### *Analysis by the Legislative Reference Bureau*

Currently, under the Milwaukee Parental Choice Program (MPCP), a pupil who resides in the city of Milwaukee may attend a private school at state expense under certain conditions. In order to qualify as a private school under the law, an institution's educational program must provide at least 875 hours of instruction each school year.

This bill provides that if the program offers kindergarten, it must provide at least 437 hours of instruction in kindergarten each school year.

The bill also provides that upon request of the department of public instruction, which administers the MPCP, a private school must demonstrate to the department's satisfaction that the private school's educational program meets all of the statutory criteria to be a private school. In addition to offering a specified number of hours of instruction each school year (as mentioned above), current law requires all of the following:

1. The primary purpose of the educational program must be to provide private or religious based instruction.

**ASSEMBLY BILL 432**

2. The program must be privately controlled.

3. The program must provide a sequentially progressive curriculum of fundamental instruction in reading, language arts, mathematics, social studies, science, and health.

4. The program must not be operated for the purpose of circumventing the compulsory school attendance law.

5. The pupils in the program must return annually to the homes of their parents or guardians for at least two months of summer vacation, or the institution must be licensed as a child welfare agency by the department of health and family services.
