Analysis by the Legislative Reference Bureau

In general, under current law, 50% of certain social security benefits is taxed by this state once the recipient's income reaches \$34,000 for a single individual or \$44,000 for a married couple filing jointly, while the federal government taxes 85%of these same benefits. This bill exempts from taxation completely the social security benefits which are included in the calculation of a taxpayer's federal adjusted gross income.

This bill will be referred to the joint survey committee on tax exemptions for a detailed analysis, which will be printed as an appendix to this bill.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
