempt from execution on the judgment of recovery until his or her death or sale of the property, whichever occurs first. Notwithstanding the foregoing restrictions and limitations, where the aid or benefit recipient is deceased a claim may be filed against any property in his or her estate and the statute of limitations specified in s. 859.02 shall be exclusively applicable. The court may refuse to render judgment or allow the claim in any case where a parent, spouse or child is dependent on the property for support, and the court in rendering judgment shall take into account the current family budget requirement as fixed by the U.S. department of labor for the community or as fixed by the authorities of the community in charge of public assistance. The records of aid or benefits paid kept by the county, by the department or by the Wisconsin works agency are prima facie evidence of the value of the aid or benefits furnished. Liability under this section shall extend to any parent or

stepparent whose family receives aid under s. 49.19 or benefits under s. 49.148, 49.155 or 49.157 during the period that he or she is a member of the same household, but his or her liability is limited to such period. This section does not apply to medical and health assistance payments for which recovery is prohibited or restricted by federal law or regulation.

Section 1340. 49.195 (3) of the statutes is amended to read:

49.195 (3) A county, tribal governing body, Wisconsin works agency or the department shall determine whether an overpayment has been made under s. 49.19, 49.148, 49.155 or 49.157 and, if so, the amount of the overpayment. The county, tribal governing body, Wisconsin works agency or department shall provide notice of the overpayment to the liable person and shall give that person an opportunity for a review following the procedure specified under s. 49.152, or for a hearing under ch. 227. Notwithstanding s. 49.96, the department shall promptly recover all overpayments made under s. 49.19, 49.148, 49.155 or 49.157 that have not already been received under s. 49.161 or 49.19 (17) and shall promulgate rules establishing policies and procedures to administer this subsection.

SECTION 1341. 49.195 (3m) of the statutes is created to read:

49.195 (3m) (a) 1. If any person fails to pay to the department any amount determined under sub. (3), no review or appeal of that determination is pending and the time for requesting a review or taking an appeal has expired, the department may issue a warrant directed to the clerk of circuit court of any county.

2. The clerk of circuit court shall enter in the judgment and lien docket the name of the person mentioned in the warrant, the amount for which the warrant is issued and the date on which the clerk entered that information.

- **SECTION 1341**
- 3. A warrant entered under subd. 2. shall be considered in all respects as a final judgment constituting a perfected lien upon the person's right, title and interest in all real and personal property located in the county in which the warrant is entered.
- 4. After issuing a warrant, the department may file an execution with the clerk of circuit court for filing with the sheriff of the county, commanding the sheriff to levy upon and sell sufficient real and personal property of the person to pay the amount stated in the warrant in the same manner as upon an execution against property issued upon the judgment of a court of record, and to return the warrant to the department and pay to it the money collected by virtue of the warrant within 60 days after receipt of the warrant. The execution may not command the sheriff to levy upon or sell any property that is exempt from execution under ss. 815.18 (3) and 815.20.
- (b) The clerk of circuit court shall accept, file and enter the warrant in the judgment and lien docket without prepayment of any fee, but the clerk of circuit court shall submit a statement of the proper fee semiannually to the department covering the periods from January 1 to June 30 and July 1 to December 31 unless a different billing period is agreed to between the clerk of circuit court and the department. The department shall pay the fees, but shall add the fees provided by s. 814.61 (5) for entering the warrants to the amount of the warrant and shall collect the fees from the person named in the warrant when satisfaction or release is presented for entry.
- (c) If a warrant that is not satisfied in full is returned, the department may enforce the amount due as if the department had recovered judgment against the person named in the warrant for the same amount.
- (d) When the amount set forth in a warrant and all costs due the department have been paid to it, the department shall issue a satisfaction of the warrant and file it with the clerk of circuit court. The clerk of circuit court shall immediately enter

a satisfaction of the judgment on the judgment and lien docket. The department shall send a copy of the satisfaction to the person named in the warrant.

- (e) If the department finds that the interests of the state will not be jeopardized, the department may issue a release of any warrant with respect to any real or personal property upon which the warrant is a lien or cloud upon title. Upon presentation to the clerk and payment of the fee for filing the release, the clerk shall enter the release of record. The release is conclusive that the lien or cloud upon the title of the property covered by the release is extinguished.
- (f) Notwithstanding s. 49.96, at any time after the filing of a warrant, the department may commence and maintain a garnishee action as provided by ch. 812 or may use the remedy of attachment as provided by ch. 811 for actions to enforce a judgment. The place of trial of such an action may be either in Dane County or the county where the debtor resides and may not be changed from the county in which that action is commenced, except upon consent of the parties.
- (g) If the department issues an erroneous warrant, the department shall issue a notice of withdrawal of the warrant to the clerk of circuit court for the county in which the warrant is filed. The clerk shall void the warrant and any resulting liens.

SECTION 1342. 49.195 (3n) of the statutes is created to read:

- 49.195 (**3n**) (a) In this subsection:
- 1. "Debt" means the amount of liability determined under sub. (3).
- 2. "Debtor" means an individual who is liable under sub. (3).
- 3. "Disposable earnings" means that part of the earnings of any debtor after the deduction from those earnings of any amounts required by law to be withheld, any life, health, dental or similar type of insurance premiums, union dues, any amount necessary to comply with a court order to contribute to the support of minor children,

- **SECTION 1342**
- and any levy, wage assignment or garnishment executed prior to the date of a levy under this subsection.
- 4. "Federal minimum hourly wage" means that wage prescribed by 29 USC 206 (a) (1).
 - 5. "Levy" means all powers of distraint and seizure.
 - 6. "Property" includes all tangible and intangible personal property and rights to such property, including compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonus or otherwise, periodic payments received pursuant to a pension or retirement program, rents, proceeds of insurance and contract payments.
 - (b) If any debtor neglects or refuses to pay a debt after the department has made demand for payment, the department may collect that debt and the expenses of the levy by levy upon any property belonging to the debtor. Whenever the value of any property that has been levied upon under this section is not sufficient to satisfy the claim of the department, the department may levy upon any additional property of the person until the debt and expenses of the levy are fully paid.
 - (c) Any person in possession of or obligated with respect to property or rights to property that is subject to levy and upon which a levy has been made shall, upon demand of the department, surrender the property or rights or discharge the obligation to the department, except that part of the property or rights which is, at the time of the demand, subject to any prior attachment or execution under any judicial process.
 - (d) 1. Any debtor who fails or refuses to surrender any property or rights to property that is subject to levy, upon demand by the department, is subject to proceedings to enforce the amount of the levy.

