

2005 SENATE BILL 201

May 5, 2005 - Introduced by JOINT COMMITTEE FOR REVIEW OF ADMINISTRATIVE RULES. Referred to Committee on Health, Children, Families, Aging and Long Term Care.

1 **AN ACT to amend** 146.83 (3m) (a) (intro.) and 908.03 (6m) (d); and **to create**
2 146.83 (3m) (c) and 908.03 (6m) (e) of the statutes; **relating to:** prohibiting the
3 Department of Health and Family Services from promulgating a rule under
4 which fees for copies of patient health care records and X-rays equal certain
5 amounts.

Analysis by the Legislative Reference Bureau

Under current law relating to patient health care records, the Department of Health and Family Services (DHFS) must, after considering certain factors, promulgate rules that prescribe fees for copies of patient health care records and X-ray reports. The fees must be based on an approximation of actual costs. The rules must be revised by January 1, 2006, and every three years thereafter to account for increases or decreases in actual costs. Under current law relating to evidence, after December 31, 2002, DHFS must prescribe fees for copies of patient health care records and X-rays requested after commencement of an action that are based on an approximation of actual costs and that allow a health care provider to charge actual postage and delivery costs.

This bill prohibits DHFS from promulgating a rule that prescribes fees for copies of patient health care records and X-rays in amounts that equal the following amounts:

1. For requests from the patient or the patient's personal representative, \$0.31 per patient health care record copy page and \$5.25 per X-ray copy, plus actual postage or other delivery costs and any applicable sales tax.

SENATE BILL 201

2. For requests from individuals other than the patient or the patient's personal representative:

a. For patient health care record copies, \$0.31 per page, plus \$12.50 per request (for a request generating a total of four or fewer pages), and \$15.00 per request (for a request generating a total of five or more pages, plus actual postage or other delivery costs and any applicable sales tax.

b. For X-ray copies, \$5.25 per copy, plus actual postage or other delivery costs and any applicable sales tax.

c. For certification of copies, \$5.00 per request (for four or fewer pages or X-ray copies) and \$7.50 per request (for five or more pages or X-ray copies).

The bill is introduced as required by s. 227.19 (5) (e), stats., in support of the objection of the Joint Committee for Review of Administrative Rules on March 31, 2005, to the issuance of clearinghouse rule 03-111 by DHFS. The proposed rule limited fees applicable under current law relating to patient health care records and to evidence, for copies of patient health care records or X-rays and for certification of the copies, as requested by a patient, the patient's personal representative, or other individuals.
