### *Analysis by the Legislative Reference Bureau*

This bill requires an entity that possesses certain personal information about an individual to notify the individual when the information is accessed by a person who the entity has not authorized to do so (unauthorized access). The bill's notice requirements apply to entities, including the state and local governments, that do any of the following: conduct business in Wisconsin and maintain personal information in the ordinary course of business; store personal information in this state; maintain a depository account for a Wisconsin resident; or lend money to a Wisconsin resident.

Under the bill, personal information includes any of the following information about an individual, if accompanied by the name of the individual to whom the information pertains: electronic mail address; driver's license number; social security number; employer or place of employment; mother's maiden name; depository account number and certain other financial information; deoxyribonucleic acid (DNA) profile; and any other information about an individual that can be associated with an individual through identifiers or other information. Personal information does not include information that is lawfully available to the public.

As to an entity whose principal place of business is located in Wisconsin or that stores personal information in Wisconsin, if the entity knows or has reason to know of an unauthorized access, the bill requires the entity to make reasonable efforts to

**ASSEMBLY BILL 836**

notify the individual that is the subject of the personal information (subject) that the individual's personal information has been accessed. As to an entity whose principal place of business is not located in Wisconsin, if the entity knows or has reason to know of an unauthorized access involving information pertaining to a Wisconsin resident, the bill requires the entity to make reasonable efforts to notify the subject.

An entity required to notify a subject must, within 15 business days after learning of the unauthorized access, inform the subject that the entity knows of the unauthorized use of personal information pertaining to the subject. The entity must deliver the notice by mail or by another method the entity has previously used to communicate with the subject. If the entity cannot reasonably determine the subject's mailing address, the entity may notify the subject by another means reasonably calculated to provide actual notice to the subject. Under the bill, if a law enforcement agency requests an entity to delay a required notice for any period of time, the entity must begin the notification process after the requested delay period.

The bill provides that compliance with the bill's requirements is not a defense to civil claims. A failure to comply is not negligence or a breach of a legal duty, but may be evidence of negligence or a breach of a legal duty.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