 $\mathbf{2}$

- 2. Any 3rd party who fails to surrender any property or rights to property subject to levy, upon demand of the department, is subject to proceedings to enforce the levy. The 3rd party is not liable to the department under this subdivision for more than 25% of the debt. The department shall serve the levy as provided under par. (m) on any 3rd party who fails to surrender property under this subdivision. Proceedings may not be initiated by the department until 5 days after service of the demand.
- 3. When a 3rd party surrenders the property or rights to the property on demand of the department or discharges the obligation to the department for which the levy is made, the 3rd party is discharged from any obligation or liability to the debtor with respect to the property or rights to the property arising from the surrender or payment to the department.
- (e) 1. If the department has levied upon property, any person, other than the debtor who is liable to pay the debt out of which the levy arose, who claims an interest in or lien on that property and claims that that property was wrongfully levied upon may bring a civil action against the state in the circuit court for Dane County. That action may be brought whether or not that property has been surrendered to the department. The court may grant only the relief under subd. 2. No other action to question the validity of or restrain or enjoin a levy by the department may be maintained.
- 2. In an action under subd. 1., if a levy would irreparably injure rights to property, the court may enjoin the enforcement of that levy. If the court determines that the property has been wrongfully levied upon, it may grant a judgment for the amount of money obtained by levy.

- 3. For purposes of an adjudication under this paragraph, the determination of the debt upon which the interest or lien of the department is based is conclusively presumed to be valid.
- (f) The department shall determine its costs and expenses to be paid in all cases of levy.
- (g) 1. The department shall apply all money obtained under this subsection first against the expenses of the proceedings and then against the liability in respect to which the levy was made and any other liability owed to the department by the debtor.
- 2. The department may refund or credit any amount left after the applications under subd. 1., upon submission of a claim for that amount and satisfactory proof of the claim, to the person entitled to that amount.
- (h) The department may release the levy upon all or part of property levied upon to facilitate the collection of the liability or to grant relief from a wrongful levy, but that release does not prevent any later levy.
- (j) If the department determines that property has been wrongfully levied upon, the department may return the property at any time, or may return an amount of money equal to the amount of money levied upon.
- (k) Any person who removes, deposits or conceals or aids in removing, depositing or concealing any property upon which a levy is authorized under this subsection with intent to evade or defeat the assessment or collection of any debt may be fined not more than \$5,000 or imprisoned for not more than 3 years or both, and shall be liable to the state for the costs of prosecution.
- (L) If no appeal or other proceeding for review permitted by law is pending and the time for taking an appeal or petitioning for review has expired, the department

shall make a demand to the debtor for payment of the debt which is subject to levy and give notice that the department may pursue legal action for collection of the debt against the debtor. The department shall make the demand for payment and give the notice at least 10 days prior to the levy, personally or by any type of mail service which requires a signature of acceptance, at the address of the debtor as it appears on the records of the department. The demand for payment and notice shall include a statement of the amount of the debt, including interest and penalties, and the name of the debtor who is liable for the debt. The debtor's refusal or failure to accept or receive the notice does not prevent the department from making the levy. Notice prior to levy is not required for a subsequent levy on any debt of the same debtor within one year of the date of service of the original levy.

- (m) 1. The department shall serve the levy upon the debtor and 3rd party by personal service or by any type of mail service which requires a signature of acceptance.
- 2. Personal service shall be made upon an individual, other than a minor or incapacitated person, by delivering a copy of the levy to the debtor or 3rd party personally; by leaving a copy of the levy at the debtor's dwelling or usual place of abode with some person of suitable age and discretion residing there; by leaving a copy of the levy at the business establishment with an officer or employe of the establishment; or by delivering a copy of the levy to an agent authorized by law to receive service of process.
- 3. The department representative who serves the levy shall certify service of process on the notice of levy form and the person served shall acknowledge receipt of the certification by signing and dating it. If service is made by mail, the return receipt is the certificate of service of the levy.

- SECTION 1342
- 4. The debtor's or 3rd party's failure to accept or receive service of the levy does not invalidate the levy.
 - (n) Within 20 days after the service of the levy upon a 3rd party, the 3rd party shall file an answer with the department stating whether the 3rd party is in possession of or obligated with respect to property or rights to property of the debtor, including a description of the property or the rights to property and the nature and dollar amount of any such obligation.
 - (p) A levy is effective from the date on which the levy is first served on the 3rd party until the liability out of which the levy arose is satisfied, until the levy is released or until one year from the date of service, whichever occurs first.
 - (q) 1. The debtor is entitled to an exemption from levy of the greater of the following:
 - a. A subsistence allowance of 75% of the debtor's disposable earnings then due and owing.
 - b. An amount equal to 30 times the federal minimum hourly wage for each full week of the debtor's pay period; or, in the case of earnings for a period other than a week, a subsistence allowance computed so that it is equivalent to that amount using a multiple of the federal minimum hourly wage prescribed by the department by rule.
 - 2. The first \$1,000 of an account in a depository institution is exempt from any levy to recover a benefit overpayment.
- (r) No employer may discharge or otherwise discriminate with respect to the terms and conditions of employment against any employe by reason of the fact that his or her earnings have been subject to levy for any one levy or because of compliance

