# 2015 ASSEMBLY BILL 454

October 23, 2015 – Introduced by Representatives RIPP, BALLWEG, WEATHERSTON and MURPHY, cosponsored by Senator Petrowski. Referred to Committee on Transportation.

1 AN ACT relating to: modifying and repealing various rules promulgated by the

Department of Transportation.

#### Analysis by the Legislative Reference Bureau

This bill makes minor and technical changes to rules promulgated by the Department of Transportation (DOT), including correcting obsolete references and references to defunct programs and updating or repealing provisions that are inconsistent with current statutes and federal rules or that were promulgated based on statutes that have since been amended or repealed. The bill also make several substantive changes to various rules promulgated by DOT, including the following:

1. DOT's current rules include provisions implementing the Wisconsin Environmental Policy Act. These rules include provisions that, among other things, establish criteria and procedures relating to environmental assessments, environmental impact statements, environmental reports, and categorical exclusions relating to DOT actions that may affect the quality of the human Many of these rules reference provisions of the National environment. Environmental Policy Act. This bill makes various changes to rules relating to the environmental review process and environmental documentation for transportation projects, including 1) removing examples of specific actions for which an environmental assessment or environmental report is or is not required; 2) standardizing and clarifying content requirements for certain environmental documentation; 3) modifying certain provisions relating to notice and hearing on proposed actions; 4) adding provisions relating to revision of final action documents, including environmental reports and records of decision; 5) modernizing references

1

to federal law; and 6) eliminating or adding notes and making other minor and technical changes.

2. The bill changes the methodology by which the department evaluates major highway projects.

3. The bill allows certain recreational vehicle dealers that do not have a permanent facility in the state to display and sell recreational vehicles at certain temporary rally or show sites.

4. The bill authorizes an alternate design for handicapped parking signs displayed in parking lots.

5. The bill eliminates a continuity-of-service requirement for motor vehicle rental companies.

6. The bill authorizes the use of electronic signatures on applications for special identification cards that afford certain parking privileges for persons with a disability that limits or impairs the ability to walk.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

# The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

**SECTION 1.** Trans 28.04 (2) of the administrative code is amended to read:

 $\mathbf{2}$ Trans 28.04 (2) Eligible projects shall be located only in Great Lakes or 3 Mississippi River system harbors where vessels take on or discharge a combined 4 total of more than 1,000 tons of commercial cargo per year; where commercial, naval  $\mathbf{5}$ or recreational vessels are built; where passenger or vehicle-carrying ferry service 6 connects the Wisconsin communities along the Great Lakes and Mississippi River, 7 or connects the Wisconsin mainland with other states, Canadian provinces or 8 populated islands in Wisconsin or where commercial fishing vessels unload fish. The 9 U.S. army corps of engineers' Army Corps of Engineers' annual tonnage figures shall be the basis for the tonnage determination; where tonnage figures are not available, 10 the eligible applicant shall provide tonnage figures based on auditable records. 11 12**SECTION 2.** Trans 28.06 (1) of the administrative code is amended to read:

9

Trans 28.06 (1) The department shall annually establish deadlines for filing 1 2 harbor assistance project applications and shall give appropriate notice of the 3 deadlines. Notice shall be by regular or electronic mail, sent to every eligible 4 applicant that has met the planning requirements under s. Trans 28.10. The  $\mathbf{5}$ department shall issue notice of the grant awards within 180 days after an 6 application deadline. No grant funds may be committed to an eligible applicant until 7 a grant agreement is negotiated and signed by the department and the eligible 8 applicant.

**SECTION 3.** Trans 28.07 (2) of the administrative code is amended to read:

Trans 28.07 (2) For projects funded in part by the U.S. army corps of engineers
 <u>Army Corps of Engineers</u>, the state share may not exceed 50% of the non-federal
 <u>nonfederal</u> share of the project costs.

13 **SECTION 4.** Trans 28.07 (3) of the administrative code is amended to read:

14 Trans 28.07 (3) For projects with federal funding, other than those projects 15 funded in part by the U.S. army corps of engineers <u>Army Corps of Engineers</u> as 16 described in sub. (2), the state share may not exceed 80% of the non-federal 17 <u>nonfederal</u> share of project costs; furthermore, the minimum eligible applicant share 18 shall be no less than 10% of project costs.

**SECTION 5.** Trans 28.09 (4) of the administrative code is amended to read:

Trans 28.09 (4) The eligible applicant shall submit an application to the department by August 1 in order to receive primary consideration for funding during the following calendar year. If funds are available, applications may be submitted by March 15, 1985, and by February August 1 of each year thereafter, for funding in the same calendar year. The department may waive the requirements in this subsection for emergency repair projects.

