### *Analysis by the Legislative Reference Bureau*

#### *Sale of public lands and investment of proceeds*

Under current law, the Board of Commissioners of Public Lands (BCPL) may invest moneys in the common school fund, the normal school fund, the university fund, and the agricultural college fund in certain specified investments. These include: bonds or notes of the United States; bonds issued by this state or the University of Wisconsin Hospitals and Clinics Authority; and bonds issued by a town, village, city, county, or school district or certain other special districts in the state.

This bill authorizes BCPL to invest moneys in the purchase of land in this state, but establishes certain conditions on the purchase of this land for investment purposes. First, the land must be within any applicable consolidation area approved

by BCPL; second, the total acreage of public lands managed by BCPL must not exceed the total acreage of public lands managed by BCPL on the bill's effective date; third, the moneys must be derived from the sale of public lands in the future; and finally, BCPL must determine that the purchase of the land will improve timberland management, address forest fragmentation, or increase public access to the land. The bill also provides that, if the land at the time of purchase was subject to assessment or levy of a real property tax, BCPL must make annual payments in lieu of property taxes to the appropriate local governmental unit in an amount equal to property taxes levied on the land in the year prior to the year in which BCPL purchased the land.

***Stewardship program***

Current law authorizes the state to incur public debt for certain conservation activities under the Warren Knowles–Gaylord Nelson Stewardship 2000 Program (stewardship program), which is administered by the Department of Natural Resources (DNR).

Current law grants the state the authority to bond for various conservation purposes under the stewardship program. The stewardship program consists of four subprograms: one for land acquisition; one for property development and local assistance; one for bluff protection; and one for the Baraboo Hills. Purposes for which bonding under the land acquisition subprogram may be used include land acquisition for habitat and natural areas and land acquisition that preserves or enhances the state's water resources.

This bill requires DNR, beginning in fiscal year 2006–07 and ending in fiscal year 2009–10, to set aside \$2,000,000 in each fiscal year under the stewardship program to acquire certain land from BCPL. Under the bill, DNR must obligate these moneys to purchase lands identified by BCPL. The bill provides that the amounts set aside for this purpose shall be treated as moneys obligated under the land acquisition subprogram of the stewardship program.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