- with any provision of this subsection. Any person who violates this paragraph may be fined not more than \$1,000 or imprisoned for not more than one year or both.
- (s) Any debtor who is subject to a levy proceeding made by the department has the right to appeal the levy proceeding under ch. 227.44. The appeal is limited to questions of prior payment of the debt that the department is proceeding against, and mistaken identity of the debtor. The levy is not stayed pending an appeal in any case where property is secured through the levy.
- (t) Any 3rd party is entitled to a levy fee of \$5 for each levy in any case where property is secured through the levy. The 3rd party shall deduct the fee from the proceeds of the levy.
- **SECTION 1343.** 49.195 (3n) (k) of the statutes, as created by 1999 Wisconsin Act (this act), is amended to read:
- 49.195 (3n) (k) Any person who removes, deposits or conceals or aids in removing, depositing or concealing any property upon which a levy is authorized under this subsection with intent to evade or defeat the assessment or collection of any debt may be fined not more than \$5,000 or imprisoned for not more than 3 years 4 years and 6 months or both, and shall be liable to the state for the costs of prosecution.

- 1. A motor vehicle is used in this state if it is registered in this state and used wholly in this state.
- 2. The use of rolling stock in this state is determined by multiplying the receipts from the lease or rental of the rolling stock by a fraction having as a numerator the miles traveled within this state by the leased or rented rolling stock and having as a denominator the total miles traveled by the leased or rented rolling stock.
- 3. The use of an aircraft in this state is determined by multiplying the receipts from the lease or rental of the aircraft by a fraction having as a numerator the number of landings of the aircraft in this state and having as a denominator the total number of landings anywhere of the aircraft.

state where the purchaser uses the intangible property. If intangible property is used in more than one state, the royalties and other income received for the use of the intangible property shall be apportioned to this state according to the portion of the intangible property's use in this state. If the portion of intangible property's use in this state cannot be determined, the royalties and other income received for the use of intangible property shall be excluded from the numerator and the denominator of the sales factor under par. (a). Intangible property is used in this state if a purchaser uses the intangible property or uses the rights to intangible property in the regular course of the purchaser's business in this state, regardless of where the purchaser's customers are located.

2. For taxable years beginning after December 31, 1999, sales of intangible property are attributed to the state where a purchaser uses the intangible property. If intangible property is used in more than one state, the sales of the intangible property shall be apportioned to this state according to the portion of the intangible property's use in this state. If the portion of intangible property's use in this state cannot be determined, the sales of the intangible property shall be excluded from the numerator and the denominator of the sales factor under par. (a). Intangible property is used in this state if a purchaser uses the intangible property in the regular course of the purchaser's business in this state, regardless of where the purchaser's customers are located.

Section 1736. 71.25 (9) (dr) of the statutes is created to read:

71.25 (9) (dr) For taxable years beginning after December 31, 1999, receipts from the performance of services are attributed to the state where the purchaser received the benefit of the services. If a purchaser receives the benefit of a service in more than one state, the receipts from the performance of the service are included

in the numerator of the sales factor under par. (a) according to the portion of the benefit of the service received in this state. If the state where a purchaser received the benefit of a service cannot be determined, the benefit of a service is received in the state where the purchaser, in the regular course of the purchaser's business, ordered the service. If the state where a purchaser ordered a service cannot be determined, the benefit of the service is received in the state where the purchaser, in the regular course of the purchaser's business, receives a bill for the service.

- **SECTION 1737.** 71.25 (9) (e) (title) of the statutes is repealed.
- **Section 1738.** 71.25 (9) (f) (title) of the statutes is repealed.
 - **Section 1739.** 71.255 of the statutes is created to read:
 - **71.255 Combined reporting.** (1) Definitions. In this section:
 - (a) "Affiliated group" means any of the following:
 - 1. A parent corporation and any corporation or chain of corporations that are connected to the parent corporation by ownership by the parent corporation if the parent corporation owns stock representing at least 50% of the voting stock of at least one of the connected corporations or if the parent corporation or any of the connected corporations owns stock that cumulatively represents at least 50% of the voting stock of each of the connected corporations.
 - 2. Any 2 or more corporations if a common owner owns stock representing at least 50% of the voting stock of the corporations or the connected corporations.
 - 3. A partnership, limited liability company or tax-option corporation if a parent corporation or any corporation connected to the parent corporation by common ownership owns shares representing at least 50% of the shares of the partnership, limited liability company or tax-option corporation.

- 4. Any 2 or more corporations if stock representing at least 50% of the voting stock in each corporation are interests that cannot be separately transferred.
- 5. Any 2 or more corporations if stock representing at least 50% of the voting stock is directly owned by, or for the benefit of, family members. In this subdivision, "family members" means an individual or a spouse related by blood, marriage or adoption within the 2nd degree of kinship as computed under s. 852.03 (2), 1995 stats.
- (b) "Combined report" means a form prescribed by the department that shows the calculations under this section to divide the income of an affiliated group conducting a unitary business among the jurisdictions where the affiliated group conducts its trade or business.
 - (c) "Corporation" has the meaning given in s. 71.22 (1) or 71.42 (1).
 - (d) "Department" means the department of revenue.
- (e) "Intercompany transaction" means a transaction between corporations, partnerships, limited liability companies or tax-option corporations that become members of the same affiliated group that is engaged in a unitary business immediately after the transaction.
- (f) "Partnership" means any entity considered a partnership under section 7701 of the Internal Revenue Code.
- (g) "Unitary business" means 2 or more businesses that have common ownership or are integrated with or dependent upon each other. Two or more businesses are presumed to be a unitary business if the businesses have centralized management or a centralized executive force; centralized purchasing, advertising or accounting; intercorporate sales or leases; intercorporate services; intercorporate debts; intercorporate use of proprietary materials; interlocking directorates or

interlocking corporate officers; or if a business conducted in this state is owned by a person that conducts a business entirely outside of this state that is different from the business conducted in this state.