**Trans 210.065 Measures.** The department shall use its best practices to 1  $\mathbf{2}$ evaluate and recommend major highway projects to the transportation projects 3 commission. Best practice analytical techniques shall include a detailed review of 4 a project's ability to enhance Wisconsin's economy, improve highway mobility and 5 safety, minimize environmental impacts, and serve community objectives. The 6 measurement techniques used to evaluate these goals is continually evolving and 7 improving with expanding data sources and analytical techniques. The evaluation is expected to include the following goals and objectives: 8

9 (1) IMPROVING HIGHWAY SAFETY. Major highway projects play an important role 10 in improving the safety of Wisconsin's highways. Reducing the number of fatalities 11 and injury crashes as well as the property and freight losses associated with these 12 crashes is a primary goal of the department. A crash analysis shall be performed to 13 determine the number and severity of the crash problems on the affected highway.

14(2) ENHANCING WISCONSIN'S ECONOMY. Major highway projects shall be 15evaluated to determine their ability to enhance Wisconsin's economy. A key component is estimated lower travel costs, which serve to increase the 16 17competitiveness of existing businesses and enhance Wisconsin's ability to maintain 18 and compete for jobs. The department shall use benefit-cost analysis procedures as 19 the primary foundation of this evaluation to determine the economic viability of 20candidate projects. The benefit-cost analysis shall demonstrate that the reductions 21in travel costs exceed the costs of design, construction, and long-term rehabilitation 22and maintenance costs of the facility. The analysis of reduced travel costs shall 23include estimated travel time savings, safety savings, and vehicle operating cost  $\mathbf{24}$ savings. Additionally, the analysis shall carefully consider critical supply chain corridors to support projects that are most critical for maintaining and preserving 25

## **ASSEMBLY BILL 454**

an efficient and reliable network for manufacturers and shippers. The economic
analysis shall also consider those areas of Wisconsin that are projected to have more
growth in the amount of employment and tourism.

4 (3) IMPROVING TRAFFIC FLOW. Major highway projects play a significant role in  $\mathbf{5}$ improving traffic flow and reducing highway congestion. Reducing highway congestion improves highway efficiency by reducing the total hours of vehicle delay, 6 7 and also improves travel reliability for individuals and businesses. An evaluation 8 of traffic flow needs on the corridor shall be used to demonstrate the level and extent 9 of recurring congestion and the variability in nonrecurring congested conditions on 10 the corridor. Recurring congestion results from regular peak period conditions where 11 the roadway is inadequate for the volume of vehicles. Nonrecurring congestion exists 12when wide fluctuations in travel times occur due to events such as incidents, bad 13 weather conditions, special events, holiday traffic, and work zones.

(4) SERVING COMMUNITY OBJECTIVES. Overall community support is critical for
 the proposed major highway project. The level of community support shall be
 demonstrated using the results of the comprehensive public outreach and
 involvement that occurs during the detailed environmental document process
 (National Environmental Policy Act and/or Wisconsin Environmental Policy Act).

(5) MINIMIZING ENVIRONMENTAL IMPACTS. The evaluation process recognizes that
 major highway projects can have effects on the quality of the human environment
 in the regions they serve. The environmental evaluation shall be based on the results
 of the detailed environmental document process (National Environmental Policy Act
 and/or Wisconsin Environmental Policy Act).

**SECTION 152.** Trans 400.03 (note) of the administrative code is created to read: Trans 400.03 Applicability. (note) The National Environmental Policy Act 8 9 (NEPA) requires the federal government to prepare environmental documentation 10 for major federal actions. The Wisconsin Department of Transportation prepares the 11 federal environmental documentation for review and approval by the federal 12government of actions for which federal funds are to be used by the department. The 13requirements for federally funded actions are followed by the department when 14federal funds are involved. These federally funded actions are also actions of the 15department to which the Wisconsin Environmental Policy Act (WEPA) applies. Finally, when the department pursues an action for which only state funds are 16 17involved, NEPA does not apply, but WEPA still applies. The intent of this chapter 18 is to direct the department to follow NEPA and its implementing regulations for both 19 NEPA and WEPA purposes when federal funds are involved in the proposed action. 20 The intent is to apply WEPA and its implementing rules in this chapter when only 21state funds are involved in the proposed actions, but to make the WEPA 22implementing rules track the federal law and federal regulations as closely as

23possible.
