### *Analysis by the Legislative Reference Bureau*

Under current law, any person at least 18 years of age and of sound mind may voluntarily execute a declaration to physicians (commonly known as a "living will") authorizing the withholding or withdrawal of life-sustaining procedures or of feeding tubes when the person is in a terminal condition or is in a persistent vegetative state. Also, under current law, any person at least 18 years of age and of sound mind may voluntarily execute a power of attorney for health care, under which, if the person is found to be incapacitated, the person's designated agent may make health care decisions on behalf of the person. The Department of Health Services (DHS) must prepare and provide copies of living will and health care power of attorney forms, in quantities, to health care professionals, hospitals, nursing homes, county clerks, and local bar associations, and individually to private persons.

This bill requires the Department of Transportation (DOT) to establish by rule a procedure that allows any person who has been issued a regular operator's license and who has executed a living will or health care power of attorney to write, in a space provided on the back of the operator's license, the identity of an individual who has

custody of the person's living will or designated as the person's agent under a health care power of attorney.

The bill also requires DOT to make available on its Internet Web site the living will and health care power of attorney forms prepared by DHS.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