- (2) Corporations required to use combined reporting. A corporation that is subject to tax under s. 71.23 (1) or (2) or 71.43, that is a member of an affiliated group and that is engaged in a unitary business with one or more members of the affiliated group shall compute the corporation's income using the combined reporting method under this section. Any corporation, regardless of the country where the corporation is organized or incorporated or conducts business, and any tax-option corporation, if the department determines that combined reporting is necessary to accurately report the income of the tax-option corporation apportioned to this state, shall file a combined report if the corporation is a member of an affiliated group that is engaged in a unitary business.
- (3) ACCOUNTING PERIOD. For purposes of this section, the income under ss. 71.26, 71.34 and 71.45, the apportionment factors under ss. 71.25 and 71.45 and the tax credits under ss. 71.28 and 71.47 of all corporations that are members of an affiliated group and that are engaged in a unitary business shall be determined by using the same accounting period. If the affiliated group that is engaged in a unitary business has a common parent corporation, the accounting period of the common parent corporation shall be used to determine the income, the apportionment factors and the tax credits of all the corporations that are members of the affiliated group that is engaged in a unitary business. If the affiliated group that is engaged in a unitary business has no common parent corporation, the income, the apportionment factors and the tax credits of the affiliated group that is engaged in a unitary business

shall be determined using the accounting period of the member of the affiliated group that has the most significant operations on a recurring basis in this state.

- (4) FILING RETURNS. (a) Corporations with the same accounting period. Corporations that must file a return under this section and that have the same accounting period may file a combined report under par. (c) that reports the aggregate state franchise or state income tax liability of all of the members of the affiliated group that are engaged in a unitary business. Corporations that are required to file a combined report under this section may file separate returns reporting the respective apportionment of the corporation's state franchise or state income tax liability as determined under the combined reporting method, if each corporation filing a separate return pays its own apportionment of its state franchise or state income tax liability.
- (b) Corporations with different accounting periods. Corporations that are required to file a combined report and that have different accounting periods shall use the actual figures from the corporations' financial records to determine the proper income and income-related computations to convert to a common accounting period. Corporations that are required to file a combined report may use a proportional method to convert income to a common accounting period if the results of the proportional method do not materially misrepresent the income apportioned to this state. The apportionment factors under ss. 71.25 and 71.45 and the tax credits under ss. 71.28 and 71.47 shall be computed according to the same method used to determine the income under ss. 71.26, 71.34 and 71.45 for the common accounting period. If a corporation performs an interim closing of its financial records to determine the income attributable to the common accounting period, the actual

figures from the interim closing shall be used to convert the apportionment factors to the common accounting period.

(c) Designated agent. If corporations that are subject to this section file a combined report under par. (a), the parent corporation of the affiliated group shall be the sole designated agent for each member of the affiliated group including the parent corporation. The designated agent shall file the combined report under par. (a), shall file for any extensions under s. 71.24 (7) or 71.44 (3), shall file amended reports and claims for refund or credit, and shall send and receive all correspondence with the department regarding a combined report. Any notice the department sends to the designated agent is considered a notice sent to all members of the affiliated group. Any refund shall be paid to and in the name of the designated agent and shall discharge any liability of the state to any member of an affiliated group regarding the refund. The affiliated group filing a combined report under par. (a) shall pay all taxes, including estimated taxes, in the designated agent's name. The designated agent shall participate on behalf of the affiliated group in any investigation or hearing requested by the department regarding a combined report and shall produce all information requested by the department regarding a combined report. The designated agent may execute a power of attorney on behalf of the members of the affiliated group. The designated agent shall execute waivers, closing agreements and other documents regarding a report filed under par. (a) and any waiver, agreement or document executed by the designated agent shall be considered as executed by all members of the affiliated group. If the department acts in good faith with an affiliated group member that represents itself as the designated agent for the affiliated group but that affiliated group member is not the designated agent, any action taken by the department with that affiliated group member has the same

 $\mathbf{2}$

effect as if that affiliated group member were the actual designated agent for the affiliated group.

- (d) *Part-year members*. If a corporation becomes a member of an affiliated group engaged in a unitary business or ceases to be a member of an affiliated group engaged in a unitary business after the beginning of a common accounting period, the corporation's income shall be apportioned to this state as follows:
- 1. If the corporation is required to file 2 short period federal returns for the common accounting period, the income for the short period that the corporation was a member of an affiliated group engaged in a unitary business shall be determined by using the combined reporting method and the corporation shall join in filing a combined report for that short period. The income for the remaining short period shall be by separate reporting under s. 71.25 or 71.45. If the corporation becomes a member of another affiliated group that is engaged in a unitary business in the remaining short period, the corporation's income shall be determined for the remaining short period by using the combined reporting method.
- 2. If the corporation is not required to file federal short period returns, the corporation shall file a separate return. Income shall be determined as follows:
- a. By the combined reporting method for any period that the corporation was a member of an affiliated group that was engaged in a unitary business.
- b. By separate reporting under s. 71.25 or 71.45 for any period that the corporation was not a member of an affiliated group that was engaged in a unitary business.
- (e) *Amended combined report*. The election to file a combined report under this section applies to an amended combined report that includes the same corporations

that joined in the filing of the original combined report. Under this section, an amended combined report shall be filed as follows:

- 1. If an election to file a combined report that is in effect for a taxable year is revoked for the taxable year because the affiliated group that filed the combined report is not a unitary business, as determined by the department, the designated agent for the affiliated group may not file an amended combined report. The designated agent and each corporation that joined in filing the combined report shall file a separate amended return. To compute the tax due on a separate amended return, a corporation that files a separate amended return shall consider all of the payments, credits or other amounts, including refunds, that the designated agent allocated to the corporation.
- 2. If a change in tax liability under this section is the result of the removal of a corporation from an affiliated group because the corporation was not eligible to be a member of the affiliated group for the taxable year, as determined by the department, the designated agent shall file an amended combined report and the ineligible corporation shall file a separate amended return.
- 3. If a corporation erroneously fails to join in the filing of a combined report, the designated agent shall file an amended combined report that includes the corporation. If a corporation that erroneously fails to join in the filing of a combined report has filed a separate return, the corporation shall file an amended separate return that shows no net income, overpayment or underpayment, and shows that the corporation has joined in the filing of a combined report.
- (5) Income computation under combined reporting. Under the combined reporting method, income attributable to this state shall be determined as follows:

