### *Analysis by the Legislative Reference Bureau*

Under current law, a school district other than a union high school district must operate a five-year-old kindergarten program. A pupil enrolled in a five-year-old kindergarten program is counted for state aid purposes as one-half pupil, except that a pupil enrolled in a five-year-old kindergarten program requiring full-day attendance for five days a week for an entire school year is counted as one pupil and a pupil enrolled in a five-year-old kindergarten program requiring full-day attendance for less than five days a week for an entire school year is counted according to the time scheduled for the program. A school district is not required to operate a four-year-old kindergarten program. If it does and the program provides 437 hours of direct pupil instruction, an enrolled pupil is counted as one-half pupil. If in addition it offers 87.5 hours of outreach activity, an enrolled pupil is counted as 0.6 pupil. If a four-year-old kindergarten program requires more than 437 hours of direct pupil instruction, an enrolled pupil is still counted as either one-half pupil or 0.6 pupil. If a school district operates a four-year-old kindergarten program requiring fewer than 437 hours of direct pupil instruction, the pupil is not counted at all for state aid.

**ASSEMBLY BILL 705**

This bill counts four-year-old kindergarten pupils in the same manner as five-year-old kindergarten pupils are currently counted.
