### *Analysis by the Legislative Reference Bureau*

Under current law, with limited exceptions, no one may operate a single vehicle that exceeds 40 feet in length without obtaining a permit from the Department of Transportation. One exception allows a person to operate, without a permit, a two-vehicle combination transporting livestock, if the trailer is not longer than 53 feet, the trailer axles are either separated by at least 8 feet or are 3 axles in tandem, and if the towing vehicle is not truck or tractor that weighs 10,000 pounds or less.

This bill eliminates the requirement that the trailer axles be separated by at least 8 feet or be 3 axles in tandem.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