- (a) Determine the net income of each corporation under s. 71.26, 71.34 (1) or 71.45, including a general or limited partner's share of income to the extent that the general or limited partner and the partnership in which the general or limited partner invests are engaged in a unitary business, regardless of the percentage of the general or limited partner's ownership in the partnership.
- (b) Adjust each corporation's income, as determined under par. (a), as provided under s. 71.30.
- From the amount determined under par. (b), subtract intercompany transactions such that intercompany accounts of assets, liabilities, equities, income, costs or expenses are excluded from the determination of income to accurately reflect the income, the apportionment factors and the tax credits in a combined report that is filed under this section. Distributions of intercompany dividends that are paid from nonbusiness earnings or nonbusiness profits, or distributions of intercompany dividends that are paid from earnings or profits that are accumulated before the payer corporation becomes a member of an affiliated group that is engaged in a unitary business, may not be excluded from the income of the recipient corporation. An intercompany distribution that exceeds the payer corporation's earnings or profits or stock basis shall not be considered income from an intercompany sale of an asset and shall not be excluded as income from an intercompany transaction. Intercompany dividends that are paid from earnings or profits from a unitary business income shall be considered as paid first from current earnings or profits and then from accumulations from prior years in reverse order of accumulation. An intercompany transaction includes the following:
- 1. Income from sales of inventory from one member of the affiliated group to another member of the affiliated group.

- **SECTION 1739**
- 2. Gain or loss from sales of intangible assets from one member of the affiliated group to another member of the affiliated group.
- 3. Gain or loss on sales of fixed assets or capitalized intercompany charges from one member of the affiliated group to another member of the affiliated group.
- 4. Loans, advances, receivables and similar items that one member of the affiliated group owes to another member of the affiliated group, including interest income and interest expense related to these items.
- 5. Stock or other equity of one member of the affiliated group that is owned or controlled by another member of the affiliated group.
- 6. Except as provided in par. (c) (intro.), intercompany dividends paid out of earnings or profits from a unitary business income.
- 7. Annual rent paid by one member of the affiliated group to another member of the affiliated group.
- 8. Management or service fees paid by one member of the affiliated group to another member of the affiliated group.
- 9. Income or expenses allocated or charged by one member of the affiliated group to another member of the affiliated group.
- (d) From the amount determined under par. (c) for each corporation, subtract nonbusiness income, net of related expenses, and add nonbusiness losses, net of related expenses, to determine each corporation's apportionable net income or apportionable net loss.
- (e) Calculate the apportionment factors under sub. (6) and multiply each corporation's apportionable net income or apportionable net loss, as determined under par. (d), by the corporation's apportionment fraction as determined under s. 71.25 (6).

- (f) To the amount determined under par. (e), add each corporation's nonbusiness income attributable to this state and subtract each corporation's nonbusiness losses attributable to this state.
- (g) To the amount determined under par. (f), subtract each corporation's net business loss carry-forward under s. 71.26 (4) or 71.45 (4). A corporation may not carry forward a business loss from taxable years ending before January 1, 2000, if the corporation was not subject to this state's income or franchise tax for taxable years ending before January 1, 2000.
- (6) Apportionment factor computation under combined reporting. Under the combined reporting method, this state's apportionment factors are determined as follows:
- (a) Determine the numerator and the denominator of each corporation's apportionment factors as determined under s. 71.25 or 71.45, including a general or limited partner's share of the numerator and the denominator of the apportionment factors to the extent that the general or limited partner and the partnership in which the general or limited partner invests are engaged in a unitary business, regardless of the percentage of the general or limited partner's ownership in the partnership.
- (b) Subtract intercompany transactions under sub. (5) (c) from both the numerators and the denominators as determined under par. (b).
- (c) Add the denominators of the apportionment factors for each corporation, as determined under par. (b), to arrive at the combined denominators.
- (d) Compute each corporation's apportionment factors by dividing the corporation's numerator as determined under par. (b) by the combined denominator as determined under par. (c).

- (7) Net operating losses. For the first 2 taxable years that a combined report is filed under this section, the net operating loss for each member of an affiliated group that files a combined report is determined by adding each member's share of nonbusiness income to each member's share of business income and subtracting each member's share of nonbusiness loss from each member's share of business loss. Beginning with the 3rd taxable year that a combined report is filed under this section, if a member of an affiliated group that files a combined report has a positive net income as determined under sub. (5), the affiliated group shall only deduct the amount of the net operating loss carry-forward attributable to that member.
- (8) Estimated tax payments. (a) For the first 2 taxable years that a combined report is filed under this section, estimated taxes may be paid on a group basis or on a separate basis. The amount of any separate estimated taxes paid in the first 2 taxable years that a combined report is filed shall be credited against the group's tax liability. The designated agent shall notify the department of any estimated taxes paid on a separate basis in the first 2 taxable years that a combined report is filed.
- (b) If a combined report is filed for 2 consecutive taxable years, estimated taxes shall be paid on a group basis for each subsequent taxable year until such time as separate returns are filed by the corporations that were members of an affiliated group that filed combined reports under this section. For each taxable year in which combined estimated payments are required under this subsection, the department shall consider the affiliated group filing a combined report to be one taxpayer. If a corporation subject to this section files a separate return in a taxable year following a year in which the corporation joined in filing a combined report, the amount of any estimated tax payments made on a group basis for the previous year shall be credited

against the tax liability of the corporation that files a separate return, as allocated by the designated agent with the department's approval.

