Analysis by the Legislative Reference Bureau

This bill makes changes to the dental reimbursement pilot project in the Medical Assistance program. Under current law, the Department of Health Services is required to distribute moneys to increase the reimbursement rate for pediatric dental care and adult emergency dental services provided under the Medical Assistance program in Brown, Marathon, Polk, and Racine counties. The bill adds to the counties in the pilot project any other counties, as determined by DHS, where Medical Assistance recipients have the greatest need for pediatric dental care and adult emergency dental services if the moneys allocated for the reimbursement increase exceed \$100,000 after providing the reimbursement increase for the specified pilot counties. The bill also requires DHS to submit a biennial report on the pilot project as described in the bill.
