Referred to Committee on Workforce Development, Forestry, Mining, and Revenue.

1     **AN ACT to create** 59.69 (4i), 60.61 (3e) and 62.23 (7) (hj) of the statutes; **relating**  
2             **to:** listing frac sand mining as a conditional or prohibited use in certain types  
3             of zoning ordinances.

---

### *Analysis by the Legislative Reference Bureau*

Under current law, a political subdivision (a city, village, town that is authorized to exercise village powers, or county) is authorized to enact zoning ordinances that regulate and restrict the height, number of stories, and size of buildings and other structures; the percentage of lot that may be occupied; the size of yards and other open spaces; the density of population; the location and use of buildings, structures, and land for various purposes; and the areas in which agriculture, industry, mining, and other activities may be conducted.

Under this bill, with regard to a zoning ordinance that is enacted and relates to agricultural use, frac sand mining must be listed as a conditional use. Also under this bill, with regard to a zoning ordinance that is enacted and relates to residential use, frac sand mining must be listed as a prohibited use.

The bill defines frac sand as a type of industrial sand that could be used in deep well applications to prop open rock fissures and increase the flow rate of natural gas or oil.