- (c) If an affiliated group pays estimated taxes on a group basis for a taxable year or for any part of a taxable year, and the members of the affiliated group file separate returns for the taxable year, the designated agent, with the department's approval, shall allocate the estimated tax payments among the members of the affiliated group.
- (d) If estimated taxes are paid on a group basis for a taxable year but the group does not file a combined report for the taxable year and did not file a combined report for the previous taxable year, the estimated tax shall be credited to the corporation that made the estimated tax payment on the group's behalf.
- (9) Interest for underpayment of estimated taxes under sub. (8) shall be computed as follows:
- 1. For the first year in which a combined report is filed, the amount of interest that is due for an underpayment of estimated taxes shall be determined by using the aggregate of the tax and income shown on the returns filled by the members of the group for the previous year.
- 2. For estimated taxes paid under sub. (8) (c), the amount of interest that is due from a group member for an underpayment of estimated taxes paid by the group member shall be determined by using the group member's separate items from the combined report filed for the previous year and the group member's allocated share of the combined estimated payments for the current year. The designated agent shall report the group member's allocated share of the combined estimated payments for the current year to the department, in the manner prescribed by the department.

- **SECTION 1739**
- (b) *Entering a group*. For a corporation that becomes a member of an affiliated group during a common accounting period under sub. (3), the amount of interest that is due for an underpayment of estimated taxes shall be allocated to the corporation as follows:
- 1. If a corporation becomes a member of an affiliated group at the beginning of a common accounting period, the corporation shall include with the corresponding items on the combined report for the previous common accounting period the separate items shown on the corporation's return for the previous taxable year.
- 2. If a corporation is not a member of an affiliated group for an entire common accounting period, the corporation shall include with the corresponding items on the combined report for the current taxable year the corporation's separate items for that portion of the common accounting period that the corporation was a member of the affiliated group.
- 3. To determine the separate items under subds. 1. and 2., if a corporation is a member of an affiliated group during a portion of a common accounting period in which the corporation becomes a member of another affiliated group, the corporation's separate items shall include the separate items that are attributed to the corporation by the designated agent of the first affiliated group.
- (c) *Leaving a group*. For a corporation that leaves an affiliated group during a common accounting period under sub. (3), the amount of interest that is due for an underpayment of estimated taxes shall be allocated as follows:
- 1. The separate items attributed by the designated agent to the corporation for the common accounting period during which the corporation leaves the affiliated group shall be excluded from the corresponding items of the affiliated group for the

- current common accounting period and all the common accounting periods following the corporation's departure from the affiliated group.
- 2. A corporation that leaves an affiliated group shall consider the separate items attributed to the corporation by the designated agent of the affiliated group to determine the amount of interest that is due from the corporation for an underpayment of estimated taxes under sub. (8).
- owed by an affiliated group to the designated agent, the notice shall name each corporation that is a member of the affiliated group during any part of the period covered by the notice. The department's failure to name a member of the affiliated group on a notice under this subsection shall not invalidate the notice as to the unnamed member of the affiliated group. Any levy, lien or other proceeding to collect the amount of a tax assessment under this section shall name the corporation from which the department shall collect the assessment. If a corporation that joined in the filing of a combined report leaves the affiliated group, the department shall send the corporation a copy of any notice sent to the affiliated group under this subsection if the corporation notifies the department that the corporation is no longer a member of the affiliated group and if the corporation requests in writing that the department send notices under this subsection to the corporation. The department's failure to comply with a corporation's request to receive a notice does not affect the tax liability of the corporation.
- (11) Liability for tax, interest and penalty. If members of an affiliated group file a combined report, the members of the affiliated group shall be jointly and severally liable for any combined tax, interest or penalty. The liability of a member of an affiliated group for any combined tax, interest or penalty shall not be reduced

(12) Presumptions and burden of proof. An affiliated group shall be presumed to be engaged in a unitary business and all of the income of the unitary business shall be presumed to be apportionable business income under this section. A corporation, partnership, limited liability company or tax-option corporation has the burden of proving that it is not a member of an affiliated group that is subject to this section. The department shall promulgate rules to implement this section.

- (2) REQUIRED NOTIFICATION FOR EXERCISE OF A FEDERAL POWER. A universal bank shall give 60 days' prior written notice to the division of the universal bank's intention to exercise a power under this section.
- (3) EXERCISE OF FEDERAL POWERS THROUGH A SUBSIDIARY. The division may require that certain powers exercisable by universal banks under this section be exercised through a subsidiary of the universal bank with appropriate safeguards to limit the risk exposure of the universal bank.

In determining compliance with this section, liabilities of a partnership includes the liabilities of the general partners, computed individually as to each general partner on the basis of his or her direct liability.
- (3) CERTAIN SECURED LIABILITIES. The percentage limitation under sub. (2) is 50% of the universal bank's capital, if the liabilities under sub. (2) are limited to the following types of liabilities:
- (a) Warehouse receipts. A liability secured by warehouse receipts issued by warehouse keepers who are licensed and bonded in this state under ss. 99.02 and

- 2. The note or bond is secured or covered by guarantees or by commitments or agreements to take over, or to purchase, the bonds or notes, and the guarantee, commitment or agreement is made by a federal reserve bank, the federal small business administration, the federal department of defense or the federal maritime commission.

- (d) *General obligations*. The total amount of temporary borrowings of any local governmental unit maturing within one year after the date of issue may not exceed 60% of the capital of the universal bank. SECTION	2346

- (7) Limits established by Board. (a) When financial statements required. A universal bank may not make or renew a loan or loans, the aggregate total of which exceeds the level established by the board of directors without being supported by a signed financial statement of the borrower, unless the loan is secured by collateral having a value in excess of the amount of the loan. A signed financial statement furnished by the borrower to a universal bank in compliance with this paragraph must be renewed annually as long as the loan or any renewal of the loan remains unpaid and is subject to this paragraph.
- (b) *Treatment of loans complying with limits*. A loan or a renewal of a loan made by a universal bank in compliance with par. (a), without a signed financial statement, may be treated by the universal bank as entirely independent of any secured loan made to the same borrower if the loan does not exceed the limitations provided in this section.
 - (8) EXCEPTIONS. This section does not apply to any of the following:
- (a) Liabilities secured by certain short-term federal obligations. A liability that is secured by not less than a like amount of direct obligations of the United States which will mature not more than 18 months after the date on which such liabilities to the universal bank are entered into.

by the person negotiating the same

- (e) Certain other federal or federally guaranteed obligations. In obligations of, or obligations that are fully guaranteed by, the United States and in obligations of any federal reserve bank, federal home loan bank, the Student Loan Marketing Association, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Export-Import Bank of Washington or the Federal Deposit Insurance Corporation.
- (9) Additional authority. (a) In general. In addition to the authority granted under subs. (1) to (8), and except as provided in par. (b), a universal bank may lend under this subsection, through the universal bank or subsidiary of the universal bank, to all borrowers from the universal bank and all of its subsidiaries, an aggregate amount not to exceed 20% of the universal bank's capital. Neither a universal bank nor any subsidiary of the universal bank may lend to any borrower, under this subsection and any other law or rule, an amount that would result in an aggregate amount for all loans to that borrower that exceeds 20% of the universal bank's capital. A universal bank or its subsidiary may take an equity position or other form of interest as security in a project funded through such loans. Every transaction by a universal bank or its subsidiary under this subsection shall require prior approval by the governing board of the universal bank or its subsidiary, respectively. Such loans are not subject to s. 221.0326 or to classification as losses, for a period of 3 years from the date of each loan except as provided in par. (b).

(b) Suspension of additional authority. The division may suspend authority
established under this subsection and, in such case, may specify how an outstanding
loan shall be treated by the universal bank or its subsidiary. Among the factors that
the division may consider in suspending authority under this subsection are the
universal bank's capital adequacy, asset quality, earnings quantity, earnings quality,
adequacy of liquidity and sensitivity to market risk and the ability of the universal
bank's management.

222.0405 Investment powers. (1) Investment securities. Except as provided in subs. (3) to (8), a universal bank may purchase, sell, underwrite and hold investment securities, consistent with safe and sound banking practices, up to 100% of the universal bank's capital. A universal bank shall not invest greater than 20% of the universal bank's capital in the investment securities of one obligor or issuer. In this subsection, "investment securities" includes commercial paper, banker's acceptances, marketable securities in the form of bonds, notes, debentures and similar instruments that are regarded as investment securities.

- (2) EQUITY SECURITIES. Except as provided in subs. (3) to (8), a universal bank may purchase, sell, underwrite and hold equity securities, consistent with safe and sound banking practices, up to 20% of capital or, if approved by the division in writing, a greater percentage of capital.
- (3) Housing activities. With the prior written consent of the division, a universal bank may invest in the initial purchase and development, or the purchase or commitment to purchase after completion, of home sites and housing for sale or rental, including projects for the reconstruction, rehabilitation or rebuilding of residential properties to meet the minimum standards of health and occupancy prescribed for a local governmental unit, the provision of accommodations for retail

stores, shops and other community services that are reasonably incident to that housing, or in the stock of a corporation that owns one or more of those projects and that is wholly owned by one or more financial institutions. The total investment in any one project may not exceed 15% of the universal bank's capital, nor may the aggregate investment under this subsection exceed 50% of capital. A universal bank may not make an investment under this subsection unless it is in compliance with the capital requirements set by the division under s. 222.0305 (1) and with the capital maintenance requirements of its deposit insurance corporation.

- (4) Profit-participation projects, including projects funded through loans from the universal bank, in an aggregate amount not to exceed 20% of capital. The division may suspend the investment authority under this subsection. If the division suspends the investment authority under this subsection, the division may specify how outstanding investments under this subsection shall be treated by the universal bank or its subsidiary. Among the factors that the division may consider in suspending authority under this subsection are the universal bank's capital adequacy, asset quality, earnings quantity, earnings quality, adequacy of liquidity and sensitivity to market risk and the ability of the universal bank's management. This subsection does not authorize a universal bank, directly or indirectly through a subsidiary, to engage in the business of underwriting insurance.
- (5) Debt investments. A universal bank may invest in bonds, notes, obligations and liabilities described under s. 222.0403 (3) to (7), subject to the limitations under those subsections.
- (6) Certain liabilities. This section does not limit investment in the liabilities described in s. 222.0403 (8).

- (h) Certain fiduciaries. A subsidiary organized to exercise corporate fiduciary powers under ch. 112.

- (i) *Agricultural credit corporations*. An agricultural credit corporation. Unless a universal bank owns at least 80% of the stock of the agricultural credit corporation, a universal bank may not invest more than 20% of the universal bank's capital in the agricultural credit corporation.
- (j) Deposit accounts and insured obligations. Deposit accounts or insured obligations of any financial institution, the accounts of which are insured by a deposit insurance corporation.
- (k) Certain federal obligations. Obligations of, or obligations that are fully guaranteed by, the United States and stocks or obligations of any federal reserve bank, federal home loan bank, the Student Loan Marketing Association, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Federal Deposit Insurance Corporation.
 - (L) *Other investments*. Any other investment authorized by the division.
- (8) Investments in other financial institutions. In addition to the authority granted under ss. 222.0307 and 222.0409, and subject to the limitations of sub. (2), a universal bank may invest in other financial institutions.

- (2) DIVISION APPROVAL. A universal bank may hold or purchase more than 10% of its capital stock, notes or debentures, if approved by the division.
- (3) ADDITIONAL AUTHORITY. A universal bank may hold or purchase more than 10% of its capital stock, notes or debentures if the purchase is necessary to prevent loss upon a debt previously contracted in good faith. Stock, notes or debentures held or purchased under this subsection may not be held by the universal bank for more than 6 months if the stock, notes or debentures can be sold for the amount of the claim of the universal bank against the holder of the debt previously contracted. The universal bank shall either sell the stock, notes or debentures within 12 months of acquisition under this subsection or shall cancel the stock, notes or debentures. Cancellation of the stock, notes or debentures reduces the amount of the universal bank's capital stock, notes or debentures. If the reduction reduces the universal bank's capital below the minimum level required by the division, the universal bank shall increase its capital to the amount required by the division.
- (4) Loans secured by Capital, surplus or deposits. A universal bank may not loan any part of its capital, surplus or deposits on its own capital stock, notes or debentures as collateral security, except that a universal bank may make a loan secured by its own capital stock, notes or debentures to the same extent that the universal bank may make a loan secured by the capital stock, notes and debentures of a holding company for the universal bank.
- **222.0409 Stock in bank-owned banks.** With the approval of the division, a universal bank may acquire and hold stock in one or more banks chartered under s. 221.1202 or national banks chartered under 12 USC 27 (b) or in one or more holding companies wholly owning such a bank. Aggregate investments under this section may not exceed 10% of the universal bank's capital.

- **222.0411 General deposit powers.** (1) In GENERAL. A universal bank may set eligibility requirements for, and establish the types and terms of, deposits that the universal bank solicits and accepts. The terms set under this subsection may include minimum and maximum amounts that the universal bank may accept and the frequency and computation method of paying interest.
- (2) PLEDGE OF SECURITY FOR DEPOSITS. Subject to the limitations of s. 221.0324 that are applicable to banks, a universal bank may pledge its assets as security for deposits.
- (3) Securitization of assets. With the approval of the division, a universal bank may securitize its assets for sale to the public. The division may establish procedures governing the exercise of authority granted under this subsection.
- (4) SAFE DEPOSIT POWERS. A universal bank may take and receive, from any individual or corporation for safekeeping and storage, gold and silver plate, jewelry, money, stocks, securities, and other valuables or personal property; and rent out the use of safes or other receptacles upon its premises upon such compensation as may be agreed upon. A universal bank has a lien for its charges on any property taken or received by it for safekeeping. If the lien is not paid within 2 years from the date the lien accrues, or if property is not called for by the person depositing the property, or by his or her representative or assignee, within 2 years from the date the lien accrues, the universal bank may sell the property at public auction. A universal bank shall provide the same notice for a sale under this subsection that is required by law for sales of personal property on execution. After retaining from the proceeds of the sale all of the liens and charges due the bank and the reasonable expenses of the sale, the universal bank shall pay the balance to the person depositing the property, or to his or her representative or assignee.

Section 3224. 980.06 (2) (b) of the statutes is amended to read:

980.06 (2) (b) An order for commitment under this section shall specify either institutional care or supervised release. Except as provided in par. In determining under par. (b) whether commitment shall be for (bm) institutional care or for supervised release, the court may consider, without limitation because of enumeration, the nature and circumstances of the behavior that was the basis of the allegation in the petition under s. 980.02 (2) (a), the person's mental history and present mental condition, where the person will live, how the person will support himself or herself, and what arrangements are available to ensure that the person has access to and will participate in necessary treatment, including pharmacological treatment using an antiandrogen or the chemical equivalent of an antiandrogen if the person is a serious child sex offender. (b) that it is substantially probable that the person will engage in acts of sexual violence unless he or she resides in a facility with a level of security comparable to that of a secure mental health unit or facility specified in s. 980.065, but the person establishes that it is likely that the daily cost of supervised release under a plan providing for the person to reside in a secure facility would not exceed the daily cost of institutional care for the person, then the court may withhold final determination of the commitment order and order the department to prepare a supervised release plan under par. (c). After preparation of a supervised release plan ordered under this paragraph, the proceedings shall continue as provided under pars. (cm), (cr), (cs) and (ct), as appropriate.

Section 3226. 980.06 (2) (c) of the statutes is amended to read:

980.06 (2) (c) If the court finds under par. (b) that the person is appropriate for supervised release or orders preparation of a supervised release plan under par. (bt), the court shall notify the department. The department and the county department under s. 51.42 in the county of residence of the person, as determined under s. 980.105, shall prepare a plan that identifies the treatment and services, if any, that the person will receive in the community. If the county department of the person's county of residence declines to prepare a plan, the department may arrange for another county to prepare the plan if that county agrees to prepare the plan and if the person will be living in that county. If the department is unable to arrange for another county to prepare a plan, the court shall designate a county department to prepare the plan, order the county department to prepare the plan and place the person on supervised release in that county, except that the court may not so designate the county department in any county where there is a facility in which

(cg) The plan prepared under par. If the person is a serious child sex offender, the plan shall address the person's need for pharmacological treatment using an antiandrogen or the chemical equivalent of an antiandrogen. The department may contract with a county department, under s. 51.42 (3) (aw) 1. d., with another public agency or with a private agency to provide the treatment and services identified in the plan. The plan shall specify who will be responsible for providing the treatment and services identified in the plan. If the plan was ordered to be prepared under par. If the court finds that the plan does not provide adequate treatment and services to the person or adequate protection to the community, the court shall issue a written decision and order disapproving the plan and shall proceed under par. (cs). If the court finds that the plan provides either adequate treatment and services to the person or adequate protection to the community, the court shall, except as provided in par. The court may not order a supervised released plan disapproved under this paragraph to be revised under par. (cs).

Section 3229. 980.06 (2) (d) of the statutes is amended to read:

980.06 (2) (d) An order for supervised release places the person in the custody and control of the department. (cr) or s. 980.08 (5) (d), whichever is applicable. A person on supervised release is subject to the conditions set by the court and to the rules of the department. The notification requirement under this paragraph does not apply if a municipal police department or county sheriff submits to the court a written statement waiving the right to be notified. The department shall submit a statement showing probable cause of the detention and

order that the released person be placed in an appropriate institution until the

person is discharged from the commitment under s. 980.09 or until again placed on

(5) (a). After preparation of a supervised release plan ordered under this paragraph, the proceedings shall continue as provided under sub. (5) (c), (d), (de) and (dm), as appropriate.
